## What is this product?

### Type

The product is a UCITS - Part 1 sub-fund of a SICAV under Luxembourg law.

### Term

This product is an open-ended fund without predefined maturity. For information on redemption possibilities please refer to section "How long should I hold it and can I take out my money early?". The product may be redeemed early in certain circumstances as set out in the sales prospectus. The TFC share class of DWS Invest CROCI Sectors Plus was launched in 2017.

### Objectives

The fund is actively managed. The fund is managed in reference to a benchmark. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. More ESG information is available in the sales prospectus and on the DWS website. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI World TR Net). In order to achieve this, the fund invests in shares issued by large companies in the United States, Europe and Japan, according to the CROCI methodology and the CROCI Sectors Strategy which selects ten shares with the lowest positive CROCI Economic Price Earnings Ratio ("CROCI Economic P/E") from each of the three sectors with the lowest median CROCI Economic P/Es. The sectors eligible for selection are: Communication Services, Consumer Discretionary, Consumer Staples, Health Care, Information Technology, Industrials, Materials, Utilities and Energy. The fund's approximately 30 shares are periodically reconstituted in accordance with the investment strategy's rules with the intention of equal weighting. When selecting investments, environmental and social aspects and the principles of good corporate governance (ESG aspects) are taken into consideration alongside the financial performance. CROCI is a registered trademark of DWS. CROCI Group is not responsible for the management of the fund or for any error or omission in the Strategy. The Strategy is licensed by the CROCI Group without any representations or warranties of any kind. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment opportunities. The portfolio is not necessarily expected to have a similar weighting to the benchmark. In regard to its benchmark, the sub-fund positioning can deviate significantly (e.g., by a positioning outside of the benchmark as well as a significant underweighting or overweighting) and the actual degree of freedom is typically relatively high. A deviation generally reflects the fund manager's evaluation of the specific market situation, which may lead to a defensive and closer or a more active and wider positioning compared to the benchmark. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of DWS Invest for which the prospectus and the periodic reports are prepared as a whole. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the prospectus for further details. Shares may in many cases be exchanged for shares in another share class of the same or another DWS Invest SICAV sub-fund. Details can be found in the "Exchange of shares" section of the sales prospectus. The depositary is State Street Bank International GmbH, Luxembourg Branch. More detailed information of this fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge online at [www.dws.com/fundinformation/](http://www.dws.com/fundinformation/). These documents are available in English or German. The documents as well as other information (including the latest share prices) are available free of charge.

### Intended retail investor

The sub-fund is intended for long term retail investors with basic knowledge/experience, who can bear losses. The sub-fund can be used for general capital accumulation.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and very poor market conditions will likely impact the capacity to pay you.

**The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The following risks could be of particular significance for the fund: Operational risks. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and a suitable benchmark over the last 12.00 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		7 years	
<b>Example Investment:</b>		10,000 EUR	
		<b>If you exit after 1 year</b>	<b>If you exit after 7 years</b>
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	2,120 EUR -78.8 %	2,050 EUR -20.3 %
<b>Unfavourable</b>	<b>What you might get back after costs</b> Average return each year	8,500 EUR -15.0 %	10,220 EUR 0.3 %
<b>Moderate</b>	<b>What you might get back after costs</b> Average return each year	11,420 EUR 14.2 %	20,750 EUR 11.0 %
<b>Favourable</b>	<b>What you might get back after costs</b> Average return each year	16,600 EUR 66.0 %	24,470 EUR 13.6 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. For the recommended holding period: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment with reference to MSCI World Net TR EUR between (Favourable: 30.09.2011-28.09.2018, Moderate: 31.05.2011-30.05.2018, Unfavourable: 30.12.2021-31.12.2022).

## What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Bank International GmbH, Luxembourg Branch securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10,000 EUR is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 7 years</b>
Total costs	92 EUR	945 EUR
Annual cost impact (*)	0.9 %	0.9 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.9% before costs and 11.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs
