A Sub-Fund of AXA IM WORLD ACCESS VEHICLE ICAV (the ICAV)
Share class: AX (Hedged) Accumulation EUR (ISIN : IE00BDBVWQ24)
This Fund is managed by AXA Investment Managers Paris, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Fund's objective is to seek to achieve an annualized return between 4% and 7%, gross of fees, in USD, to the Maturity Date (February 28, 2022) by investing primarily in corporate high yield debt securities. **This annualized return is an objective and is not a guarantee.**

Investment Policy

The Sub-Fund is actively managed without reference to any benchmark. To achieve that objective, the Fund invests in a broadly diversified portfolio of fixed income transferable debt securities denominated in USD, taking into consideration the Maturity Date of the Fund. The Fund will invest in securities primarily rated below investment grade (i.e. rated lower than BBB- by Standard & Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Manager) which are listed or traded on Regulated Markets. The Manager invests on a discretionary basis and is not restricted from investing in any particular sector or industry.

The Fund may invest primarily in debt securities issued by U.S. domiciled companies, it may also invest up to maximum 30% of the net assets in those issued by non-US OECD companies and, possibly, in bonds of U.S. or non-U.S. OECD governments or governmental agencies or instrumentalities. Such investments will be denominated in USD.

The Fund will invest in convertible bonds up to 10% of the net assets. Non-OECD debt exposure will not exceed a maximum of 10% of the net assets. The Fund may invest up to 10% in Eligible CIS consistent with the Fund's investment objective and policy.

The Fund may hold substantial amounts in cash, money market instruments (such as certificates of deposit and commercial paper) during the Subscription Period (period from the launch of the fund up to February 28, 2017), after the Maturity Date and over a period of approximately 6 months approaching the Maturity Date. The Subscription Period may be shortened or extended.

Once the Maturity Date is reached, the Fund will be in liquid Financial instruments issued by Governments or by corporate issuers such as commercial paper, bonds, notes, bills, deposits, certificates of deposits and cash in accordance with the investment restrictions applicable to the Fund, and/or in Eligible CIS which invest primarily in these instruments.

For investment purposes, the Fund may engage in the credit derivatives market by entering, into single name credit default swaps ("CDS") in order to sell protection.

The maximum exposure of the Fund in terms of inherent commitment to CDS will not exceed 20% of its net assets.

The Share Class aims at hedging the foreign exchange risk resulting from the divergence between the reference currency of the Sub-Fund and the currency of this Share Class by using derivatives instruments whilst retaining the exposure to Investment Policy of the Sub-Fund.

For Accumulation share classes (Acc), the dividend is reinvested.
