

Brussels, 6.4.2022 C(2022) 1931 final

ANNEX 4

ANNEX

to the

Commission Delegated Regulation (EU) .../...

supplementing Regulation (EU) 2019/2088 of the European Parliament and of the Council with regard to regulatory technical standards specifying the details of the content and presentation of the information in relation to the principle of 'do no significant harm', specifying the content, methodologies and presentation of information in relation to sustainability indicators and adverse sustainability impacts, and the content and presentation of the information in relation to the promotion of environmental or social characteristics and sustainable investment objectives in precontractual documents, on websites and in periodic reports

EN EN

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Nagelmackers Private Fund Balanced

Legal entity identifier: 549300ZR88RMFV4HSI93

Environmental and/or social characteristics

| • | nable investment objective? [tick and fill in as relevant, |
|--|--|
| the percentage figure represents the minimum comm Yes | No |
| in economic activities that qualify as environmental by sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective |
| It made sustainable investments with a social objective:% | It promoted E/S characteristics, but did not make any sustainable investments |

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product

are attained.

Sustainable

practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852,

establishing a list of environmentally sustainable

economic activities. That Regulation does not lay down a list of socially sustainable

economic activities.

investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable

investment means an investment in an

economic activity
that contributes to
an environmental or
social objective,
provided that the
investment does not
significantly harm
any environmental or
social objective and
that the investee
companies follow
good governance

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The sustainability indicators chosen reflect the environmental and social characteristics promoted by the financial product but have not yet been identified in the prospectus that was applicable during the reporting period.

The characteristics promoted by this financial product during the reporting period consisted of investing in companies and/or sovereigns with a strong ESG rating, directly or indirectly through

UCIs, as defined by Bank Nagelmackers' proprietary ESG scoring methodology, while excluding issuers involved in controversial activities as well as those not adhering to global norms or that are subject to international sanctions or embargos.

The objectives were met through realizing the following binding elements:

- At least 65% of UCIs, including ETFs, in which the product invested promoted environmental and/or social characteristics (art.8) and/or have a sustainable investment objective (art. 9) within the meaning of Regulation (EU) 2019/2088; or detained the Febelfin Towards Sustainability Label; or a combination thereof.
- All direct investments in companies and sovereigns complied with the following:
 - Zero exposure to companies not adhering to global norms such as repeatedly violating one or more of the ten principles of the UNGC without taking appropriate measures to rectify the violation
 - Zero exposure to companies involved in the production of controversial weapons and entities under embargo or subject to international sanctions by the UN, United States or European Union. Exclusion of sovereign issuers that are systematically corrupt and/or neglect basic social and political rights and/or subject to UN Security Council sanctions
 - Zero exposure to companies involved in controversial activities such as the production of civil firearms, nuclear weapons, conventional weapons as well as any material exposure towards tobacco, adult entertainment, gambling and alcohol.
 - Zero exposure to issuers that rank in the lowest three deciles as defined in Bank Nagelmackers' proprietary ESG Scoring Model.

How did the sustainability indicators perform?

The performance was measured using SFDR Principal Adverse Impact (PAI) indicators:

| Adverse sustainability indicator | | = | Metric | Impact 2022 | Impact [year n-1] ¹ | Actions taken, and actions planned and targets set for the next reference period |
|----------------------------------|----|---------------------|--|---------------------------------------|--------------------------------|--|
| Greenhouse gas | 1. | GHG emissions | Scope 1 GHG Emissions | 7.049,13 (tCO2e) | NA | GHG emissions and carbon footprint combined have a high |
| emissions | | | Scope 2 GHG Emissions | 1.946,36 (tCO2e) | NA | materiality within environmental factors in Bank Nagelmackers' ESG |
| | | | Scope 3 GHG Emissions | 66.961,24 (tCO2e) | NA | Scoring Model. |
| | | | Total GHG Emissions | 75.948,65 (tCO2e) | NA | |
| | 2. | Carbon footprint | • | 378,35 (tCO2e/million EUR invested) | NA | |
| | 3. | | • | 904,63 (tCO2e/million EUR revenue) | NA | GHG Intensity has the highest materiality of all environmental factors in Bank Nagelmackers' ESG Scoring Model. |
| | 4. | companies | Share of investments in companies active in the fossil fuel sector | | NA | Fossil fuel sector exposure has a high materiality within environmental factors in Bank Nagelmackers' ESG Scoring Model. |

¹ Bank Nagelmackers has started measuring performance on Principal Adverse Impact as of 31 March 2022. The first results will be published in 2023. The first comparison versus the previous year will therefore be available in 2024.

| fossil fuel sector | | | |
|--|-----------------------|---|--|
| non- renewable energy consumptio n and production | renewable energy | 76,03 (Percentage of total energy sources in non- renewables) | Incorporated in Bank Nagelmackers' ESG Scoring Model with a medium materiality within environmental factors. |
| 6. Energy consumptio n intensity per high impact climate sector | impact climate sector | | Incorporated in Bank Nagelmackers' ESG Scoring Model with a low materiality within environmental factors. |

...and compared to previous periods?

Not applicable as this is the first reporting period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. This financial product does not seek to make sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. This financial product does not seek to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. This financial product does not seek to make sustainable investments

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. This financial product does not seek to make sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes. Principal adverse impacts on sustainability factors are considered when selecting investment instruments through a combination of negative screening and ESG integration based on an internal ESG scoring model on issuers.

For direct investments in investee companies and sovereigns as well as through investments in UCIs managed by Bank Nagelmackers nv, we consider all mandatory PAI with respect to climate & environment and social and employee matters with the exception of real estate assets.

On top of that, Bank Nagelmackers considers additional PAI with respect to companies' carbon emission reduction initiatives, incidents of discrimination and lack of anti-anticorruption and anti-bribery policies. As for sovereign issuers, additional social factors such as the freedom of expression and governance factors (corruption, non-cooperative tax jurisdictions, political stability, rule of law) are also considered. A full list of PAI considered is available below.

Investments in external UCIs are subject to a due diligence as part of the fund selection process ('7P Methodology'). It includes an assessment of the principles for sustainable investment and ESG performance based on PAI reported by financial market participants or through data suppliers. External fund units may contain investments that Bank Nagelmackers would otherwise exclude based on the criteria above. In these cases, Bank Nagelmackers engages with the external manager and strives to find common values.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31/12/2022

| Largest investments | Sector | % Assets | Country |
|---|--------|----------|------------|
| iShares MSCI Europe ESG Enhanced UCITS ETF | - | 9,99 | Ireland |
| UBS (Irl) ETF Plc - MSCI USA Value UCITS ETF | - | 6,89 | Ireland |

| iShares Edge MSCI World MinimumVolatility ESG | - | 5,98 | Ireland |
| CASH | - | 5,39 | Belgium |
| Nagelmackers Inst European Equity Large Cap N | - | 5,34 | Belgium |
| NN (L) Emerging Markets Enhanced Index | - | 5,09 | Luxembourg |
| Lyxor Epsilon Global Trend I EUR Sustainable Equity | - | 4,54 | Ireland |

What was the proportion of sustainability-related investments?

Not applicable. This financial product does not seek to make sustainable investments.

Asset allocation describes the share of investments in specific assets.

What vas the asset allocation?

At least 65% of the UCIs, including ETFs, in which the financial product invests must:

- Milieu- en/of sociale kenmerken bevorderen (art. 8) en/of een duurzame beleggingsdoelstelling hebben (art. 9) in de zin van Verordening (EU) 2019/2088; of
- Het Febelfin Towards Sustainability Label behouden; of
- Een combinatie daarvan

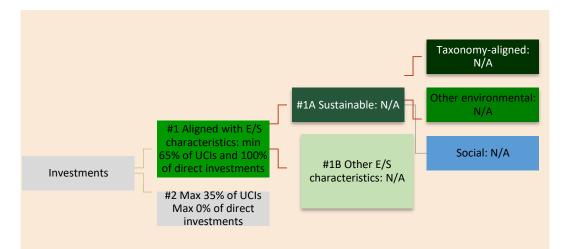

Voor de resterende 35% van de ICB's die niet aan de bovengenoemde eisen voldoen, moet ten minste het volgende in acht worden genomen:

- Uitsluiting van entiteiten waarop een embargo of internationale sancties van de VN, de Verenigde Staten of de EU van toepassing zijn.
- Uitsluiting van bedrijven die betrokken zijn bij de productie van controversiële wapens of wapenonderdelen (waaronder clustermunitie, antipersoonsmijnen en verarmd uranium) overeenkomstig de Belgische wetgeving (wet Mahoux).

Om te voldoen aan de milieu- en sociale kenmerken die dit financieel product voorstaat, moeten de directe investeringen voldoen aan de volgende uitsluitingen:

- Uitsluiting van ondernemingen die zich niet houden aan mondiale normen, zoals het herhaaldelijk schenden van een of meer van de tien beginselen van de UNGC zonder passende maatregelen te nemen om de schending ongedaan te maken.
- Uitsluiting van ondernemingen die betrokken zijn bij de productie van controversiële wapens en entiteiten waarop een embargo rust of waartegen door de VN, de Verenigde Staten of de Europese Unie internationale sancties zijn ingesteld. Uitsluiting van soevereine emittenten die systematisch corrupt zijn en/of fundamentele sociale en politieke rechten veronachtzamen en/of aan sancties van de VN-Veiligheidsraad onderworpen zijn.
- Uitsluiting van ondernemingen die betrokken zijn bij controversiële activiteiten, zoals de productie van civiele vuurwapens, kernwapens en conventionele wapens, alsmede elke materiële blootstelling aan tabak, amusement voor volwassenen, gokken en alcohol.
- Uitsluiting van emittenten die in de laagste drie decielen zitten zoals gedefinieerd in het ESG-scoringsmodel van Bank Nagelmackers.

- Bank Nagelmackers reduced at least 20% of this financial product's investment universe prior to the application of the investment strategy.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#20ther includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

| Sector | weight |
|------------------------|--------|
| Financials | 15.09% |
| Information Technology | 13.69% |
| Health Care | 10.95% |
| Government Bonds | 9.38% |
| Consumer Discretionary | 9.27% |
| Industrials | 8.85% |
| Consumer Staples | 6.65% |
| Communication Services | 4.49% |
| Real Estate | 4.05% |
| Materials | 3.52% |

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

| Energy | 3.01% |
|-----------|-------|
| Utilities | 2.62% |
| - | 0.3% |

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. This financial product does not seek to make sustainable investments and makes no commitment to align its investments with the European Taxonomy.

- What was the share of investments made in transitional and enabling activities? Not applicable. This financial product does not seek to make sustainable investments or invest in enabling and/or transitional activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This financial product does not seek to make investments that were aligned with EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. This financial product does not seek to make sustainable investments with an environmental objective along the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. This financial product does not seek to make socially sustainable investments along the EU Taxonomy.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" were mainly investments in UCIs that do not promote environmental and/or social characteristics nor have a sustainable investment objective within the meaning of Regulation (EU) 2019/2088 nor detain a Towards Sustainability Label.

The financial product invested in these UCIs to achieve other investment objectives, including portfolio diversification, desired factor exposures (e.g. value) or for risk hedging purposes (e.g. hedge fund strategies).

To assure minimum environmental or social safeguards, these UCIs must comply with the following requirements, also described in the question regarding Asset Allocation:

- Exclusion of entities under embargo or international sanctions emposed by the UN, the United States of America or the EU
- Exclusion of companies involved in the production of controversial weapons or weapon parts (including cluster munitions, antipersonnel mines and depleted uranium) in accordance to Belgian legislation (Mahoux Act)

Furthermore, investments in UCIs are subject to a due diligence as part of the fund selection process ('7P Methodology'). It includes an assessment of the principles for sustainable investment and ESG performance based on the principle adverse impacts reported by financial market participants or through data suppliers. External fund units may contain investments that Bank Nagelmackers would otherwise exclude based on the criteria above. In these cases, Bank Nagelmackers engages with the external manager and strives to find common values.

"Other" investments also include liquidities which are held for liquidity management purposes

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As mentioned in the answer to question 1, the financial product promoted environmental and social characteristics during the reporting period through the following actions:

For direct investments:

- Exclusions of companies involved in controversial weapons, as well as sovereign issuers that
 are systematically corrupt, severy neglect basic social and political rights or that are subject
 to UN sanctions or sanctions imposed by the United States or European Community. Entities
 subject to financial sanctions under the EU Consolidated Financial Sanctions List are also
 excluded from investment.
- Negative screenings based on companies' involvement in controversial activities. The financial product did not invest in issuers, in accordance to Bank Nagelmackers' Exclusion Policy, that realised a certain percentage of their revenues from activities related to:
 - Civilian Firearms
 - Nuclear Weapons
 - Conventional Weapons
 - o Tobacco & Alcohol
 - o Adult Entertainment & Gambling
- Norms based screening on UNGC violations

For UCIs:

At least 65% of UCIs, including ETFs, in which the product invested, promoted environmental and/or social characteristics (art.8) and/or have a sustainable investment objective (art. 9) within the meaning of Regulation (EU) 2019/2088; or detained the Febelfin Towards Sustainability Label; or a combination thereof.

For both direct investments and UCIs:

- ESG integration based on an internal scoring model on issuers which takes into account the principle adverse impacts through which the lowest rated issuers are excluded from investment.
- The financial product reduced at least 20% of its investment universe.

How did this financial product perform compared to the reference benchmark?

Not applicable. This financial product does not use a reference benchmark for the purpose of determining alignment with the promoted environmental and/or social characteristics.

- How does the reference benchmark differ from a broad market index?
 Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
 Not applicable.
- How did this financial product perform compared with the broad market index?
 Not applicable.
