

Key Investor Information Document

Objective

This document contains essential information about this investment product. This is not promotional material. This information is required by law to help you understand what this product is along with the potential risks, costs, gains and losses that are associated with it, and to help you compare it to other products.

La Française Rendement Global 2028 - R C EUR shares - FR0013439403

📍 Product

Product: La Française Rendement Global 2028 - R C EUR shares

ISIN code: FR0013439403

Initiator: Crédit Mutuel Asset Management. The Autorité des marchés financiers (AMF) is responsible for monitoring Crédit Mutuel Asset Management with regard to this key information document. Crédit Mutuel Asset Management is authorised in France under no. GP 97-138 and regulated by the AMF. Further information is available on the management company's website, www.la-francaise.com or www.creditmutuel-am.eu or by calling + 33 1 44 56 10 00.

Date of production of the key information document: 01/05/2024

📍 What is this product?

Type of product: Sub-fund of the SICAV LA FRANÇAISE

Product lifespan: 99 years

Objectives: The objective of the UCI, which is classified as "Bonds and other international debt securities", is to achieve, over the recommended investment period of nine years from the date of creation of the fund until 31 December 2028, a performance net of fees that exceeds that of French government bonds maturing in 2028 and denominated in EUR (OAT 0.75% maturing on 25 May 2028 - ISIN code FR0013286192), by investing in a portfolio of issuers that have been screened in advance according to environmental, social and governance criteria. The potential profitability of the fund comes from the value of the accrued coupons of the bonds in the portfolio and the variations in capital due to the fluctuation in interest rates and credit spreads. The net annualised performance objective is based on the achievement of market assumptions set by the management company. It is not a guarantee of Fund return or performance. Investors should note that the performance indicated in the management objective of the Fund takes account of the estimate of the risk of default or downgrading of the rating of one or more issuers in the portfolio, the cost of currency hedging and the management fees payable to the Management Company.

Benchmark index: OAT 0.75% maturing on 25 May 2028 for comparison purposes. The fund has no benchmark index. The fund is managed actively on a discretionary basis.

Investment strategy:

Sensitivity: from 9 to 0 (decreasing over time).

The investment strategy involves the discretionary management of a portfolio of bonds issued by private or public bodies. The sub-fund may invest in bonds with maturities up to 31 December 2029 and/or bonds with a longer maturity, but which have a call option before or on 31 December 2028. The fund does not invest in perpetual bonds. To achieve the management objective, up to 100% of the portfolio is invested in fixed-rate or floating-rate bonds, other negotiable debt securities and money market instruments (Treasury bills, Treasury notes, certificates of deposit) from all economic sectors. The portfolio may invest up to 50% in sovereign bonds, depending on market opportunities.

The initial investment universe is constructed of OECD member states and/or non-OECD countries (including emerging markets) that belong to the combination of J.P. Morgan GBI Global Hedged Euro Index and J.P. Morgan EMBI Global Diversified Hedged Euro Index and private issuers belonging to the BofAML Global High Yield Index (HW00). Securities are selected mainly from these universes; they may also be selected from outside these universes, from European and international markets (including emerging markets), up to a limit of 10% of the investment universes, provided that these securities have an ESG score higher than the exclusion threshold in force for the universes and meet the investment criteria of the sub-fund. The sub-fund's investment criteria listed below are analysed by La Française Sustainable Investment Research (hereafter "ESG Research Team") of the "La Française Group UK Limited which is specialised in the sustainable investment criteria. It is specified that there is a risk of conflicts of interest relating to the provision of ESG scores with the "La Française Sustainable Investment Research" research centre of the "La Française Group UK Limited" entity belonging to the La Française Group. In order to manage this situation, the management company has put in place and updates a conflict of interest management policy with the aim of identifying and analysing potential conflict of interest situations as well as recording, managing and monitoring situations in which there is a conflict of interest. In addition, the provision of ESG scores is fully paid for by the management company. Issuers are subject to the same requirements regardless of whether or not they belong to the index.

Each private or public issuer is assigned a score from zero (worst) to 10 (best). The investment process is carried out using an ESG integration approach with a significant commitment in terms of management. The share of issuers analysed for these ESG criteria in the portfolio is greater than 90% of the securities in the portfolio. Then, the 20% of private issuers and 20% of public issuers whose ESG scores are the lowest in the initial investment universe covered are excluded.

The ESG Research Team is dependent on the quality of the information collected and the transparency of issuers. The exchange risk for securities not denominated in EUR is systematically hedged. The issues (or, failing that, the issuers) are Investment Grade (rating better than or equal to BBB- (Standard&Poors) or Baa3 (Moody's) or equivalent according to the management company's analysis) and/or High Yield issues (of a speculative nature) (rating less than BBB- or Baa3 or equivalent according to the management company's analysis). Investment in unrated securities is not permitted. The management company shall not exclusively or automatically rely on external ratings but may, upon the issuance of such a rating, take it into consideration for its credit analysis.

The fund may carry out transactions for the temporary purchase and sale of securities. Financial futures, traded on regulated or over-the-counter markets, are used to hedge and/or expose the portfolio to interest rate and/or credit futures markets, and with the aim of solely hedging on future exchange markets: futures, forwards, options, interest rate swaps, currency swaps, currency forwards, credit default swaps (CDS on single underlying asset, CDS on index) and options on CDS (up to 15% of net assets).

Non-Deliverable Forward. The fund may use Total Return Swaps up to a limit of 25% of the net assets.

The fund's risk profile will vary over time; exposure to different risk factors will decrease until the investment strategy reaches its maturity. As the fund approaches maturity and depending on the prevailing market conditions, the management company will opt either to continue the investment strategy, merge with another UCITS or liquidate the fund, subject to the AMF's approval.

The fund promotes certain environmental and social characteristics within the meaning of Article 8 of the EU Sustainable Finance Disclosure Regulation (EU) 2019/2088 (SFDR).

For example, the criteria used to analyse private issuers are:

- Environmental: carbon intensity and waste management, etc.
- Social: staff training, labour relations, etc.
- Governance: management structure and relationship with shareholders, remuneration policy, etc.

For example, the criteria used to analyse public issuers are:

- Environmental: the degree of exposure to natural disasters, etc.
- Social: the human development rate of the countries of the world through the human development index, etc.
- Governance: the quality of a country's governance through the World Governance indicator (WGI), etc.

The latest prospectuses, the latest net asset value of the shares, the annual report and the periodic information document of the fund's shares: Legal documents are available on request and free of charge from the management company or on the websites: www.la-francaise.com and/or www.creditmutuel-am.eu. Any further information is available from the Customer Service Nominative Products Department using the following contact details: serviceclient@la-francaise.com.

Target retail investors:

All subscribers, including investors subscribing via distributors providing a non-independent advisory service within the meaning of MiFID II or Reception and Transmission of Orders (RTO) with services

The UCI is not open to residents of the United States of America/US Person.

Depository The Depository of the UCITS is BNP Paribas S.A., located at 9 rue du Débarcadère, 93500 PANTIN (the "Depository"). BNP Paribas S.A., registered in the Trade and Companies Register under number 662 042 449, is an institution approved by the Autorité de Contrôle Prudentiel et de Résolution (ACPR) and regulated by the French Financial Markets Authority (Autorité des Marchés Financiers – AMF), whose registered office is located at 16 Boulevard des Italiens, 75009 Paris, France.

Other information:

Redemptions are centralised each day (T) at 11 a.m. with La Française AM Finance Services and with IZNES for shares to be registered or registered in the IZNES Shared Electronic Registration System and are carried out on the basis of the next net asset value, with settlement on T+2 (trading days). **Subscription to the fund will close on 30 June 2025 at 11:00 a.m.** From this date, only investments preceded by a redemption on the same day for the same number of shares, for the same net asset value and by the same shareholder may be executed.

Allocation of distributable amounts: Capitalisation

Ⓢ Risk and Reward Profile

Risk indicator

The risk indicator assumes that you will be keeping the product up until 31 December 2028.

The actual risk may be very different if you opt for an earlier exit, and you may get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood of this product incurring losses in the event of market developments or our inability to pay you.

We have classified this product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the future performance of the product are at a low to medium level and, if the situation were to deteriorate on the markets, it is unlikely that our ability to pay you would be affected.

Risks with significance for the SICAV not included in this indicator:

- Credit risk;
- Counterparty risk;
- Liquidity risk.

This product is not protected from market fluctuations, and you may therefore lose all or part of your investment.

Performance scenarios

What you get out of this product depends on future market performance. The future development of the market cannot be accurately predicted.

The scenarios shown here represent examples based on past performance and certain assumptions.

Recommended investment period: 31/12/2028 Investment example: €10,000		If you exit after 1 year	If you exit after 31/12/2028
Scenarios			
Stress scenario	What you could get after costs are deducted	€7,590	€6,780
	Average annual return	-24.09%	-7.13%
Adverse scenario	What you could get after costs are deducted	€7,590	€ 8,500
	Average annual return	-24.09%	-3.05%
Intermediate scenario	What you could get after costs are deducted	€9,940	€11,410
	Average annual return	-0.58%	2.55%
Favourable scenario	What you could get after costs are deducted	€12,170	€13,300
	Average annual return	21.66%	5.57%

The unfavourable, intermediate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product, calculated over a minimum of 10 years of data. Markets could perform very differently in the future.

This type of adverse scenario has occurred for an investment between: 08/2021 and 09/2023.

This type of intermediate scenario has occurred for an investment between: 05/2014 and 08/2019.

This type of favourable scenario has occurred for an investment between: 01/2016 and 04/2021.

This table shows the amounts you could get by 31/12/2028, under different scenarios, assuming you choose to invest €10,000.

The different scenarios show how your investment may perform. You can compare them with the scenarios of other products. The stress scenario shows the potential returns you may obtain in extreme market situations.

The figures shown include all the costs of the product itself, but not necessarily all the fees payable to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

Ⓢ What happens if Crédit Mutuel Asset Management is unable to make the payments?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of defaulting by this latter, the assets of the product held by the depository will not be affected. In the event of default by the depository, the risk of financial loss to the product is mitigated by the legal separation of the depository's assets from those of the product.

Ⓢ What will this investment cost me?

You may be asked to pay additional costs by the person selling or advising you about the product. If so, this person will inform you about these costs and show you the impact of all costs on your investment over time.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and how well the product performed. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- that during the first year you would get back the amount you invested (annual return of 0%) and for the other holding periods, the product evolves as indicated in the intermediate scenario.

- that you have invested €10,000.

Investment: €10,000	If you exit after 1 year	If you exit after 31/12/2028
Total costs	€523	€1,745
Cost impact*	5.29%	2.96%

(*) This illustrates how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 5.51% before costs and 2.55% after costs.

Breakdown of costs:

One-off entry or exit costs		If you exit after 1 year
Entry cost	Maximum 3.00% of the amount you pay at the time of entry into the investment, not including the distribution costs for your product. The person selling you the product will be able to tell you the actual costs.	up to €300
Exit cost	We do not charge an exit fee for this product.	€0
Recurrent costs [collected annually].		
Management fees and other administrative and operating expenses	Maximum 1.17% of the value of your investment per year. This estimate is based on actual costs over the past year.	€113
Transaction costs	1.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	€109
Recurring costs collected under certain conditions		
Performance-related fees	There are no performance-related fees for this product.	€0

🕒 How long should I keep my investment and can I withdraw money early?

Recommended holding period: 31/12/2028

Possibilities and conditions for divestment before maturity: Redemptions are centralised each day (T) at 11 a.m. with La Française AM Finance Services and with IZNES for shares to be registered or registered in the IZNES Shared Electronic Registration System and are carried out on the basis of the next net asset value, with settlement on T+2 (trading days). Subscription to the fund will close on 30 June 2025 at 11:00 a.m. From this date, only subscriptions preceded by a redemption on the same day for the same number of shares, for the same net asset value and by the same shareholder may be executed.

🗣️ How can I make a complaint?
