What is this product?

Type

The product is a share of the sub-fund Templeton Asian Growth Fund (the "Fund") which is part of Franklin Templeton Investment Funds, an open-ended investment company with variable capital (SICAV), qualifying as a UCITS.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund is classified as Article 8 under EU Sustainable Finance Disclosure Regulation and aims to increase the value of its investments over the medium to long term.

Investment Policy

The Fund pursues an actively managed investment strategy and invests mainly in:

- equity securities issued by companies of any size traded on stock exchanges in Asian countries (excluding Australia, New Zealand and Japan)
- equity securities issued by companies of any size located in, or doing significant business in, Asian countries (excluding Australia, New Zealand and Japan)

The Fund can invest to a lesser extent in:

- equity or debt securities issued by companies of any size located in any country in the Asia region, including any other emerging markets in the Asia region
- equity securities of companies located outside of the Asia Region but which derive a significant proportion of their revenues or profits from the Asia region
- securities issued by private companies (limited to 5% of the Fund's assets)

- derivatives for hedging and efficient portfolio management

The investment team uses in-depth financial analysis to select individual securities that it believes will provide the best opportunities for increased value over the long term.

The benchmark of the Fund is the MSCI AC Asia ex-Japan 10/40 Index-NR - Linked. The benchmark is used solely as a reference for Investors to compare against the Fund's performance, and the benchmark is neither used as a constraint on how the Fund's portfolio is to be constructed nor set as a target for the Fund's performance to beat. The Fund can deviate from the benchmark.

Share Class Policy

The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

For this share class, the manager applies a portfolio hedge that is intended to minimize the currency risk between the currency of the share class (which is in a non-base currency) and the base currency of the Fund.

Processing of subscription and redemption orders

You may request the sale of your shares on any Dealing Day.

Intended retail investor

The Fund may appeal to investors looking to capital appreciation by obtaining exposure to equity securities issued by companies located in Asia and willing to hold their investment over the medium to long term for a minimum period of 3 to 5 years. The Fund is suitable for investors who do not need to have specific knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

Depositary

J.P. Morgan SE, Luxembourg Branch

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 5 out of 7, which is a medium-high risk class. Due to the nature of the Fund's investments, the Fund's performance can fluctuate considerably over time.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

- Emerging markets risk

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:	5 years	
Example Investment:	10,000 EUR	
	If you exit after 1 year	If you exit after 5 years

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund. The assets of the Fund are held separately by the Fund's appointed depositary, i.e. J.P. Morgan SE, Luxembourg branch. The depositary is liable to the Fund or its shareholders for losses caused by its negligent or intentional failure to fulfill its safekeeping or record-keeping obligations. (Cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	806 EUR	1,812 EUR
Annual cost impact (*)	8.1%	3.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.7% before costs and -0.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
