You are about to purchase a Product that is not simple and may be difficult to understand

What is this product?

Type

The Product is a share of the Sub-fund "AXA World Funds - Global Strategic Bonds" (the Sub-fund) which is part of the SICAV "AXA World Funds" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions led down in the articles of incorporation of the company.

Objectives

Investment Objective

The Sub-Fund investment objective is to seek performance by investing in corporate and government bonds and money market instruments issued worldwide over a medium term period.

Investment Policy

The Sub-Fund is actively managed without reference to any benchmark in order to capture opportunities in global corporate and government bonds issued worldwide.

The following investment decisions are undertaken after comprehensive macro and microeconomic analysis of the market:

- asset allocation across different types of bonds
- duration positioning (duration measures, in number of years, the portfolio's sensitivity to interest rate variations)
- geographical allocation
- issuer selection

The Sub-Fund invests mainly (at least two-third of its net assets under normal circumstances) in debt securities (fixed and floating rate investment grade and sub-investment grade transferable debt securities and/or high yield), including inflation-linked bonds, and money market instruments issued by governments and corporations located anywhere in the world, including emerging markets. The Sub-Fund may invest up to 100% of net assets in debt securities that are rated Sub-Investment Grade or if unrated, deemed to be so by the Investment Manager. The Sub-Fund may invest up to 25% of net assets in securities issued or guaranteed by a single sovereign issuer that are Sub-Investment Grade.

The total assets of the Sub-Fund may be invested in or exposed to callable bonds.

The Sub-Fund may invest up to 25% of net assets in subordinated debts issued by banks, insurance companies and non-financial corporates.

The Sub-Fund may, up to 10%, hold distressed and defaulted securities as a

result of their rating downgrade, if they are considered to be consistent with the Sub-Fund's objective. These securities are expected to be sold within 6 months unless specific events prevent the Investment Manager from sourcing their liquidity.

The Investment Manager may invest less than 20% of its assets in assets issued by securitization vehicles or equivalent (such as assets backed securities (ABS), Collateralised Debt Obligations (CDO), Collateralized Loan Obligations (CLO) or any similar assets).

The Sub-Fund may invest up to 5% of net assets in contingent convertible bonds (CoCos)

Within the limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives.

Derivatives may also be used for hedging purposes.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Intended retail Investor

The sub-fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the sub-fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Depositary

State Street Bank International GmbH (Luxembourg Branch)

What are the risks and what could I get in return?

Risk Indicator

1

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7 which is the a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the return of the product.

Be aware of currency risk. If your local currency is different from the Product currency, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the SRI can be materially relevant, such as counterparty risk, derivatives risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years		
Example Investment:		\$10000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment			
Stress	What you might get back after costs	\$8350	\$8220	
	Average return each year	-16.50%	-3.84%	
Unfavourable	What you might get back after costs	\$8350	\$8320	
	Average return each year	-16.50%	-3.61%	
Moderate	What you might get back after costs	\$9990	\$11110	
	Average return each year	-0.10%	2.13%	
Favourable	What you might get back after costs	\$10730	\$12530	
	Average return each year	7.30%	4.61%	

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2021 and 2022.

Moderate scenario: this type of scenario occurred for an investment between 2013 and 2018.

Favourable scenario: this type of scenario occurred for an investment 2016 and 2021.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if AXA Funds Management S.A. is unable to pay out?

The product's underlying assets are held separately by the depositary. If we encounter financial difficulties, these assets will not be affected. If the Product suffers a loss due to the depositary default you may lose the whole or part of your investments. There is no compensation or guarantee scheme protecting you from a default of the Product's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	\$444	\$1148
Annual cost impact (*)	4.5%	2.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.3 % before costs and 2.1 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount when required by the applicable laws.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year		
Entry costs	3.0 % of the amount that you pay when you enter the investment. This includes distribution costs of 3.0 % of the amount invested. This is the maximum amount you will pay. The person who sold you the product will inform you of the actual costs.	Up to \$300		
Exit costs	We do not charge an exit fee for this Product.	\$0		
Ongoing costs taken each year				
Management fees and other administrative or operating costs	1.3% of the value of your investment per year. This percentage is based on actual costs over the last year.	\$121		
Transaction costs	0.2 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$22		
Incidental costs taken under specific conditions				
Performance fees	There is no performance fee for this Product.	\$0		

How long should I hold it and can I take money out early?
