POLICIES

Main investment exposure At least 67% gross equity exposure, either directly or through derivatives, to equities of companies that are domiciled, or carrying out the main part of their economic activity, in the US. At times such exposure may be obtained entirely through the use of derivatives and as a result the Sub-Fund may hold up to 100% of its assets in cash and cash equivalents. The Sub-Fund may be concentrated in a limited number of securities or sectors from time to time.

The Sub-Fund will typically hold long positions of up to 140%, and short positions (achieved through derivatives) of up to 115%, of net assets.

Net market exposure will be flexibly managed and will typically range from net short 30% to net long 80% depending on the Investment Manager's outlook.

At least 51% of assets are invested in companies with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

The Sub-Fund invests at least 10% of assets excluding cash, cash equivalents, Money Market Funds and derivatives for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Management Company's Website (www.jpmorganassetmanagement.lu).

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 90% of securities purchased.

Other investment exposures Canadian companies.

This Share Class seeks to minimise the effect of exchange rate fluctuations between the Sub-Fund's Base Currency and the Share Class Currency.

Redemption and Dealing Shares of the Sub-Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class does not pay dividends. Earned income is retained in the NAV.

Portfolio Transaction Costs A consequence of this investment strategy is that the volume of transactions and, therefore, transaction costs, are material. Portfolio transaction costs are paid from the assets of the Sub-Fund. They are additional to the charges set out in the Charges section. The chart in the Past Performance section shows the Sub-Fund's performance including portfolio transaction costs.
