What is this Product?

Type This Product is a UCITS Fund. This Product is a Sub-Fund of a Luxembourg Société d'Investissement à Capital Variable. The Product is governed by Part I of the Luxembourg Law of 17 December 2010 as amended.

Term This Product has no specific maturity date. However, this Product might be dissolved or merged, in this case you would be informed by any appropriate means approved by the regulation.

Objectives The investment objective of Loomis Sayles U.S. Growth Equity Fund (the "Fund") is long-term growth of capital through an investment process that systematically includes Environmental, Social and Governance ("ESG") considerations. This Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

- The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the S&P 500 TR. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.
- The Fund invests primarily in U.S. companies and focuses on larger issuers. The Fund invests at least 80% of its total assets in equity securities of U.S. companies. The Fund focuses on stocks of large capitalisation companies, but the Fund may invest in companies of any size. The Fund is actively managed and normally invests across a wide range of sectors and industries. The Investment Manager employs a growth style of equity management that emphasises companies with sustainable competitive advantages, long-term structural growth drivers, attractive cash flow returns on invested capital, and management teams focused on creating long-term shareholder value.The Investment Manager aims to invest in companies whose shares are selling significantly below the Investment Manager's estimate of intrinsic value.
- The Fund's equity investments may include common stocks, preferred stocks and, on an ancillary basis, closed-ended real estate investment trusts ("REITS") and equity-related instruments such as warrants. The Fund may invest up to 20% of its total assets in other securities than those described above including equity-linked notes (i.e. debt instruments having a final pay-out based on the return of the underlying equity) and convertible bonds issued by U.S. companies as well as common stocks, preferred stocks, convertible bonds and other equity related instruments issued by non-U.S. companies traded on non-U.S. exchanges or as depositary receipts (i.e. negotiable securities traded on a local stock exchange representing equity issued by a foreign listed company) and certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect program. The Fund may invest no more than 10% of its net assets in undertakings for collective investment. The Investment Manager conducts a non-financial analysis on at least 90% of the Fund's net assets on an ongoing basis by selecting securities based on its conviction through a proprietary seven-step research framework structured around three key criteria: Quality, Growth and Valuation. ESG considerations are integrated at each step of the Investment Manager's process; however, the majority of material ESG considerations is embedded in the analysis of Quality criteria. Any company failing to meet the Quality criteria will be eliminated from the Fund's investment universe, regardless of the Growth or Valuation profile of the company. In addition, the Investment Manager excludes direct investments in issuers (i) deriving any portion of their total revenue from the production or distribution of thermal coal, cluster munitions, biological weapons, chemical weapons and (ii) deriving any portion of their total revenue from the production of and more than 20% of their total revenue from the distribution of tobacco products and civilian firearms.
- On an ancillary basis, the Fund may use derivatives for hedging and investment purposes.
- This hedged share class aims at hedging the net asset value against the fluctuation between the reference currency of the Fund and the Share class reference currency.
- Income earned by the Product is reinvested.
- **Shareholders may redeem Shares on demand on any business day in Luxembourg by 13h30**
- Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Intended retail investor The Product is suitable for investors who are looking for exposure to U.S. equity markets; are looking for a relatively concentrated portfolio; can afford to set aside capital for at least 5 years (long term horizon); can accept significant temporary losses, and can tolerate volatility.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	**5**	6	7

Lower Risk — Higher Risk

The risk indicator assumes you keep the Product for 5 years.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 5 out of 7, which is a medium-high risk class. This classification rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Other risks materially relevant to the Product not included in the summary risk indicator: none.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the Product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product and a suitable proxy over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years Example investment: EUR 10,000		**If you exit after 1 year**	**If you exit after 5 years**

(*) The scenario occurred for an investment (in reference to proxy: 100% Loomis Sayles U.S. Growth Equity Fund I/A (USD) and then 100% S&P 500 (C) TR $) between December 2017 and December 2022 for the unfavourable scenario, between May 2019 and May 2024 for the moderate scenario and between December 2016 and December 2021 for the favourable scenario.

What happens if Natixis Investment Managers International is unable to pay out?

The assets of the Product are held in safekeeping by Brown Brothers Harriman (Luxembourg) S.C.A, as the depositary of the Product. In the event of insolvency of Natixis Investment Managers International, the Product assets will not be affected. However, in the event of the Depositary's insolvency, there is a potential risk of financial loss. However, this risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from Product's assets.

There is an investor compensation or guarantee scheme in the case of default of the Depositary provided by law.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	577 EUR	1,537 EUR
Annual cost impact (*)	5.8%	2.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 14.5% before costs and 11.7% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the Product may charge which amount to 116 EUR. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		**If you exit after 1 year**

Exit costs	We do not charge an exit fee.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.80%	173 EUR
	The ongoing costs figure is based on expenses for the year ending in December 2024. This figure may vary from year to year.	
Transaction costs	0.04% of the value of your investment per year. *This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.*	4 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	None

An investor engaging in excessive trading or market timing practices may be subject to a levy of up to 2%.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

This duration corresponds to the period during which you must remain invested in the Product to obtain a potential return while minimizing the risk of losses. This duration is linked to the asset mix, the management objective, and the investment strategy of your Product.

You can request the sale of your Product everyday. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

How can I complain?
