What is this product?

Type

Eleva Absolute Return Europe Fund is a sub-fund of the SICAV « Eleva UCITS Fund »

Term

This Fund is open-ended.

Objectives

ELEVA Absolute Return Europe Fund (the 'Fund') seeks to achieve a positive absolute return over the medium term through capital growth by investing primarily in listed European equities and equity related securities on both a long and short basis following an active investment strategy.

The Fund will seek to achieve the investment objective through a directional long/short investment strategy. Using this strategy, the Fund will invest in or take both long and short exposures (through FDI) to principally listed and equity-related securities (which may include, but are not limited to, convertible securities) and warrants of issuers from any economic market capitalization.

The Fund will not invest more than 10% of its assets in Russian or Turkish equities or equity related securities.

The Fund is actively managed with no reference to a benchmark.

The Fund is a SRI Fund in that systematically and simultaneously integrates binding environmental, social and governance (ESG) criteria in the investment management process. It promotes a combination of ESG characteristics, and it is a product falling under Article 8 of SFDR. This Fund does not hold a SRI Label in France.

The investor's attention is drawn to the fact that his investment in the Fund does not generate a direct impact on the environment and society, but that the Fund seeks to select and invest in companies that meet the precise criteria defined in the investment policy.

The Fund may use Financial Derivative Instruments (instruments whose prices are dependent on one or more underlying assets 'FDIs') in order to reduce the possibility of financial losses or to achieve higher gains.

Custodian: The Funds assets are held with HSBC Continental Europe, Luxembourg and are segregated from the assets of other sub-funds of the Company.

Further information and price availability: Further information about the Company (including the current Prospectus and most recent Annual Report) is available in English, and information about the Fund and other Share Classes (including the latest prices of shares and translated versions of this document), are available free of charge on www.elevacapital.com or by making a written request to the Management Company, 32 rue de Monceau, 75008, Paris, France or by emailing info@elevacapital.com.

Intended retail investor

The Fund is suitable for absolute return minded investors seeking capital growth over at least a 5-year investment period who wish to gain exposure to investments of the type described in the investment policy described above. The Fund may not be suitable for investors outside the target market. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Additional risks: Market liquidity Risk, Counterparty Risk, Derivatives Risk, Directional Long/Short Strategy, Economic Dislocation Risk, Synthetic Short Sales Risk, ESG Risk Factors.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Eleva Capital S.A.S is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs EUR	744 EUR	2,816 EUR
Annual cost impact (*)	7.4%	5.3% per year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.0% before costs and 3.7% after costs.

Composition of Costs
