Website of the manufacturer: www.carmignac.com

Date of production of the KID : 10/07/2025

WHAT IS THIS PRODUCT?

TYPE

Carmignac Multi Expertise is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

TERM

The fund was launched on 14 December 2001 for a period of 99 years, except in the cases of early dissolution or extension.

OBJECTIVE

The fund aims to outperform its benchmark over the recommended minimum investment period of 3 years. It is managed on a discretionary basis by the manager, who implements an active asset allocation policy mainly through UCIs invested in international equities and bonds. The benchmark index is composed of 40% MSCI AC WORLD NR index, 40% ICE BofA Global Government Index, 20% €STR capitalized index. It is rebalanced quarterly.

Between 50% and 100% of the fund's assets are invested in investment funds, primarily Carmignac funds or, failing that, external funds. The main performance drivers are:

(i) Equities: Up to 65% of the fund's net assets may be exposed to equity funds or equities traded on Eurozone and/or international markets, including a potentially significant portion (up to 100% of the equity portfolio) in emerging economies.

(ii) fixed income products: Primarily through investment funds, between 30% and 110% of the fund's net assets are invested in transferable debt securities (short- and medium-term), money market instruments, and fixed or floating rate government or corporate bonds, which may be linked to inflation in the Eurozone and/or international markets. Up to 100% of the portfolio of debt securities and money market instruments may be invested in emerging market debt securities and money market instruments.

(iii) currencies: The fund may use derivatives to gain exposure to, hedge against, or pursue relative value strategies on, currencies.

The decision to buy, hold or sell debt securities will not automatically and solely depend on their rating but also an internal analysis based mainly on return, credit rating, liquidity and maturity criteria.

The fund's investment universe is totally independent of the reference indicator, the individual constituents of which are not necessarily representative of the assets invested in by the fund. The fund's investment strategy is not dependent on the indicator. Therefore, the fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

The average rating of the bonds held by the fund is at least investment grade (as rated by at least one of the leading rating agencies). The fund may use futures and options for hedging or arbitrage purposes, and/or to expose the portfolio to the following risks (directly or via indices): currencies, interest rates, equities, ETFs, dividends, volatility, variance (the latter two categories for up to 10%) and commodities (up to 20% of assets). The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps, and contracts for difference, on one or more underlyings. Overall exposure to derivatives is controlled by combining expected gearing of 2 with the fund's VaR limit, which must not be more than double the reference indicator's. The fund may invest up to 10% of its net assets in securities with embedded derivatives.

INTENDED RETAIL INVESTOR

Due to the fund's bond market exposure, and its equity market exposure to a lesser extent, this fund is suitable for investors who do not plan to withdraw their money within 3 year(s), and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 16:30 CET/CEST, and are executed on the next business day using the previous day's NAV.

These units are accumulation units.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower risk

Higher risk

The recommended holding period is 3 year(s).

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		3 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	920 EUR	2 230 EUR
	Average return each year	-90.80%	-39.36%
Unfavourable	What you might get back after costs	7 600 EUR	6 890 EUR
	Average return each year	-24.00%	-11.68%
Moderate	What you might get back after costs	9 680 EUR	9 000 EUR
	Average return each year	-3.20%	-3.45%
Favourable	What you might get back after costs	10 670 EUR	10 810 EUR
	Average return each year	6.70%	2.63%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between October 2020 and October 2023.
- The moderate scenario occurred for an investment between June 2021 and June 2024.
- The favourable scenario occurred for an investment between December 2017 and December 2020.

WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the management company. In the event of the latter's default, the product's assets held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the fund.

There is no compensation or guarantee system in place that would fully or partially offset this loss.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

Cost over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 EUR. The figures are estimates and may change in the future.

	If you exit after 1 year	If you exit after 3 years
Total costs	612 EUR	1 011 EUR
Annual cost impact (*)	6.1%	3.5% each year

*The Reduction in Yield (RIY) illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0,0% before costs and -3,5% after costs. The total costs take into account one-off, ongoing and incidental costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4,00 % of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 400 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,57% of the value of your investment per year. This estimate is based on actual costs over the past year.	157 EUR
Transaction costs	0,64% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	64 EUR
Incidental costs taken under specific conditions		
Performance fees	20,00% max of the outperformance once performance since the start of the year exceeds that of the reference indicator, even if negative, and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The estimate of aggregated costs above includes the average for the last five years.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Given the fund's exposure to the bond market, and to the equity market to a lesser extent, the recommended investment period is more than 3 year(s).

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible daily. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

The management company reserves the right to introduce caps on redemption requests ("gates") in order to spread redemptions across several NAV dates where such redemption requests exceed the 5% threshold (net redemptions of subscriptions expressed as a percentage of the Fund's net assets).

HOW CAN I COMPLAIN?

If you have any complaints about this product or the manufacturer's conduct, you can use different means of communication: you can lodge them by email to complaints@carmignac.com, by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com.

If there is no response within two months or if you consider the response provided by Carmignac Gestion unsatisfactory, you can contact the AMF Ombudsman by letter or using the online form (<https://www.amf-france.org/en/amf-ombudsman>).

OTHER RELEVANT INFORMATION

The fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com.

This fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S and FATCA. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor.

The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.

The product complies with the provisions of Article 8 of the Financial Services Sustainability Disclosure Regulations ("SFDR"). For further information, please refer to the fund prospectus.
