The AMF, the French Financial Markets Authority, is responsible for supervising the Management Company in relation to this Key Information Document.

Natixis Investment Managers International is authorised in France under no. GP 90-009 and regulated by the AMF.

Date of production of the Key Information Document: 21/05/2025.

What is this Product?

Type This Product is a UCITS with the legal form of a French mutual fund (fonds commun de placement, or FCP). This Product is a portfolio of eligible financial instruments that you will hold collectively with other investors and that will be managed in accordance with its objectives.

Term This Product does not have a specific expiry date. It may, however, be dissolved or merged, in which case you will be informed by any appropriate means as specified in the Product rules.

Objectives

- The objective of the UCITS is to outperform the capitalised €STR (overnight rate of the euro interbank market) on an annual basis, incorporating SRI (Socially Responsible Investment) in its management approach. This seeks to select assets and financial instruments adhering to the responsible criteria pertaining to the environment, social and governance framework, after the deduction of fees from the UCITS, over a minimum recommended investment period of three months. The €STR (Euro Short-Term Rate) is a new financial benchmark calculated by the ECB (European Central Bank) that has been progressively replacing another short rate, the EONIA (Euro Overnight Index Average) since 2 October 2019. In the event of very low market interest rates, the return generated by the UCITS will not suffice to cover the UCITS' management fees and the UCITS would see its net asset value fall structurally.
- The Sub-Fund is actively managed. The Benchmark is used for comparison purposes only. The Delegated Investment Manager remains free to choose the stocks that make up the portfolio in accordance with the Sub-Fund's investment policy.
- The Benchmark can be used to determine the performance fee that will possibly be levied.
- The Fund's investment policy is based on a strategy of selecting and using money market instruments and equivalent securities that adhere, on the one hand, to quantitative criteria such as term and financial conditions and, on the other hand, to qualitative criteria such as the quality of the issuer as reflected by their rating. The analysis is then supplemented by incorporating SRI (Socially Responsible Investment) criteria.
- The Product falls under the classification: money market funds with a standard variable net asset value.
- Up to 100% of the Fund's assets are invested in money market instruments. The Fund's initial investment universe includes private or public entities in the OECD area issuing negotiable debt securities and/or short-term bonds, denominated in euro or any other OECD-area currency. The Delegated Investment Manager only selects issuers of high credit quality in accordance with an assessment and methodology defined by Ostrum Asset Management and in the context of European regulations governing money market funds. The most controversial issuers are excluded based on the Delegated Investment Manager's exclusion and sector-based policies, those of the SRI label and those related to the issuers set out in Article 12(1) (a) to (g) of the CDR (EU) 2020/1818 (article defining the exclusions applicable to the Paris-aligned Benchmarks). Compliance with the Green Bond Principles, the Social Bond Principles, the Sustainability Bond Guidelines and the Sustainability-Linked Bond Principles published within the framework of the ICMA Principles is ensured. Next, the investment teams apply an issuer selection process that adequately addresses the following issues: Environmental (e.g. carbon footprint, water management programmes), Social (diversity programmes, collective agreement for employees) and Governance (executive remuneration that incorporates the ESG criteria, quality of ESG standard reporting). The SRI monetary management process therefore selects issuers by adopting a so-called "average rating" approach, aiming to outperform the initial investment universe filtered to exclude 25% (up to 31 December 2025, then 30% from 1 January 2026) of the lowest-rated issuers (in terms of ESG), for both eligible issuer categories within the meaning of the SRI label. Limitation of the chosen approach: the Fund's SRI approach may lead to the under-representation of certain sectors due to poor ESG ratings or through the application of Ostrum Asset Management or SRI label exclusion and sector-based policies, and the PAB exclusion lists within the meaning of Article 12(1)(a) to (g) of the CDR (EU) 2020/1818, as well as to a more concentrated issuer risk due to the need to comply with the various constraints, in particular those pertaining to the average rating. The SRI analysis of the Fund covers at least 90% of the net assets, calculated on transferable securities eligible for SRI analysis: debt securities issued by private issuers as well as by quasi-sovereign issuers (local authorities, guaranteed agencies, supranational agencies) and green sovereign issuers.
- By way of derogation, the Fund may invest more than the regulatory limit of 5% of its net assets, and up to 100% of its net assets, in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities.
- The Fund may invest up to 10% of its assets in units or shares of UCITS or AIFs (money market funds with a standard variable net asset value or money market funds with a short-term variable net asset value). The Fund can make term deposits of up to 100% of its net assets.
- The Product accumulates its income.
- **Redemption requests are received every day by 1:00 p.m. at the latest**

Intended retail investors The Product seeks to achieve a performance equal to the money market index less management fees and is intended for investors who wish to diversify their investments in money market instruments and term deposits; can afford to tie up their capital for a recommended period of three months (very short-term horizon); and can sustain temporary losses.

- **Depository:** CACEIS Bank
- Details of the remuneration policy are available at www.im.natixis.com.
- **Tax:** Depending on your tax system, any profit and/or income related to the holding of this Product may be subject to tax.
- **The net asset value** is available from the Management Company at the postal address indicated below and online at www.im.natixis.com.
- The prospectus, annual reports and latest periodic documents, as well as all other practical information for the Product may be obtained, in French, from the Management Company on written request to: Natixis Investment Managers International – 43 Avenue Pierre Mendès France, 75648 Paris Cedex 13, France, or to the following email address: ClientServicingAM@natixis.com.

Risk indicator

Since this Product does not provide any protection against future market performance, you could lose some or all of your investment.

Other material Product risks not factored into the SRI calculation: credit risk, counterparty risk, risks related to the impact of the management techniques used.

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 months			If you exit after 3 months
The examples are based on an investment of: EUR 10,000			
Scenarios			
Minimum		There is no minimum guaranteed return. You may lose some or all of your investment.	
Stress	What you might get back after costs	EUR 9,980	
	Average return	-0.2%	
Unfavourable (*)	What you might get back after costs	EUR 9,980	
	Average return	-0.2%	
Moderate (*)	What you might get back after costs	EUR 10,000	
	Average return	0.0%	
Favourable (*)	What you might get back after costs	EUR 10,100	
	Average return	1.0%	

(*) The unfavourable scenario pertains to an investment made between February 2020 and May 2020, the moderate scenario to one made between December 2018 and March 2019 and the favourable scenario to one made between October 2023 and January 2024.

The assets of your Product are held at its Depositary, CACEIS Bank, and are distinct from those of the Management Company. As such, should Natixis Investment Managers International become insolvent, your Product's assets will not be affected. However, should the Depositary or a sub-depositary entrusted with the custody of your Product's assets become insolvent, there is a risk of financial loss. However, this risk is mitigated to some extent because the Depositary is required by law and by the Product rules to separate its own assets from those of the Product. As provided for by law, there is an investor guarantee or compensation scheme should the Depositary default.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return); For the other holding periods, the Product performs as shown in the moderate scenario;
- Assuming an investment of EUR 10,000

		If you exit after 3 months
Total costs		EUR 6
Cost impact (*)		0.1%

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum EUR 13 distribution fee to which the person selling you the Product is entitled. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 3 months
Entry costs	There is no entry charge.	None
Exit costs	There is no exit charge.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.18%	EUR 4
	The charges cited are estimated because there has been a change to the fee structure. This figure may vary from one financial year to the next.	
Transaction costs	0.04% of the value of your investment. <i>This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on the amounts we buy and sell.</i>	EUR 1
Incidental costs taken under specific conditions		
Performance fee	20.0% of the Product's performance compared with its Benchmark 0.04% of the value of your investment per year. This is an estimate calculated using the average cost over the past 5 years. The actual amount will vary depending on how well your investment performs. A performance fee may be charged even if the Product performs negatively, as long as its performance exceeds that of its Benchmark.	EUR 1

How long should you keep this Product and can you get your money back early?

Recommended holding period: 3 months

This is the period over which you are advised to retain your investment in order to obtain a potential return while minimising the risk of losses. This period is related to your Product's asset class, management objective and investment strategy.

You may ask to redeem your Product at any time, but you may receive less than expected if you do so before the end of the recommended holding period. The recommended holding period is an estimate and should be considered neither as a guarantee nor as a commitment to future performance, Product return or stability of risk.

How can you complain?

If you want to make a complaint about the person who advised you on or sold you this Product, or about the Product itself, you can send an email to ClientServicingAM@natixis.com or write to Natixis Investment Managers International at the following address: Natixis Investment Managers International – 43 Avenue Pierre Mendès France, 75648 Paris Cedex 13, France.
