Production date | 01/01/2023

Warning

You are about to buy a product that is not simple and can be difficult to understand.

What does this product consist of?

Type | Subfund of a SICAV (open-end investment company) governed by French law. Each shareholder has co-ownership rights on the SICAV's net assets in proportion to the number of shares held.

Duration | The Fund was created on 06/01/1995 and its expected term is 99 years.

Objectives | The objective of the ECHIQUIER PATRIMOINE subfund is to outperform its benchmark, net of management fees, which is the composite index: 12.5% MSCI Europe NR + 67.5% Iboxx 1-3 years + 20% €STER.

The management of the UCITS is based on an active and discretionary strategy. It combines the use of financial instruments (equities, bonds, negotiable debt securities) and derivative instruments.

Echiquier Patrimoine invests a minimum of 60% of its assets in bonds or negotiable debt securities from the Europe region (European Union, European Free Trade Association, and the United Kingdom) and, on an ancillary basis, a maximum of 10% in bonds from outside this region, including those issued by issuers from emerging countries.

At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Échiquier and using the ratings produced by agencies. The debt securities and bonds concerned are mainly securities rated at least BBB- (Investment Grade) by Standard & Poor's or equivalent or considered as such by the management team (maximum of 10% on unrated debt securities or securities deemed speculative and maximum of 15% on unrated bonds or bonds deemed speculative). The manager may also invest up to 40% of its net assets in subordinated bonds from the banking, insurance and corporate sectors, of which 10% maximum contingent convertible bonds (so-called "coco" bonds). Up to a maximum of 25% of the UCITS's assets may be exposed to European equities (EU, EFTA or the United Kingdom) in any business sector, with the possibility of investing up to 15% of its net assets in equities outside this region (including emerging countries).

The UCITS may trade in derivatives to:

- Reduce the portfolio's exposure to equity markets, foreign exchange and interest rate risks.
- Exceptionally expose the portfolio to currency, interest rate and equity risks. The UCITS does not, in any event, intend to implement a strategy of over-exposing the portfolio to these various risks.

Exposure to non-euro currencies may not exceed 10% of the assets.

Other information: the portfolio management team systematically includes an extra-financial approach in building the portfolio, although extra-financial criteria are not a determining factor in investment decisions.

Benchmark | 12.5% MSCI Europe + 67.5% Iboxx 1-3 years + 20% €STER

Allocation of income | Accumulation

Cut-off time for centralising subscription/redemption orders | The investor may obtain a redemption on request every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centralising agent BNP Paribas SA and executed on the net asset value calculated on the closing price on the day they are centralised.

Valuation frequency | The net asset value is calculated daily except on days when the Paris stock exchange is closed and on French public holidays.

Targeted retail investors | Potential investors are aware of the risks inherent in holding this type of product and have an investment horizon corresponding to its recommended investment period.

Insurance | Not applicable.

Maturity date | This product has no maturity date.

Custodian | BNP Paribas SA

The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the shares are available on our website www.lfde.com or upon simple written request, free of charge, at: La Financière de l'Échiquier, 53 avenue d'Éléna, 75116 Paris

What are the risks and what could this mean for me?

Risk indicator

The risk indicator is based on the assumption that you hold equities for 2 years.

Warning: The real risk can be very different if you opt for an exit before this period, and you could get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood that this product

will incur losses in the event of market movements or if we are unable to pay you.

We have classified the product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the product's future results are low to medium and, if the situation deteriorates in the financial markets, it is unlikely that our ability to pay you will be affected.

Risks materially relevant and not taken into account in the indicator:

Credit risk I Credit risk is the risk that the credit quality of an issuer will decline or that the issuer will default. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

Guarantee: The capital initially invested is not guaranteed.

Performance scenarios (amounts expressed in euros) I

What you will get from this product depends on future market performance. Future market developments are random and cannot be predicted precisely. The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the past 10 years. Markets could move very differently in the future. The stress scenario shows what you could get in extreme market situations. This type of scenario is produced for an investment of between 1 and 2 years.

Recommended holding period: 2 years

Example of an Investment: € 10,000

Scenarios		If you exit after 1 year	If you exit after 2 years (Recommended holding period)
Minimum	As this product does not provide protection against market fluctuations, there is no guaranteed minimum return if you exit before 2 years. You may lose some or all of your investment.		
Stress	What you could get after deducting costs	€ 5,950	€ 7,410
	Average annual return	-40.52%	-13.93%
Adverse	What you could get after deducting costs	€ 8,450	€ 8,130
	Average annual return	-15.47%	-9.80%
Intermediate	What you could get after deducting costs	€ 9,820	€ 9,880
	Average annual return	-1.78%	-0.59%
Favourable	What you could get after deducting costs	€ 10,900	€ 10,840
	Average annual return	8.96%	4.13%

The figures shown include all costs of the product itself, including the portion paid to your advisor or distributor by La Financière de l'Échiquier. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

This table displays the amounts you could obtain according to different scenarios and according to the following parameters:

- an investment of €10,000;
- and holding periods of 1 year and 2 years, the latter being equal to the recommended holding period.

These different scenarios indicate how your investment might behave and allow you to compare with other products.

The scenarios presented are an estimate of future performance based on past data on changes in the value of this investment. They are not an exact indicator. What you will get will depend on the evolution of the financial market and the length of time you will keep the investment or product.

What happens if La Financière de l'Échiquier is unable to make payments?

La Financière de l'Échiquier is an asset management company approved and monitored by the Autorité des Marchés Financiers and must comply with organisational and operating rules, particularly in terms of capital. The Fund's assets are recorded in one or more bank accounts opened in the name of the Fund, which is the subject of segregation of assets from those of the management company. Consequently, the default of La Financière de l'Échiquier would not have an impact on the Fund's assets.

What will this investment cost me?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time (amounts expressed in euros):

The tables show the amounts deducted from your investment in order to cover the different types of costs. These amounts depend on the amount you invest, the time you hold the product, and the product's return. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%). That for other holding periods, the product changes as indicated in the intermediate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 2 years (Recommended holding period)
Total costs	€ 421	€ 605
Impact of annual costs (*)	4.24%	3.07% each year

(*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 2.49% before costs and -0.59% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling the product will inform you of the actual costs.	EUR 300
Exit costs	We will not charge an exit cost for this product, but the person who sells the product can do so.	EUR 0
Recurring costs charged each year		
Management fees and other administrative and operating expenses	1.00% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 97
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies according to the quantity we buy and sell.	EUR 24
Ancillary costs deducted under certain conditions		
Performance fees and incentive fees	15% including taxes of the Fund's outperformance, net of fixed management fees, relative to its benchmark index, provided the Fund's performance is positive and once the underperformance of the last 5 years has been fully compensated for. The performance fee is crystallised every year on 31 March. The total cost estimate includes the average over the past 5 years.	EUR 0

How long should I keep it and can I withdraw money early?

The recommended investment period is at least 2 years due to the nature of the assets underlying this investment.

Holding for a period shorter than the recommended period may not be in the investor's best interests.

You can request redemption of your shares on a daily basis. Redemptions are executed on a daily basis.

How can I make a complaint?

You may make a complaint about the product or behaviour (i) of La Financière de l'Échiquier (ii) of a person who provides advice on this product, or (iii) a person who sells this product by sending an e-mail or letter to the following persons, as the case may be:

- If your complaint concerns the person who provides you with advice on the product or who offers it to you, please contact that person directly.
- If your complaint relates more specifically to the product itself or the behaviour of La Financière de l'Échiquier, you can send a letter to the following address: La Financière de l'Échiquier - 53 avenue d'Iéna, 75116 Paris.

We invite you to consult the complaints handling procedure available on the company's website www.lfde.com for more information and in particular on the possibility of recourse to the Ombudsman of the Autorité des Marchés Financiers.
