FRAMLINGTON EQUITIES

AXA World Funds - Framlington Switzerland

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Framlington Switzerland A Capitalisation CHF (ISIN : LU0087657150)

This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund seeks to achieve long term capital growth measured in CHF by investing in Swiss listed or domiciled companies of all capitalisation.

Investment Policy

The Sub-Fund is actively managed and mainly invests in order to capture opportunities in equities issued by listed or domiciled Swiss companies that are part of a benchmark index composed of 60% SPI Middle Caps Total Return and 40% SPI Large Caps Total Return ("the Benchmark") universe. As part of the investment process, the Investment Manager has broad discretion over the composition of the Sub-Fund's portfolio and can take, based on its investment convictions, large overweight or underweight positions on the sectors or companies compared to the Benchmark's composition and/or take exposure to companies, countries or sectors not included in the Benchmark, even though the Benchmark constituents are generally representative of the Sub-Fund's portfolio. Thus, the deviation from the Benchmark is likely to be significant.

Investment decisions are based on a combination of a macroeconomic, sector and company specific analysis. The share selection process relies on a rigorous analysis of the companies' business model, quality of management, growth prospects and overall risk return profile.

The Sub-Fund will invest mostly in equities issued by Swiss listed or domiciled companies of large, medium or small capitalisation.

Within the limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives, especially by entering into Credit Default Swaps. Derivatives may also be used for hedging purposes.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Sub-Fund Currency

The reference currency of the Sub-Fund is CHF.

Investment Horizon

This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 8 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks

Counterparty Risk: Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Sub-Fund's counterparties, leading to a payment or delivery default.

Credit Risk: Risk that issuers of debt securities held in the Sub-Fund may default on their obligations or have their credit rating downgraded, resulting in a decrease in the Net Asset Value.

Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets.

The use of such strategies may also involve leverage, which may increase the effect of market movements on the Sub-Fund and may result in significant risk of losses.

Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	5.50%
Exit Charge	none

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	1.76%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fees	none
------------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending December 2019. This figure is adjusted with implemented budget changes for 2019. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking

For more information about charges, please refer to the Fees and Expenses section of the prospectus which is available at www.axa-im.com.

Past Performance

- AXA WF Framlington Switzerland A
Capitalisation CHF (ISIN : LU0087657150)
- 60% SPI Middle Caps Total Return Gross + 40% SPI Large Caps Total Return Gross

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 20/06/1990 and the share class in 2000. Past performance has been calculated in CHF and is expressed as a percentage change of the Sub-Fund's Net Asset Value at each year end.

A: Share Class is dormant.

B: Share Class was reactivated on 11/01/2018.

The performance of the Sub-Fund is not tracking the benchmark index. For the different shareclasses of the Sub-Fund, the performance of the benchmark is displayed in the "Past Performance" section either as converted to the currency of the relevant shareclass or hedged against the reference currency of the Sub-fund in the case of hedged shareclasses ("hedged benchmark"). For some cases where the hedged benchmark is not available, the benchmark is displayed in the reference currency of the Sub-Fund, thus the performance of the displayed benchmark may deviate from the one of the relevant shareclass due to the performance differential inherent within the currency hedging activity not reflected in the benchmark.
