General information

The annual reports, including audited financial statements, and the unaudited semi-annual reports are available to shareholders free of charge at the registered office of the SICAV, from the Depositary Bank and from any Paying Agent or Representative in the countries in which the SICAV is marketed i.e.: Austria, Belgium (only for the share classes authorised by Belgian's Financial Services and Markets Authority), Chile, Cyprus, Denmark (only for the sub-funds authorised by Denmark's Financial Supervisory Authority), Spain (only for the share classes authorised for sale by the "*Comisión Nacional del Mercado de Valores*"), Finland, France, Germany, Greece (only for the sub-funds authorised by the Hellenic Capital Market Commission ("HCMC")), Hong Kong (only for the sub-funds authorised by the Securities and Futures Commission ("SFC")), Ireland, Italy (only for the share classes authorised by the *Commissione Nazionale per le Società e la Borsa* ("CONSOB")) and the "Banca d'Italia"), Liechtenstein, Luxembourg, Macao (only for the sub-funds authorised by the Macau Monetary Authority ("MMA")), Malta, the Netherlands, Norway, Peru, Portugal, the United Kingdom, Singapore, South Korea, Sweden, Switzerland, Taiwan (only for those sub-funds registered in Taiwan) and United Arab Emirates (only for those sub-funds registered in United Arab Emirates).

All other published financial information, such as the net asset value per share of the SICAV and details of any suspension of the calculation of the net asset value, is available to the public at the registered office of the SICAV.

A detailed schedule of changes in the securities portfolios for all the sub-funds for the year ended September 30, 2023, is available free of charge upon request at the registered office of the SICAV and from the representative in each country in which the SICAV is authorised for distribution.

Sustainable Finance Disclosure Regulation ("SFDR")

In accordance with Article 50 (2) of Commission Delegated Regulation (EU) 2022/1288, a description of the following is included in the corresponding SFDR appendix.

- For sub-funds categorized as financial products as referred to in Article 8 of SFDR, that promote, among other characteristics, environmental or social characteristics, the extent to which environmental or social characteristics are met;
- For sub-funds categorized as financial products as referred to in Article 9 of SFDR, the overall sustainability-related impact of such financial product by means of relevant sustainability indicators.

For any other sub-funds that are not categorized under Article 8 or Article 9 of SFDR, the investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.

1. Marketing / Distribution in Switzerland

Representative

The Swiss representative is Pictet Asset Management SA, 60, route des Acacias, CH-1211 Geneva 73.

Paying agent

The paying agent in Switzerland is Banque Pictet & Cie SA., with registered office at 60, route des Acacias, CH-1211 Geneva 73.

The following sub-fund is not authorised for distribution to the public in Switzerland:

- Pictet - Corto Europe Long Short.

Place of distribution of reference documents

The full prospectus, the Key Information Documents ("KIDs"), the articles of incorporation, the detailed schedule of changes in the securities portfolios for the period under review and the annual report, including the audited financial statements and unaudited semi-annual reports may be obtained free of charge from the representative.

Publications

Information regarding foreign collective investments is published on Swiss Fund Data AG. (www.swissfunddata.ch)

The subscription and redemption prices of every share class, as well as the net asset value followed by the note "excluding fees", are published at the time of each subscription and redemption of shares. The prices are published each business day on Swiss Fund Data AG. (www.swissfunddata.ch)

Payment of trailer fees and rebates

1. The Management Company and its representatives may pay trailer fees as payment for distributing SICAV shares in Switzerland or from Switzerland. This payment can cover the following services:
 - Implementation of processes for subscribing and holding or acting as Depositary Bank for shares;
 - Storage and distribution of marketing and legal documents;
 - Sending or provision of publications and notices;
 - Analysis and fulfilment of due diligence obligations in areas such as money laundering, knowing your client and distribution restrictions;
 - Provision of information and answers to investors' specific questions;
 - Production of fund analysis material;
 - Centralised investor relationship management;
 - Training of client advisers on collective investment schemes;

Distribution abroad (continued)

- Selection, appointment and monitoring of sub-distributors.

Trailer fees are not considered to be rebates, even if they are fully or partially repaid to investors. The beneficiaries of trailer fees undertake to ensure transparent publication and provide free and spontaneous information to investors on the payment they may receive for distribution. On request, beneficiaries provide information on the amounts actually received for the distribution of collective investment schemes to investors.

2. The Management Company and its representatives may pay rebates directly to investors, upon request, under the scope of distribution in Switzerland or from Switzerland. The rebates will serve to reduce the fees or costs borne by the investors concerned. Rebates are permitted subject to the following points:

- they are paid from the fees of the Management Company and are therefore not deducted from the assets of the SICAV;
- they are granted on the basis of objective criteria;
- they are granted with the same timing conditions and to the same extent to all investors fulfilling the objective criteria and requesting rebates.

Rebates are granted by the Management Company on the basis of one or more of the following objective criteria:

- Applicable regulatory requirements;
- The investment volume for a share class, in a fund or in a product range of the Pictet group;
- The percentage that the investment volume represents with respect to the size of the SICAV or the share class in question;
- The amount of fees incurred;
- The investment date and/or the expected investment horizon;
- Support in the SICAV launch phase.

The quantitative criteria may be considered to be met by the total investments held by investors using the same investment adviser.

The Management Company provides information related to rebates free of charge on request from the investor.

Place of execution and jurisdiction

The place of execution and jurisdiction is the registered office of the representative of the SICAV's shares distributed in or from Switzerland.

2. Additional information for investors in Germany

No sales notification pursuant to § 310 of the German Investment Code (Kapitalanlagegesetzbuch) has been issued in Germany for the following sub-fund, so that shares of this sub-fund may not be publicly distributed to investors within the scope of the German Investment Code:

- Pictet - Corto Europe Long Short

Provision of facilities to investors:

FundPartner Solutions (Europe) S.A.
15 Avenue J. F.Kennedy, L- 1855 Luxembourg,

- Provides investors in Germany with facilities to perform the following functions in accordance with Article 92(1) of Directive 2009/65/EC, as amended by Directive (EU) 2019/1160:
- Process subscription, redemption and repurchase orders and make payments to German investors

Pictet Asset Management (Europe) S.A.
L-2226 Luxembourg, 6B, rue du Fort Niedergrünwald
<https://eifs.lu/pictetam>

- Provides investors in Germany with facilities to perform the following tasks in accordance with Article provides investors in Germany with facilities to perform the following task in accordance with Article 92(1) of Directive 2009/65/EC, as amended by Directive (EU) 2019/1160:
- Provide information to investors on how to make requests for redemption and conversion of units and how redemption and repurchase proceeds are paid
- Facilitate the handling of information and access to procedures and arrangements relating to the exercise of investors' rights arising from their investment (investor complaints)
- Provide investors with the necessary information and documentation for inspection and obtaining copies
- Provide investors with information relevant to the tasks performed by the institutions in a durable medium

Documentation and information:

The current version of the full prospectus, the Key Information Documents ("KIDs"), the articles of association of the SICAV and the annual and semi-annual reports are available free of charge from the management company. The issue, redemption and conversion prices of the shares and all other notices to shareholders are also available at the facilities.

Distribution abroad (continued)

In addition, the following documents are available for inspection at the institutions:

- The management agreement between the SICAV and the Management Company;
- The custodian bank agreement between Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg* and the SICAV.

Furthermore, the issue and redemption prices are published on each trading day in the "Börsen-Zeitung". All notifications to shareholders are sent free of charge to shareholders in the Federal Republic of Germany by mail. In addition, notifications to shareholders will be sent in the following cases pursuant to Section 298 (2) of the German Investment Code (Kapitalanlagegesetzbuch - KAGB) will be published on the Fund's website at <https://www.am.pictet/>:

- Suspension of the redemption of units
- Termination of the management of the fund or its liquidation
- Any amendments to the Articles of Incorporation that are incompatible with the previous investment principles, changes to material investor rights to the detriment of investors, or changes to the detriment of investors that affect remuneration and reimbursement of expenses that may be paid or incurred out of the Company Asset pooling
- Merger of funds
- Conversion of a fund into a feeder fund or change in a master fund

Any complaints should first be addressed to the Head of Compliance of the Management Company, i.e. Pictet Asset Management (Europe) S.A., 6B, rue du Fort Niedergrünewald, L-2226 Luxembourg, Grand Duchy of Luxembourg. The details of the responsible investment policy are available at

<https://am.pictet/-/media/pam/pam-common-gallery/pictet-asset-management/responsible-investment-policy.pdf>, and the procedure for the resolution of complaints by the management company and the details of the procedure for the out-of-court resolution of complaints with the CSSF are available at <https://am.pictet/en/luxembourg/articles/complaint-resolution-procedure>. A copy of these documents is also available free of charge upon request.

3. Facilities for investors in Liechtenstein

LGT Bank AG
Herrengasse 12
FL-9490 Vaduz

Distribution abroad (continued)

The following sub-funds are not authorised for distribution to the public in Liechtenstein:

- Pictet - Corto Europe Long Short
- Pictet - Global Equities Diversified Alpha
- Pictet - Emerging Markets Multi Asset
- Pictet - Strategic Credit

The current prospectus, the Key Information Documents ("KIDs"), the Articles of Incorporation and the annual report, including the audited financial statements and unaudited semi-annual reports are available free of charge from the LGT Bank AG in Liechtenstein. Any notices and amendments to the current prospectus and the Articles of Incorporation must be published in a Liechtenstein newspaper, the "Liechtensteiner Vaterland".

The subscription and redemption prices of the shares of the SICAV shall be published at least twice per month in a Liechtenstein newspaper, the "Liechtensteiner Vaterland".

The place of execution and jurisdiction for shares distributed in Liechtenstein is Vaduz.

4. Paying Agent in Belgium

CACEIS Belgium
Belgian stock brokers
Avenue du Port/Havenlaan, 86C Bte 320
B-1000 Brussels
Tel. : (+32) 2/209.26.00
Fax : (+32) 2/209.26.01
VAT number: 0460.019.728.

5. Facilities for investors in Austria

Paying and information agent

Raiffeisen Bank International AG
Am Stadtpark 9
A-1030 Vienna

Applications for the redemption of shares of the SICAV may be sent to Raiffeisen Bank International AG which will arrange for the processing of the redemptions and the payment of redemption proceeds as well as other payments from the SICAV to Austrian shareholders, at their request, in collaboration with the SICAV and the Depositary Bank.

Distribution abroad (continued)

The latest version of the prospectus including the addendum for Austrian investors, the Key Information Documents ("KIDs"), the annual reports report, including the audited financial statements and unaudited semi-annual reports, the articles of incorporation of the SICAV as well as the subscription and redemption prices of the shares of the SICAV, may be obtained from Raiffeisen Bank International AG, where other available documents, if provided for that purpose, may also be consulted.

The net asset values of the sub-funds and share classes published in Luxembourg shall also be published in Austria in the daily newspaper "Der Standard".

The following sub-fund is not authorised for distribution to the public in Austria:

- Pictet - Corto Europe Long Short.

SICAV's tax consultant in Austria

Deloitte Exinger GmbH
Renngasse 1/Freyung
P.O. Box 18
A-1013 Vienna

6. Taxation

Shareholders are invited to contact their tax advisor in order to obtain information regarding the taxation applicable to their investment in their country of residence or in any other country concerned.

Economic and financial conditions

The past 12 months ended on a positive note for risk assets after one of the toughest periods for investors on record. The renewed mood of confidence resulted from several factors. In macro terms, the US economy is heading for a soft landing, although several economists had been predicting a recession. American shoppers have continued spending, encouraged by the excess savings stored up during the pandemic and by solid wage rises. The job market has been more resilient than expected, which also helped to lower the unemployment rate to one of its lowest levels ever, at below 4%. The firm state of the economy was reflected in the GDP reading for the second quarter, which showed growth of 2.1% in annualised terms. The slowdown in inflation also brought some relief. Price indices in most developed countries stopped appreciating towards the end of last year and then started to slow, enabling rate-setters to ease off in the monetary tightening stakes. Even so, recent policy statements have hinted that central banks are unsure about when to actually stop tightening, simply because inflation is still above target. The latest numbers, taken from August, point to inflation of 5.2% in the Eurozone, 6.7% in the UK and 3.7% in the US. To complete our round-up, we look back to March, when monetary tightening measures by the Fed and other major central banks sparked turmoil in some corners of the banking industry, inviting comparisons with the global credit crunch that had undermined financial markets in 2008. Two large US banks went bust (the failure of Silicon Valley Bank was the second-biggest insolvency in the US ever), while the Swiss banking regulator organised a shotgun wedding for Credit Suisse, bringing the curtain down on this illustrious bank's 166-year history. The fears then abated quite quickly, helped by emergency money from US and other authorities.

The behaviour of financial markets calls for several observations. The period ended on a highly positive note for equities. In local-currency terms, the MSCI World index rose by 20.4%, primarily due to a 17.6% increase in the price/earnings multiple. Regionally, two markets stood out from the pack. Japan outperformed everyone else, putting on a massive 29.8%, with the Nikkei and Topix reaching 33-year highs. A solid economic recovery, a weak yen and moderate inflation worked together to brighten the outlook for Japan. Inflows of funds from foreign investors were also notably high during the period. The US market (+21.0%) gained from its hefty weighting in large caps, driven higher by the recent enthusiasm for AI as an investment theme. But a peek below the surface reveals a less rosy scenario. The equally-weighted S&P 500 (SPW), which strips out the impact of the largest groups, was up by a not-so-impressive 13.6%. At the other end of the spectrum, emerging markets lagged behind (+10.9%), especially Chinese equities (-0.6%). Renewed fears surrounding the Chinese property sector dented confidence despite a raft of new stimulus measures aimed at rebalancing the property market. In terms of investment style, unlike in the prior period, growth stocks (+24.8%) soundly beat their value counterparts (+15.8%). By business sector, 9 of 11 sectors ended with positive figures. Tech (+36.5%) and consumer discretionary (+25.4%) finished up top of the table. Oil stocks gained from the higher price of the Brent barrel (+12.0%). Losses were recorded in sectors sensitive to rising yields: real estate (-1.3%) and utilities (-1.2%).

Government bond yields soared in the fixed income space. In the US, the Fed's warning of higher interest rates for longer pushed the benchmark 10-year Treasury note above 4.5%, its highest level since 2007. The rise in bond yields was also fuelled by the prospect of a flood of new paper being issued on the market to fund the budget deficit (8% of GDP). Similar trends were visible in France, Germany and even Japan, where in each case yields peaked in the course of 2023. Responding to this context, developed-economy sovereign bonds in local-currency terms performed in the red (BofAML Euro Govt: -2.2%, BofAML US Govt: -1.0%). The solid showing by risk assets coaxed investors into positioning inside credit and emerging-market debt (BofAML Global High Yield: +10.8%; ML Global Corporate: +4.0%; JPM EMBI USD: +10.0%; ML GBI-EM: +13.1%).

Management report (continued)

Over the period, all alternative investment segments posted positive performances. Oil prices rose substantially, which had a positive bearing on the commodity index (S&P GSCI: +10.9%). Gold (+10.7%) was first of all lifted by strong demand, attaining a near all-time high in May (USD2060). But it then retreated under the combined influence of dollar appreciation and the uptrend in real yields. Despite the supportive conditions, hedge funds (HFRX Global Index) did not make much headway, adding just 1.7%.

Established by the Directors of the Management Company.

October 2023

Approved by the Board of Directors of the SICAV.

Report of the Réviseur d'Entreprises Agréé / Auditor's report

To the Shareholders of

Pictet
(Société d'Investissement à Capital Variable de droit Luxembourgeois)
15, avenue J.F. Kennedy
L-1855 Luxembourg

Opinion

We have audited the financial statements of Pictet (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at September 30, 2023, the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the SICAV and of each of its sub-funds as at September 30, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Emphasis of matter

We draw attention to Note 22 to the financial statements, which describes the decisions taken by the Board of Directors of the SICAV, in the context of the conflict between Russia and Ukraine, to value at zero the Russian securities in local and hard currency together with RUB cash and deposit accounts and to suspend the calculation of the net asset value, the subscriptions, the redemptions of shares, as well as to waive the management fees of the sub-fund Pictet - Russian Equities as from February 28, 2022.

Our opinion is not modified in respect of this matter.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Report of the Réviseur d'Entreprises Agréé / Auditor's report (continued)

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the SICAV for the Financial Statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the Réviseur d'Entreprises Agréé for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the SICAV.

Report of the Réviseur d'Entreprises Agréé / Auditor's report (continued)

- Conclude on the appropriateness the Board of Directors of the SICAV's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. General

Pictet (the "SICAV") is an Open-ended Investment Company ("Société d'Investissement à Capital Variable") governed by Luxembourg law, subject to the provisions of Part I of the amended law of December 17, 2010 governing Undertakings for Collective Investment in Transferable Securities (the "2010 Law").

The SICAV was incorporated for an indefinite period on September 20, 1991, under the name Pictet Umbrella Fund and its articles of incorporation were published in the "Mémorial C, Recueil des Sociétés et Associations du Grand Duché de Luxembourg" on October 29, 1991. The Articles of association were amended for the last time by notarial deed on January 9, 2019 and published in the "Recueil des Sociétés et Associations du Grand Duché de Luxembourg" on March 7, 2019.

The SICAV is registered in the Luxembourg Trade and Companies Register under No. B38034.

Pictet Asset Management (Europe) S.A., a public limited company (société anonyme) with registered office at 6B, rue du Fort Niedergruenewald, L-2226 Luxembourg, was appointed management company of the SICAV as of December 8, 2005. It is a management company within the meaning of chapter 15 of the 2010 Law.

Significant events

A new sub-fund Pictet - ReGeneration has been launched on December 16, 2022.

Notes to the financial statements as at September 30, 2023 (continued)

On January 11, 2023, the sub-fund Pictet - Chinese Local Currency Debt changed its currency from CNH to CNY with the exchange rate at that date (1 CNH = 0.99878856 CNY).

A new sub-fund Pictet - China Environmental Opportunities has been launched on March 31, 2023.

A new sub-fund Pictet - Short-Term Money Market GBP has been launched on May 2, 2023.

New prospectuses came into force in January, February, August and September 2023.

Share classes

Classes of shares offered to investors are presented in the annexes of the prospectus of the SICAV.

All the sub-funds constitute the SICAV. The net assets of each sub-fund are represented by shares which may be divided into different share classes. All the shares representing the assets of a sub-fund form a class of shares. Where classes of shares are issued, their specificities are detailed in the annexes of the prospectus of the SICAV.

The Board of Directors of the SICAV may decide to create several share classes for each sub-fund, whose assets will be invested according to the specific investment policy of the relevant sub-fund, but where the share classes may differ by specific subscription and/or redemption fee structures, currency risk hedging policies, distribution policies and/or management or investment advisory fees or by any other particularities applicable to each class. Where applicable, this information is provided in the current prospectus of the SICAV.

Master feeder structure

Pictet - Global Equities Diversified Alpha

The Pictet - Global Equities Diversified Alpha sub-fund acts as Feeder Fund for the Pictet TR - Diversified Alpha sub-fund (the "Master Fund") and invests at least 85% of its assets in Class I EUR shares in the Master Fund.

As at September 30, 2023, the percentage of ownership share of the Master Fund is 0.66%.

As at September 30, 2023, the annualised total expense ratios of the sub-fund Pictet - Global Equities Diversified Alpha are as follows:

CLASS	ANNUALISED TER INCLUDING PERFORMANCE FEES	ANNUALISED TER EXCLUDING PERFORMANCE FEES	SYNTHETIC TER
I EUR	0.14 %	0.14 %	0.14 %
I CHF	0.14 %	0.14 %	0.14 %
I USD	0.12 %	0.12 %	0.12 %
Z EUR	0.03 %	0.03 %	0.03 %

Notes to the financial statements as at September 30, 2023 (continued)

The total expense ratio (including performance fees) of the share class I EUR of the Master Fund is 1.52 %.

Pictet - Corto Europe Long Short

The Pictet - Corto Europe Long Short sub-fund acts as Feeder Fund for the Pictet TR - Corto Europe sub-fund (the "Master Fund") and invests at least 85% of its assets in Class M EUR shares in the Master Fund.

As at September 30, 2023, the percentage of ownership share of the Master Fund is 21.54%.

As at September 30, 2023, the annualised total expense ratios of the sub-fund Pictet - Corto Europe Long Short are as follows:

CLASS	ANNUALISED TER INCLUDING PERFORMANCE FEES	ANNUALISED TER EXCLUDING PERFORMANCE FEES	SYNTHETIC TER
P EUR	1.68 %	1.68 %	1.68 %
I EUR	1.19 %	1.19 %	1.19 %
R EUR	2.09 %	2.09%	2.09 %

The total expense ratio (including performance fees) of the share class M EUR of the Master Fund is 0.30 %.

Pooling

The SICAV makes use of pooling for both the purpose of efficient management of assets and for technical reasons linked to the accounting of the performance fees and the hedging of the exchange risk for its hedged share classes denominated in currencies other than the reference currency of the sub-funds. Such pooling is set-up as a "pool-feeder" structure.

Pooling - Efficient management of assets

For the purpose of efficient management and if the investment policies of the sub-funds so allow, the Board of Directors of the Management Company may decide to co-manage some or all of the assets of certain sub-funds of the SICAV. In this case, the assets from different sub-funds will be jointly managed using the technique mentioned above. Assets that are co-managed are referred to using the term "pool". These pools are only used for internal management purposes. They do not constitute distinct legal entities and are not directly accessible to investors. Each co-managed sub-fund will have its own assets allocated to it.

When the assets of a sub-fund are managed according to this technique, the assets initially attributable to each co-managed sub-fund are determined according to their initial contribution to the pool. Subsequently, the composition of these assets shall vary according to the contributions or withdrawals made by these sub-funds.

This apportionment system applies to each investment line of the pool. Additional investments made on behalf of the co-managed sub-funds are therefore allocated to these sub-funds according to their respective entitlements, while assets sold are similarly deducted from the assets attributable to each of the co-managed sub-funds.

All banking transactions involved in the running of the sub-fund (dividends, interest, non-contractual fees, expenses) are accounted for in the pool and reassigned for accounting to each of the sub-funds on a pro rata basis on the day the transactions are recorded (provisions for liabilities, bank recording of income and/or expenses). On the other hand, contractual fees (depository, administration and management fees, etc.) are accounted for directly in the respective sub-funds.

The assets and liabilities attributable to each sub-fund are identifiable at any given moment.

The pooling method complies with the investment policy of each of the sub-funds concerned.

The pooling process respects the investment policy of each sub-fund concerned.

The realised and/or unrealised gains/losses on investments are recorded in the pool in the reference currency of the said pool. They are then recorded in the sub-fund (which may have a different reference currency than that of the pool) on the basis of its participation in the pool using the exchange rate in force on the Net Asset Value ("NAV") calculation day.

The statement of net assets and the statement of investments and other net assets show the situation of the portfolio on the closing date for which the exchange rates are used as well as the sub-fund's participation in the pool(s) as at this date.

Technical pooling (performance fees and hedged share classes)

The investments, other net assets and operations (such as dividends, interest, realised results on investments, ...) common to all share classes are held in the sub-fund via the investments in the pool of investments, while items specific to each share class (such as depository, service, management fees and performance fees) and items specific to hedged share classes (such as forward foreign exchange contracts and other contractual fees linked to the hedging) are recorded in dedicated "feeder" accounts.

Each "feeder" is allocated a portion of the pool (percentage participation) according to its initial contribution. Subsequently, the portion of the percentage participation of each feeder is determined on each NAV calculation based on the size of each feeder as converted in the reference currency of the pool at the exchange rate applicable on the NAV calculation date.

Presentation and impact of Pooling in the financial statements

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent:

- the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation.

During the year and as at year-end, investments held at the level of a specific pool are fully allocated to a specific sub-fund.

2. Summary of significant accounting principles

General

The financial statements are prepared in accordance with generally accepted accounting principles and with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment ("UCI").

Formation expenses

Formation expenses have been amortised over a maximum period of five years.

Conversion of foreign currencies for each sub-fund

Cash at banks, other net assets and the market value of the investment portfolio expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate prevailing at the closing date.

Income and expenses expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate applicable on the transaction date.

Resulting foreign exchange gains and losses are recorded in the statement of operations and changes in net assets.

Combined financial statements of the SICAV

The combined financial statements of the SICAV are expressed in Euro and correspond to the sum of items in the financial statements of each sub-fund, converted into Euro at the exchange rate prevailing at the closing date.

Valuation of assets of each sub-fund

1. Securities listed on an official stock exchange or another regulated market are valued at the last known price or snap shot and fair value price, provided this price is representative.
2. Securities not listed on such stock exchange or regulated market and listed securities for which the last known price is not representative are valued with prudence and in good faith by the Board of Directors of the SICAV on the basis of their foreseeable sale prices.
3. The value of companies not listed on a stock exchange or regulated market may be determined on the basis of a valuation method put forward with prudence and in good faith by the Board of Directors of the SICAV based on the last audited annual financial statements available, and/or based on recent events that could have an impact on the value of the security in question and/or on any other valuation available. The choice of method and means used for the valuation depends on the estimated relevance of the data available. The value may be corrected on the basis of any unaudited interim financial statements available. If the Board of Directors of the SICAV considers that the price thus obtained does not reflect the probable sale price of such a security, it shall then estimate the value of the security with prudence and in good faith on the basis of its probable selling price.
4. The value of futures contracts and options contracts traded on a stock exchange or another regulated market shall be based on the closing price or settlement price published by the stock exchange or by the other regulated market that as a general rule serves as the principal trading place for these contracts. Futures contracts and options contracts not traded on a stock exchange or another regulated market are valued at their liquidation value determined in accordance with the rules established with prudence and in good faith by the Board of Directors of the SICAV, in keeping with uniform criteria set out for each type of contract.
5. Units/shares issued by open-ended undertakings for collective investment are valued:
 - on the basis of the most recent NAV available to the Central Administration Agent, or;
 - on the basis of the estimated NAV on the date closest to the sub-fund's valuation day.
6. Money market instruments are valued according to the amortised cost method, at their nominal value plus any accrued interest, or using the "mark-to-market" method.
7. Contracts For Difference ("CFD") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.

8. The unrealised gains or losses resulting from outstanding forward foreign exchange contracts are determined on the valuation day on the basis of the forward foreign exchange prices applicable on this date and are recorded in the statement of net assets.
9. For the Interest Rate Swaps ("IRS"), expected future cash flows receivable and payable on swap contracts are valued at their present value.
10. Credit Default Swaps ("CDS") are revalued on the basis of replacement spreads provided by Bloomberg Valuation Services.
11. Total Return Swaps ("TRS") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.
12. The value of cash in hand or at bank, notes and bills payable at sight and accounts receivable, prepaid expenses, dividends and interest declared or due but not yet received, consists of the nominal value of these assets, unless it appears unlikely that this value will be received; in the latter case, the value is determined by deducting an amount the Board of Directors of the SICAV deems appropriate to reflect the real value of those assets.

If the Board of Directors of the SICAV considers it necessary, it may employ a valuation committee which will be entrusted with estimating the value of certain securities with prudence and in good faith.

The Board of Directors of the SICAV is authorised to apply any other suitable valuation principles to a sub-fund's assets where it would be impossible or inappropriate to use the above criteria.

The specific valuation of securities in certain sub-funds

For the Short-Term Money Market (CHF, EUR, GBP, JPY and USD) and Sovereign Short-Term Money Market (EUR and USD) sub-funds, unlisted securities are valued using the "Marked-to-Model" method, taking into account the issuer spread and the risk-free rates. Securities for which a market quotation exists are valued using a "Mark-to-Market" method.

Valuation of non-listed investments

Such securities are entered into the portfolio at acquisition cost. The valuation frequency depends on the occurrence of significant events affecting the security. In the absence of a significant event, valuations should be carried out at least twice per year. Examples of significant events triggering a valuation process include:

- Substantially higher/lower-than-expected profits;
- A new round of financing initiated by the company;
- A new transaction (initiated by a third party investor);
- Restructuring operations.

Recognition of futures contracts, options on futures contracts and CFD

At the time of each NAV calculation, the margin call on futures contracts, options on futures contracts and CFD is recorded directly in the realised capital gains and losses accounts relating to forward contracts.

Accounting of futures contracts, options on futures contracts and CFD

Unrealised appreciations and depreciations on futures contracts, options on futures contracts and CFD are settled daily through the reception/payment of a cash amount corresponding to the daily increase/decrease of the market value of each opened future, option on future contract or CFD. Such cash amount is recorded under the caption "Cash at banks" in the statement of net assets and the corresponding amount is recorded under the caption "net realised gain and loss on forward contracts" in the statement of operations and changes in net assets.

Net realised gains or losses on sales of investments

Net realised gain or loss on sales of investments is calculated on the basis of the weighted average cost of the investment sold.

Acquisition cost of investment securities

Cost of investment securities denominated in currencies other than the base currency of the sub-fund is converted into the base currency of the sub-fund at the exchange rate applicable on the acquisition date.

Income

Dividends are recorded net of withholding tax at the ex-date. Interest is recorded on an accrual basis.

Dividend distribution

The Board of Directors of the SICAV reserves the right to introduce a distribution policy that may vary between sub-funds and sub-classes of shares in issue. In addition to the aforementioned distributions, the SICAV may decide to distribute interim dividends. The SICAV may distribute the net investment revenue, realised capital gains, unrealised capital gains and capital. Investors should thus be aware that distributions may effectively reduce the net value of the SICAV. No income is distributed if the SICAV's net assets after distribution fall below EUR 1,250,000. The SICAV may distribute free bonus shares within the same limits. Dividends and allotments not claimed within five years of their payment date lapse and revert to the sub-funds or to the relevant sub-class of shares in the sub-funds of the SICAV.

Closing NAV

As at September 30, 2023, in the official NAVs (used as a basis for subscriptions and redemptions as at that date) and in the NAVs shown in these financial statements, investments in securities were valued as follows:

1) As at September 30, 2023, for the assets of the following sub-funds traded on the US and European markets, the prices taken into consideration at the time of the calculation of the NAVs were those at close of trading on September 28, 2023:

- Pictet - Global Bonds
- Pictet - Emerging Local Currency Debt
- Pictet - Short-Term Emerging Local Currency Debt
- Pictet - Emerging Corporate Bonds
- Pictet - Absolute Return Fixed Income
- Pictet - Sustainable Emerging Debt Blend
- Pictet - Multi Asset Global Opportunities
- Pictet - Global Dynamic Allocation
- Pictet - Emerging Markets Multi Asset
- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market USD
- Pictet - Sovereign Short-Term Money Market EUR

2) For the assets of the following sub-funds traded on the US and European markets, the prices taken into consideration at the time of the calculation of the NAVs were those at 4:00 pm on September 29, 2023 including projected fair value at close of trading as at that date:

- Pictet - Family
- Pictet - Emerging Markets
- Pictet - Quest Europe Sustainable Equities
- Pictet - Digital
- Pictet - Biotech
- Pictet - Premium Brands
- Pictet - Water
- Pictet - Indian Equities
- Pictet - Japanese Equity Opportunities
- Pictet - Asian Equities Ex Japan
- Pictet - China Equities
- Pictet - Japanese Equity Selection
- Pictet - Health
- Pictet - Security
- Pictet - Clean Energy Transition
- Pictet - Russian Equities
- Pictet - Timber
- Pictet - Nutrition

Notes to the financial statements as at September 30, 2023 (continued)

- Pictet - Global Megatrend Selection
- Pictet - Global Environmental Opportunities
- Pictet - SmartCity
- Pictet - Quest Emerging Sustainable Equities
- Pictet - Quest Global Sustainable Equities
- Pictet - Robotics
- Pictet - Global Thematic Opportunities
- Pictet - Human
- Pictet - Positive Change
- Pictet - ReGeneration
- Pictet - China Environmental Opportunities

3) For all other sub-funds, the official NAVs (used as a basis for subscriptions and redemptions as at that date) and the NAVs shown in these financial statements were determined on the basis of the valuation of the underlying assets at close of trading on September 29, 2023.

Had the Board of Directors of the SICAV decided to use, for the preparation of those Financial Statements, closing prices as at September 29, 2023, the NAVs of the following sub-funds would have been different as follows:

SUB-FUND	CURRENCY	OFFICIAL NAVS AS AT 30.09.2023	NAV CALCULATED ON THE DIFFERENCE BASIS OF CLOSING PRICES AS AT 30.09.2023	
PICTET - Global Bonds	EUR	106,140,742.23	106,484,976.67	0.32%

Transaction fees

Transaction fees represent the costs incurred by each sub-fund in relation to the purchases and sales of investments. They include brokerage fees, bank charges, taxes, deposit fees and other transaction costs and are included in the statement of operations and changes in net assets for the year ended September 30, 2023

3. "Taxe d'abonnement"

The SICAV is subject to a subscription tax (*taxe d'abonnement*) levied at the rate of 0.05% per annum based on its net asset value at the end of the relevant quarter, calculated and paid quarterly. This subscription tax will however be reduced to 0.01% for:

- sub-funds or classes of shares reserved to Institutional Investors, or
- sub-funds whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions.

A subscription tax exemption is applicable to:

- the portion of any sub-fund's assets invested in other Luxembourg investment funds subject to the subscription tax;
- any sub-fund (i) whose shares are reserved to institutional investors, and (ii) whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) the weighted residual portfolio maturity does not exceed 90 days, and (iv) that has obtained the highest possible rating from a recognised rating agency. If there are several classes of shares within the relevant sub-fund, the exemption is only applicable to the classes of shares reserved to institutional investors;

- any sub-fund whose shares are reserved to (i) institutions for occupational retirement provision, or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees; and (ii) companies of one or more employers investing funds they hold in order to provide retirement benefits to their employees;
- any sub-fund whose investment policy provides that at least 50% of their assets shall be invested in one or several microfinance institutions; and
- any sub-fund (i) listed or traded on at least one stock exchange or another regulated market, operating regularly, and recognised and open to the public, and (ii) whose exclusive object is to replicate the performance of one or more indexes. If there are several classes of shares within the relevant sub-fund, the ex-emption is only applicable to the classes of shares meeting condition (i) above.

Belgian annual tax

The SICAV is registered with the Belgium Financial Services and Markets Authority in accordance with the Article 154 of the Act of August 3, 2012 relating to financials markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the NAV of share distributed in Belgium via Belgian intermediaries as at December 31 of the previous year.

This tax is recorded in the caption "Professional fees, audit fees and other expenses" of the statement of operations and other changes in net assets.

4. Management and investment advisory fees

The SICAV has entrusted the management function to the Management Company, which has delegated it to one or more Investment Managers for each sub-fund.

Subject to prior approval by the Management Company, the Investment Managers may appoint one or more investment sub-managers, which may or may not be part of the Pictet Group, to provide all or part of the management of certain sub-funds, as specified in the annexes of the current prospectus of the SICAV.

The Management Company may be assisted by one or more Investment Advisors internal or external of the Pictet Group for the purpose of advising the Management Company on investment opportunities for the SICAV.

Notes to the financial statements as at September 30, 2023 (continued)

The Management Company receives management fees from the sub-funds for the purpose of remunerating the Investment Managers, the Investment Sub-Managers, the Investment Advisors and the Distributors, where applicable. These fees are levied on each sub-fund and on the classes of shares prorata to their net assets.

The maximum annual rates applicable for the year ended September 30, 2023, are as follows:

	I/S/D/A SHARES (MAX)	J SHARES (MAX)	P SHARES (MAX)	R SHARES (MAX)	S/Z SHARES (MAX)	K SHARES (MAX)	F SHARES (MAX)	E SHARES (MAX)

The Board of Directors of the SICAV has decided to present the rates for the classes launched and not yet launched as at September 30, 2023.

4 The fee was suspended on February 28, 2022.

5 For the shareclass D1, the rate is 1.20%.

6 For the IX EUR and PX EUR share classes, the rates are 0.90% and 1.90% respectively.

7 For the TC share class, the rate is 0.30%.

Notes to the financial statements as at September 30, 2023 (continued)

When a sub-fund invests a significant portion of its assets in the units of other UCITS and/or other UCIs managed directly or by delegation by the same management company or by any other company with which the management company is linked through common management or control or through a substantial direct or indirect equity holding, the maximum percentage of the fixed management fees that may be obtained at the level of the target UCITS and/or UCIs will be 1.6%, to which, if applicable, a fee may be added at a maximum of 20% of the performance of the NAV per share.

On June 14, 2017, The European Parliament and The Council of the European Union released the Regulation 2017/1131 on money market funds (the "MMF Regulation") with effect as of July 20, 2018.

As at September 30, 2023, the following sub-funds of the SICAV are qualified as short-term variable net asset value money market funds and are in the scope of the article 16.4 of the MMF Regulation, but invest less than 10% of their assets in other money market funds:

- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market EUR
- Pictet - Sovereign Short-Term Money Market USD

5. Service fees

An annual service fee calculated on the average NAVs of each sub-fund is paid, depending on the terms of the agreement, to the Management Company in remuneration for the services that it provides to the SICAV. This fee also enables the Management Company to remunerate FundPartner Solutions (Europe) S.A. for its transfer agent, administrative agent and paying agent services. The maximum rates applicable for the year ended September 30, 2023, are as follows:

	UNTIL JANUARY 12, 2023		SINCE JANUARY 13, 2023

6. Other fees payable

As at September 30, 2023, other fees payable mainly include depositary, service fees and other taxes.

7. Subscription, redemption and/or conversion price

The issue price for shares in each sub-fund (or sub-class of shares) is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis as at the relevant valuation day. This price may be increased by fees paid to financial intermediaries, which will not exceed up to 5% of the NAV per share for the sub-fund in question and will be paid to financial intermediaries and/or distributors (excluding the Management Company) involved in the distribution of the SICAV's shares. Front- and back-end load for intermediaries will vary according to the sub-class of share. This issue price will be increased to cover any duties, taxes and stamp duties due.

The redemption price for shares (or sub-class of shares) of each sub-fund is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis as of the applicable valuation day. A commission paid to financial intermediaries and/or distributors may be deducted from this amount, representing up to 1% of the NAV per share, may be deducted from this amount and paid to financial intermediaries and/or distributors (excluding the Management Company). Front- and back-end load for intermediaries will vary according to the sub-class of share. The redemption price will be reduced to cover any duties, taxes and stamp duties to be paid.

In certain exceptional circumstances such as, for example:

- significant trading volumes,
- and/or market disturbances,
- and in any other cases when the Board of Directors of the SICAV deems, at its sole discretion, that the interest of the existing shareholders (concerning issues/switches) or of the remaining shareholders (concerning redemptions/switches) might be negatively affected.

The Board of Directors of the SICAV will be authorised to charge a "Dilution Levy" for a maximum of 2% of the value of the NAV.

The Board of Directors of the SICAV will be authorised to apply corrections to the NAV as described in the section "Calculation of the NAV" of the current Prospectus.

8. Swing Pricing

A swing pricing mechanism has been put in place in order to protect the existing shareholders, at the time of subscriptions and/or redemptions received for a given valuation day. As a general principle, investors entering or shareholders exiting generally bear the costs incurred by trading activity. These costs estimated at a flat rate or effective value may be invoiced separately or by adjusting the net asset value of a concerned sub-fund or class of shares either down or up.

The swing pricing mechanism may be applied across all sub-funds. The extent of the price adjustment is set by the Board of Directors of the SICAV. The amount of the adjustment may vary from sub-fund to sub-fund and will not exceed 2% as general principal of the original NAV per share. Exceptions, if any, are disclosed in the sub-fund annexes.

For each sub-fund with a swing pricing mechanism, a pre-defined swing threshold has been defined set as a percentage of the sub-fund's net asset value ("NAV"). This pre-defined swing threshold might be equal to 0% (the terminology "full swing" is then used) or different to 0% (the terminology "partial swing" is then used).

If for a given valuation day:

- the net inflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung up. The shareholders subscribing into the sub-fund will thus bear the costs incurred by the trading activities triggered by their subscriptions by paying a higher NAV.
- the net outflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung down. The redeeming shareholders of the sub-fund will thus bear the costs incurred by the trading activities triggered by their redemptions by receiving a lower NAV.

Notes to the financial statements as at September 30, 2023 (continued)

The Board of Directors of the SICAV may decide to increase the maximum adjustment limit (invoiced separately or charged by adjusting the net asset value) stated in the Prospectus in exceptional circumstances and on a temporary basis, to protect Shareholders' interests.

The following sub-funds used the swing pricing mechanism during the year ended September 30, 2023:

9. Performance fees

Within the SICAV, performance fees have been implemented for two sub-funds and are intended to remunerate the investment managers of these sub-funds.

The performance fee is calculated as follows:

The investment manager receives a performance fee for all shares of the sub-fund, except for "X" shares, accrued for every valuation day and paid annually, based on the NAV, equivalent to the rate mentioned in the below table of the performance of the NAV per share (measured against the high water mark) versus the index shown in the table below for each class of shares since the last payment of the performance fee.

The performance fee is calculated on the basis of the NAV per Share after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

Notes to the financial statements as at September 30, 2023 (continued)

Any first calculation period (a period is at least 12 months) shall start on the launch date of the relevant Class and terminate as at the last Valuation Day of the current fiscal year. The subsequent calculation periods shall start as at the last Valuation Day at the end of the previous calculation period and terminate as at the last Valuation Day of each following fiscal year.

The crystallisation frequency is yearly.

The performance fee is calculated by reference to the outperformance of the NAV per share, adjusted for subscriptions into and redemptions out of the relevant classes during the calculation period. No performance fee is due if the NAV per share before the performance fee turns out to be below the high water mark for the calculation period in question.

For the above sub-funds, the high water mark is defined as the greater of the following two values:

- The last highest NAV per share for which a performance fee was paid; and
- The initial NAV per share.

The dividends paid to shareholders are deducted from the high water mark.

The reference period corresponds to the SICAV's financial year.

A detail of the performance fee calculation appears in the current prospectus.

Notes to the financial statements as at September 30, 2023 (continued)

For the year ended September 30, 2023, the performance fees amounted to:

15. Credit Default Swaps ("CDS")

A CDS is a bilateral financial agreement whereby a counterparty (the protection buyer) pays a premium for the commitment of the protection seller to pay a certain amount if the reference issuer experiences a credit event as provided for by the agreement.

Notes to the financial statements as at September 30, 2023 (continued)

The protection buyer acquires the right to sell a specific bond issued by the reference issuer at its nominal value (or at another reference value or execution price) when a credit risk arises. Credit event generally includes bankruptcy, insolvency, judicial settlement/compulsory liquidation, deferral, or non-payment of outstanding debts.

The SICAV had the following CDS outstanding as at September 30, 2023:

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to a maximum of 20% of the interest received is perceived by the Depositary Bank, Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg*, for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

18. Dividends distributed

Dividends were paid with an ex-date of September 21, 2023 and with a payment date of September 27, 2023.

19. Investments in Indian securities

Pictet - Emerging Markets, Pictet - Indian Equities and Pictet - Asian Equities Ex Japan sub-funds could formerly invest in securities issued by Indian companies, both directly or indirectly via respectively Pictet (Mauritius) Limited, Pictet Country (Mauritius) Ltd and Pictet Asian Equities (Mauritius) Limited, three companies incorporated in Mauritius, which were respectively wholly controlled by each sub-fund and provided advisory services exclusively to each sub-fund ("the Mauritius companies").

Up to March 31, 2017, these investments were made respectively and exclusively via the Mauritius companies. During this financial period ended September 30, 2023, the abovementioned sub-funds exclusively made direct investments into securities issued by Indian companies and the Mauritius companies have completed their respective liquidation process.

20. Cross investments between sub-funds

As at September 30, 2023, twenty-eight sub-funds of the SICAV invest in other sub-funds of the SICAV.

Pictet - EUR Corporate Bonds

INVESTEES SUB-FUND	INVESTMENT AMOUNT IN EUR	% OF NET ASSETS
Pictet Short-Term Money Market EUR	6,753,397.52	1.29

Pictet - Short-Term Money Market EUR	EUR	2,720,000.00
Pictet - Sovereign Short-Term Money Market USD	USD	4,110,000.00

22. Russia Ukraine Conflict

The onset of the conflict between Russia and Ukraine in February 2022 has impacted financial markets performance, further compounded by sanctions, dislocated markets and poor liquidity particularly around Russian and Ukrainian securities making it impossible to trade or value the majority of Russian securities (onshore securities i.e., in RUB, UAH) or repatriate any proceeds of sales into hard currency from any S-account.

As reference to the context described above:

- The Russian securities in local and hard currency have been valued at zero by the Board of Directors of the SICAV.
- The RUB cash account and deposits have been valued at zero by the Board of Directors.

This may be subject to change because of the evolution of the situation.

The Management Company continues to monitor existing exposures to Russia and Ukraine and the effects of the Ukraine / Russia conflict. In the context of the regular Valuation Committee and Risk Committee meetings in particular, decisions are made considering the current situation and its evolution. These decisions are subject to regular review. Key considerations include, but are not limited to:

- Direct and indirect exposures, and spill-over effects likely to have a negative impact on sub-funds.
- Markets, and asset valuation.
- Portfolio Compliance considering capital restrictions and sanctions imposed as an outcome of the Russia / Ukraine conflict.

The Board of Directors of the SICAV is confident that the SICAV operations will continue as a going concern and is care-fully following the current crisis.

Specific to Pictet - Russian Equities

In the context described above, The Board of Directors of the SICAV decided to suspend the calculation of the net asset value, the subscriptions, the redemptions of shares of the sub-fund Pictet - Russian Equities as of February 28, 2022 (as mentioned in the Shareholder notice dated February 25, 2022) and to waive the management fees until further notice.

The Board of Directors of the SICAV will regularly review the suspension and all reasonable steps will be taken to bring the Suspension Period to an end as soon as possible, having regard to the best interest of shareholders.

Under the current situation, it is not possible to determine for how long the suspension of official NAV calculation (including issue, redemption, and conversion of shares) will last. The accounting information and net asset value related to the sub-fund, presented in the current financial statements, have been established and calculated according to the accounting principles described in note 2. This net asset value is a technical and unpublished one.

Any subsequent decision that changes this status will be communicated to the investors as and when required.

Other sub-funds impacted

With the exception of Pictet - Russian Equities, the following sub-funds' exposure to Russia has been calculated based on a theoretical market price (non-tradable market prices) to Russian securities and to the exposition on the RUB as of September 30, 2023, in percentage of the sub-fund's NAV, is as follows. This for indicative purposes only.

- Pictet - Emerging Market Index: 2.72%;

Notes to the financial statements as at September 30, 2023 (continued)

- Pictet - Quest Emerging Sustainable Equities: 3.65%;
- Pictet - Emerging Markets Multi Asset⁸: 2.58%.

23. Events after the year-end

No significant event occurred after year-end.

⁸ Which includes the last official NAV of Pictet Russian Equities HZ EUR

Total Expense Ratio ("TER") (Unaudited Appendix)

Following to the Swiss Fund & Asset Management Association ("SFAMA") Guidelines of May 16, 2008, the "Guidelines on the calculation and disclosure of the total expense ratio ("TER") of collective investment schemes", as amended from time to time, the SICAV is required to publish a TER for the last twelve-month period ("SFAMA TER").

The TER is defined as the ratio between the total operating expenses (Operating charges primarily consist of management and investment advisory fees, depositary fees, bank charges and interest, service fees, performance fees, taxes and duties) and the relevant sub-fund's / share class' average NAV (calculated on the basis of the daily average of the total net assets for the relevant period) expressed in its reference currency.

The SICAV also discloses the Securities Lending TER having the same calculation method as the one used for the SFAMA TER, but including the income from interests on securities lending.

Moreover, for the new share classes launched during the year, operating fees were annualised as stated in point 8 of the Guidelines. The amounts were annualised whereas certain fixed costs were not split equally over the year.

As much as the sub-funds invest more than 10% of their assets in other investment funds, a synthetic TER is calculated:

- by adding to the TER the sum of the TER of underlying funds weighted according to their share in the net assets of the related sub-fund at the reference date. If one of the target funds does not publish any TER, no synthetic TER will be calculated for this fraction of investment,
- by subtracting the impact of the retrocession received calculated by dividing the amount of retrocessions by the average assets.

For the period from October 1, 2022 to September 30, 2023, the TER were:

Performance (Unaudited Appendix)

The performance per share class was calculated by comparing the net assets per share as at September 30, 2023 with the net assets per share as at September 30, 2022 in accordance with SFAMA Guidelines.

For share classes that distributed a dividend (cf. note 18), the dividend amount was reintegrated into the net assets as at September 30, 2023, in order to compute the performance including dividends.

The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

As at September 30, 2023, performances were the following:

ISIN CODE	CLASS	CURRENCY	PERFORMANCE FOR THE FINANCIAL YEAR ENDED SEPTEMBER 30, 2023	PERFORMANCE FOR THE FINANCIAL YEAR ENDED SEPTEMBER 30, 2022	PERFORMANCE FOR THE FINANCIAL YEAR ENDED SEPTEMBER 30, 2021

Other information to Shareholders (Unaudited Appendix)

1. Index-tracking UCITS

The SICAV is comprised of the following 7 index sub-funds as at September 30, 2023:

SUB-FUND	BENCHMARK	CURRENCY	EX POST TE (1)	SUB-FUND'S PERFORMANCE (2)	BENCHMARK'S PERFORMANCE
Pictet - Europe Index (3)	MSCI EUROPE	EUR	0.13%	19.57%	19.22%
Pictet - USA Index	S&P 500 Comp	USD	0.05%	21.04%	21.01%
Pictet - Japan Index	MSCI JAPAN	JPY	0.06%	29.76%	29.82%
Pictet - Pacific Ex Japan Index	MSCI PACIFIC EX JAPAN	USD	0.16%	10.49%	10.58%
Pictet - Emerging Markets Index (4)	MSCI EM	USD	0.32%	11.39%	11.70%
Pictet - Euroland Index (5)	MSCI EMU	EUR	0.15%	24.73%	24.25%
Pictet - China Index (6)	MSCI CHINA	USD	0.49%	5.01%	5.24%

(1) Ex post tracking error (TE) is reported as a standard deviation percentage difference. This measure reports the difference between the return the investor receives and that of the benchmark.

(2) The performance of the sub-fund is calculated on the basis of a daily frequency and on the basis of a gross return after transactions fees but before other fees.

(3) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies.

(4) Since the India introduction of a Capital Gain tax in 2018 (15% over the short term and 10% over the long term applicable on all Indian stocks), Pictet has introduced a daily provision applicable on the NAV of the fund. This provision materialises upon subscriptions and redemptions for entering/exiting investors. Russian securities held in the portfolio (2.2% as at 25.02.2022) have been valued at 0 after 25.02.2022, whereas MSCI removed Russia from its indexes on 09.03.2022.

(5) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies.

(6) The relative performance volatility of the Pictet-China index versus its benchmark is due to a currency mismatch in the valuation of Chinese local shares: The fund NAV uses the CNY/USD rate in its calculation while the index provider uses the CNH/USD in that of the benchmark. The largest weight deviations between the fund and the benchmark originates from securities that had been excluded from the investment universe based on internal sustainability criteria.

2. Remuneration of the members of the Management Company

Remuneration Policy

Pictet Asset Management (Europe) S.A. (the "Management Company") has adopted a remuneration policy which is in accordance with the principles established by the European Directive 2014/91/UE, relating to Undertakings for Collective Investment in Transferable Securities Directive ("UCITS V") and the transposition into Luxembourg Law dated May 10, 2016, amending the Law of December 17, 2010 (the "UCITS Law"), as well as the Guidelines on sound remuneration policies issued by the European Securities and Markets Authority under the UCITS Directive (the "ESMA Guidelines").

More details about this remuneration policy, which describes, but not limited to, how remuneration and benefits are determined, are available on the following website:

<https://www.am.pictet/en/luxembourg/global-articles/ucits-remuneration-disclosure>

A paper copy is also made available free of charge upon request at the Management Company's registered office.

Other information to Shareholders (Unaudited Appendix) (continued)

Quantitative elements

Figures below relate to Pictet Asset Management (Europe) S.A. (including its branches) based on apportionment of Assets Under Management ("AUM") represented by the SICAV in respect of the financial year ended September 30, 2023:

<i>(IN CHF,000S)</i>	FIXED REMUNERATION	VARIABLE REMUNERATION	TOTAL REMUNERATION	NUMBER OF BENEFICIARIES
The Staff	10,829	8,273	19,102	108
The Key Identified Staff	3,541	3,279	6,820	25
Total	14,370	11,552	25,922	133

For additional context, the Management Company manages 18 Alternative Investment Funds and 3 UCITS, with a combined AUM as at September 2023 of CHF 130,791,295,072.

The aggregate 2023 total remuneration paid to Key Identified Staff of delegates is CHF 19,933,154⁽⁵⁾.

Disclosure notes:

1. Fixed remuneration is an aggregated salary, pension, and benefits paid for the year from October 1, 2022 to September 30, 2023 for Management Company and the European branches staff.
2. Variable remuneration is aggregated target, discretionary, and parts remunerations paid for the year from October 1, 2022, to September 30, 2023.
3. Total fixed and variable remuneration disclosed is based on apportionment of AUM represented by the SICAV. Beneficiaries are current and past employees that received a fixed and variable remuneration during the respective period.
4. The 133 headcounts of the Management Company and its European branches as of September 30, 2023, reported is composed of:
 - 25 People identified as Key Identified Staff (the "Key Identified Staff") of the Management Company and its European branches as per UCITS V and ESMA Guidelines.

These 25 people being made of:

- 6 members of the Board of Directors of the Management Company. Only 2 members of the Board of Directors of the Management Company receives an emolument from the Management Company.
- 7 conducting officers, members of the Management committee of the Management Company conducting officers and 1 internal auditor.
- 11 Heads of Distribution, Investment, Marketing, Intermediaries, Operations and Business development in the Management Company's European branches.

Other information to Shareholders (Unaudited Appendix) (continued)

- 108 employees from the Management Company and its European branches (the "Staff").
- 5. For 2023, delegates are counterparties to which portfolio management has been formally delegated, in line with the latest ESMA guidance. The figure is based on a prorated basis for the part of the SICAV assets which are managed by the identified staff within the delegates.

3. Eligible for the PEA or Plan d'Épargne en Actions (French Equity Savings Plan)

French tax resident investors should be aware that the sub-fund listed below is eligible to be held within a "plan d'épargne en actions" ("PEA") in France. The SICAV undertakes that the sub-funds are investing at least 75% of their assets on a permanent basis in securities or rights eligible to the PEA.

As at September 30, 2023, the below sub-fund had the following percentage of their assets invested in eligible PEA assets:

- Pictet - Euroland Index: 96.64%

4. ALFI Code of Conduct

The Board of Directors of the SICAV has adopted the Principles of the ALFI Code of Conduct dated June 2022 (the "Code"), which sets out a framework of high level principles and best practice recommendations for the governance of Luxembourg investment funds. The Board of Directors of the SICAV considers that it has been in compliance with the Principles of the Code in all material respects for the year ended September 30, 2023.

5. Information on risk measurement

As of September 30, 2023 the following sub-funds of Pictet use the Value-at-Risk (VaR) approach to monitor their global risk exposure. All other sub-funds of Pictet use the commitment approach to monitor the global risk exposure.

The VaR may be calculated either using the absolute VaR approach or using the relative VaR approach. The treatment and presentation of VaR figures will differ, taking into account the approach used (relative or absolute).

1. Absolute VaR approach

The absolute VaR approach limits the maximum VaR that a sub-fund can have relative to its Net Asset Value. It is measured against a regulatory limit of 20%.

Other information to Shareholders (Unaudited Appendix) (continued)

The leverage level is included as well. It has been calculated as the sum of the notionals of the financial derivative instruments used (CESR/10-788 - Box 25). The presented figure is based on an average of the monthly observations covering the period from October 1, 2022 to September 30, 2023.

SUB-FUND NAME	AVERAGE LEVERAGE	MINIMUM VAR	MAXIMUM VAR	AVERAGE VAR
Pictet - EUR Bonds	189.49%	3.80%	5.68%	4.79%

Pictet - Corto Europe Long Short	83.14%	1.27%	5.45%	3.18%
Pictet - Multi Asset Global Opportunities	117.26%	3.93%	6.47%	5.14%
Pictet - Global Dynamic Allocation	54.49%	5.81%	10.96%	8.76%
Pictet - Emerging Markets Multi Asset	62.01%	7.62%	14.31%	11.08%

2. Relative VaR approach

The relative VaR approach is used for sub-funds where a reference portfolio is defined reflecting their investment strategy. The relative VaR of a sub-fund is expressed as a multiple of the VaR of the reference portfolio (benchmark) and is limited by regulation to no more than twice the VaR of its benchmark.

The daily VaR observations (from October 1, 2022 to September 30, 2023) for the sub-funds have been systematically measured against the VaR observations for their benchmark. The ratio obtained is called the VaR limit utilization ratio.

As an example, the limit utilization ratio for Pictet EUR Short Term High Yield equaled 115.36% on one occasion. On this day the following figures were calculated:

- Sub-fund VaR 4.58%
- Benchmark VaR 3.97%
- VaR limit utilization 115.36%

Other information to Shareholders (Unaudited Appendix) (continued)

This ratio has to be put into perspective with the maximum limit allowed by the Law, which is 200% of the VaR of the Benchmark.

SUB-FUND NAME	AVERAGE LEVERAGE	MINIMUM VAR	MAXIMUM VAR	AVERAGE VAR
Pictet - EUR High Yield	53.22%	103.20%	166.39%	139.51%

General comments

All VaR measures are determined on the basis of the following parameters:

- 1 month holding horizon;
- 99% confidence interval (this means that there is a 1% probability that the value of the portfolio could have a monthly decline larger than the percentage displayed);
- Monte Carlo simulations, and;
- 3.5 years of weekly data history to determine the risk factors. Except the ones for Pictet Chinese Local CCY Debt that use a 1 year daily horizon window exponentially decayed.

6. Securities Financing Transactions Regulation ("SFTR")

As at September 30, 2023, the following sub-funds entered into Total Return Swaps transactions :

- Pictet - EUR High Yield
- Pictet - Emerging Local Currency Debt
- Pictet - Asian Local Currency Debt
- Pictet - Global Equities Diversified Alpha

And the following sub-funds entered into securities lending transactions as type of instrument under the scope of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of November 2015 on transparency of SFTR and amending Regulation (EU) No 648/2012:

- Pictet - EUR Corporate Bonds
- Pictet - EUR High Yield

As at September 30, 2023, all securities lending and TRS are treated as open maturity.

Guarantee by collateral

In the framework of lending transactions, the sub-fund of the SICAV receives a guarantee by collateral (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity).

Data on return and cost

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to 20% of the interest received is perceived by the Depositary Bank, Pictet & Cie (Europe) S.A., for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

Data on reuse of collateral

There were no collateral securities and cash collateral reused during the year ended September 30, 2023.

Sustainable Finance Disclosure Regulation (Unaudited Appendix)

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

The SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following sub-funds are categorized as financial products falling under the scope of the following SFDR articles as at September 30, 2023:

Within the meaning of SFDR (regulation EU 2019/2088 of November 27, 2019 on sustainability-related disclosures in the financial services sector), the other sub-funds do not promote environmental and/or social characteristics nor have a sustainable investment as its objective.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the sub-funds do not take into account the EU criteria for environmentally sustainable economic activities.

01.10.2022 - 30.09.2023

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Bonds**

Legal entity identifier: **5493000B06Q6PX1XRQ35**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 27.51% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.74	0.87
Weapons	0.02	0.05
Other controversial activities	0.02	0.22
	Not applicable:	61.90
	Not covered:	0.30
		62.46
		0.19

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 30 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

- (i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund’s investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact,

ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

27.51%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 94.98% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 5.02% invested in Other (#2 Other). 27.51% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

20.43%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

7.08%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 30 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 32.70% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	4.16	0.87
Weapons	0.06	0.05
Other controversial activities	0.05	0.22
Not applicable:	7.47	61.21
Not covered:	0.30	0.19

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 33 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

32.70%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 97.59% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.41% invested in Other (#2 Other). 32.70% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaptation and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

12.38%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

20.32%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 33 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Global Emerging Debt**

Legal entity identifier: **549300A8YN6U8D2CFX77**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 10.93% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class / best effort:**
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds	
Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

10.93%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 10.93% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.62	6.41
Weapons	0.01	0.01
Other controversial activities	0.02	0.08
Not applicable:	84.49	81.27
Not covered:	2.76	1.09

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 6 sovereigns on ESG topics (data as of 30.09.2023).

Source: *Pictet Asset Management*.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management’s responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

10.93%

● What was the asset allocation?

The fund was 93.30% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.70% invested in Other (#2 Other). 10.93% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and

services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

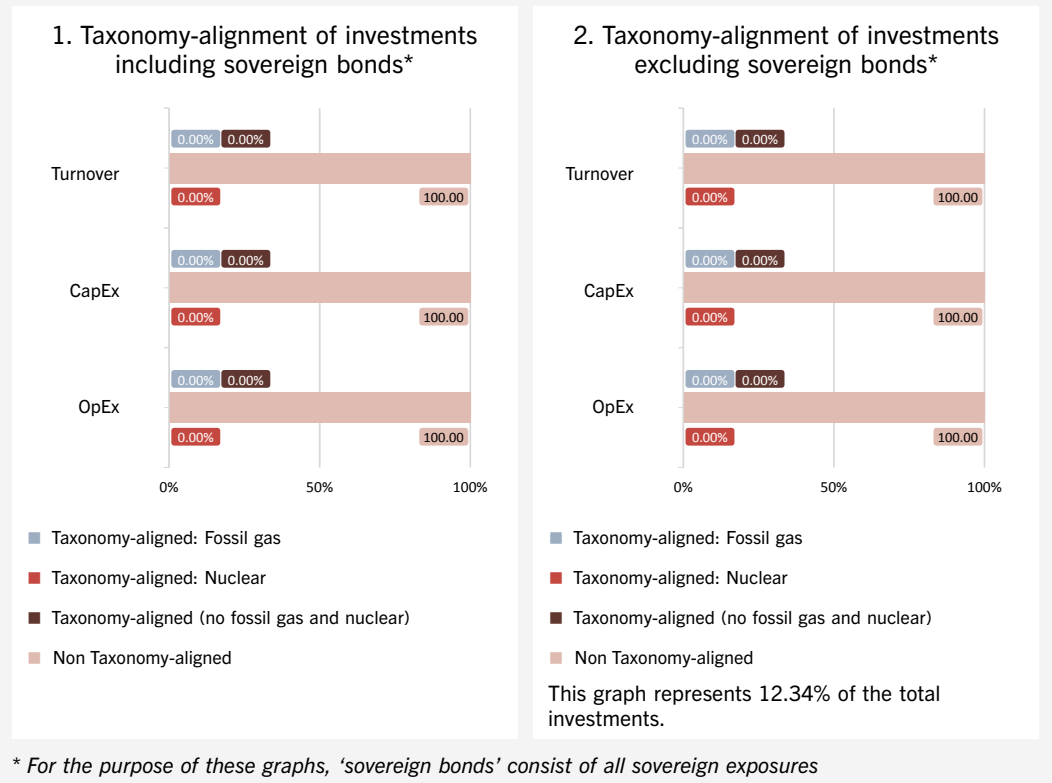

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

9.30%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

1.63%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 6 sovereigns on ESG topics (data as 30.09.2023).

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - Global Bonds**

Legal entity identifier: **5493009TDSBRGGNYLX39**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 11.47% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The FTSE WBG All Maturities index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.39	0.00
Weapons	0.00	0.00
Other controversial activities	0.01	0.00
Not applicable:	87.12	100.00
Not covered:	0.71	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 10 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

- (i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund’s investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact,

ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

11.47%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 93.72% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.28% invested in Other (#2 Other). 11.47% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

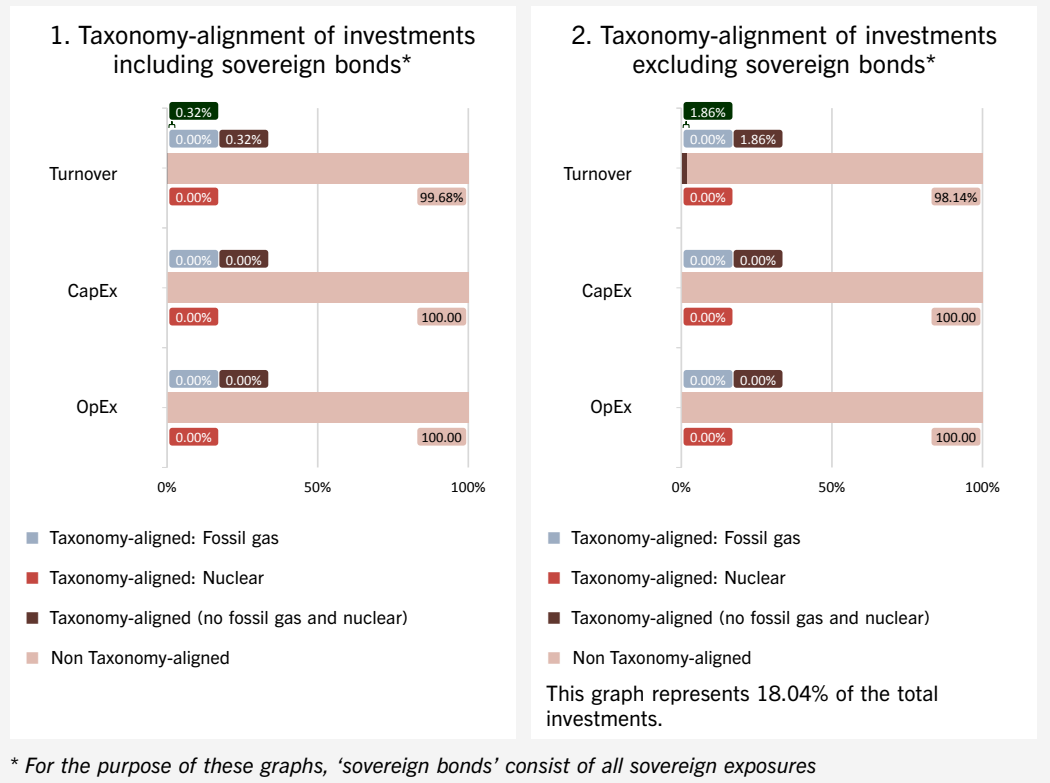

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

9.46%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

2.01%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

01.10.2022 - 30.09.2023

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - CHF Bonds**

Legal entity identifier: **54930064ORZPBXPBN65**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 24.74% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Swiss Bond Index Foreign AAA-BBB was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.87	2.51
Weapons	0.01	0.01
Other controversial activities	0.00	0.35
Not applicable:	5.75	4.10
Not covered:	8.15	4.01

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 17 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

24.74%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 98.86% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.14% invested in Other (#2 Other). 24.74% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

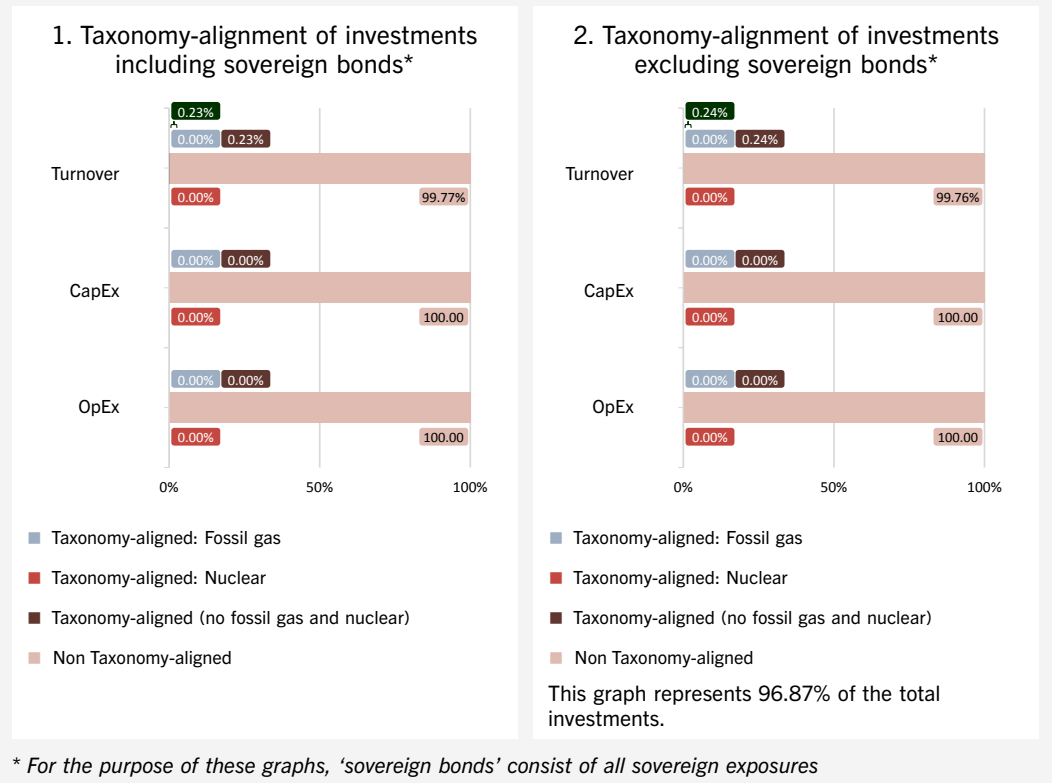

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

10.53%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

14.21%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 5.42% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class / best effort:**
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Power Generation	>25%

Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

5.42%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 5.42% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Not applicable:	98.67	100.00
Not covered:	0.03	0.00

*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 6 sovereigns on ESG topics (data as of 30.09.2023).

Source: *Pictet Asset Management*.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management’s responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

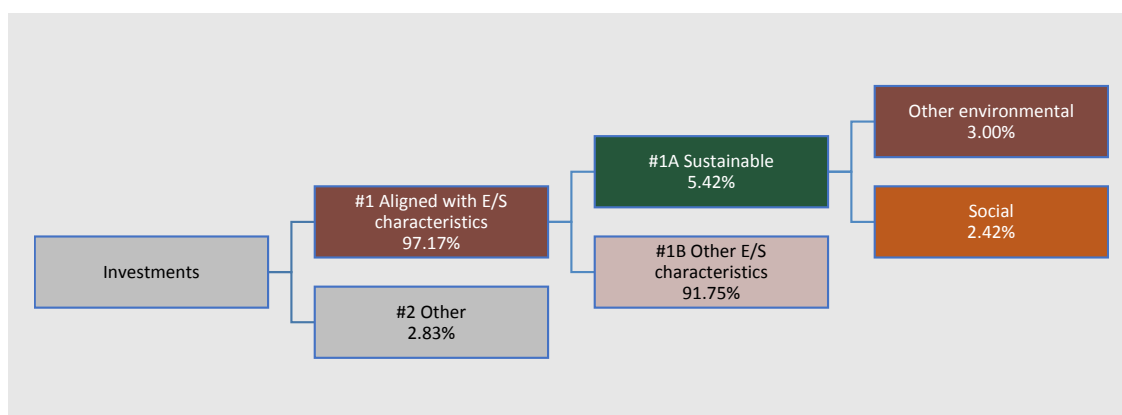

What was the proportion of sustainability-related investments?

5.42%

● What was the asset allocation?

The fund was 97.17% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.83% invested in Other (#2 Other). 5.42% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and

services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

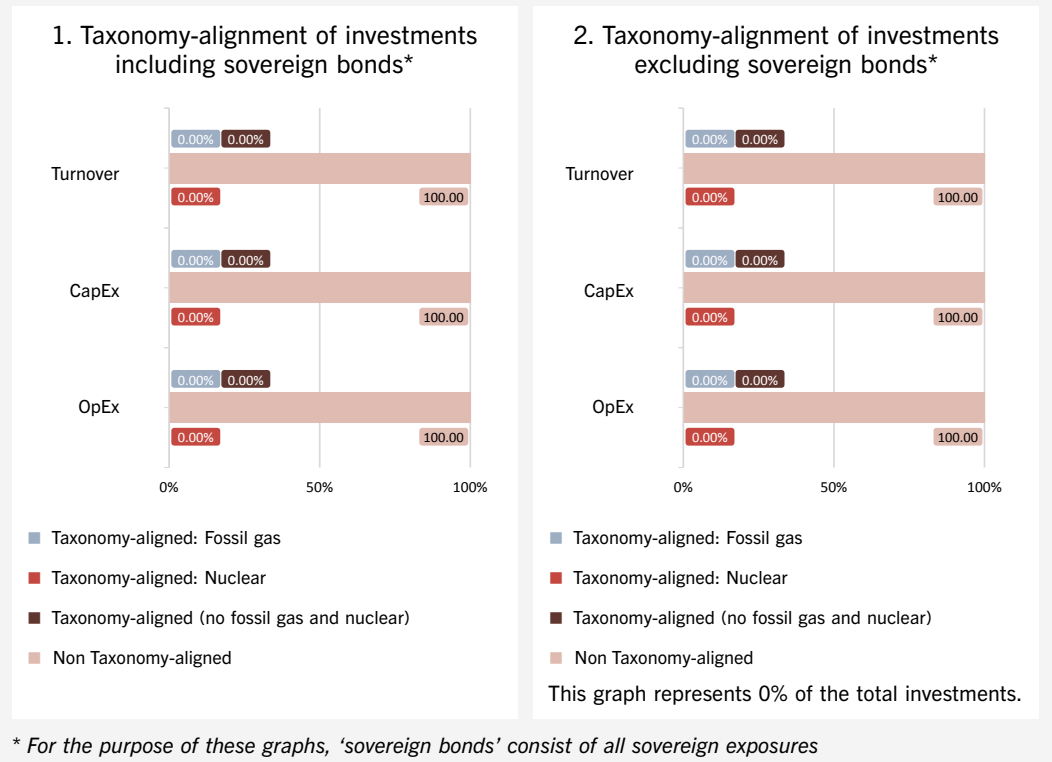

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.00%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

2.42%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 6 sovereigns on ESG topics (data as 30.09.2023).

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 38.87% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had an ESG profile in line with or better than that of the reference index. The ICE Developed Markets High Yield ESG Tilt Constrained index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	3.45	3.07
Weapons	0.77	0.48
Other controversial activities	0.20	2.43
Not applicable:	1.49	0.00
Not covered:	1.58	2.68

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 11 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

What was the proportion of sustainability-related investments?

38.87%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 98.53% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.47% invested in Other (#2 Other). 38.87% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

10.02%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

28.86%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- achieve an equal or better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Global Sustainable Credit**

Legal entity identifier: **549300B370SRF8QQ7T62**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 55.75% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 38.77%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive environmental and/or social impact, by investing mainly in

(i) companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration

(ii) ESG Labelled Bonds, including but not limited to, Green and/or Social Bonds

(iii) companies with a low environmental footprint with consideration of, but not limited to, carbon intensity

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Eligible securities included:

(i) securities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities

(ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Labelled bonds:**

The fund invested partially in environmental and/or social labelled bonds.

- **Carbon intensity:**

The fund invested in companies with a low carbon footprint with consideration of, but not limited to, carbon intensity.

- **Active ownership:**

The fund engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

94.52%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

4.55%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 48.63% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.33	5.47
Weapons	0.02	0.83
Other controversial activities	0.02	1.16
Not applicable:	20.46	0.01
Not covered:	0.16	1.79

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 25 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*
 Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.
 The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:
<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as well as the exposure to sustainable investments as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies’ sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

94.52%

What was the asset allocation?

The fund allocated 94.52% of its assets to Sustainable investments (#1 Sustainable) and 5.48% to Not sustainable investments (#2 Not sustainable). 55.75% of its assets is allocated to environmental objectives and 38.77% to social objectives.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.

- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaptation and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or

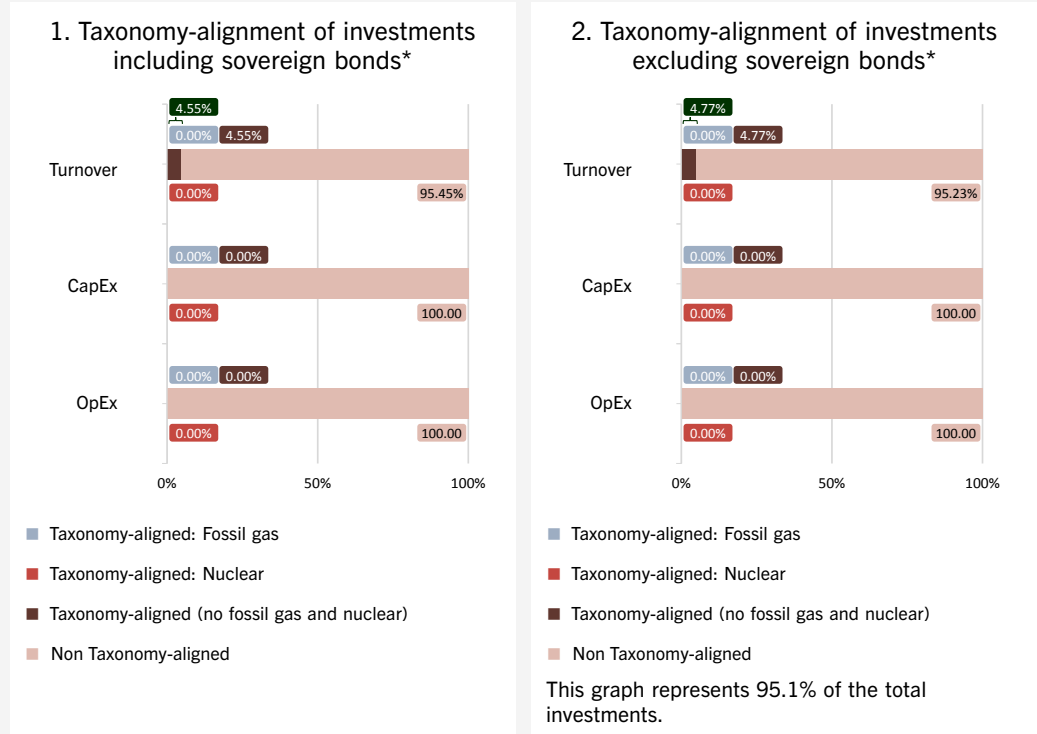

low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

55.75%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

What was the share of socially sustainable investments?

38.77%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- investments in companies that have a significant proportion of their activities related to, but not limited to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- min exposure of 80% to sustainable investments, including but not limited to, environmental and/or social labelled bonds
- lower carbon footprint than the reference index
- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 25 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Short Term High Yield**

Legal entity identifier: **5493001BLDF0NBC83W95**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 25.31% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment index. The ICE BofA Euro High Yield Ex Financial BB-B 1-3 Years Constrained index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.45	3.21
Weapons	0.10	1.09
Other controversial activities	0.05	2.17
Not applicable:	1.38	0.00
Not covered:	21.61	12.58

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 7 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

25.31%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 87.90% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 12.10% invested in Other (#2 Other). 25.31% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

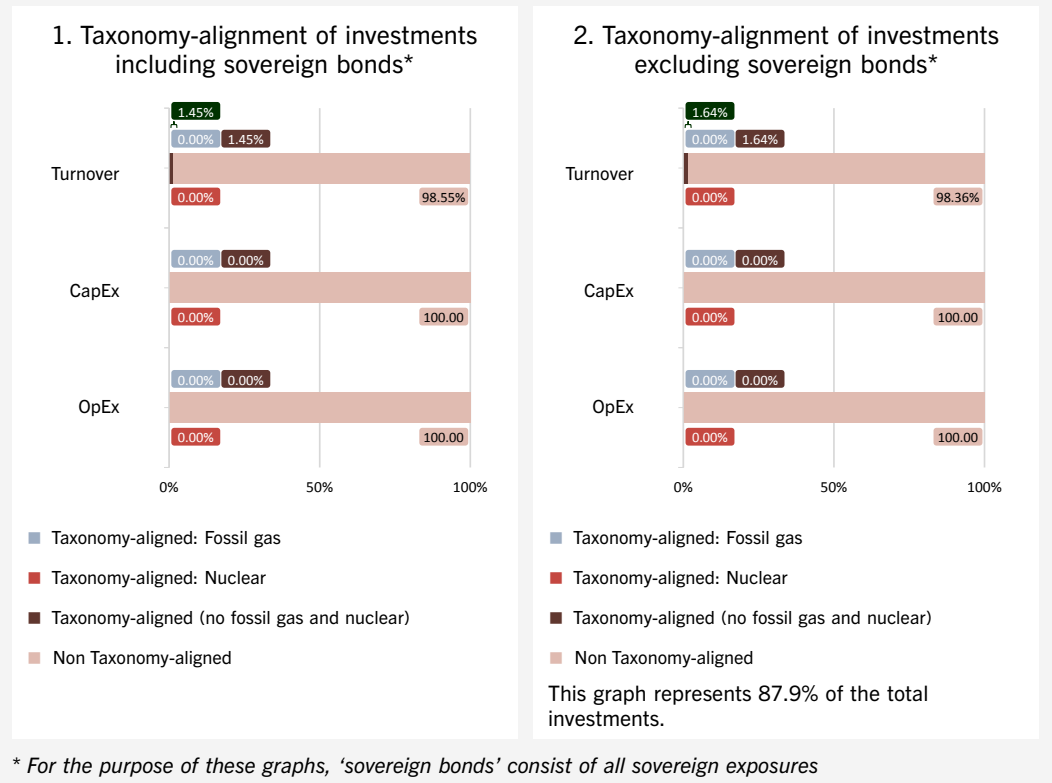

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

8.67%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

16.64%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the investment index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 7 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 37.01% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate 1-3 Years A-BBB index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.54	2.72
Weapons	0.03	0.28
Other controversial activities	0.02	1.20
Not applicable:	13.05	0.00
Not covered:	0.79	0.64

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 26 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, Merrill Lynch.

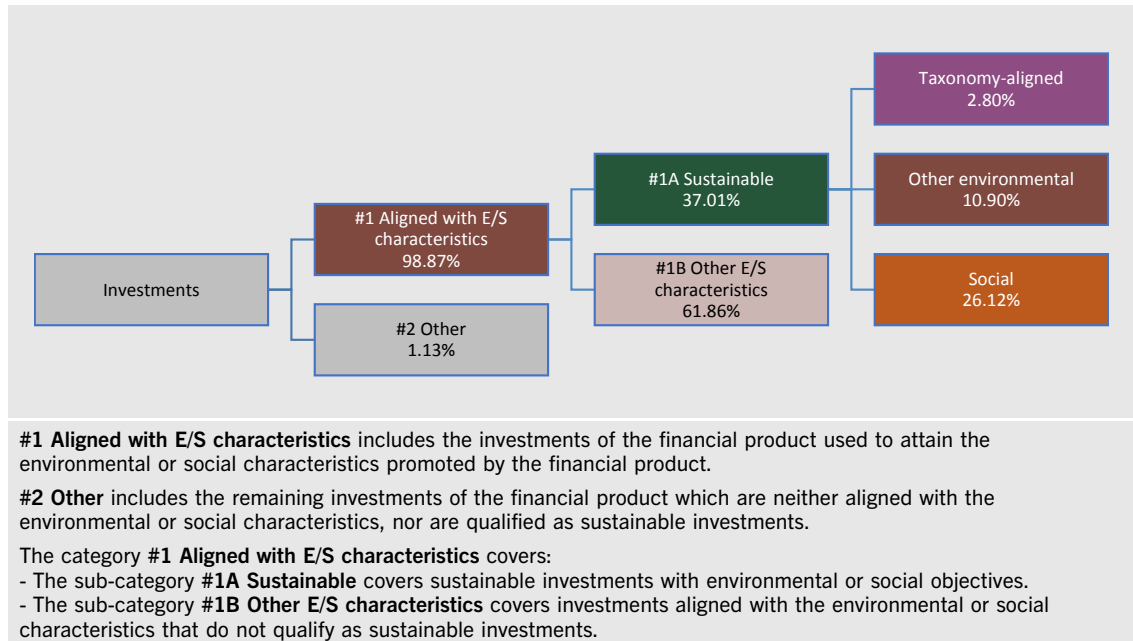

What was the proportion of sustainability-related investments?

37.01%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 98.87% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.13% invested in Other (#2 Other). 37.01% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

10.90%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

26.12%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 26 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 17.86% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The JP Morgan CEMBI Broad Diversified 1-3 Years index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	10.46	10.94
Weapons	0.00	0.16
Other controversial activities	0.00	3.22
Not applicable:	2.45	0.00
Not covered:	3.29	1.13

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 6 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

17.86%

Asset allocation
describes the share of
investments in
specific assets.

● What was the asset allocation?

The fund was 92.29% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.71% invested in Other (#2 Other). 17.86% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

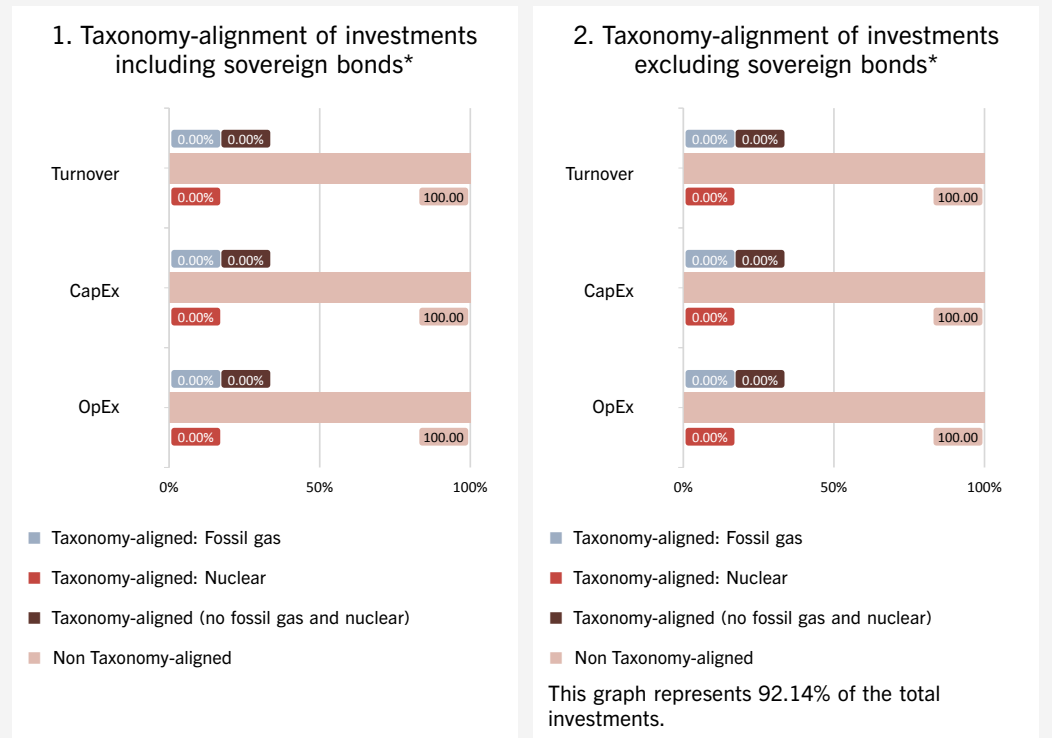

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

6.64%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

11.22%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Legal entity identifier: **549300UVU2ZEG8T8ZH17**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 15.11% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of corporate bonds with low sustainability risks and/or decreased the weight of corporate bonds with high sustainability risks and, as a result, the corporate bonds it holds had a better ESG profile than the corporate bonds of the investment universe.
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the investment universe.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.73	0.00
Weapons	0.00	0.00
Other controversial activities	0.03	0.00
Not applicable:	83.92	0.00
Not covered:	0.40	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 11 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

- (i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund’s investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact,

ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

15.11%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 93.50% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.50% invested in Other (#2 Other). 15.11% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

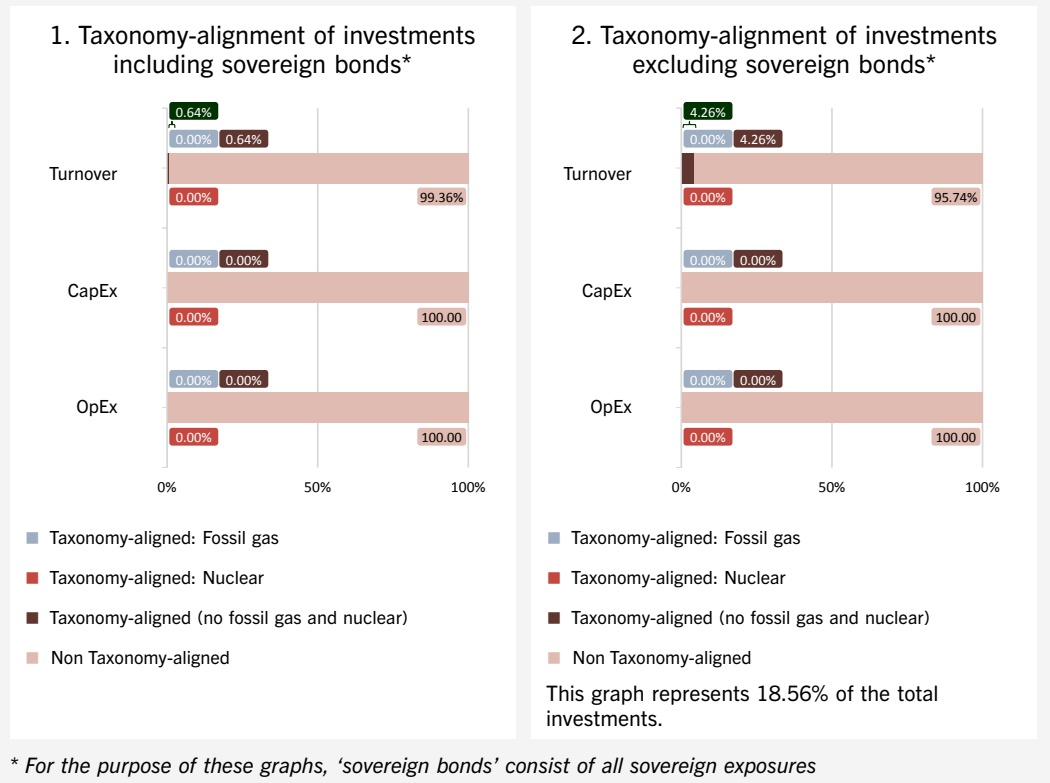

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

12.37%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

2.74%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 11.74% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of corporate bonds with low sustainability risks and/or decreased the weight of corporate bonds with high sustainability risks and, as a result, the corporate bonds it holds had a better ESG profile than the corporate bonds of the investment universe.
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the investment universe.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.42	0.00
Weapons	0.01	0.00
Other controversial activities	0.05	0.00
Not applicable:	75.50	0.00
Not covered:	0.68	100.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Engagement

The fund engaged with 11 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities

- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

- (i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund’s investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact,

ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

11.74%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 89.94% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 10.06% invested in Other (#2 Other). 11.74% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

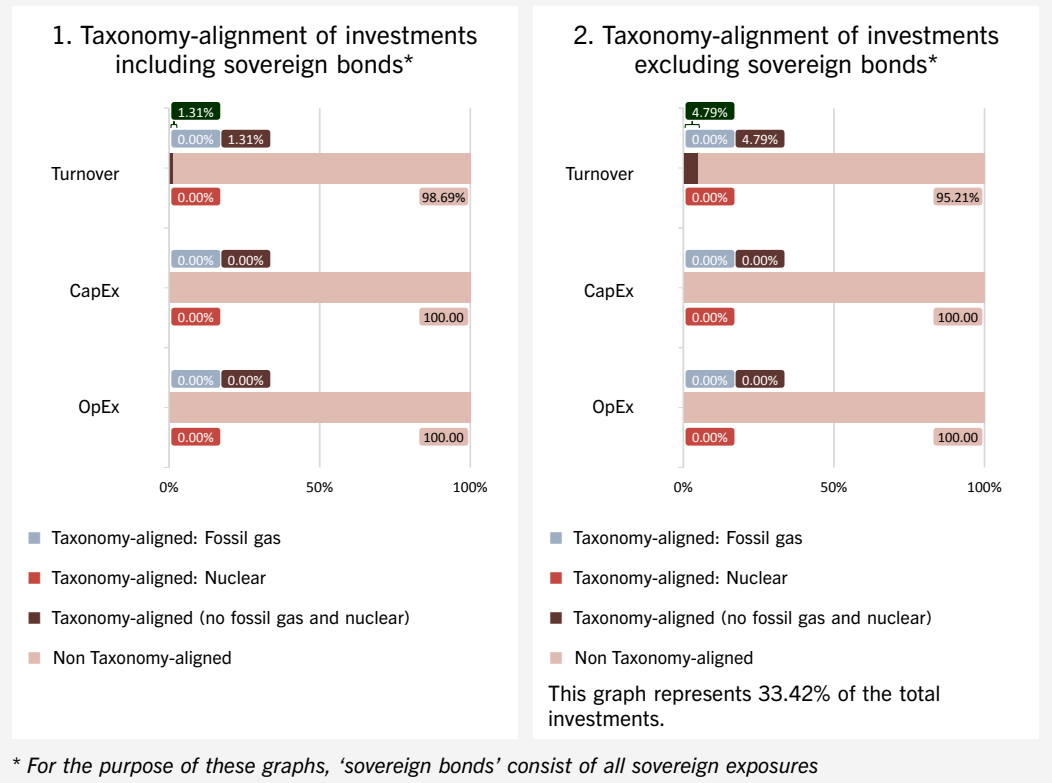

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

6.86%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

4.88%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 14.30% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class / best effort:**
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

14.30%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 14.30% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.12	1.45
Weapons	0.00	0.00
Other controversial activities	0.00	0.01
Not applicable:	92.57	94.79
Not covered:	1.51	0.56

*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 6 sovereigns on ESG topics (data as of 30.09.2023).

Source: *Pictet Asset Management*.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management’s responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
MALAYSIA GOVT 3.899% 16.11.2027 Sr	Sovereign	1.4	Malaysia

What was the proportion of sustainability-related investments?

14.30%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 94.35% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 5.65% invested in Other (#2 Other). 14.30% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and

services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

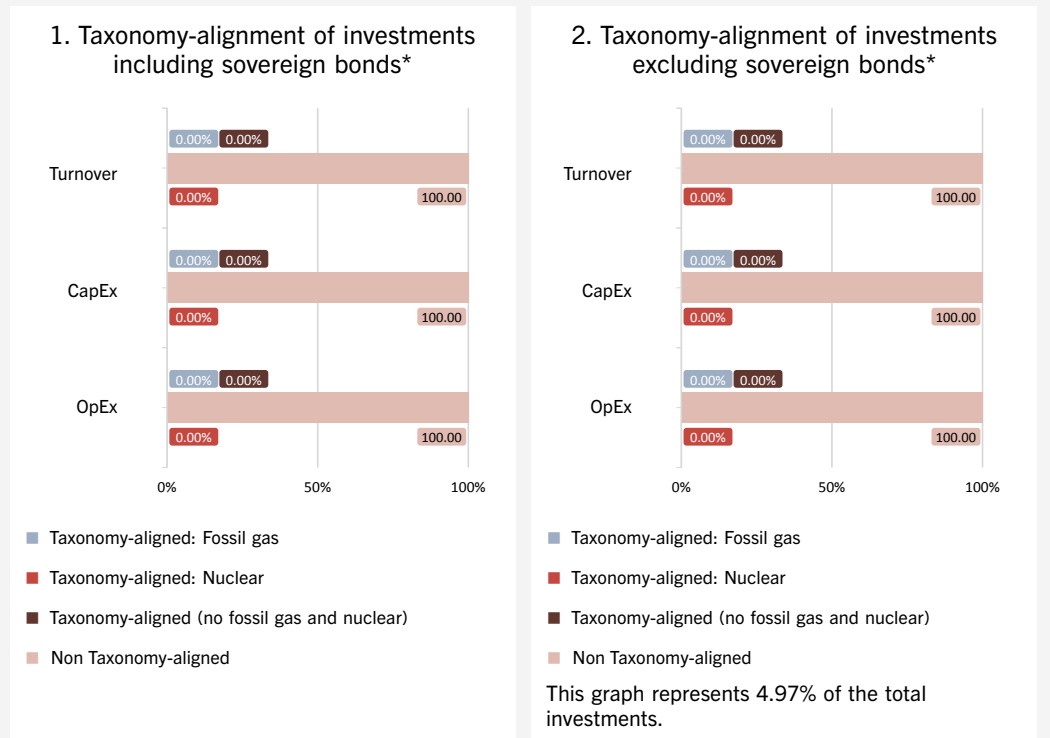

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

11.07%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

3.23%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 6 sovereigns on ESG topics (data as 30.09.2023).

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Climate Government Bonds**

Legal entity identifier: **213800YGY2GACS313720**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective : 93.44% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive environmental impact by investing in countries that have a of low carbon emission exposure in view of supporting the long-term global warming objectives of the Paris Agreement (and adopted under the United Nations Framework Convention on Climate Change seeking to limit global warming).

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in bonds and other debt securities:

- issued or guaranteed by governments or by regional or local governments having a minimum credit rating at the time of acquisition, equivalent to “B-“as defined by Standard & Poor’s or an equivalent credit rating from other recognized rating agencies. When there is no official rating system, the Managers acquired transferable securities with identical quality criteria;
- of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or
- of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO2 emissions, for example, a country legislating on their carbon policies which not yet represented in the data

The above-mentioned investments include ESG Labelled Bonds.

Eligible securities included:

- (i) securities issued by countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management) or are in the process of implementing such policies
- (ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Inclusion:

The fund invested partially in environmental labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes

Company Exclusions based on Controversial Activities and Revenue Thresholds

Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- **Active ownership:**

The fund primarily invests in sovereign bonds, and we engaged with select sovereigns on ESG topics over the reference period.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental objectives such as:

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 37.18% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view.

- **Average carbon footprint at the portfolio level, both in terms of total carbon emissions and carbon emissions by GDP, incorporating Land Management (LULUCF) contribution in our measurement of emissions**

0.21 KtCo2e/GDP EUR

As measured by a reduction in country's total CO2 emissions in kilotons over the past 4 years and improving CO2 efficiency i.e. total CO2 emissions in kilotons per billion USD of GDP over the past 4 years. Source: Pictet Asset Management, based on data from EDGAR and FAOSTAT

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.01	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Not applicable:	96.80	100.00
Not covered:	0.24	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, we ensured that sustainable investments did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental Risks as part of the fund's scoring framework. Scores are determined on a quantitative screen based on carbon emissions data and qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data, primarily carbon emissions - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

93.44%

What was the asset allocation?

The fund allocated 93.44% of its assets to Sustainable investments (#1 Sustainable) and 6.56% to Not sustainable investments (#2 Not sustainable). 93.44% of its assets is allocated to environmental objectives and 0.00% to social objectives.

Notes:

- "#1A Sustainable" and "Other Environmental" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.

Source: Pictet Asset Management.

In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaptation and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

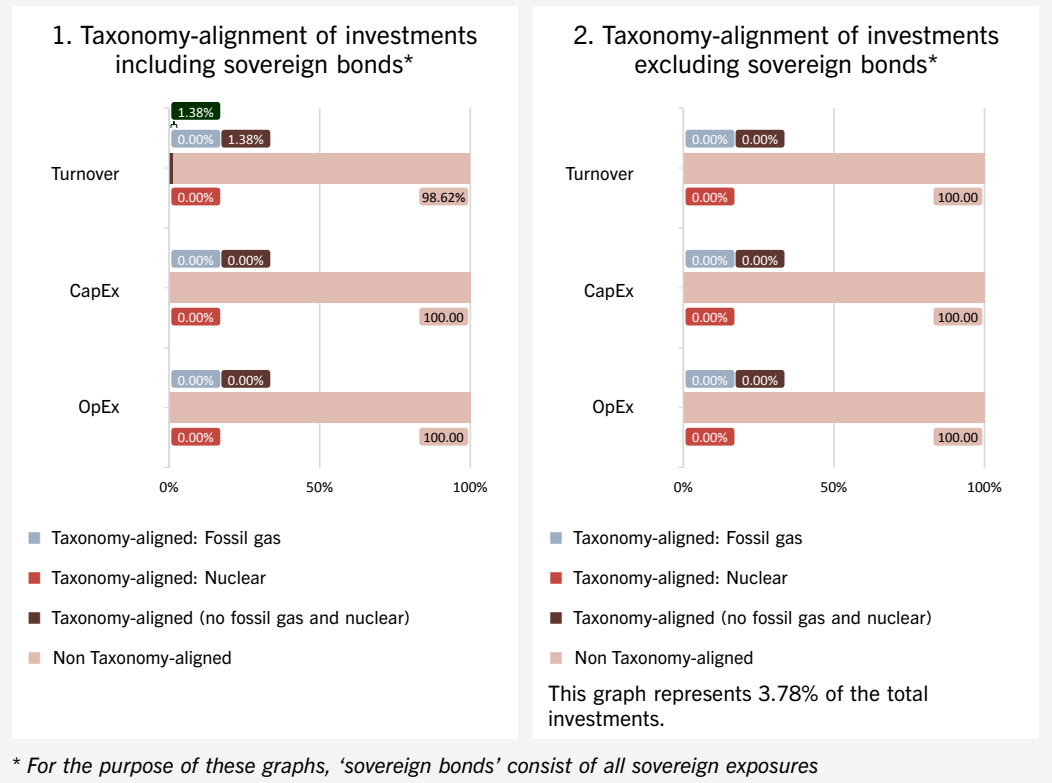

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

93.44%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally

What was the share of socially sustainable investments?

0%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- investments in bonds and other debt securities:
 - of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or
 - of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO2 emissions, for example, a country legislating on their carbon policies which is not yet represented in the data.
- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with select sovereigns on ESG topics over the reference period.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Product name: **Pictet - Family**

Legal entity identifier: **549300M1TOB2573YHT17**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.83% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.21	4.15
Weapons	0.07	0.99
Other controversial activities	0.01	1.02
Not applicable:	1.68	0.00
Not covered:	0.00	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 47 general assembly meetings out of 48 votable meetings (97.92%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 79.17% of meetings.

Out of 614 management resolutions, we voted against management on 107 items (17.43%) and abstained on 51 items (8.31%).

We supported 41 (73.21%) shareholder resolutions out of 56 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 32 out of 42 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 10 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

48.83%

● What was the asset allocation?

The fund was 98.32% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.68% invested in Other (#2 Other). 48.83% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.48%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

45.35%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 34.56% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI EM index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.53	0.00
Weapons	0.01	0.00
Other controversial activities	0.03	0.00
Not applicable:	1.85	0.00
Not covered:	1.62	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 78 general assembly meetings out of 80 votable meetings (97.50%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 42.50% of meetings.

Out of 658 management resolutions, we voted against management on 73 items (11.09%) and abstained on 4 items (0.61%).

We supported 3 (100.00%) shareholder resolutions out of 3 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 22 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
TAIWAN SEMICONDUCTOR MANUFAC	Information Technology	8.4	Taiwan

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

34.56%

● What was the asset allocation?

The fund was 98.15% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.85% invested in Other (#2 Other). 34.56% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

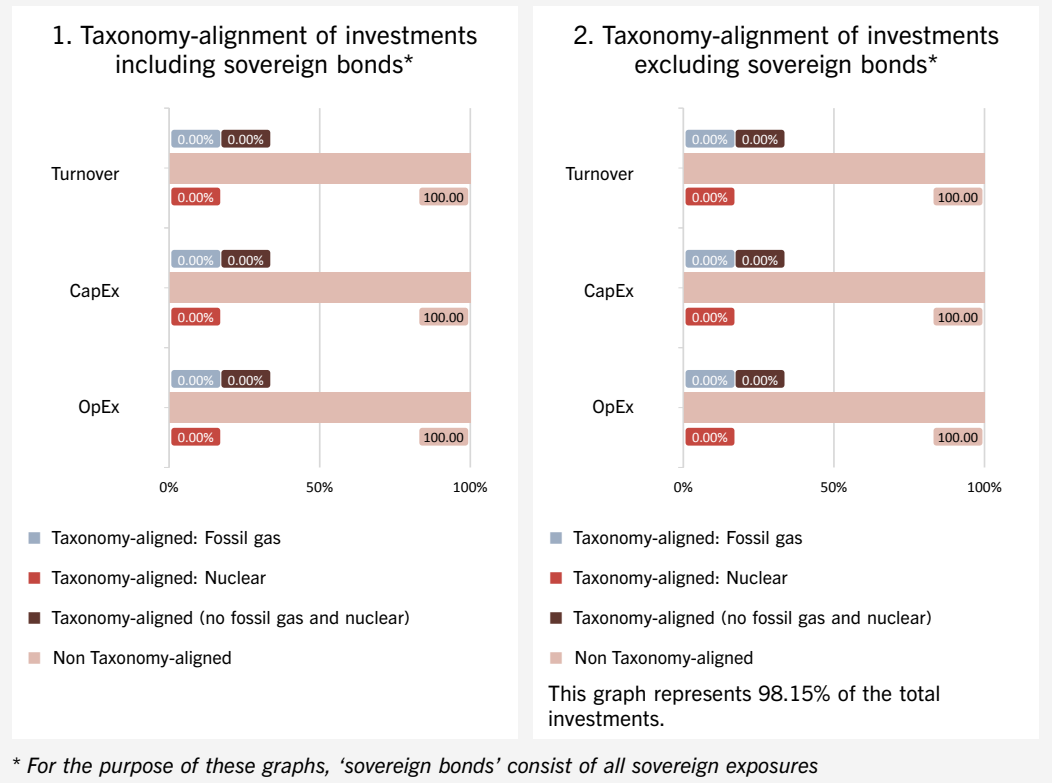

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

15.28%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

19.28%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 41.49% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class:**
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI Europe index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Carbon intensity:**
The fund has targeted to have a lower carbon intensity than the investment universe.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%

Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

41.49%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.60
Weapons	0.02	0.98
Other controversial activities	0.01	1.89
Not applicable:	0.34	0.00
Not covered:	0.00	0.03

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 60 general assembly meetings out of 61 votable meetings (98.36%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 36.07% of meetings.

Out of 1203 management resolutions, we voted against management on 42 items (3.49%) and abstained on 6 items (0.50%).

We supported 5 (35.71%) shareholder resolutions out of 14 proposals.

In respect to Environmental and/or Social issues we voted for 18 out of 18 management resolutions and for 1 out of 6 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 19 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
NOVARTIS AG-REG	Health Care	4.6	Switzerland
ROCHE HOLDING AG-GENUSSCHEIN	Health Care	4.4	Switzerland

Source: Pictet Asset Management, GICS/MSCI.

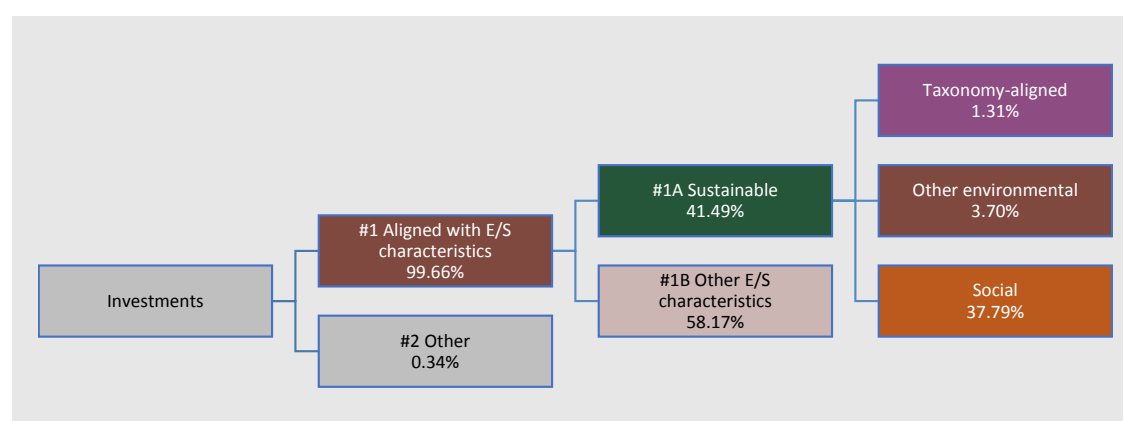

What was the proportion of sustainability-related investments?

41.49%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 99.66% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.34% invested in Other (#2 Other). 41.49% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- “#1A Sustainable”, “Other Environmental” and “Social” investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

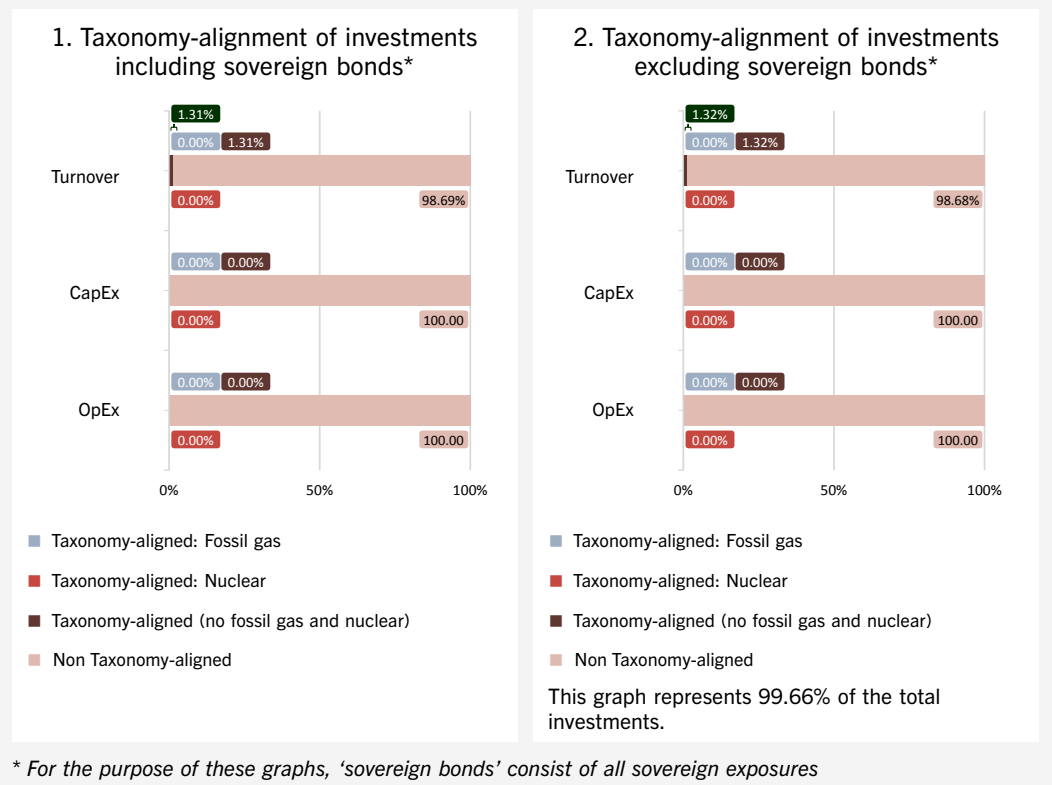

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the "greenness" of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.70%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

37.79%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 19 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 40.17% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

● **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.05	0.99
Other controversial activities	0.00	1.02
Not applicable:	0.88	0.00
Not covered:	0.04	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Voting rights**

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 69.44% of meetings.

Out of 361 management resolutions, we voted against management on 45 items (12.47%) and abstained on 24 items (6.65%).

We supported 50 (69.44%) shareholder resolutions out of 72 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 43 out of 56 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● **Engagement**

The fund engaged with 13 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
META PLATFORMS INC-CLASS A	Communication Services	6.3	United States

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

40.17%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 96.84% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.16% invested in Other (#2 Other). 40.17% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

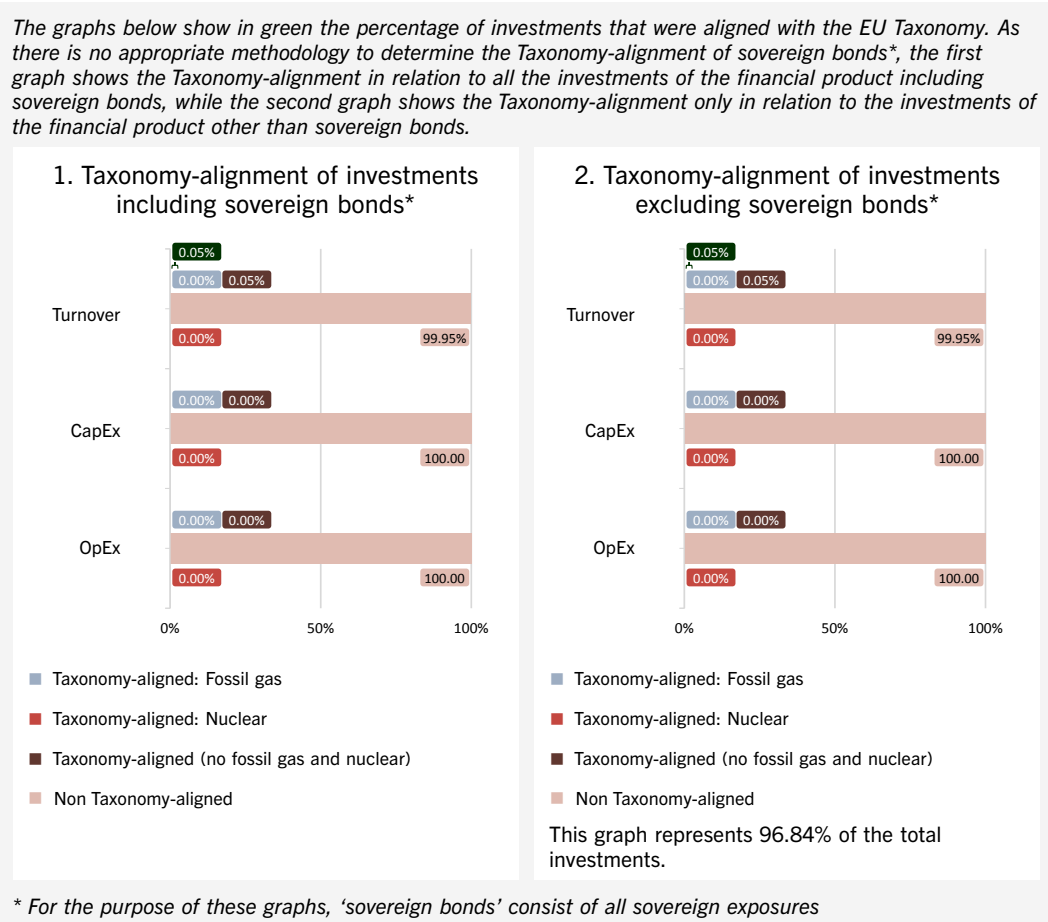

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the “greenness” of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

11.14%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

29.02%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 13 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective : 97.93%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive social impact by investing at least two-thirds of its total assets/total wealth in companies supporting the health of people with high innovation capacity. Better therapies can deliver true value to patients and healthcare systems alike. These companies are tackling high unmet medical needs and reduce the pressures on healthcare budgets through the reduction of hospital admissions or symptom management.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to social objectives such as:

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

97.93%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

0.00%

Additional information on specific social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.00	0.99
Other controversial activities	0.00	1.02
Not applicable:	0.51	0.00
Not covered:	2.41	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 62 general assembly meetings out of 62 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 66.13% of meetings.

Out of 451 management resolutions, we voted against management on 39 items (8.65%) and abstained on 49 items (10.86%).

We supported 4 (50.00%) shareholder resolutions out of 8 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 3 out of 3 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 16 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
VERTEX PHARMACEUTICALS INC	Health Care	5.7	United States
ARGENX SE - ADR	Health Care	5.4	Netherlands

Source: Pictet Asset Management, GICS/MSCI.

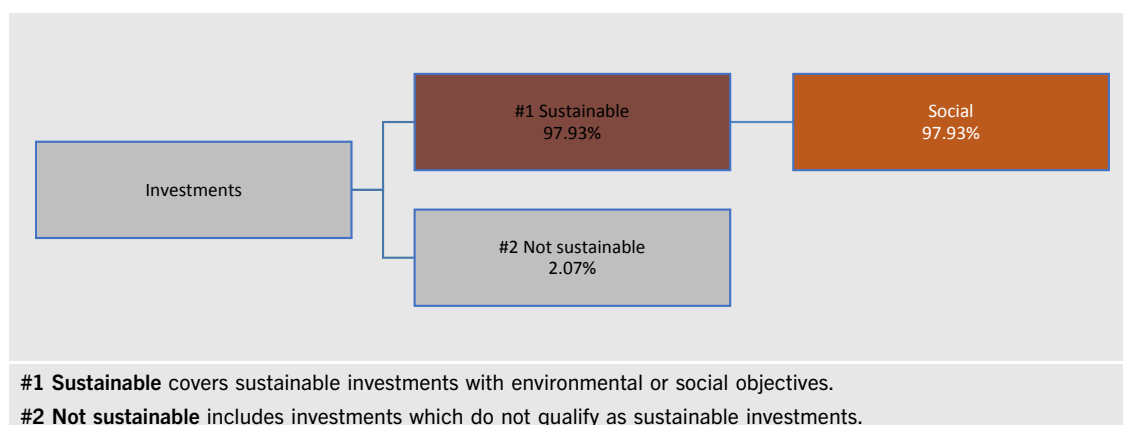

What was the proportion of sustainability-related investments?

97.93%

● What was the asset allocation?

The fund allocated 97.93% of its assets to Sustainable investments (#1 Sustainable) and 2.07% to Not sustainable investments (#2 Not sustainable). 0.00% of its assets is allocated to environmental objectives and 97.93% to social objectives.

Notes:

- "#1A Sustainable" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

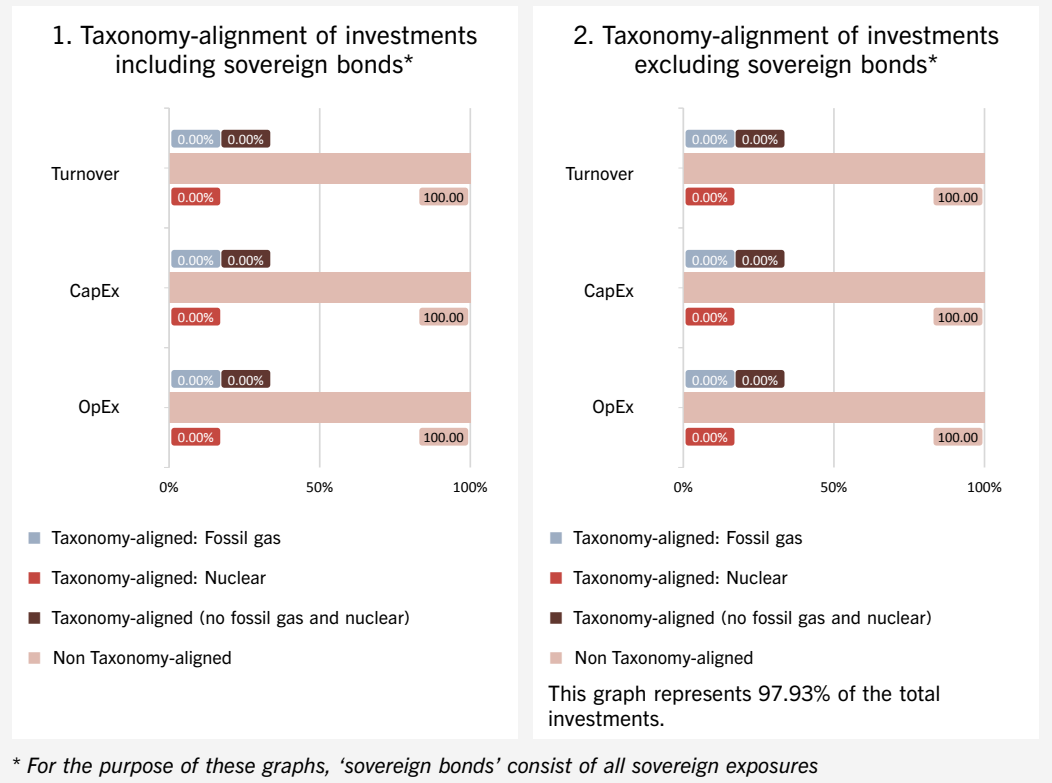

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

97.93%

What investments were included under “not sustainable”, what was their purpose and were

there any minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 16 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

01.10.2022 - 30.09.2023

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Premium Brands**

Legal entity identifier: **54930083TCJNE9IFFU75**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 24.93% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

● **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.05	0.99
Other controversial activities	0.17	1.02
Not applicable:	0.60	0.00
Not covered:	0.05	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Voting rights**

During the reference period, the fund voted at 37 general assembly meetings out of 38 votable meetings (97.37%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 55.26% of meetings.

Out of 532 management resolutions, we voted against management on 64 items (12.03%) and abstained on 4 items (0.75%).

We supported 20 (62.50%) shareholder resolutions out of 32 proposals.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 6 out of 12 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● **Engagement**

The fund engaged with 10 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

24.93%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 98.07% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.93% invested in Other (#2 Other). 24.93% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

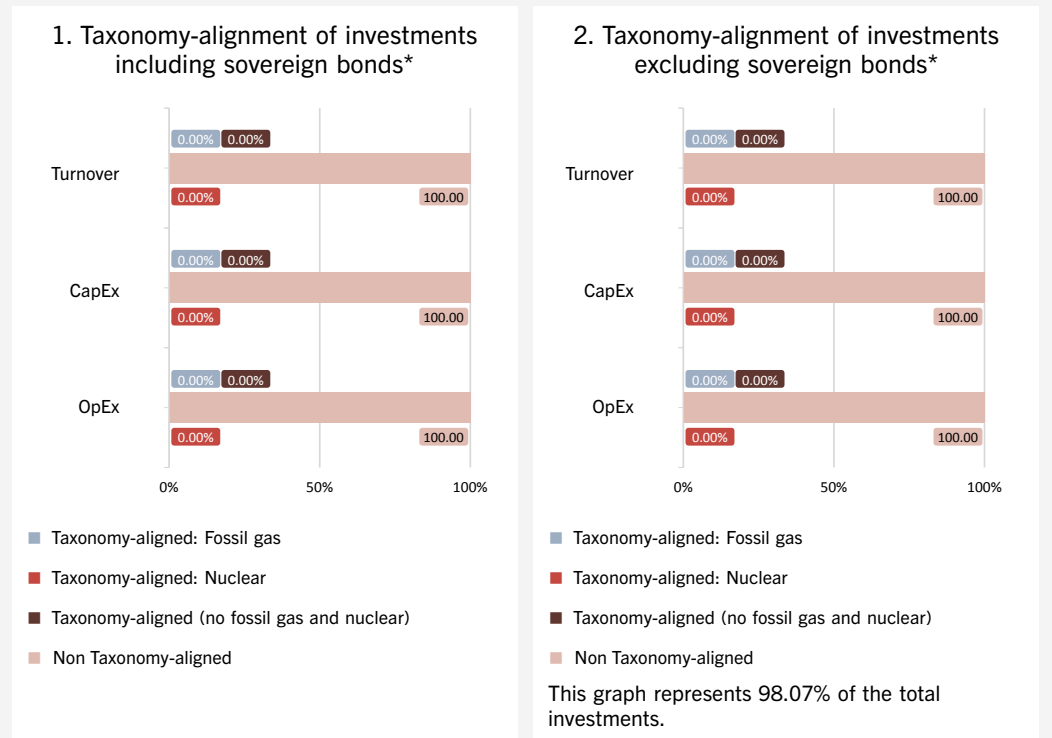

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

2.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

22.57%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Water**

Legal entity identifier: **549300750VPZP6MC4674**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="radio"/> Yes	<input type="checkbox"/> <input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 26.72%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 71.90%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets/total wealth in companies operating in the water sector and providing solutions to global water challenges. The fund targeted companies that are providing technologies to improve water quality, maximize water efficiency or increase the number of households connected to water services.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, water production water conditioning and desalination, water suppliers, transport and dispatching, collection and treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities.

The companies targeted in the air sector include those responsible for inspecting air quality, suppliers of air-filtration equipment and manufacturers of catalytic converters for vehicles.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds	
Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

98.61%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

3.31%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.08	4.15
Weapons	0.12	0.99
Other controversial activities	0.02	1.02
Not applicable:	0.55	0.00
Not covered:	0.03	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 58 general assembly meetings out of 60 votable meetings (96.67%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 33.33% of meetings.

Out of 681 management resolutions, we voted against management on 32 items (4.70%) and abstained on 23 items (3.38%).

We supported 9 (56.25%) shareholder resolutions out of 16 proposals.

In respect to Environmental and/or Social issues we voted for 6 out of 6 management resolutions and for 5 out of 7 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 26 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
REPUBLIC SERVICES INC	Industrials	4.6	United States
THERMO FISHER SCIENTIFIC INC	Health Care	4.4	United States
FERGUSON PLC	Industrials	4.3	United Kingdom
AMERICAN WATER WORKS CO INC	Utilities	4.3	United States
WASTE MANAGEMENT INC	Industrials	4.3	United States
VEOLIA ENVIRONNEMENT	Utilities	4.1	France

ECOLAB INC	Materials	3.1	United States
IDEX CORP	Industrials	3.0	United States
SEVERN TRENT PLC	Utilities	2.9	United Kingdom
AGILENT TECHNOLOGIES INC	Health Care	2.7	United States
GEBERIT AG-REG	Industrials	2.4	Switzerland

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

98.61%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 98.61% of its assets to Sustainable investments (#1 Sustainable) and 1.39% to Not sustainable investments (#2 Not sustainable). 26.72% of its assets is allocated to environmental objectives and 71.90% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.
#2 Not sustainable includes investments which do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas
 - In nuclear energy
- No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

26.72%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

71.9%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as water production water conditioning and desalination, water suppliers, transport and dispatching, treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 26 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Japanese Equity Opportunities**

Legal entity identifier: **549300P01KPUTAFHD235**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 38.35% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Topix index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.02	1.24
Weapons	0.12	0.15
Other controversial activities	0.09	0.68
Not applicable:	0.77	0.00
Not covered:	0.00	1.06

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 70 general assembly meetings out of 70 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 20.00% of meetings.

Out of 803 management resolutions, we voted against management on 22 items (2.74%) and abstained on 0 items (0.00%).

We supported 5 (83.33%) shareholder resolutions out of 6 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 1 out of 1 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 15 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
TOYOTA MOTOR CORP	Consumer Discretionary	3.4	Japan
SONY GROUP CORP	Consumer Discretionary	3.3	Japan
HITACHI LTD	Industrials	3.1	Japan
KEYENCE CORP	Information Technology	3.1	Japan
SHIN-ETSU CHEMICAL CO LTD	Materials	3.1	Japan
MITSUBISHI UFJ FINANCIAL GRO	Financials	2.8	Japan
NIPPON TELEGRAPH & TELEPHONE	Consumer Discretionary	2.7	Japan

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
RENESAS ELECTRONICS CORP	Information Technology	2.2	Japan
OLYMPUS CORP	Health Care	2.2	Japan

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

38.35%

● What was the asset allocation?

The fund was 99.23% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.77% invested in Other (#2 Other). 38.35% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

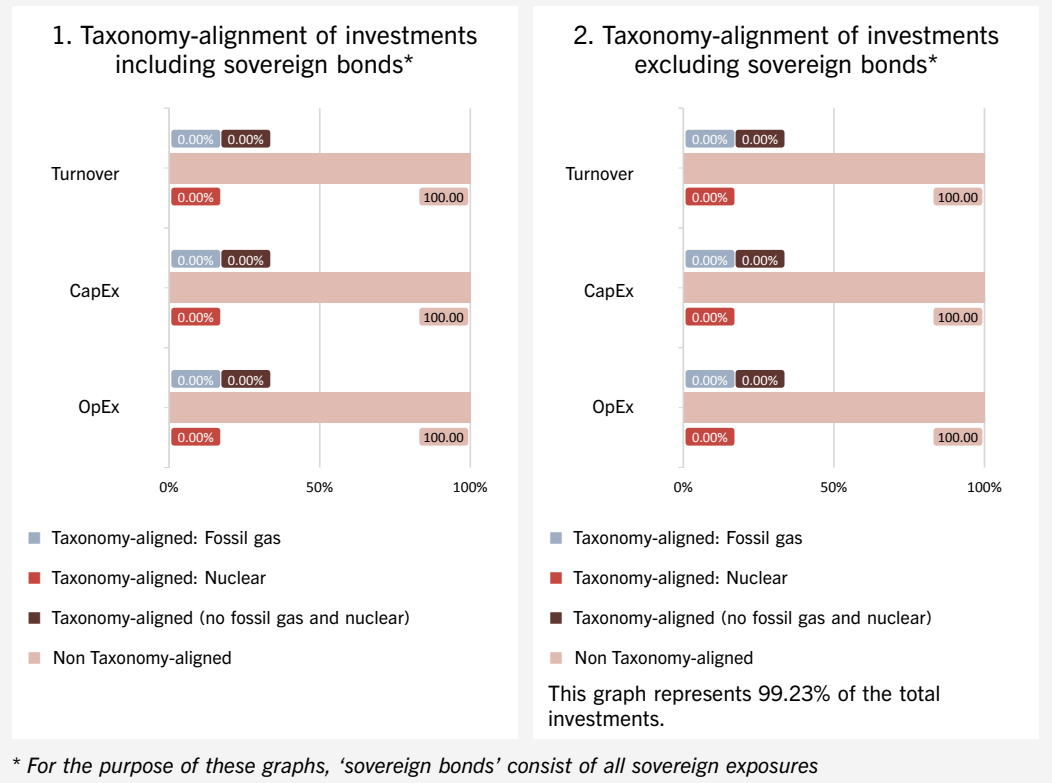

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

14.25%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

24.1%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 15 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 41.52% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC Asia ex-Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.12	2.71
Weapons	0.02	0.22
Other controversial activities	0.02	0.69
Not applicable:	2.98	0.00
Not covered:	2.12	0.10

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 60 general assembly meetings out of 60 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 41.67% of meetings.

Out of 475 management resolutions, we voted against management on 66 items (13.89%) and abstained on 0 items (0.00%).

We supported 2 (100.00%) shareholder resolutions out of 2 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 13 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
TAIWAN SEMICONDUCTOR MANUFAC	Information Technology	9.2	Taiwan
TENCENT HOLDINGS LTD	Communication Services	6.3	China
ALIBABA GROUP HOLDING LTD	Consumer Discretionary	5.0	China
SAMSUNG ELECTRONICS CO LTD	Information Technology	4.2	Korea (Rep.)
ICICI BANK LTD	Financials	3.9	India
AIA GROUP LTD	Financials	3.8	Hong Kong
BANK RAKYAT INDONESIA PERSER	Financials	2.9	Indonesia
HDFC BANK LIMITED	Financials	2.9	India
MEITUAN-CLASS B	Consumer Discretionary	2.6	China
HONG KONG EXCHANGES & CLEAR	Financials	2.4	Hong Kong
SAMSUNG ELECTRONICS-PREF	Information Technology	2.3	Korea (Rep.)
PDD HOLDINGS INC	Consumer Discretionary	2.3	Ireland
SK HYNIX INC	Information Technology	2.2	Korea (Rep.)

What was the proportion of sustainability-related investments?

41.52%

What was the asset allocation?

The fund was 97.02% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.98% invested in Other (#2 Other). 41.52% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

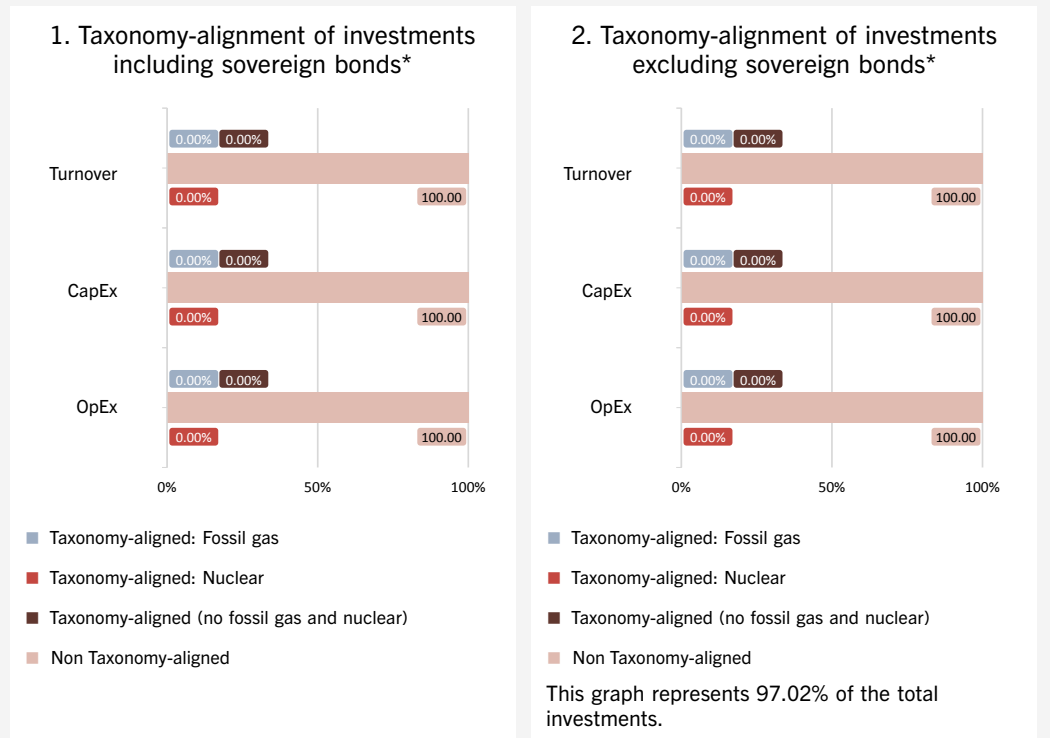

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

16.29%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

25.23%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 13 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - China Equities**

Legal entity identifier: **549300B58PJQP3EQCX89**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 36.52% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI China 10/40 index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.01	2.48
Weapons	0.00	0.04
Other controversial activities	0.01	0.04
Not applicable:	1.14	0.00
Not covered:	0.00	0.12

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

• Voting rights

During the reference period, the fund voted at 68 general assembly meetings out of 68 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 45.59% of meetings.

Out of 579 management resolutions, we voted against management on 94 items (16.23%) and abstained on 0 items (0.00%).

We supported 4 (100.00%) shareholder resolutions out of 4 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 1 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

• Engagement

The fund engaged with 7 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

36.52%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 98.86% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.14% invested in Other (#2 Other). 36.52% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

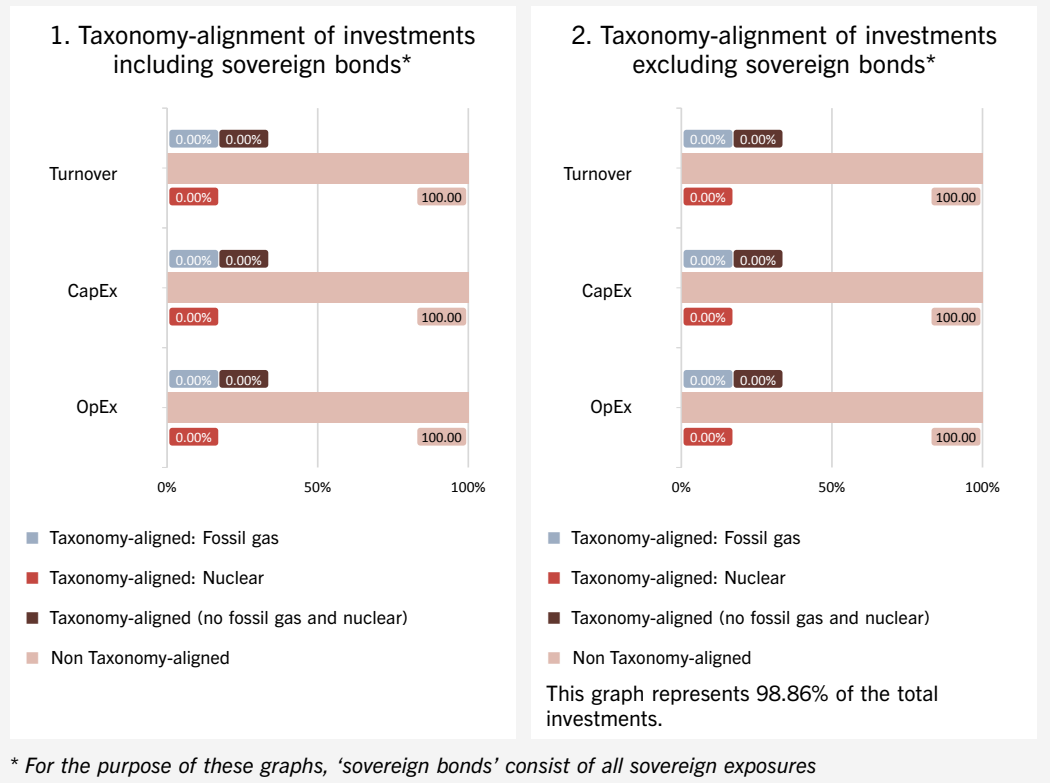

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

8.61%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

27.91%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 7 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Japanese Equity Selection**

Legal entity identifier: **549300B03JBSN81XF771**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 35.06% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

• Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.03	0.00
Weapons	0.12	0.00
Other controversial activities	0.15	0.00
Not applicable:	0.71	0.00
Not covered:	0.00	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 27.78% of meetings.

Out of 417 management resolutions, we voted against management on 17 items (4.08%) and abstained on 0 items (0.00%).

We supported 6 (60.00%) shareholder resolutions out of 10 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 2 out of 2 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 12 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

What was the proportion of sustainability-related investments?

35.06%

● What was the asset allocation?

The fund was 99.29% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.71% invested in Other (#2 Other). 35.06% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

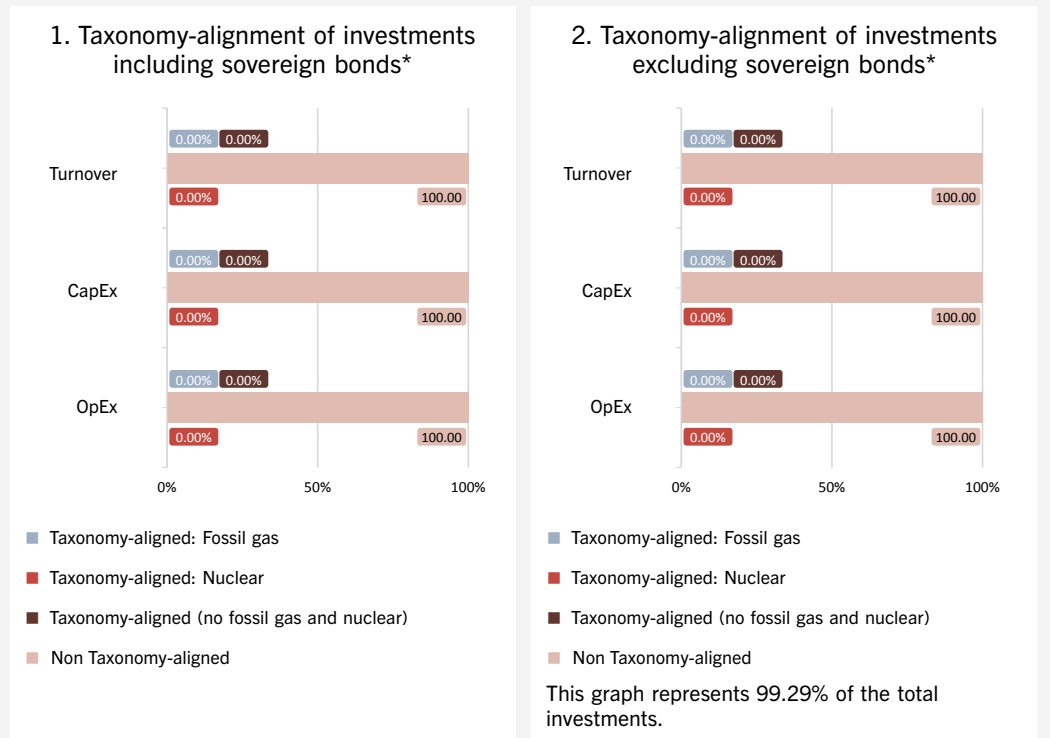

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

14.68%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

20.37%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Health**

Legal entity identifier: **549300PIUSJV81WDAH03**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 3.66% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 93.38%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive social impact by investing mainly in companies supporting the health of people. To safeguard the future of the world’s health services, better prevention and more effective treatments are necessary. These companies help to stem health care costs growth and maximize productivity.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

97.04%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

0.00%

Additional information on specific social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.00	0.99
Other controversial activities	0.12	1.02
Not applicable:	1.04	0.00
Not covered:	1.39	0.02

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 46 general assembly meetings out of 46 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 32.61% of meetings.

Out of 618 management resolutions, we voted against management on 28 items (4.53%) and abstained on 8 items (1.29%).

We supported 17 (77.27%) shareholder resolutions out of 22 proposals.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 11 out of 13 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 19 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
THERMO FISHER SCIENTIFIC INC	Health Care	5.4	United States
UNITEDHEALTH GROUP INC	Health Care	4.9	United States

financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

97.04%

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The fund allocated 97.04% of its assets to Sustainable investments (#1 Sustainable) and 2.96% to Not sustainable investments (#2 Not sustainable). 3.66% of its assets is allocated to environmental objectives and 93.38% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.
 #2 Not sustainable includes investments which do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

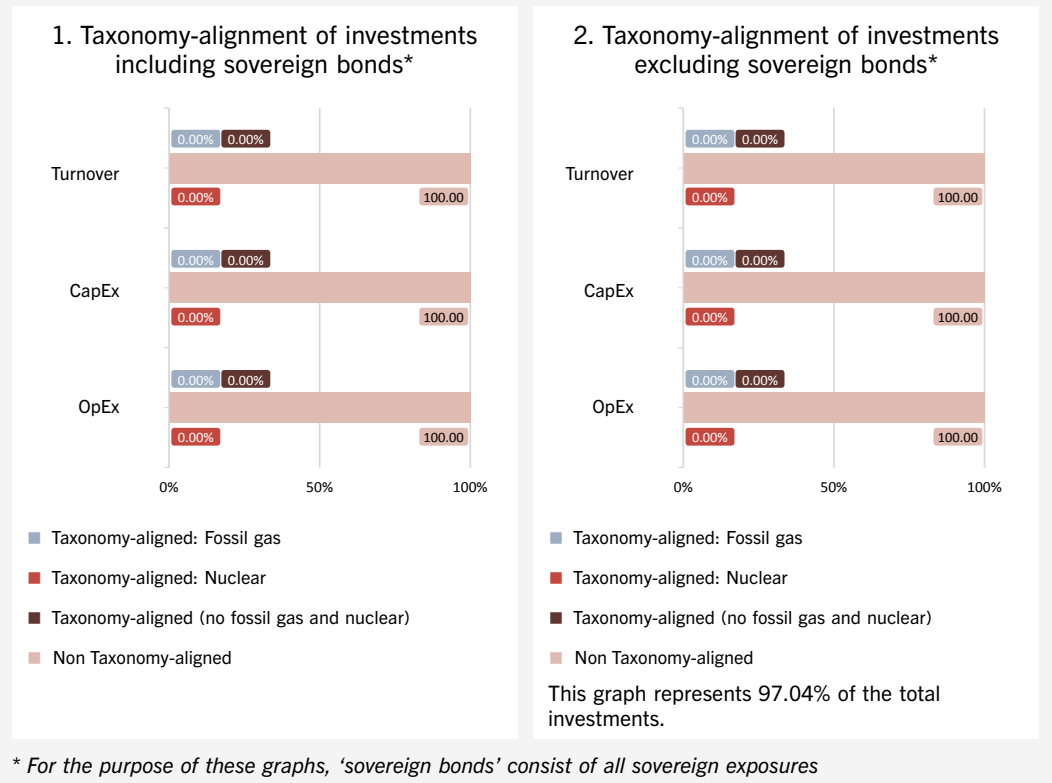

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.66%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

93.38%

What investments were included under “not sustainable”, what was their purpose and were

there any minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 19 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 93.88% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

● **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.03	0.99
Other controversial activities	0.07	1.02
Not applicable:	0.43	0.00
Not covered:	0.05	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Voting rights**

During the reference period, the fund voted at 52 general assembly meetings out of 52 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 21.15% of meetings.

Out of 676 management resolutions, we voted against management on 6 items (0.89%) and abstained on 10 items (1.48%).

We supported 10 (66.67%) shareholder resolutions out of 15 proposals.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 6 out of 8 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● **Engagement**

The fund engaged with 14 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
THERMO FISHER SCIENTIFIC INC	Health Care	4.3	United States
EQUINIX INC	Real Estate	4.2	United States
JOHNSON CONTROLS INTERNATION	Industrials	4.1	United States
PALO ALTO NETWORKS INC	Information Technology	4.1	United States
KLA CORP	Information Technology	3.7	United States
CINTAS CORP	Industrials	3.2	United States
STERIS PLC	Health Care	3.2	United States
REVVITY INC	Health Care	3.2	United States
FISERV INC	Financials	3.2	United States
APTIV PLC	Consumer Discretionary	3.2	Ireland

ROPER TECHNOLOGIES INC	Information Technology	2.7	United States
NXP SEMICONDUCTORS NV	Information Technology	2.6	Netherlands

Source: Pictet Asset Management, GICS/MSCI.

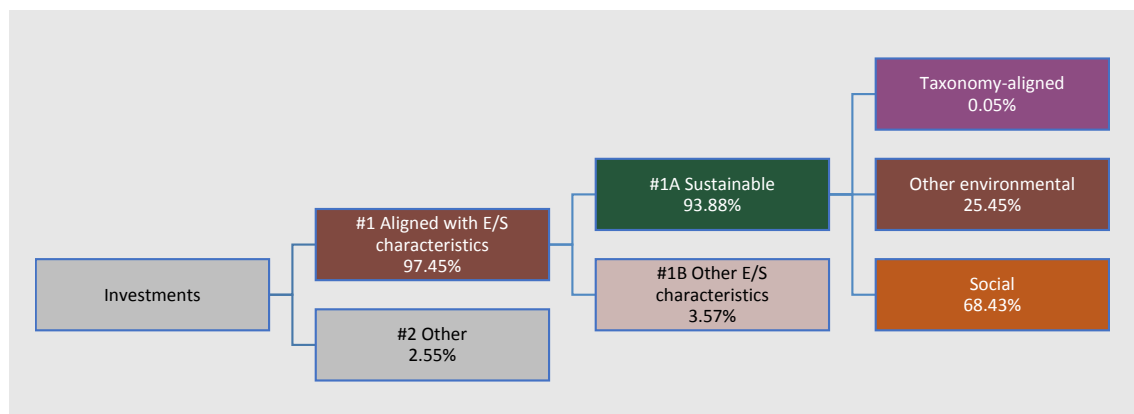

What was the proportion of sustainability-related investments?

93.88%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 97.45% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.55% invested in Other (#2 Other). 93.88% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the “greenness” of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

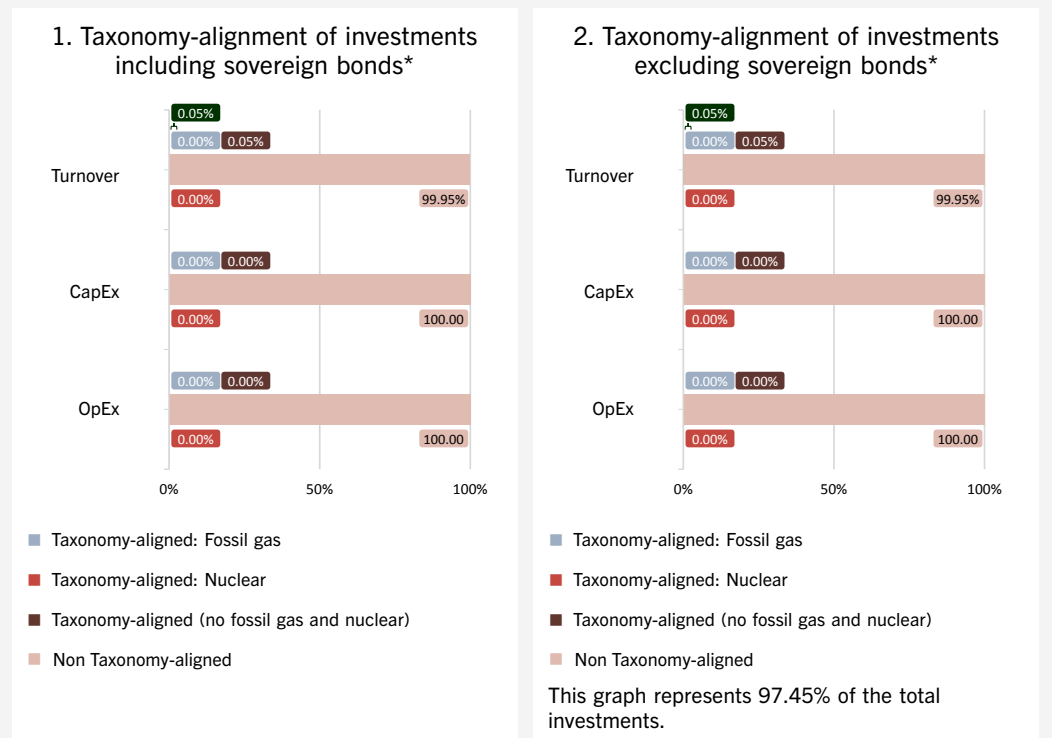

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

25.45%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

68.43%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Legal entity identifier: **549300R01K3C2PFOGH13**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 88.08% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 10.46%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**
 The fund achieved a positive environmental impact by investing at least two-thirds of its total assets/total wealth in shares issued companies that support the structural change towards a sustainable, low-carbon economy, helping to reduce greenhouse gas emissions and air pollution.
 No reference index has been designated for the purpose of attaining the sustainable investment objective.
 The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors, investments into the power grid and other relevant economic activities.
 Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.
- **Norms- and values-based exclusions:**
 The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

98.54%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

9.27%

Additional information on specific environmental objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.99	4.15
Weapons	0.45	0.99
Other controversial activities	0.01	1.02
Not applicable:	0.32	0.00
Not covered:	0.03	0.02

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 50 general assembly meetings out of 50 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 30.00% of meetings.

Out of 688 management resolutions, we voted against management on 26 items (3.78%) and abstained on 20 items (2.91%).

We supported 7 (46.67%) shareholder resolutions out of 15 proposals.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 0 out of 2 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 17 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
NEXTERA ENERGY INC	Utilities	5.0	United States
ON SEMICONDUCTOR	Information Technology	4.8	United States

financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
APPLIED MATERIALS INC	Information Technology	4.5	United States
SYNOPTIS INC	Information Technology	4.4	United States
NXP SEMICONDUCTORS NV	Information Technology	4.1	Netherlands

Source: Pictet Asset Management, GICS/MSCI.

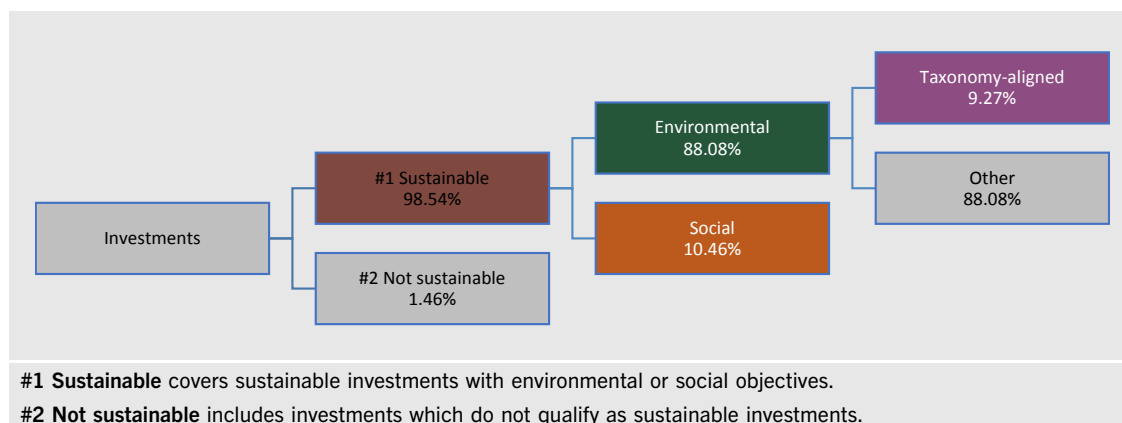

What was the proportion of sustainability-related investments?

98.54%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 98.54% of its assets to Sustainable investments (#1 Sustainable) and 1.46% to Not sustainable investments (#2 Not sustainable). 88.08% of its assets is allocated to environmental objectives and 10.46% to social objectives.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

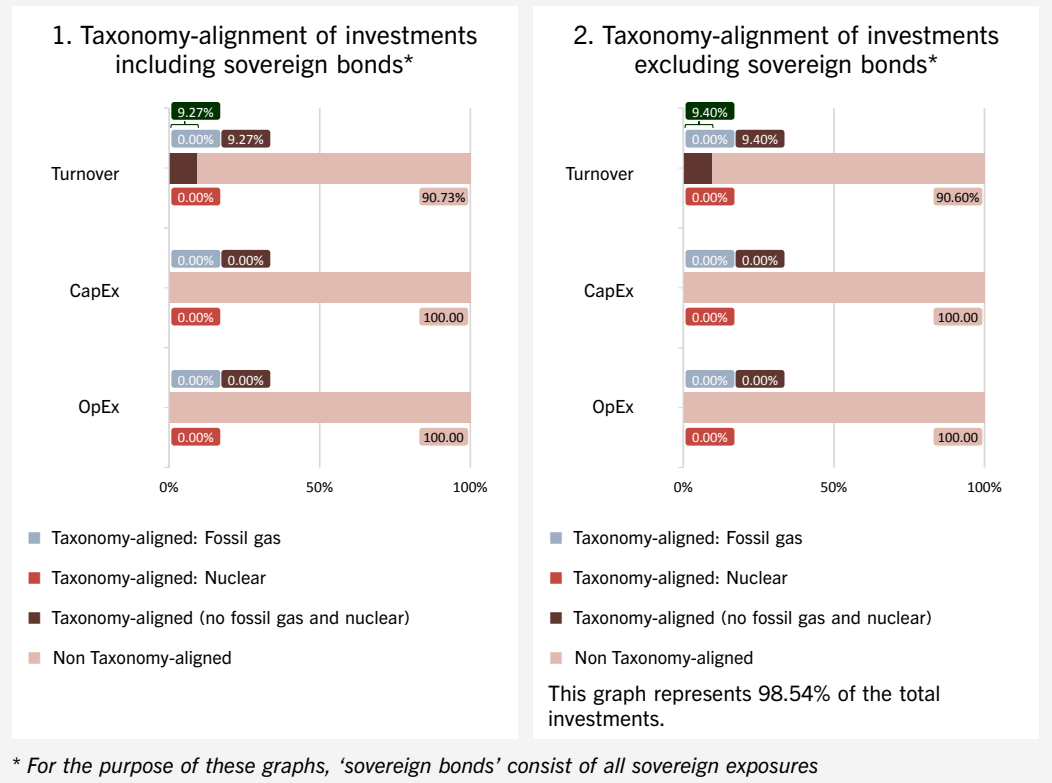

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

88.08%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally

What was the share of socially sustainable investments?

10.46%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors and investments into the power grid and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Timber**

Legal entity identifier: **5493007Y7JCK1EBOLJ63**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 69.36%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 27.95%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets / total wealth in companies that contribute to solving global environmental challenges through sustainable forest management and wood-based materials. Sustainable management of forestland and the wood fibre value chain play a vital role in the sequestration of atmospheric carbon (CO2). Sustainably managed forests are also reservoirs of biodiversity and help to safeguard soil and water resources. Timber is the raw material for a growing variety of bio-based material that can substitute plastics and other non- biodegradable materials and are essential in a circular economy model.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested in companies whose significant proportion of their activities are related to, but not limited to, financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

97.30%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

1.11%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.12	4.15
Weapons	0.00	0.99
Other controversial activities	0.06	1.02
Not applicable:	0.86	0.00
Not covered:	0.74	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 61 general assembly meetings out of 66 votable meetings (92.42%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 37.88% of meetings.

Out of 860 management resolutions, we voted against management on 49 items (5.70%) and abstained on 16 items (1.86%).

We supported 11 (42.31%) shareholder resolutions out of 26 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 1 out of 4 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 11 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI.

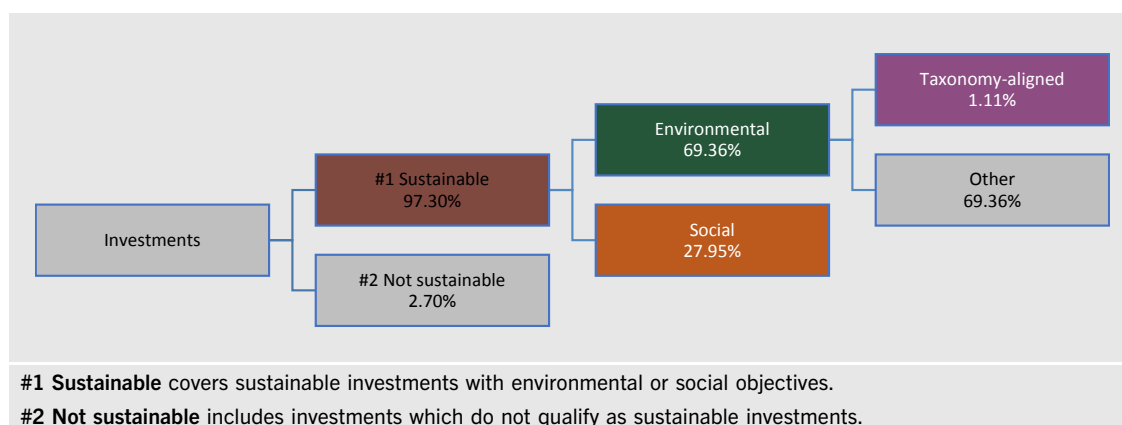

What was the proportion of sustainability-related investments?

97.3%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 97.30% of its assets to Sustainable investments (#1 Sustainable) and 2.70% to Not sustainable investments (#2 Not sustainable). 69.36% of its assets is allocated to environmental objectives and 27.95% to social objectives.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

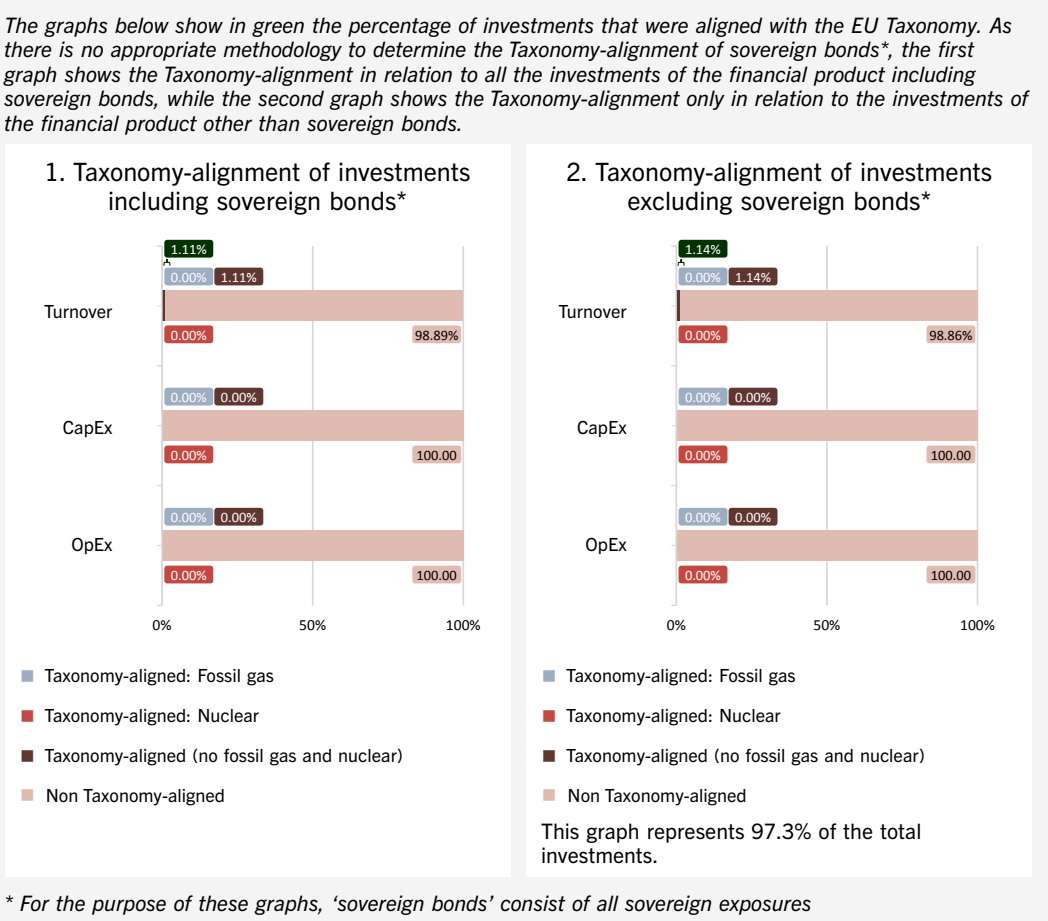

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas
 - In nuclear energy
- No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: Not applicable*
 - Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

69.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

27.95%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Nutrition**

Legal entity identifier: **549300MD1R2NMU6B8J09**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 42.83%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 55.34%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive social and/or environmental impact by investing mainly in companies contributing to and/or benefiting from the nutrition value chain, in particular the quality of nutrition, access to nutrition, and sustainability of food production. These companies help to secure food supplies and improve human and planetary health by contributing to positive dietary shifts and global food security. They also help reducing negative environmental impacts compared to traditional agriculture as well as reducing food waste.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds	
Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

98.18%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

1.37%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.00	0.99
Other controversial activities	0.25	1.02
Not applicable:	0.62	0.00
Not covered:	0.05	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 45 general assembly meetings out of 45 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 33.33% of meetings.

Out of 657 management resolutions, we voted against management on 22 items (3.35%) and abstained on 4 items (0.61%).

We supported 6 (100.00%) shareholder resolutions out of 6 proposals.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 3 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 17 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
COMPASS GROUP PLC	Consumer Discretionary	4.9	United Kingdom

Source: Pictet Asset Management, GICS/MSCI.

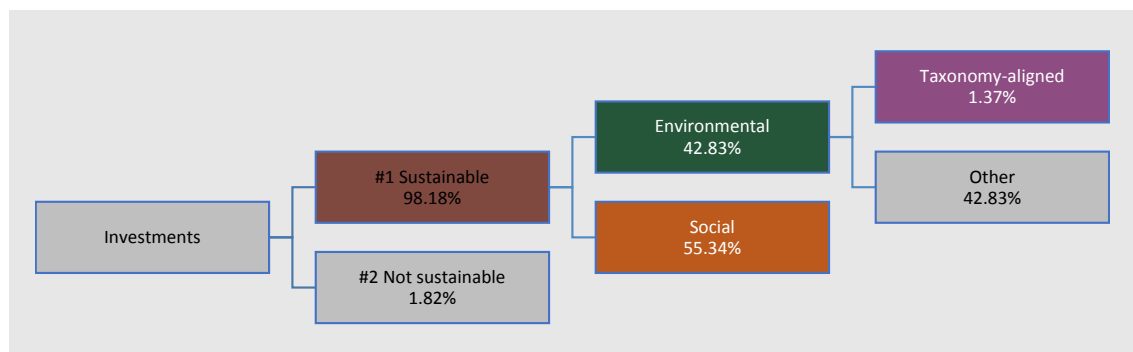

What was the proportion of sustainability-related investments?

98.18%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 98.18% of its assets to Sustainable investments (#1 Sustainable) and 1.82% to Not sustainable investments (#2 Not sustainable). 42.83% of its assets is allocated to environmental objectives and 55.34% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas
 - In nuclear energy
- No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

42.83%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

55.34%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 84.19% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets in securities that may benefit from global megatrends, i.e. long-term market trends resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.

The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] *Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).*

[2] *"State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.*

[3] *In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.*

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

84.19%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

1.66%

Additional information on specific environmental and/or social objectives will be available in next year’s report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.19	4.15
Weapons	0.09	0.99
Other controversial activities	0.07	1.02
Not applicable:	0.88	0.00
Not covered:	0.40	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 465 general assembly meetings out of 471 votable meetings (98.73%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 40.55% of meetings.

Out of 5652 management resolutions, we voted against management on 296 items (5.24%) and abstained on 142 items (2.51%).

We supported 120 (59.70%) shareholder resolutions out of 201 proposals.

In respect to Environmental and/or Social issues we voted for 24 out of 24 management resolutions and for 66 out of 98 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 131 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*
 Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.
 The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
 To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
THERMO FISHER SCIENTIFIC INC	Health Care	1.2	United States
VISA INC-CLASS A SHARES	Financials	1.0	United States

Source: Pictet Asset Management, GICS/MSCI.

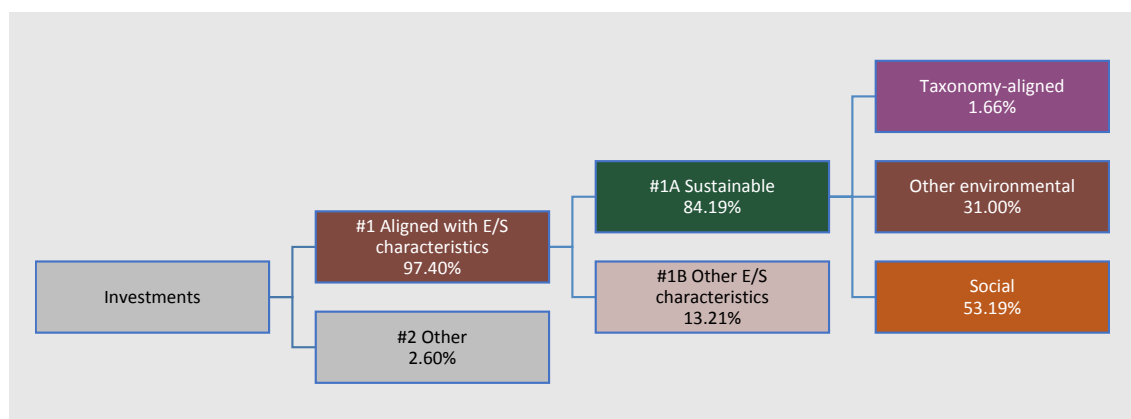

What was the proportion of sustainability-related investments?

84.19%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 97.40% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.60% invested in Other (#2 Other). 84.19% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- “#1A Sustainable”, “Other Environmental” and “Social” investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

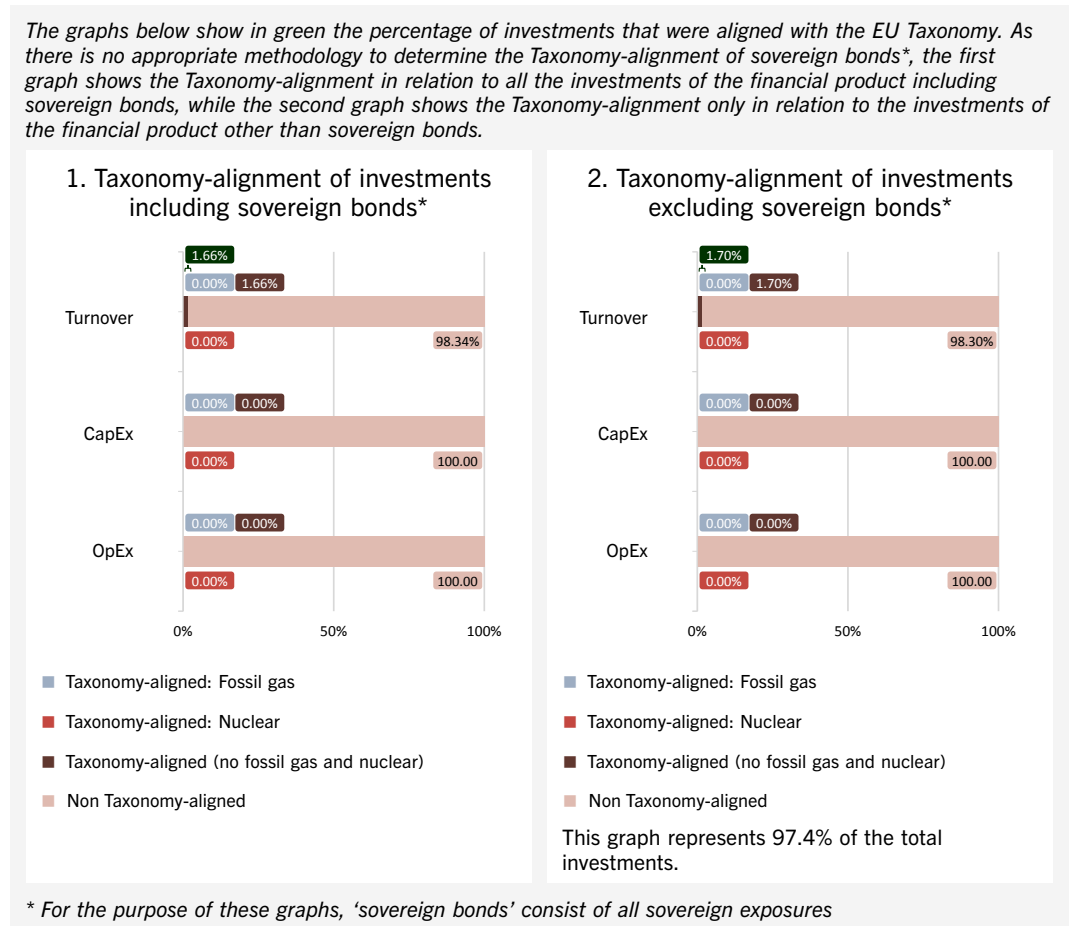

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the "greenness" of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

31.00%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

53.19%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco

production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 131 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Environmental Opportunities**

Legal entity identifier: **549300NZZP1S10NC13983**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 71.18%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 26.53%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

This fund achieved a positive environmental and/or social impact by investing mainly in companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, energy efficiency, renewable energy, pollution control, water supply & technology, waste management & recycling, sustainable agriculture & forestry, dematerialized economy and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

97.71%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

3.08%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.02	4.15
Weapons	0.28	0.99
Other controversial activities	0.02	1.02
Not applicable:	0.54	0.00
Not covered:	0.05	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 43 general assembly meetings out of 43 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 20.93% of meetings.

Out of 645 management resolutions, we voted against management on 12 items (1.86%) and abstained on 0 items (0.00%).

We supported 4 (44.44%) shareholder resolutions out of 9 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 1 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 22 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
AMERICAN WATER WORKS CO INC	Utilities	3.9	United States
REPUBLIC SERVICES INC	Industrials	3.7	United States

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

97.71%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 97.71% of its assets to Sustainable investments (#1 Sustainable) and 2.29% to Not sustainable investments (#2 Not sustainable). 71.18% of its assets is allocated to environmental objectives and 26.53% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas
 - In nuclear energy
- No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

71.18%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

26.53%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities that provide solutions to environmental challenges such as energy efficiency, renewable energy, pollution control, water supply and technology, waste management and recycling, sustainable agriculture and forestry and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Product name: **Pictet - SmartCity**

Legal entity identifier: **549300H4DRA43I4QJ174**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 99.28% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive impact:**

The fund achieved a positive environmental and/or social impact by investing mainly in companies providing smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, mobility and transportation, infrastructure, real estate, sustainable resources management (such as energy efficiency or waste management) as well as enabling technologies and services supporting the development of smart and sustainable cities and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%

Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

99.28%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

3.68%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.06	0.99
Other controversial activities	0.00	1.02
Not applicable:	0.24	0.00
Not covered:	1.37	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 54 general assembly meetings out of 54 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 42.59% of meetings.

Out of 684 management resolutions, we voted against management on 36 items (5.26%) and abstained on 11 items (1.61%).

We supported 13 (59.09%) shareholder resolutions out of 22 proposals.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 6 out of 12 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 11 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*
 Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.
 The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
 To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
VISA INC-CLASS A SHARES	Financials	4.6	United States
PROLOGIS INC	Real Estate	4.5	United States

Source: Pictet Asset Management, GICS/MSCI.

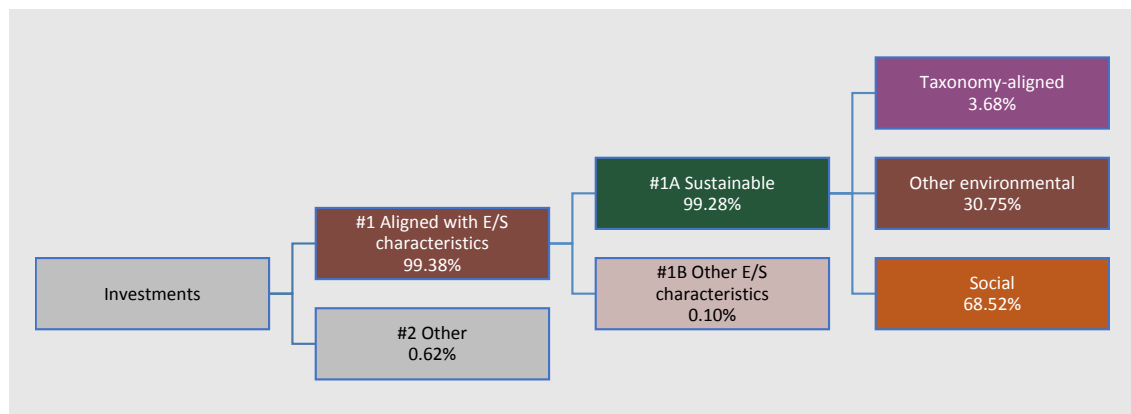

What was the proportion of sustainability-related investments?

99.28%

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The fund was 99.38% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.62% invested in Other (#2 Other). 99.28% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 **Aligned with E/S characteristics** covers:
 - The sub-category #1A **Sustainable** covers sustainable investments with environmental or social objectives.
 - The sub-category #1B **Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

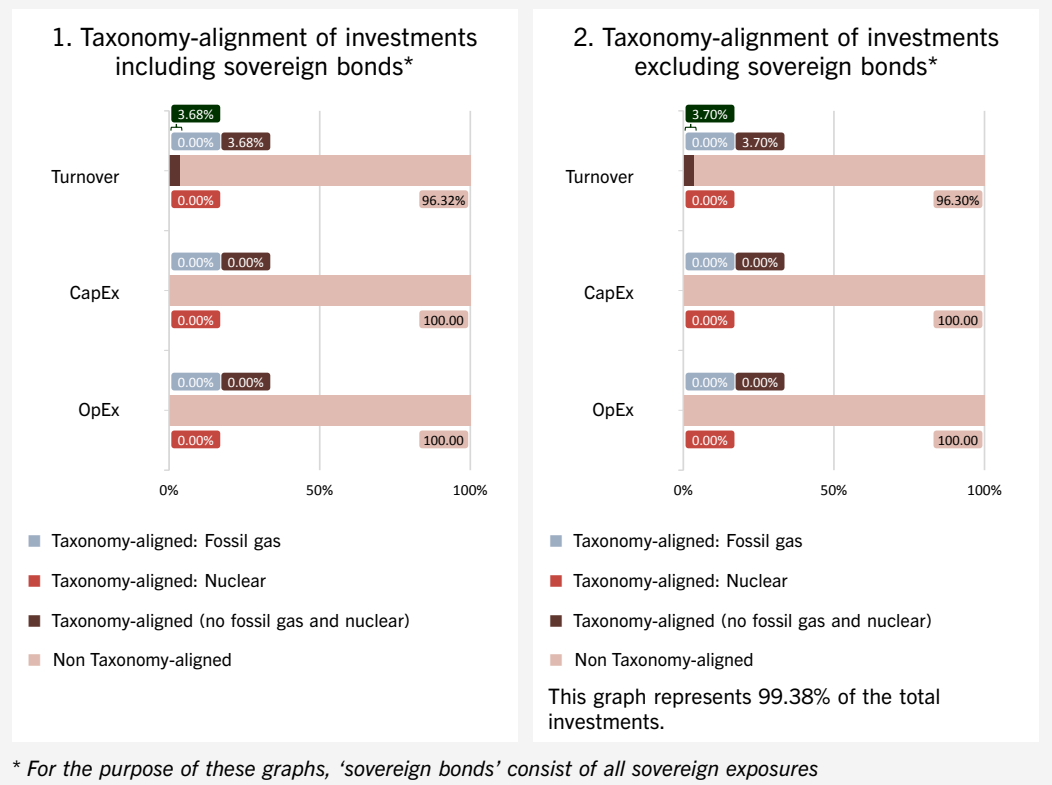

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the "greenness" of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

30.75%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

68.52%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms

development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Legal entity identifier: **549300YNU538A8XLLD46**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 44.23% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class:**
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI EM index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Carbon intensity:**
The fund has targeted to have a lower carbon intensity than the investment universe.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%

Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

44.23%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Not applicable:	0.71	0.00
Not covered:	0.00	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 147 general assembly meetings out of 153 votable meetings (96.08%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 37.25% of meetings.

Out of 1201 management resolutions, we voted against management on 133 items (11.07%) and abstained on 42 items (3.50%).

We supported 16 (50.00%) shareholder resolutions out of 32 proposals.

In respect to Environmental and/or Social issues we voted for 6 out of 6 management resolutions and for 0 out of 0 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 13 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*
Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.
The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
TAIWAN SEMICONDUCTOR MANUFAC	Information Technology	7.1	Taiwan

Source: Pictet Asset Management, GICS/MSCI.

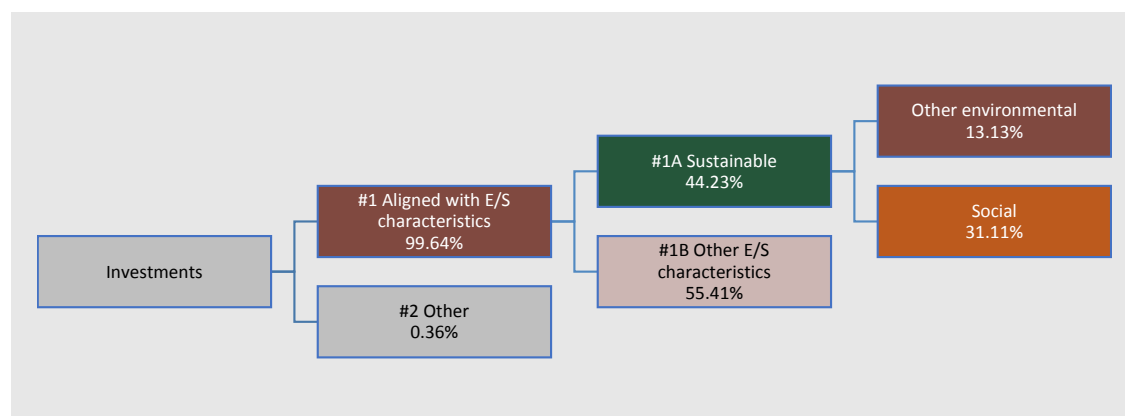

What was the proportion of sustainability-related investments?

44.23%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 99.64% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.36% invested in Other (#2 Other). 44.23% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers sustainable investments with environmental or social objectives.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

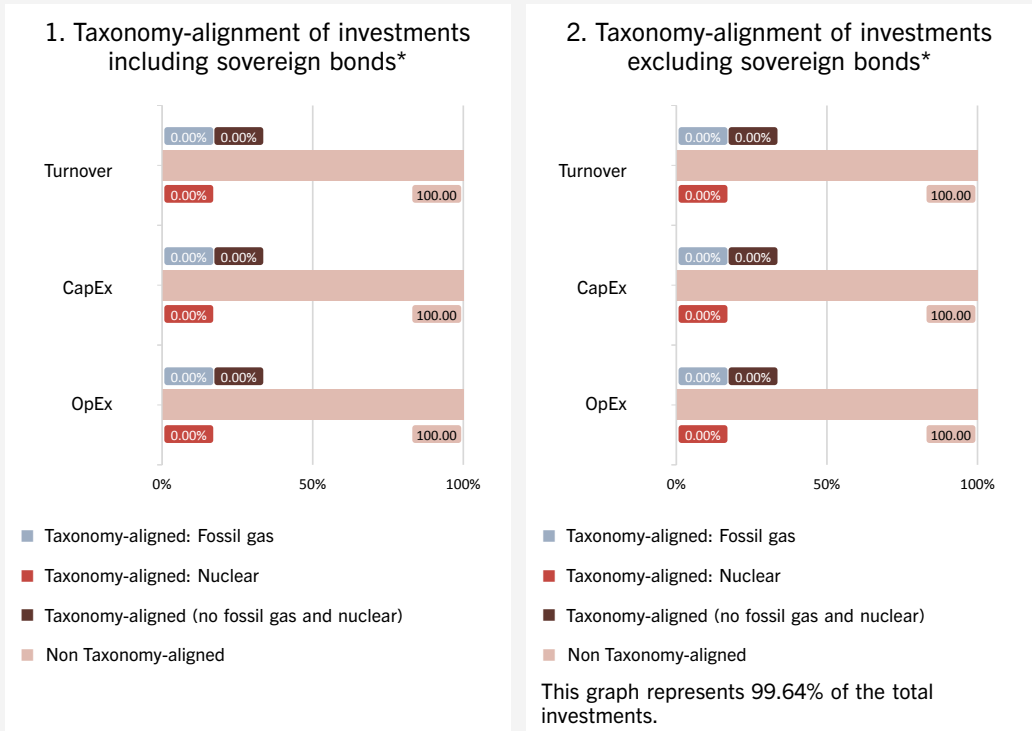

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to renewable power or low-carbon fuels by

the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

13.13%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

31.11%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 13 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Legal entity identifier: **549300TUK050NDNPS715**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.53% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class:**
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Carbon intensity:**
The fund has targeted to have a lower carbon intensity than the investment universe.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%

Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

52.53%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.02	4.23
Weapons	0.08	1.08
Other controversial activities	0.02	1.10
Not applicable:	0.44	0.00
Not covered:	0.00	0.01

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 117 general assembly meetings out of 118 votable meetings (99.15%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 31.36% of meetings.

Out of 1689 management resolutions, we voted against management on 43 items (2.55%) and abstained on 18 items (1.07%).

We supported 75 (70.09%) shareholder resolutions out of 107 proposals.

In respect to Environmental and/or Social issues we voted for 6 out of 6 management resolutions and for 50 out of 70 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 24 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

What was the proportion of sustainability-related investments?

52.53%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 99.56% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.44% invested in Other (#2 Other). 52.53% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers sustainable investments with environmental or social objectives.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

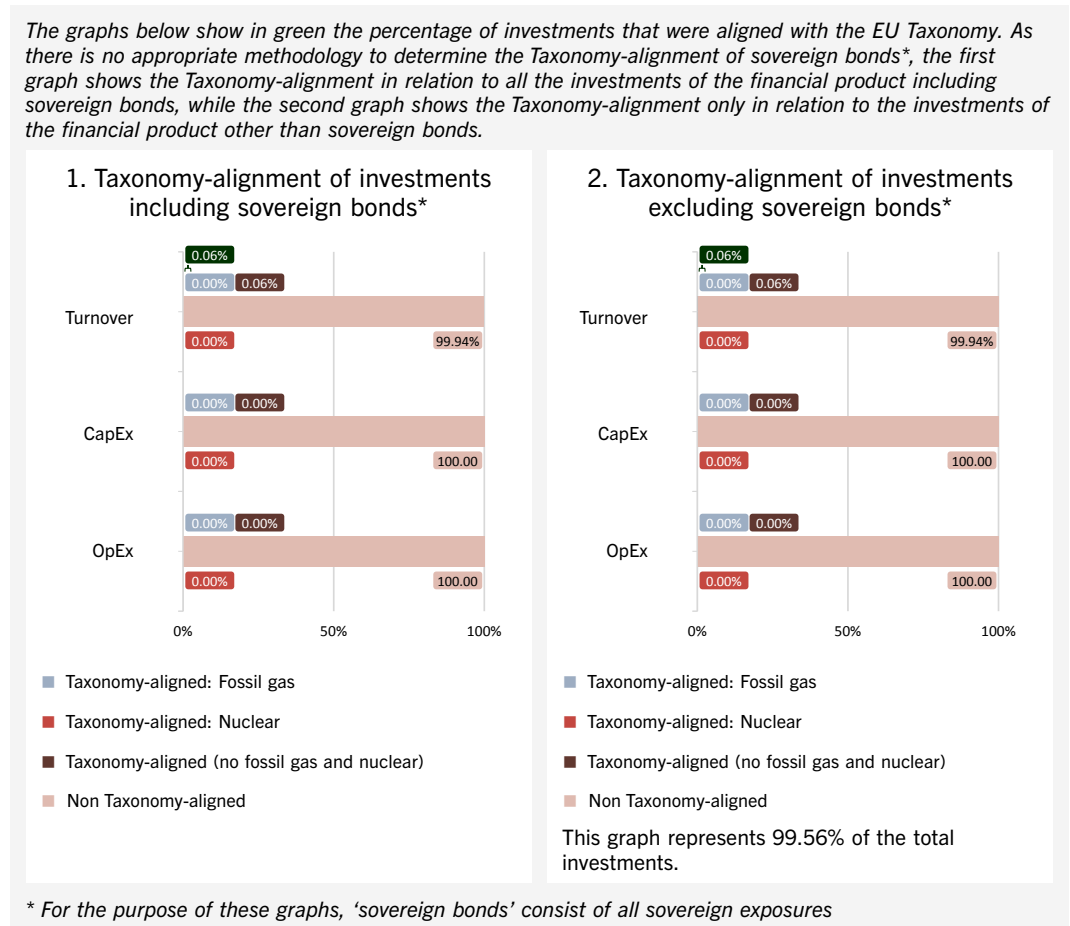

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the "greenness" of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

7.76%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

44.77%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 24 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Robotics**

Legal entity identifier: **549300SVYNI470IC3C69**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 79.89% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

● **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.23	0.99
Other controversial activities	0.00	1.02
Not applicable:	0.66	0.00
Not covered:	0.06	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Voting rights**

During the reference period, the fund voted at 37 general assembly meetings out of 37 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 27.03% of meetings.

Out of 490 management resolutions, we voted against management on 10 items (2.04%) and abstained on 7 items (1.43%).

We supported 4 (36.36%) shareholder resolutions out of 11 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 3 out of 4 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● **Engagement**

The fund engaged with 12 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI.

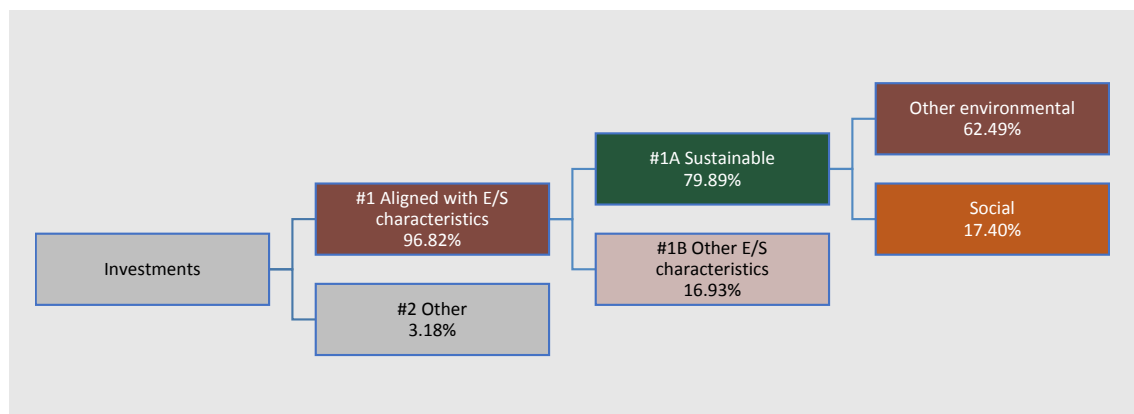

What was the proportion of sustainability-related investments?

79.89%

● What was the asset allocation?

The fund was 96.82% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.18% invested in Other (#2 Other). 79.89% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

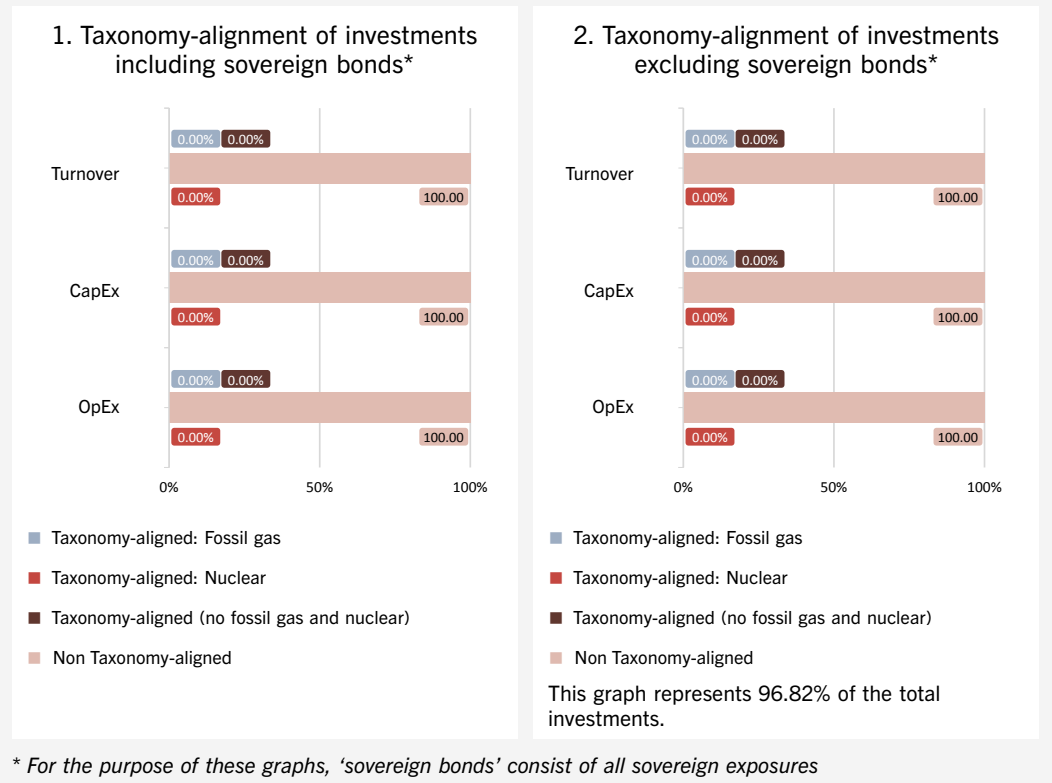

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

62.49%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

17.4%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?			
<input checked="" type="radio"/> <input checked="" type="radio"/>	<input type="checkbox"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/>	<input checked="" type="checkbox"/> No
<input type="checkbox"/>	It made sustainable investments with an environmental objective : ____%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 86.67% of sustainable investments
	<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
		<input checked="" type="checkbox"/>	with a social objective
<input type="checkbox"/>	It made sustainable investments with a social objective : ____%	<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing mainly in companies that may benefit from global long-term themes resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.

The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

86.67%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

1.31%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.42	4.15
Weapons	0.10	0.99
Other controversial activities	0.02	1.02
Not applicable:	0.65	0.00
Not covered:	0.04	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 54 general assembly meetings out of 55 votable meetings (98.18%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 25.45% of meetings.

Out of 719 management resolutions, we voted against management on 35 items (4.87%) and abstained on 6 items (0.83%).

We supported 21 (72.41%) shareholder resolutions out of 29 proposals.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 16 out of 21 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 22 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*
 Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.
 The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
 To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
UNITEDHEALTH GROUP INC	Health Care	4.0	United States
VISA INC-CLASS A SHARES	Financials	3.9	United States

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

86.67%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 97.56% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.44% invested in Other (#2 Other). 86.67% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers sustainable investments with environmental or social objectives.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

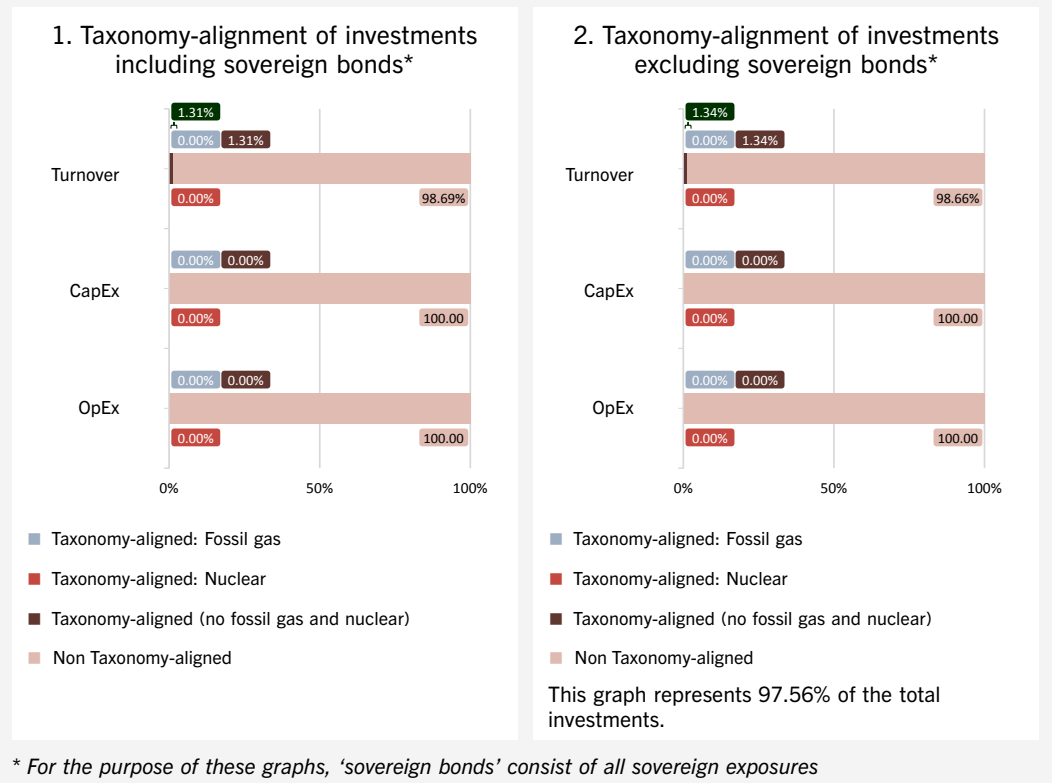

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflects the "greenness" of investee companies today.
 - **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
 - **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

33.33%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

53.34%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco

production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2022 - 30.09.2023

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Human**

Legal entity identifier: **222100ORR1PU9L15K502**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 76.14% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive impact:**

The fund achieved a positive social impact by investing mainly in companies that help individuals to adapt to the demographic and technological shifts that have transformed lives. These companies help individuals to lead more fulfilling lives through services that enable life-long learning, provide care services and the services to enjoy themselves.

The fund invested mainly in companies whose significant proportion of their activities are related to services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	

Company Exclusions based on Controversial Activities and Revenue Thresholds

Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

76.14%

Additional information on specific social objectives will be available in next year’s report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the reference index.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	4.15
Weapons	0.00	0.99
Other controversial activities	0.16	1.02
Not applicable:	0.77	0.00
Not covered:	0.03	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 41 general assembly meetings out of 41 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 43.90% of meetings.

Out of 467 management resolutions, we voted against management on 31 items (6.64%) and abstained on 10 items (2.14%).

We supported 11 (64.71%) shareholder resolutions out of 17 proposals.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 6 out of 10 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 5 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
UNITEDHEALTH GROUP INC	Health Care	5.0	United States
RELX PLC	Industrials	4.6	United Kingdom
NETFLIX INC	Communication Services	4.3	United States
WELLTOWER INC	Real Estate	4.3	United States
ZOETIS INC	Health Care	4.3	United States
BOOKING HOLDINGS INC	Consumer Discretionary	4.1	United States
WOLTERS KLUWER	Industrials	4.0	Netherlands
RECRUIT HOLDINGS CO LTD	Industrials	3.9	Japan
IDEXX LABORATORIES INC	Health Care	3.8	United States
CHEMED CORP	Health Care	3.7	United States
UNIVERSAL MUSIC GROUP BV	Consumer Discretionary	3.5	Netherlands
VENTAS INC	Real Estate	3.4	United States
COMPASS GROUP PLC	Consumer Discretionary	3.4	United Kingdom

Source: Pictet Asset Management, GICS/MSCI.

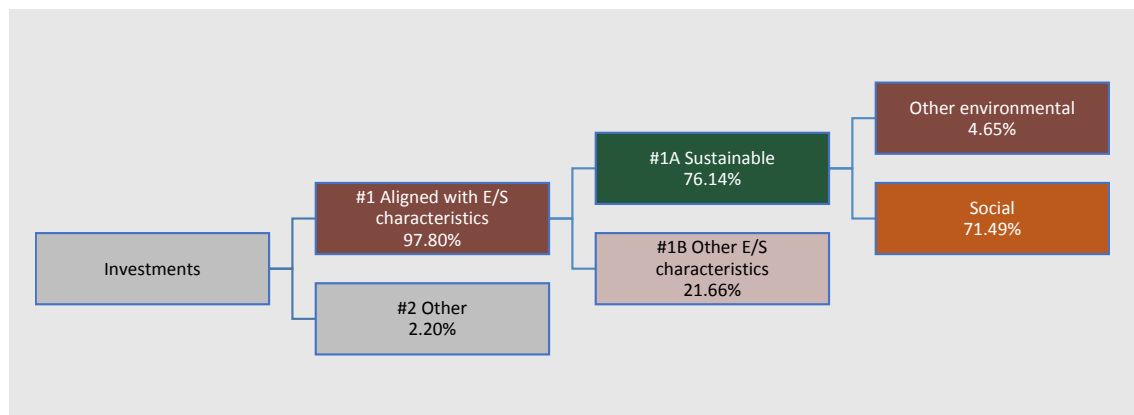

What was the proportion of sustainability-related investments?

76.14%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund was 97.80% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.20% invested in Other (#2 Other). 76.14% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 In fossil gas In nuclear energy
- No

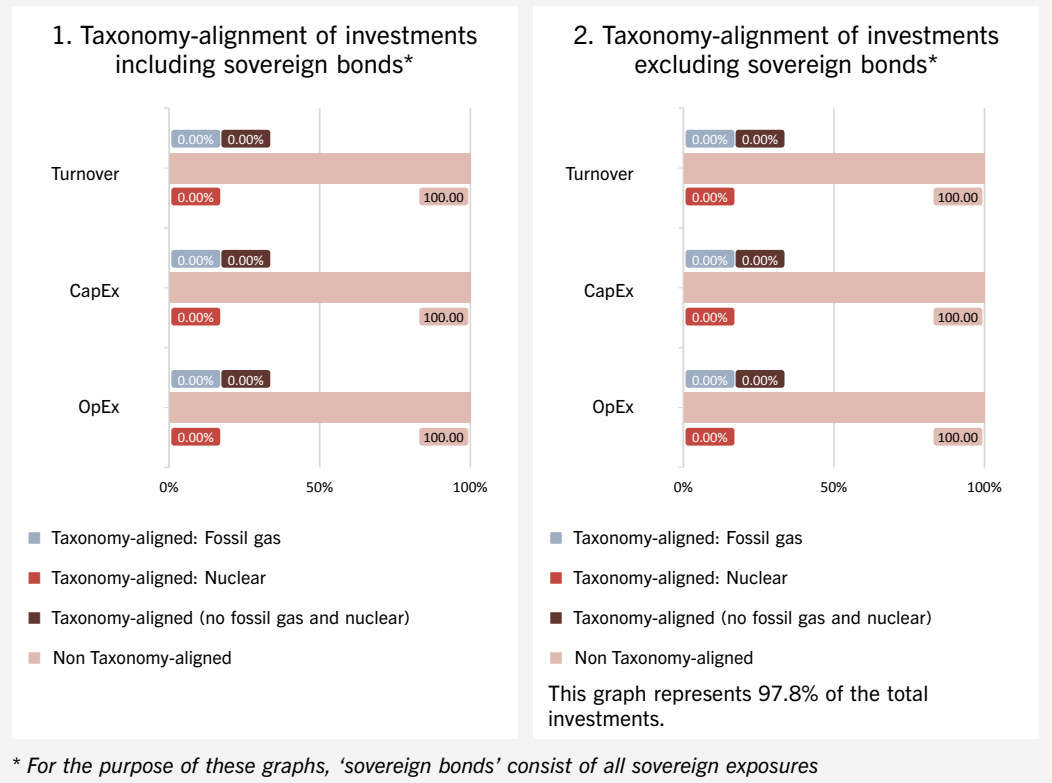

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

4.65%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

71.49%

What investments were included under “other”, what was their purpose and were there any

minimum environmental or social safeguards?

The fund's "other" investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 46.59% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class / best effort:**
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The MSCI AC World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Improving impact:**
The fund achieved a positive environmental and social impact through improving alignment with globally accepted frameworks or principles.
- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

46.59%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Extent of alignment with SDGs**

The compartment used a proprietary systematic indicator based on natural language processing technology to estimate the alignment of the products and services of each issuer to all relevant SDGs. The output of this indicator is provided in strategy level reporting documentation.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	2.69	4.15
Weapons	0.15	0.99
Other controversial activities	0.00	1.02
Not applicable:	1.42	0.00
Not covered:	0.00	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 47 general assembly meetings out of 47 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 25.53% of meetings.

Out of 565 management resolutions, we voted against management on 18 items (3.19%) and abstained on 3 items (0.53%).

We supported 24 (80.00%) shareholder resolutions out of 30 proposals.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 19 out of 23 shareholder resolutions.

Source: *Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 20 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: *Pictet Asset Management, Sustainalytics.*

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager

sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:
<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>
- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
HCA HEALTHCARE INC	Health Care	4.9	United States
MICROSOFT CORP	Information Technology	4.8	United States

Source: Pictet Asset Management, GICS/MSCI.

What was the proportion of sustainability-related investments?

46.59%

● What was the asset allocation?

The fund was 98.58% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.42% invested in Other (#2 Other). 46.59% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaptation and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

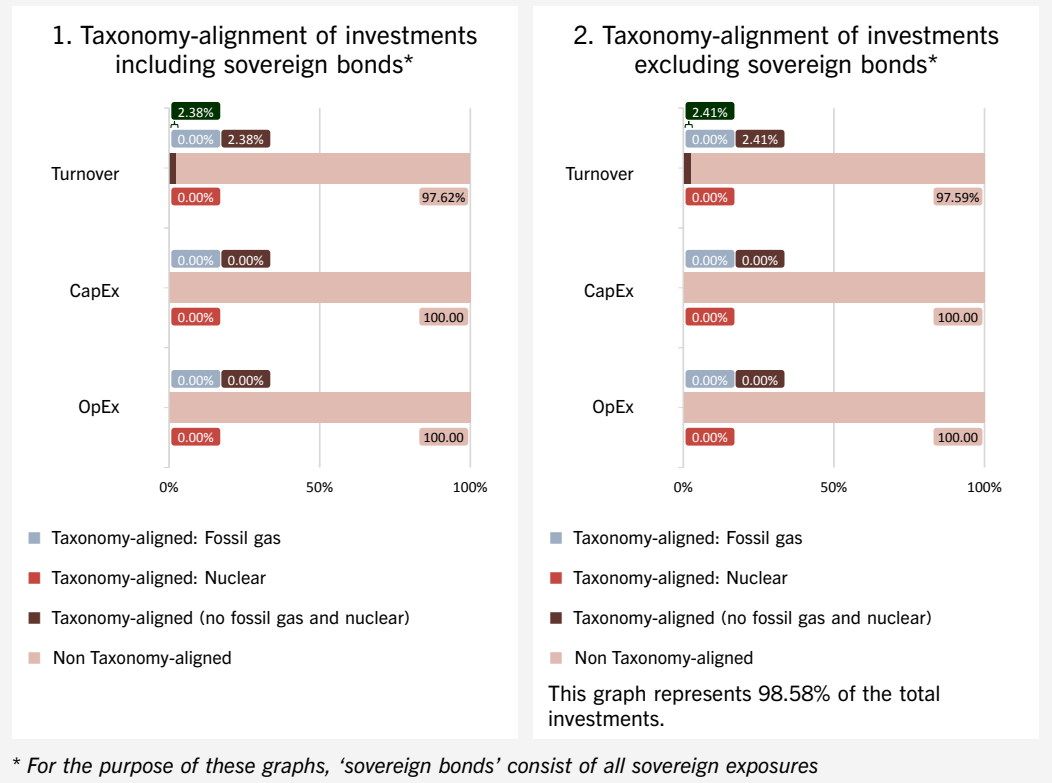

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

27.82%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

18.76%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 20 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 58.69%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 37.00%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:**
 The fund achieved a positive environmental and/or social impact by mainly investing in companies with a low environmental footprint that contribute with their products and services to solving two closely linked environmental challenges: biodiversity and the circular economy.
 No reference index has been designated for the purpose of attaining the sustainable investment objective.
 The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities.
 Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.
- Norms- and values-based exclusions:**
 The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

95.69%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

3.33%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.03	4.15
Weapons	0.07	0.99
Other controversial activities	0.09	1.02
Not applicable:	4.31	0.00
Not covered:	0.27	0.02

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 53 general assembly meetings out of 54 votable meetings (98.15%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 44.44% of meetings.

Out of 698 management resolutions, we voted against management on 38 items (5.44%) and abstained on 12 items (1.72%).

We supported 7 (58.33%) shareholder resolutions out of 12 proposals.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 2 out of 4 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 22 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the

What was the proportion of sustainability-related investments?

95.69%

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The fund allocated 95.69% of its assets to Sustainable investments (#1 Sustainable) and 4.31% to Not sustainable investments (#2 Not sustainable). 58.69% of its assets is allocated to environmental objectives and 37.00% to social objectives.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

58.69%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally

What was the share of socially sustainable investments?

37%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - China Environmental Opportunities**

Legal entity identifier: **2138005SU67AUB1RXC79**

SUSTAINABLE INVESTMENT OBJECTIVE

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 78.93% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 17.84%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

This fund achieved a positive environmental and/or social impact by investing mainly in Chinese companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystem

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to companies that derive a significant proportion of revenue, EBIT, enterprise value or similar metrics from economic activities that contribute to environmental or social objectives, and labelled bonds where relevant to the asset class (sustainable investments):**

96.76%

- **Exposure to revenues from economic activities that contribute to climate change adaption and/or climate change mitigation (EU taxonomy-aligned investments):**

1.48%

Additional information on specific environmental and/or social objectives will be available in next year's report.

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result, the fund has achieved a better environmental, social and governance (ESG) profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of its investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	2.31
Weapons	0.00	0.15
Other controversial activities	0.02	0.01
Not applicable:	3.24	0.00
Not covered:	8.89	0.13

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 8 general assembly meetings out of 8 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 50.00% of meetings.

Out of 88 management resolutions, we voted against management on 12 items (13.64%) and abstained on 0 items (0.00%).

We supported 1 (33.33%) shareholder resolutions out of 3 proposals.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 2 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality and the availability of data are expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31.03.2023 - 30.09.2023

What was the proportion of sustainability-related investments?

96.76%

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The fund allocated 96.76% of its assets to Sustainable investments (#1 Sustainable) and 3.24% to Not sustainable investments (#2 Not sustainable). 78.93% of its assets is allocated to environmental objectives and 17.84% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework based on the Report on Social Taxonomy published in 2022 by the EU Platform on Sustainable Finance. Eligible activities are defined as goods and services that substantially contribute to one of the following three objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, GICS/MSCI.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

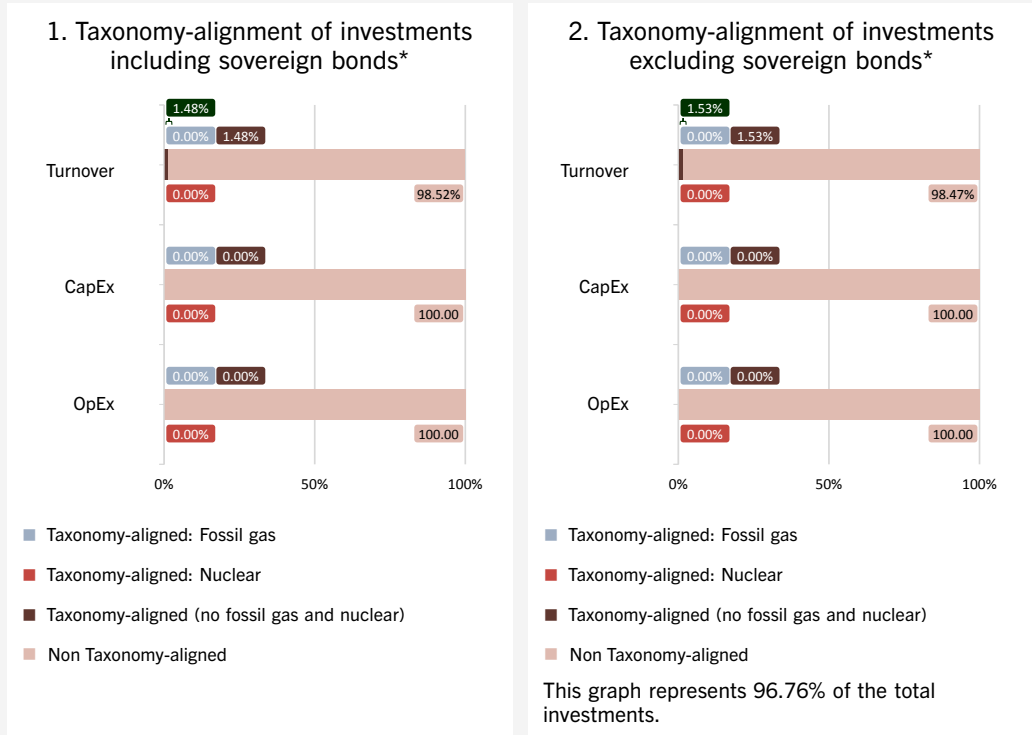

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: Not applicable*
 - Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

78.93%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

17.84%

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
 - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development / growth, pesticides product / retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 2 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

- **How did the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Multi Asset Global Opportunities**

Legal entity identifier: **549300Y6TSCWOUIIU46**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 23.08% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment universe.
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil Sands Extraction	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Shale Energy Extraction	>25%
Off-shore Arctic Oil & Gas Exploration	>10%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	Excluded
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Yes
Country Exclusions	Excluded
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Yes
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Yes
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

● Overall ESG profile

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the investment universe.

● Principle Adverse Impact (PAI)

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data. In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.47	0.00
Weapons	0.11	0.00
Other controversial activities	0.14	0.00
Not applicable:	58.01	100.00
Not covered:	0.79	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● Voting rights

During the reference period, the fund voted at 1370 general assembly meetings out of 1385 votable meetings (98.92%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 38.63% of meetings.

Out of 19483 management resolutions, we voted against management on 1083 items (5.56%) and abstained on 208 items (1.07%).

We supported 450 (64.66%) shareholder resolutions out of 696 proposals.

In respect to Environmental and/or Social issues we voted for 102 out of 105 management resolutions and for 271 out of 402 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

● Engagement

The fund engaged with 284 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● ...and compared to previous periods?

This question will be addressed in future annual reports due to lack of a track record.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognised global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

The proxy voting and engagement process were mainly led by investment professionals across several investment teams in Pictet Asset Management, with the support of a central ESG team.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management.

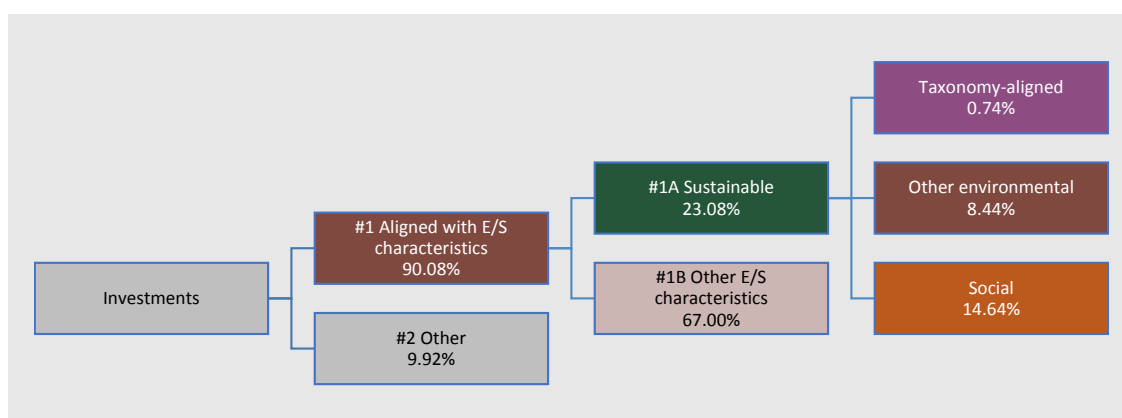

What was the proportion of sustainability-related investments?

23.08%

● What was the asset allocation?

The fund was 90.08% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 9.92% invested in Other (#2 Other). 23.08% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

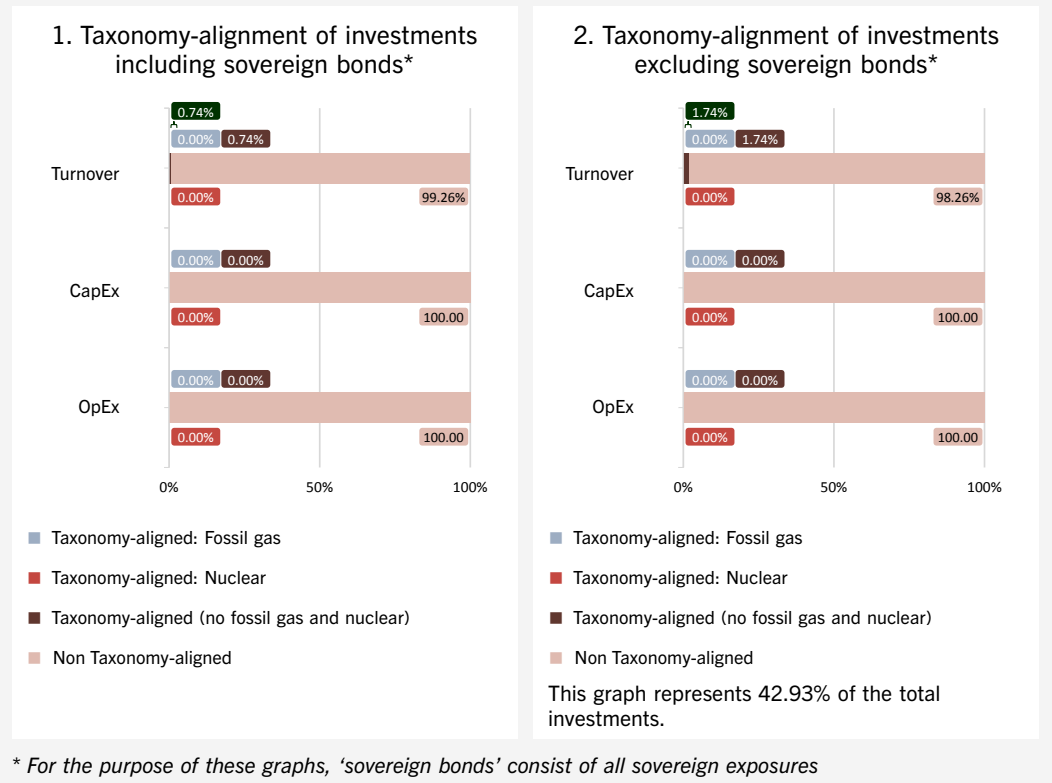

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

8.44%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

14.64%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional weapons and small arms, military contracting weapons, tobacco production, adult entertainment production, gambling operations. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 284 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?				
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/> <input type="checkbox"/>	No
<input type="checkbox"/>	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 13.96% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
			<input checked="" type="checkbox"/>	with a social objective
<input type="checkbox"/>	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] *Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).*

[2] *"State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.*

[3] *In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.*

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

Sustainability indicators measure how the environmental or social characteristics

promoted by the financial product are attained.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the neutral portfolio.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.08	0.00
Weapons	0.03	0.00
Other controversial activities	0.01	0.00
Not applicable:	20.71	0.00
Not covered:	1.87	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Engagement**

The fund engaged with 14 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation

- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

13.96%

● What was the asset allocation?

The fund was 93.71% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.29% invested in Other (#2 Other). 13.96% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaptation and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

2.13%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

11.83%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 10.14% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

Sustainability indicators measure how the environmental or social characteristics

promoted by the financial product are attained.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the neutral portfolio.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.06	0.00
Weapons	0.00	0.00
Other controversial activities	0.01	0.00
Not applicable:	20.86	0.00
Not covered:	1.64	100.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Engagement**

The fund engaged with 17 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation

- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

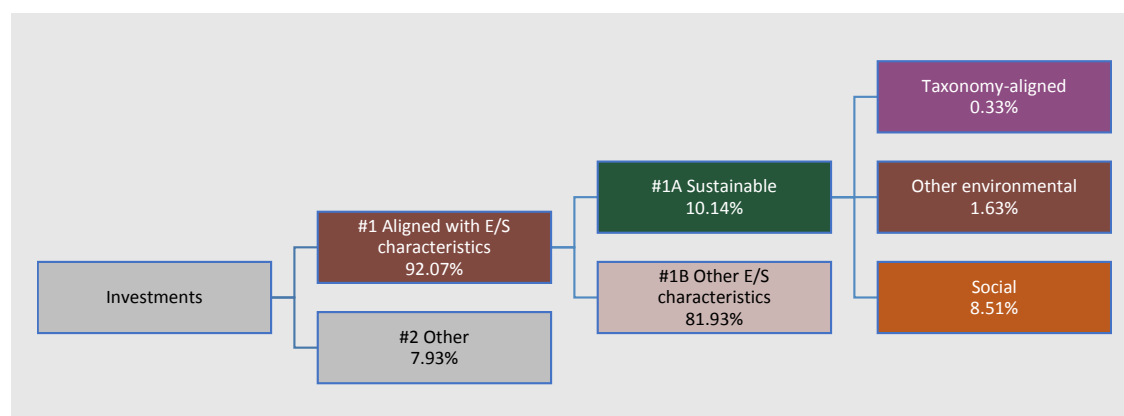

What was the proportion of sustainability-related investments?

10.14%

● What was the asset allocation?

The fund was 92.07% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.93% invested in Other (#2 Other). 10.14% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

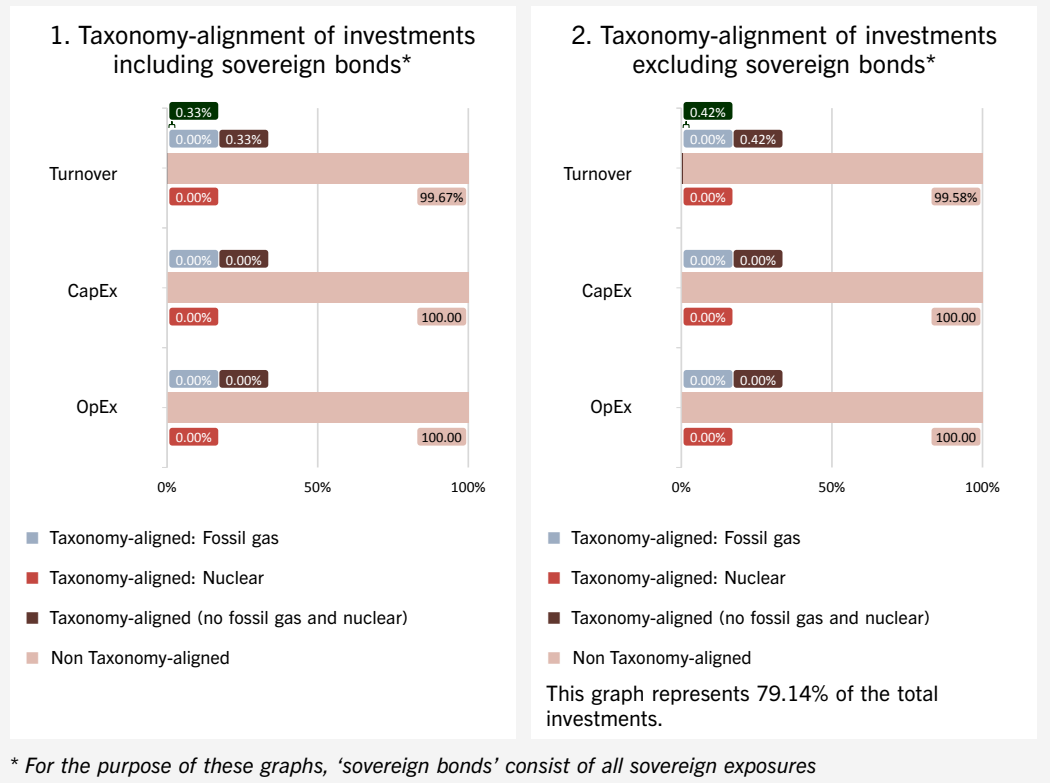

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

1.63%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

8.51%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 13.28% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Engagement**

The fund engaged with 12 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation

- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

13.28%

● What was the asset allocation?

The fund was 91.14% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.86% invested in Other (#2 Other). 13.28% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

2.63%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

10.65%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Product name: **Pictet - Short-Term Money Market JPY**

Legal entity identifier: **549300184SDM88N97072**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 17.13% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

Sustainability indicators measure how the environmental or social characteristics

promoted by the financial product are attained.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the neutral portfolio.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.10	0.00
Weapons	0.04	0.00
Other controversial activities	0.00	0.00
Not applicable:	34.12	0.00
Not covered:	2.32	100.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Engagement**

The fund engaged with 6 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation

- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

CP NTT FINANCE UK Zero % 28.07.2023	Financial	0.9	United Kingdom
CP REG RHONE-ALPES Zero % 20.04.2023	Quasi & Foreign Government	0.9	France

What was the proportion of sustainability-related investments?

17.13%

What was the asset allocation?

The fund was 95.93% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.07% invested in Other (#2 Other). 17.13% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

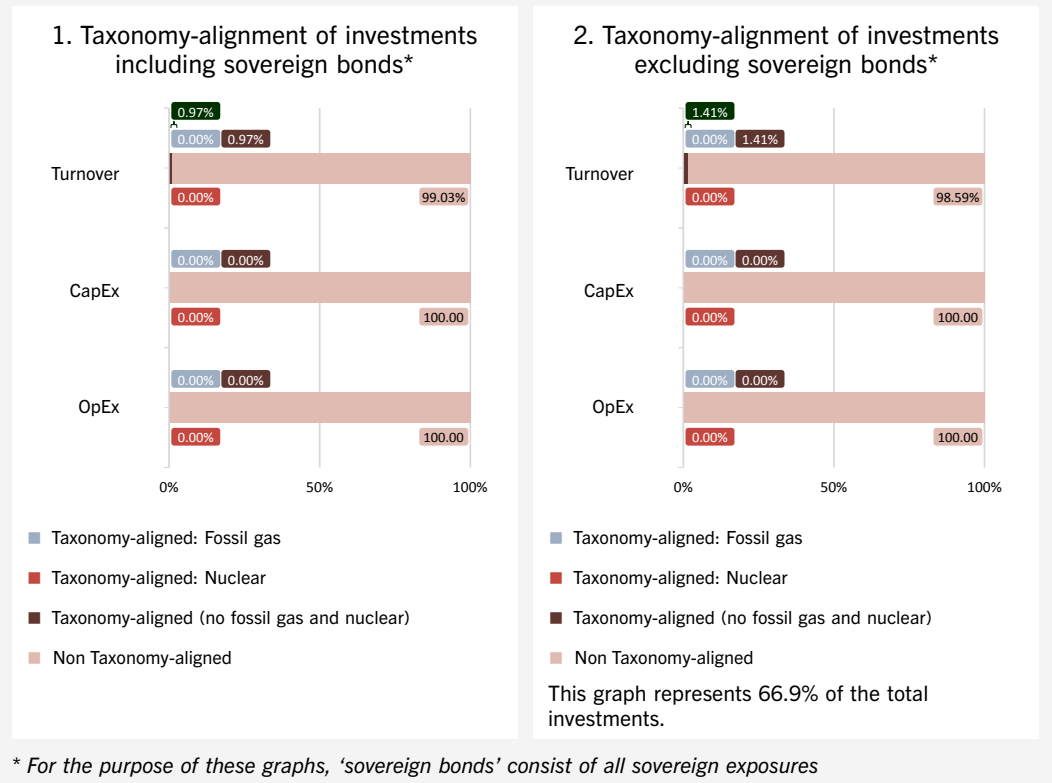

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.81%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

13.32%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● How did the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Product name: **Pictet - Short-Term Money Market GBP**

Legal entity identifier: **213800CW9SXFKGOKVW83**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 10.73% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Positive tilt:**
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

The fund engaged with the management of companies on material ESG issues.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks.

Sustainability indicators measure how the environmental or social characteristics

promoted by the financial product are attained.

As a result the fund has achieved a better environmental, social and governance (ESG) profile than the neutral portfolio.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

In line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.08	0.00
Weapons	0.00	0.00
Other controversial activities	0.01	0.00
Not applicable:	26.82	0.00
Not covered:	2.02	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **Engagement**

The fund engaged with 10 companies on ESG topics (data as of 30.09.2023). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions, even if they involve senior management or Board of Directors, are regarded as engagements in our assessment.

Source: Pictet Asset Management, Sustainalytics.

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation

- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

To ensure that sustainable investment did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 02.05.2023 - 30.09.2023

What was the proportion of sustainability-related investments?

10.73%

What was the asset allocation?

The fund was 90.61% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 9.39% invested in Other (#2 Other). 10.73% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to climate mitigation and climate adaptation) and cannot be consolidated with other numbers following a pass/fail approach.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● In which economic sectors were the investments made?

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the first two environmental objectives (climate change adaption and climate change mitigation) as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. Calculations may also include estimates in a limited number of cases when EU Green Taxonomy alignment reported data were not available. Estimates were performed on a best effort basis and following a conservative approach so as to produce a prudent outcome.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

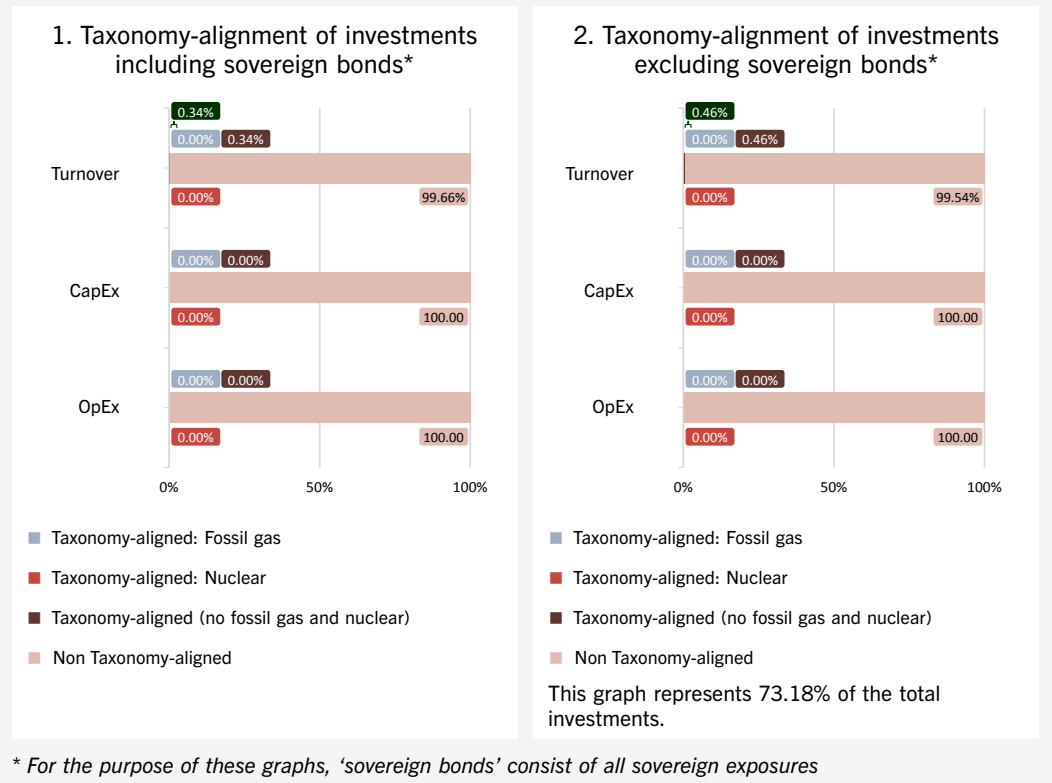

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Note:

- We use revenues as the key metric for setting target allocation to, and actual alignment with, the EU taxonomy due to limited availability and lack of reliable data for OpEx and CapEX.

Source: Pictet Asset Management.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: Not applicable*
- Enabling activities: Not applicable*

*The insufficient quality and availability of the data currently available on the market does not allow to provide such breakdown. We are working with data providers to increase quality and availability over time.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.97%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic

What was the share of socially sustainable investments?

6.77%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2023.

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Sovereign Short-Term Money Market USD**

Legal entity identifier: **549300RS8D1NP2GNN063**

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="checkbox"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 1.04% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Note: Sustainable investments were calculated on a pass/fail basis including labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to at least one environmental or social objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- **Best-in-class:**
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%
Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

No engagements have been conducted during the reference period.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability indicators measure how the environmental or social characteristics

promoted by the financial product are attained.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

● **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management’s exclusion policy outlined in the firm’s Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Not applicable:	53.22	0.00
Not covered:	0.00	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

● **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- climate change mitigation or adaptation
- sustainable use and protection of water and marine resources

- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment (see description of RI exclusion framework).
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

Pictet Asset Management monitors all mandatory Principal Adverse Impact indicators (included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288) where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities. More information is disclosed in the PAI entity report available under:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=en&bl=PAM>

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, we ensured that sustainable investments did not cause significant harm to any sustainable investment objective, the fund excluded companies with high and severe violations of (i) the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption or (ii) OECD Guidelines for Multinationals, including severe social and employee issues.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, Merrill Lynch.

What was the proportion of sustainability-related investments?

1.04%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The fund was 95.78% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.22% invested in Other (#2 Other). 1.04% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Notes:

- "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis. They include labelled bonds (where relevant to the asset class) and securities from issuers with minimum 20% exposure to economic activities that contributed to at least one environmental or social objective.
- In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

Source: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

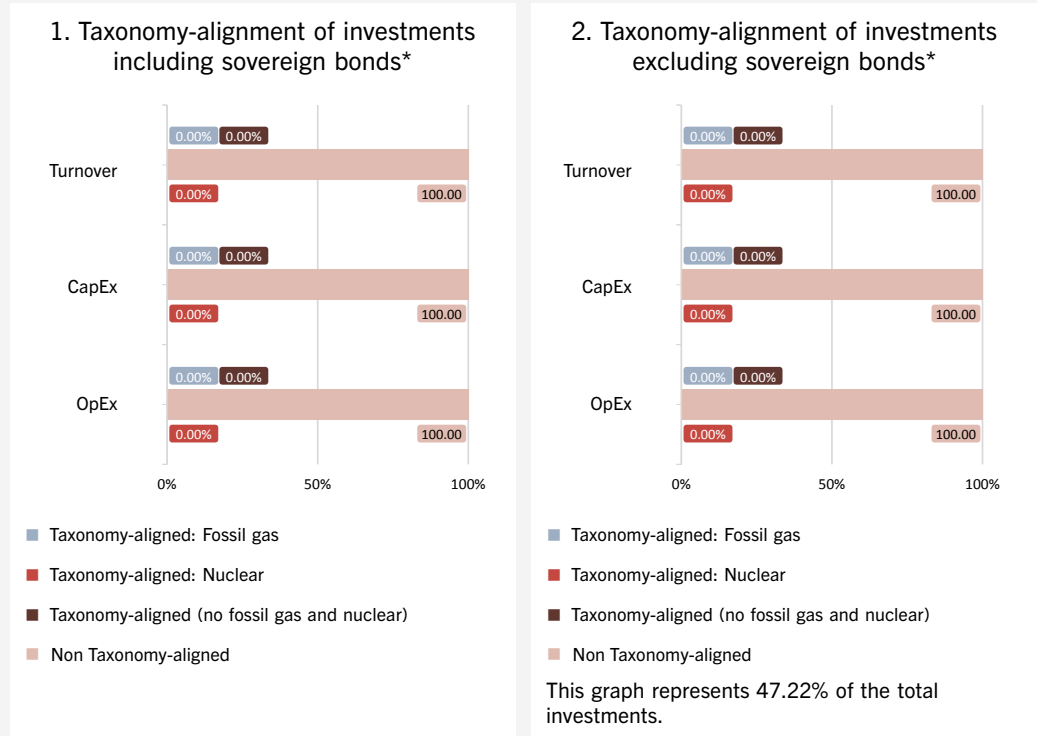

- Yes:
 - In fossil gas
 - In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**
Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.90%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

0.15%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.

- **How did this financial product perform compared with the reference benchmark?**
Not applicable.

- **How did this financial product perform compared with the broad market index?**
Not applicable.

ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this financial product were promoted using:

- Best-in-class:

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

Company Exclusions based on Controversial Activities and Revenue Thresholds

Activity	Revenue Thresholds
Fossil Fuels and Nuclear Energy	
Thermal Coal Extraction	>25%
Thermal Coal Power Generation	>25%
Oil & Gas Production	>25%
Oil Sands Extraction	>10%
Shale Energy Extraction	>10%
Off-shore Arctic Oil & Gas Exploration	>10%

Company Exclusions based on Controversial Activities and Revenue Thresholds

Nuclear Power Generation	>50%
Weapons	
Production of controversial weapons[1]	>0%
Military Contracting Weapons	>10%
Military Contracting Weapon-Related Products and/or Services	>50%
Small Arms Civilian Customers (Assault Weapons)	>10%
Small Arms Civilian Customers (Non-Assault Weapons)	>10%
Small Arms Military/Law Enforcement Customers	>25%
Small Arms Key Components	>25%
Other Controversial Activities	
Adult Entertainment Production	>10%
Gambling Operations	>10%
Genetically Modified Plants and Seeds Development	>25%
Genetically Modified Plants and Seeds Growth	>25%
Pesticides Production	>10%
Pesticides Retail	>10%
Tobacco Products Production	>10%
Company Exclusions based on Breaches of International Norms	
Companies in severe breach of UN Global Compact Principles on human rights, labour standards, environmental protection and anti-corruption	Excluded
Country Exclusions	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded
Countries (i) classified as very high or high risk in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[3]

[1] Controversial weapons include anti-personnel mines, cluster munitions, biological & chemical weapons (including white phosphorous) and nuclear weapons from countries not signatory to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B).

- Active ownership:

No engagements have been conducted during the reference period.

● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

• Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund used a combination of approaches to consider and, where possible, mitigate material adverse impacts of our investments on society and the environment, such as GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, human rights, labour standards, corruption and bribery and public health.

The degree and the way these impacts were considered depended on factors such as the specific context of the investment that is causing the adverse impact, or the availability of reliable data.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Not applicable:	59.15	0.00
Not covered:	0.00	0.00

**Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **...and compared to previous periods?**

This question will be addressed in future annual reports due to lack of a track record.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anticorruption and antibribery matters.

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2022 - 30.09.2023

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

What was the proportion of sustainability-related investments?

0.00%

● What was the asset allocation?

The fund was 94.24% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 5.76% invested in Other (#2 Other). 0.00% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

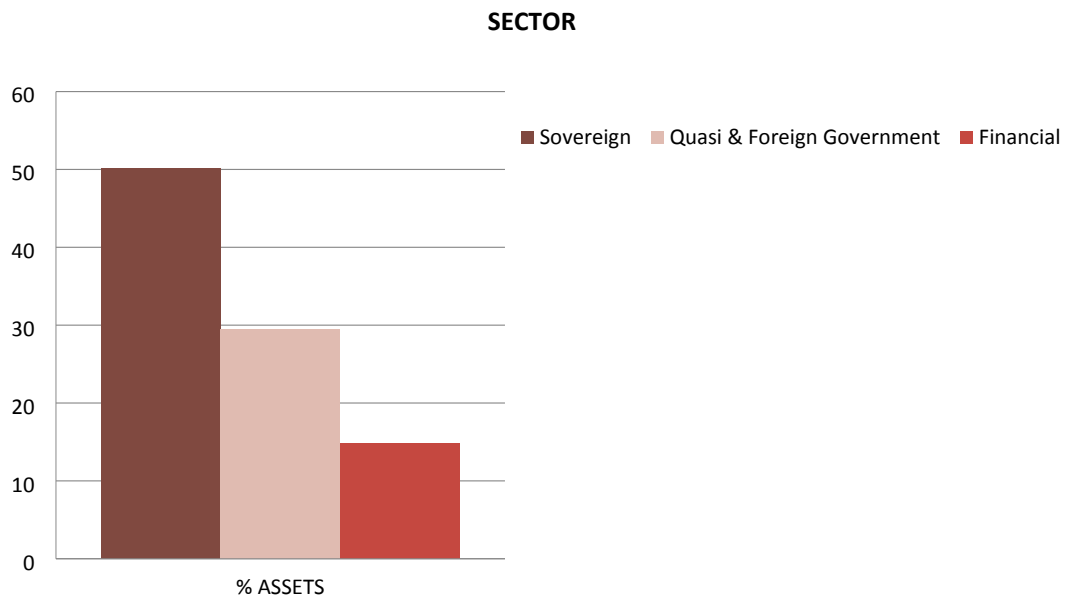

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

Source: Pictet Asset Management, Merrill Lynch.

We are evaluating the availability and the quality of data that would allow us to disclose more granular information in future reports on sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels as defined in Article 2, point (62), of Regulation (EU) 2018/1999 of the European Parliament and of the Council.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

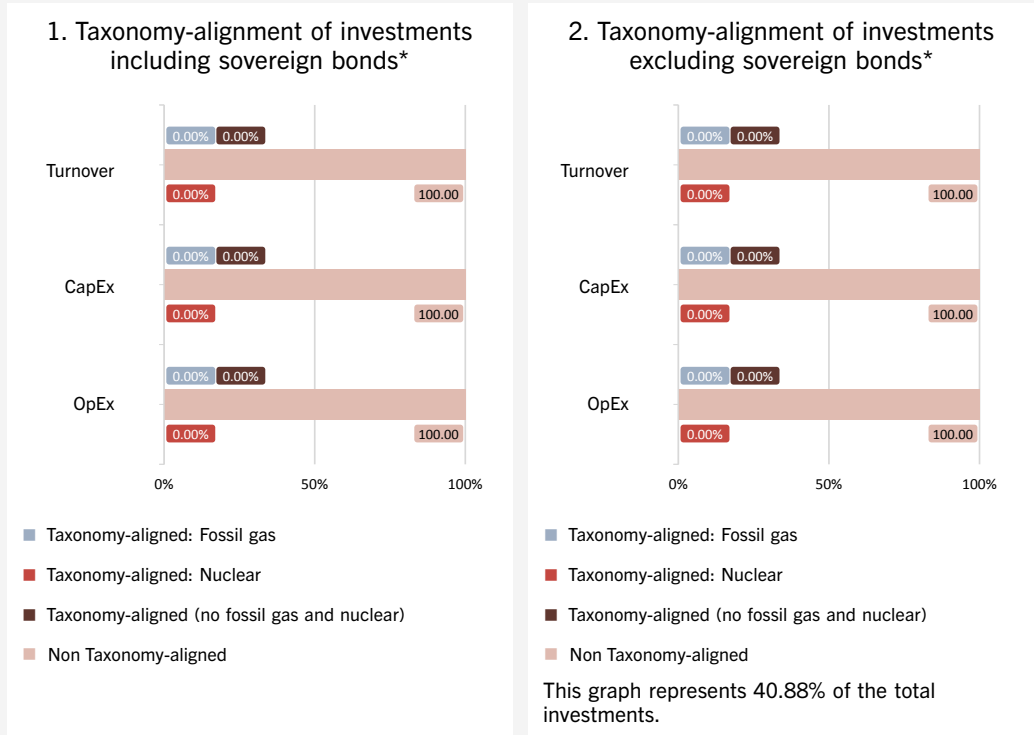

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.00%

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

0%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities
 - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
 - overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.
