This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

MIROVA EUROPE ENVIRONMENTAL EQUITY FUND

is a sub-fund of MIROVA FUNDS (the "SICAV").

R/A (EUR) ISIN LU0914733059 - R/D (EUR) ISIN LU0914733133

Natixis Investment Managers International, part of the BPCE Group, is the Management Company of the Fund.

OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in companies providing solutions to address mainly environmental issues. The Sub-Fund will seek to invest in companies, listed on European stock exchanges, while systematically including Environmental, Social and Governance ("ESG") considerations, with financial performance measured against the MSCI Europe Net Dividends Reinvested Index over the recommended minimum investment period of 5 years

The Sub-Fund is actively managed. For indicative purposes only, the Sub-Fund's performance may be compared to the Benchmark. In practice, the portfolio of the Sub-Fund is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Sub-Fund's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.

The Benchmark can be used to determine the performance fee that will possibly be levied.

The Investment policy of the Sub-Fund is to invest in European equity securities of companies whose business activities include the development, production, promotion or marketing of technologies, services or products that contribute to environment protection. It mainly invests in European companies active in the renewable energy, transition energy, energy efficiency and natural resources management such as agricultural/food and water production cycle.

The implemented Socially Responsible Investment ("SRI") approach mainly combines systematic ESG thematic and "Best-In-Universe" approaches, complemented by sectoral exclusion and commitment approaches. The ESG approach of the Investment Manager is to prioritize investment in issuers contributing to the achievement of the UN SDGs and has therefore defined proprietary ESG analysis methodologies suited to each category of issuers which aims to assess the social and environmental impacts of each company in relation to the UN SDGs. It involves notably the evaluation of each company in respect of the following non-financial criteria: **Environmental criteria** (environmental impacts of energy generation, environmental design and recycling), **Social criteria** (employee health and safety practices, rights and working conditions within the supply chain) and **Governance criteria** (alignment of the company's governance with long-term vision, balance of the distribution of value, business ethics). The selected securities will all have been analysed and given an ESG rating by the Investment Manager. This SRI approach results in a rating upgrade compared to the average rating of the investable universe after eliminating at least 20% of the worst-rated securities. The analysis is largely based on qualitative and quantitative data provided by the companies themselves and is therefore dependent on the quality of this information. Although constantly improving, ESG reporting by companies is still very heterogeneous. Please refer to the section "Description of the extra-financial analysis and consideration of the ESG criteria" of the Prospectus for additional information on the ESG considerations.

The Sub-Fund may invest at least 80% of its net assets in European equity securities and up to 10% of its net asset in money market and cash instruments.

The Sub-Fund may use derivatives for hedging and efficient portfolio management purposes.

Income earned by the Sub-Fund is reinvested for accumulating Shares and distributed for distributing Shares.

Shareholders may redeem Shares on demand on any business day in Luxembourg at 13h30.
