

## Key Investor Information

This document provides you with key investor information about the Compartment. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the Compartment. You are advised to read it so that you can make an informed decision about whether to invest.

### Pictet - CHF Bonds

(the "Compartment") is a compartment of Pictet (the "Fund").

### P (the "Share Class") - ISIN LU0135487659

The Fund is managed by Pictet Asset Management (Europe) S.A. (the "Management Company"), part of the Pictet group

#### Objectives and investment policy

##### OBJECTIVE

To increase the value of your investment, through income and investment growth, while seeking to reduce volatility.

##### REFERENCE INDEX

Swiss Bond Index Foreign AAA-BBB (CHF). Used for risk monitoring, performance objective and performance measurement.

##### PORTFOLIO ASSETS

The Compartment mainly invests in a broad range of corporate and government bonds, including convertible bonds, that are either denominated in CHF or typically hedged to this currency (meaning investments have little or no exposure to currency risk). The Compartment can invest across any sector and credit quality. The Compartment may also invest in money market instruments.

##### DERIVATIVES AND STRUCTURED PRODUCTS

The Compartment may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use structured products to gain exposure to portfolio assets.

##### COMPARTMENT CURRENCY

CHF

##### INVESTMENT PROCESS

In actively managing the Compartment, the investment manager uses a combination of market and issuer analysis to build a diversified portfolio of securities it believes offer the best risk-adjusted returns relative to the benchmark. The Compartment's management approach uses strict risk controls. The Compartment is designed to offer performance that is likely to be somewhat similar to that of the benchmark.

##### Terms to understand

**Bonds** Securities that represent an obligation to repay a debt, along with interest.

**Convertible bonds** Bonds that offer the holder the option of receiving the payment of principal in a predetermined number of equity shares.

**Derivatives** Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

**Money market instruments** Financial instruments designed to provide stable value, interest and a very low risk of loss, as well as being readily convertible into cash.

**Structured products** Securities similar to derivatives, but with defined risk or performance characteristics.

##### Other characteristics

Designed for investors who understand the risks of this Compartment and plan to invest for 3 year(s) or more. This is an accumulation share class, meaning any income earned is retained in the share price. Orders to buy, switch or redeem shares are ordinarily processed on any day that is a full bank business day in Luxembourg.

#### Risk and reward profile

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Compartment's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Compartment offers no capital guarantee or asset protection measures. The Compartment may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value:

- **Financial Derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.
- **Liquidity risk:** markets with low volumes result in difficulties valuing and/or trading some assets.
- **Counterparty risk:** losses occur when a counterparty does not honour its obligations related to contracts such as over-the-counter derivatives.
- **Credit risk:** sudden losses may occur when issuers of debt securities default on their payment obligations.
- **Operational risk:** losses resulting from human errors, system failures, incorrect valuation and safekeeping of assets.

Further information can be found in the prospectus.

## Charges

The charges you pay are used to cover the costs of running the Compartment, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry, conversion and exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your financial adviser or fund distributor.

The **ongoing charges** figure is based on expenses for the period ending on 31 December 2019. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking.

**For more information on charges, please refer to the "Fund Expenses" section of the Fund's prospectus available on [assetmanagement.pictet](https://www.assetmanagement.pictet)**

### One-off charges deducted before or after you invest

Entry charge (in favour of the distributor)	Up to 5.00%
Exit charge (in favour of the distributor)	Up to 3.00%
Conversion charge (in favour of the distributor)	Up to 2.00%

This is the maximum figure that might be taken out of your capital before it is invested and before the proceeds of your investment are paid out.

### Charges taken from the Share Class over a year

Ongoing charges	0.65%

## Past performance

The Share Class was launched on 28 December 2005 (Compartment on 28 December 2005). Past performance is not a guide to future performance. The chart shows the Share Class' performance after payment of all fees, including portfolio transaction fees against the historical performance of the benchmark(s) stated below. Past performance has been calculated in CHF.

The Compartment is actively managed and does not intend to track the Swiss Bond Index Foreign AAA-BBB (CHF)
