1 ACTIVITÉ

Créée en date du 9 juin 2016, Amundi Index Solutions (la « SICAV ») a la structure d'une société anonyme et est qualifiée comme « Société d'investissement à Capital Variable » (« SICAV ») en vertu des lois du Grand-Duché de Luxembourg. Les statuts constitutifs (les « Statuts ») ont été initialement publiés dans l'extrait Recueil des Sociétés et Associations, le 17 juin 2016.

LA SICAV est soumise à la section I de la loi du 17 décembre 2010 dans sa version modifiée, relative aux organismes de placement collectif.

La SICAV est enregistrée sous le numéro B 206.810 au registre du commerce du Luxembourg, dans lequel ses statuts sont disponibles à des fins d'inspection. Une copie de ceux-ci peut être remise sur demande.

Le capital de la SICAV est représenté par la somme des actifs nets de tous les compartiments.

Au 30 septembre 2022, les compartiments suivants étaient actifs :

2 SYNTHÈSE DES PRINCIPALES CONVENTIONS COMPTABLES

■ PRÉSENTATION DES ÉTATS FINANCIERS

Les états financiers de la SICAV sont établis conformément aux prescriptions réglementaires en vigueur au Luxembourg relatives aux organismes de placement collectif.

■ POLITIQUE DE VALORISATION

- **Portefeuille de titres** - Les valeurs mobilières, les instruments du marché monétaire et les produits dérivés admis à la cotation ou négociés sur un marché boursier ou négocié sur tout autre marché réglementé sont généralement valorisés au dernier cours du marché disponible le jour ouvré concerné. Les titres non cotés, ou les titres cotés dont le prix déterminé selon la méthode ci-dessus n'est pas représentatif de leur juste valeur de marché, sont valorisés de bonne foi selon une estimation prudente de leur prix de vente. Les produits dérivés qui ne sont pas cotés sur un marché boursier officiel ou qui sont négociés de gré à gré sont valorisés quotidiennement de manière fiable et vérifiable conforme aux pratiques du marché.
- **Valorisation des contrats d'échange** - Les contrats d'échange de rendement total (contrats par lesquels l'une des parties cède à l'autre partie la performance totale d'un actif de référence, y compris tous les intérêts, revenus de commissions, gains ou pertes du marché et pertes de crédit). Les contrats d'échange de rendement total conclus par les compartiments prennent la forme de contrats d'échange non financés, c'est-à-dire de contrats d'échange n'impliquant aucun paiement initial à la conclusion du contrat par la partie qui reçoit le rendement total. Les contrats d'échange sont évalués à la valeur nette actuelle de leurs flux de trésorerie. Les intérêts à recevoir sur contrats d'échange sont repris à la rubrique « Intérêts à recevoir sur contrats d'échange » de l'État de l'actif net, tandis que les intérêts à payer sur contrats d'échange sont repris à la rubrique « Intérêts à payer sur contrats d'échange » de l'État de l'actif net.
- **Valorisation des marchés à terme** - La SICAV a conclu une série de marchés à terme (« futures ») au cours de l'année. À la fin de l'année, les contrats en cours sont évalués à leur valeur liquidative nette sur la base du cours de clôture du marché boursier sur lequel ces contrats sont négociés. La variation des plus-values ou moins-values latentes est indiquée dans l'État des opérations et des variations de l'Actif net.
- **Valorisation des contrats de change à terme** - Les contrats de change à terme (forwards de change) en cours sont évalués à la date de clôture en fonction du taux de change applicable à la durée de vie restante du contrat. La plus-value ou moins-value latente des contrats de change à terme est communiquée dans les comptes.
- **Swing pricing** - Les jours ouvrés où il estime que la négociation des actions d'un compartiment nécessitera des ventes ou des achats significatifs d'investissements du portefeuille, le Conseil d'administration peut ajuster la VNI du compartiment afin de refléter plus fidèlement les prix réels des transactions sous-jacentes sur la base des écarts de négociation estimés, des coûts et d'autres facteurs de marché et de négociation. De manière générale, la VNI sera ajustée à la hausse en cas de forte demande d'achats d'actions d'un compartiment et à la baisse en cas de forte demande de remboursements d'actions d'un compartiment. L'ajustement ne dépassera normalement pas 2 % de la VNI pour un jour ouvré donné, mais le Conseil d'administration peut augmenter cette limite si nécessaire pour protéger les intérêts des actionnaires.

Au cours de l'exercice financier, les fonds suivants faisaient partie du champ d'application du mécanisme d'ajustement de la valeur liquidative Swing-pricing :

2 SYNTHÈSE DES PRINCIPALES CONVENTIONS COMPTABLES (suite)

Le facteur de swing est le montant par lequel la VNI est ajustée lorsque le processus de swing pricing est déclenché après le dépassement du seuil de swing par les souscriptions ou rachats nets. Les facteurs à prendre en considération pour fixer le facteur de swing sont notamment les commissions de courtage nettes payées par le compartiment et les charges fiscales (par ex. droit de timbre et taxe à la vente).

Pour l'exercice clos le 30 septembre 2022, les facteurs de swing maximums ont été appliqués aux compartiments suivants :

Compartiments	Facteur de swing maximal sur entrées (%)	Facteur de swing maximal sur sorties (%)

- **Conversion d'éléments libellés en devises étrangères** - les dépôts bancaires, les autres actifs nets ainsi que la valeur des titres en portefeuille libellés dans des devises autres que la devise de référence du compartiment sont convertis dans la devise de référence du compartiment au taux de change en vigueur à la date de clôture. Les produits et charges libellés dans une devise autre que la devise de référence du compartiment sont convertis dans la devise de référence du compartiment sur la base des taux de change en vigueur à la date de comptabilisation.

Les états financiers combinés sont exprimés en euros (EUR) et son calculés en additionnant l'actif net de tous les compartiments.
Le taux de change utilisé pour les chiffres cumulés est le suivant :

1 EUR = 0,97965 USD
1 EUR = 141,7994 JPY
1 EUR = 0,8776 GBP

2 SYNTHÈSE DES PRINCIPALES CONVENTIONS COMPTABLES (suite)

■ **Revenus de dividendes et d'intérêts** - Le revenu de dividende est enregistré à la date ex-dividende et hors retenue fiscale à la source. Le revenu des intérêts est enregistré selon la comptabilité d'engagement.

■ **Plus-value ou moins-value nette réalisée sur la vente de titres d'investissement et produits dérivés** - La plus-value/(moins-value) nette réalisée sur la vente de titres d'investissement est déterminée sur la base du coût moyen des titres vendus. Pour les marchés de change à terme, la plus-value ou moins-value réalisée est calculée pour chaque marché à terme. Dans le cas des marchés à terme (*futures*) financiers, le principe est « first in first out ». Les opérations de swaps sur actions sont calculées en prenant en considération aussi bien la partie flottante correspondant au taux d'intérêt des contrats que la partie flottante relative à la performance de l'action sous-jacente du contrat.

■ POLITIQUE DE DIVIDENDE

Les actions de distribution distribueront tout ou partie du revenu d'investissement net reçu par le compartiment concerné, et peuvent également distribuer des plus-values de capital (latentes et réalisées) ainsi que du capital. Lorsqu'un dividende est déclaré, la VNI de la catégorie concernée est réduite du montant du dividende. Les dividendes peuvent être déclarés sur base annuelle, trimestrielle ou mensuelle, comme indiqué par le suffixe de la catégorie d'actions (QD, MD, YD). Ces actions fixent un montant de dividende cible communiqué par avance. Il s'agit d'un montant que le compartiment aspire à verser mais ne garantit pas. Les dividendes cibles peuvent être indiqués sous la forme d'un montant spécifique ou d'un pourcentage de la VNI. Pour pouvoir verser le montant du dividende cible, il peut arriver qu'un compartiment verse en dividende un montant supérieur au montant réellement gagné, ce qui signifie que les investisseurs récupèrent une partie de leur capital sous forme de dividende.

Pour de plus amples informations concernant le calendrier et les objectifs de dividendes, veuillez consulter amundi.com et/ou amundi.tff.com.

Les catégories d'actions dépourvues de suffixe (QD, MD ou YD) déclarent un dividende annuel en novembre.

Des dividendes supplémentaires peuvent être déclarés sur décision du Conseil d'administration.

Les dividendes des actions de distribution sont réinvestis automatiquement ou versés selon les coordonnées bancaires en possession d'Amundi pour le compte des Actionnaires. Les dividendes de chaque catégorie d'actions sont payés dans la devise de la dividende concernée. Les Actionnaires peuvent demander la conversion de leurs dividendes dans une devise différente. Si la devise demandée fait partie des devises acceptées par le compartiment, il n'y a typiquement pas de frais de change. Dans les autres cas, les Actionnaires se verront généralement facturer les frais de change en vigueur. Les paiements de dividendes non réclamés sont restitués au compartiment au bout de cinq ans. Les dividendes sont payés uniquement sur les actions détenues à la date d'enregistrement.

Aucun compartiment n'effectuera de paiement de dividende si les actifs de la SICAV sont inférieurs aux exigences de fonds propres ou si le paiement de dividendes est susceptible de réduire le capital à un niveau inférieur aux exigences de fonds propres.

■ FRAIS DE TRANSACTION

Les frais de transaction incluent les frais découlant de l'encodage de chaque nouvelle opération (achat ou vente) par le service dédié de CACEIS Bank, filiale de Luxembourg, les commissions de forex, les commissions des marchés boursiers et les frais de traitement relatifs aux opérations sur les titres en portefeuille et sur les contrats de change à terme. Les frais de transaction sont indiqués à la rubrique « Frais de transaction ».

■ PRETS ET EMPRUNTS DE TITRES

Dans les opérations de prêt et d'emprunt de titres, un prêteur transfère des titres ou des instruments à un emprunteur à la condition que cet emprunteur s'engage à rendre des titres ou instruments équivalents à une date future ou lorsque le prêteur en fait la demande. Dans le cadre d'opérations de ce type, un compartiment peut prêter des titres ou des instruments à n'importe quelle contrepartie soumise à des règles de surveillance prudentielle que la CSSF considère comme équivalentes à celles prescrites par la législation de l'UE.

Un compartiment peut prêter des titres en portefeuille directement ou par l'intermédiaire :

- d'un système de prêt standardisé organisé par une chambre de compensation reconnue ;
- d'un système de prêt organisé par une institution financière spécialisée dans les opérations de ce type.

L'emprunteur doit constituer une garantie valable pendant toute la durée du prêt et au moins égale à la valorisation totale des titres prêtés majorée de la valeur de toute décote jugée appropriée au vu de la qualité de la garantie.

Les éléments de revenus sur prêt de titres présentés dans l'état des opérations et des variations de l'actif net sont indiqués sur une base nette, soit le revenu brut après déduction des frais directs et indirects à proportion de 35 %. Le revenu brut est enregistré selon la comptabilité d'engagement tandis que les frais sont déduits mensuellement sur la base des encaissements/décaissements. L'exécution des transactions EPM a été confiée à Amundi Intermediation et CACEIS qui sont des parties liées.

■ ABREVIATION

Dans les Portefeuille-Titres, XX, XX/XXA fait référence aux Obligations perpétuelles

3 TAXE D'ABONNEMENT

La SICAV est normalement soumise à une taxe d'abonnement. Pour les compartiments indexés (avec actions cotées), la SICAV est exonérée de la taxe d'abonnement conformément à l'article 175(e) de la Loi de 2010.

La SICAV n'est actuellement soumise à aucun autre impôt sur le revenu ou les plus-values.

Les informations fiscales sont exactes à la connaissance du Conseil d'administration, mais il est possible que l'autorité fiscale impose de nouveaux impôts (y compris rétroactifs).

4 FRAIS DE GESTION ET FRAIS ADMINISTRATIFS

Amundi Luxembourg S.A. a droit à recevoir de la SICAV les commissions de gestion calculées pour chaque Compartiment. Ces commissions sont calculées et acquises chaque Jour de négociation et payables trimestriellement à terme échu. Amundi Luxembourg S.A. est responsable du paiement des commissions aux gestionnaires d'investissement, aux prestataires de services et aux distributeurs.

La commission d'administration est une commission exprimée en pourcentage de la VNI des compartiments et des catégories d'actions, payable mensuellement à terme échu à Amundi Luxembourg S.A. et calculée chaque jour.

Les taux de commissions de gestion et les frais administratifs appliqués au 30 septembre 2022 sont précisés ci-dessous :

12 LA VALORISATION DES TITRES RUSSES

En raison de l'invasion de l'Ukraine par la Russie le 24 février et de son impact sur les marchés et titres russes, le Conseil d'administration et la Société de gestion ont décidé, à partir du début du mois de mars, d'examiner au quotidien et de valoriser à leur juste valeur les actions (y compris les ADR/GDR) et les obligations russes. La valorisation à la juste valeur tient compte de l'évaluation et de la suppression potentielle des titres de l'indice par les fournisseurs des indices de référence ainsi que des régimes de sanctions en vigueur et de leur impact sur la négociabilité et le processus de règlement des titres concernés.

Au moment de la rédaction du présent document, le processus de valorisation à la juste valeur de ces titres demeure en vigueur.

Un nombre limité de transactions effectuées sur ces titres, immédiatement avant l'invasion, sont restées non réglées à la clôture de l'exercice le 30/09. Les flux de trésorerie liés aux transactions non réglées ont été entièrement compensés par la suite.

Le Conseil d'administration et la Société de gestion entreprennent des actions pour résoudre les problèmes dans l'intérêt du fonds et de ses actionnaires, en tenant compte de la nature sans précédent de la situation et continuent à surveiller l'évolution de la situation.

Vous trouverez ci-après la liste des titres russes qui ont été valorisés à leur juste valeur au 30 septembre 2022, dans les Compartiments suivants :

AMUNDI INDEX MSCI EMERGING MARKETS
 AMUNDI PRIME EMERGING MARKETS
 AMUNDI INDEX MSCI EMERGING MARKETS SRI PAB
 AMUNDI MSCI EMERGING EX CHINA ESG LEADERS SELECT
 AMUNDI MSCI EMERGING ESG LEADERS

Le compartiment AMUNDI CHINA CNY BONDS a été lancé le 28 novembre 2022.

Au 20 janvier 2023:

- Le compartiment AMUNDI INDEX MSCI JAPAN ESG BROAD CTB a fusionné dans le compartiment AMUNDI INDEX MSCI JAPAN;
- Le compartiment AMUNDI INDEX MSCI JAPAN a été renommé AMUNDI MSCI JAPAN ESG CLIMATE NET ZERO AMBITION CTB.

Rapport d'audit

Aux Actionnaires de
Amundi Index Solutions

Notre opinion

A notre avis, les états financiers ci-joints donnent une image fidèle de la situation financière de Amundi Index Solutions et de chacun de ses compartiments (le « Fonds ») au 30 septembre 2021, ainsi que du résultat de leurs opérations et des variations des actifs nets pour l'exercice clos à cette date, conformément aux prescriptions légales et réglementaires relatives à l'établissement et la présentation des états financiers en vigueur au Luxembourg.

Ce que nous avons audité

Les états financiers du Fonds comprennent :

- l'état du patrimoine au 30 septembre 2022;
- le portefeuille-titres au 30 septembre 2022;
- l'état des opérations et des variations des actifs nets pour l'exercice clos à cette date; et
- les notes aux états financiers – état des instruments dérivés et les autres notes aux états financiers, incluant un résumé des principales méthodes comptables.

Fondement de l'opinion

Nous avons effectué notre audit en conformité avec le EU Regulation No 537/2014, la Loi du 23 juillet 2016 relative à la profession de l'audit (Loi du 23 juillet 2016) et les normes internationales d'audit (ISA) telles qu'adoptées pour le Luxembourg par la Commission de Surveillance du Secteur Financier (CSSF). Les responsabilités qui nous incombent en vertu de la Loi du 23 juillet 2016 et des ISA telles qu'adoptées pour le Luxembourg par la CSSF sont plus amplement décrites dans la section « Responsabilités du Réviseur d'entreprises agréé pour l'audit des états financiers » du présent rapport.

Nous estimons que les éléments probants que nous avons recueillis sont suffisants et appropriés pour fonder notre opinion d'audit.

Nous sommes indépendants du Fonds conformément au code de déontologie des professionnels comptables du conseil des normes internationales de déontologie comptable (le code de l'IESBA) tel qu'adopté pour le Luxembourg par la CSSF ainsi qu'aux règles de déontologie qui s'appliquent à l'audit des états financiers et nous nous sommes acquittés des autres responsabilités qui nous incombent selon ces règles.

Nous déclarons ne pas avoir connaissance d'avoir fourni des services autres que d'audit interdits par l'Article 5(1) du Règlement européen N°537/2014.

Points d'audit majeurs

Les points d'audit majeurs sont ceux qui, selon notre appréciation de professionnels, ont été les plus pertinents dans la révision des états financiers pour la période courante. Ces points ont été traités dans le contexte de notre audit des états financiers dans leur ensemble et dans la formation de notre opinion à cet égard et nous ne formulons pas d'opinion distincte sur ces points.

Points d'audit majeurs	Traitement des points d'audit majeurs dans le cadre de notre audit
<i>Évaluation des swaps OTC</i> Dans le cadre de leur stratégie d'investissement, certains compartiments d'Amundi Index Solutions utilisent des swaps de gré à gré (OTC) pour reproduire la performance des indices. La valorisation de ces investissements est considérée comme un point d'audit majeur compte tenu du risque potentiel d'anomalie significative. Se reporter à la Note 2 des états financiers concernant la procédure d'évaluation de ces instruments.	Par le biais d'observations, d'examens et de tests, nous avons compris l'environnement de contrôle et l'efficacité opérationnelle des contrôles clés relatifs à la valorisation des swaps OTC (swaps de rendement total) au niveau de l'Agent administratif du Fonds selon le rapport de contrôle ISAE 3402. Par ailleurs, nous avons appréhendé les contrôles clés du processus d'évaluation mis en place par la Société de gestion. Nous avons conduit une évaluation indépendante de tous les swaps de rendement total détenus par le Fonds au 30 septembre 2022. Nous avons établi une fourchette indépendante de valeurs acceptables sur la base de modèles à l'appui de méthodes reconnues, de la prise en compte des conditions principales des contrats et des données de marché observables. Par ailleurs, pour tous les swaps OTC, nous avons comparé la valeur de ces dérivés à la contre-évaluation réalisée par la Société de gestion du Fonds.
<i>Existence de swaps OTC</i> La valorisation de ces actifs est considérée comme un point d'audit majeur compte tenu du risque potentiel d'anomalie significative combiné au risque inhérent supérieur dont sont assortis les actifs qui ne peuvent pas être détenus par la Banque dépositaire.	Nous avons appréhendé l'environnement de contrôle et l'efficacité opérationnelle des contrôles clés relatifs à l'autorisation, l'exhaustivité et l'exactitude des transactions sur swaps OTC, ainsi que le processus de rapprochement en place pour ces instruments chez l'administrateur du Fonds. Nous avons obtenu de la Banque dépositaire la confirmation de la propriété par le Fonds de tous les instruments swaps OTC. Nous avons validé toutes les positions en vertu de la confirmation par la banque dépositaire par rapport aux registres comptables du Fonds.

Autres informations

La responsabilité des autres informations incombe au Conseil d'Administration du Fonds. Les autres informations se composent des informations présentées dans le rapport annuel mais ne comprennent pas les états financiers et notre rapport d'audit sur ces états financiers.

Notre opinion sur les états financiers ne s'étend pas aux autres informations et nous n'exprimons aucune forme d'assurance sur ces informations.

En ce qui concerne notre audit des états financiers, notre responsabilité consiste à lire les autres informations et, ce faisant, à apprécier s'il existe une incohérence significative entre celles-ci et les états financiers ou la connaissance que nous avons acquise au cours de l'audit, ou encore si les autres informations semblent autrement comporter une anomalie significative. Si, à la lumière des travaux que nous avons effectués, nous concluons à la présence d'une anomalie significative dans les autres informations, nous sommes tenus de signaler ce fait. Nous n'avons rien à signaler à cet égard.

Responsabilités du Conseil d'Administration du Fonds pour les états financiers

Le Conseil d'Administration du Fonds est responsable de l'établissement et de la présentation sincère de ces états financiers, conformément aux prescriptions légales et réglementaires relatives à l'établissement et la présentation des états financiers en vigueur au Luxembourg ainsi que du contrôle interne qu'il considère comme nécessaire pour permettre l'établissement d'états financiers ne comportant pas d'anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs.

Lors de l'établissement des états financiers, c'est au Conseil d'Administration du Fonds qu'il incombe d'évaluer la capacité du Fonds à poursuivre son exploitation, de communiquer, le cas échéant, les questions relatives à la continuité de l'exploitation et d'appliquer le principe comptable de continuité d'exploitation, sauf si le Conseil d'Administration du Fonds a l'intention de liquider le Fonds ou de cesser son activité, ou si aucune autre solution réaliste ne s'offre à lui.

Responsabilités du Réviseur d'entreprises agréé pour l'audit des états financiers

Les objectifs de notre audit sont d'obtenir l'assurance raisonnable que les états financiers pris dans leur ensemble ne comportent pas d'anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs, et de délivrer un rapport d'audit contenant notre opinion. L'assurance raisonnable correspond à un niveau élevé d'assurance, qui ne garantit toutefois pas qu'un audit réalisé conformément à la Loi du 23 juillet 2016 et aux ISA telles qu'adoptées pour le Luxembourg par la CSSF permettra toujours de détecter toute anomalie significative qui pourrait exister. Les anomalies peuvent provenir de fraudes ou résulter d'erreurs et elles sont considérées comme significatives lorsqu'il est raisonnable de s'attendre à ce que, individuellement ou collectivement, elles puissent influencer sur les décisions économiques que les utilisateurs des états financiers prennent en se fondant sur ceux-ci.

Dans le cadre d'un audit réalisé conformément à la Loi du 23 juillet 2016 et aux ISA telles qu'adoptées pour le Luxembourg par la CSSF, nous exerçons notre jugement professionnel et faisons preuve d'esprit critique tout au long de cet audit. En outre:

- nous identifions et évaluons les risques que les états financiers comportent des anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs, concevons et mettons en œuvre des procédures d'audit en réponse à ces risques, et réunissons des éléments probants suffisants et appropriés pour fonder notre opinion. Le risque de non-détection d'une anomalie significative résultant d'une fraude est plus élevé que celui d'une anomalie significative résultant d'une erreur, car la fraude peut impliquer la collusion, la falsification, les omissions volontaires, les fausses déclarations ou le contournement du contrôle interne ;
- nous acquérons une compréhension des éléments du contrôle interne pertinents pour l'audit afin de concevoir des procédures d'audit appropriées aux circonstances et non dans le but d'exprimer une opinion sur l'efficacité du contrôle interne du Fonds ;
- nous apprécions le caractère approprié des méthodes comptables retenues et le caractère raisonnable des estimations comptables faites par le Conseil d'Administration du Fonds, de même que les informations y afférentes fournies par ce dernier ;
- nous tirons une conclusion quant au caractère approprié de l'utilisation par le Conseil d'Administration du Fonds du principe comptable de continuité d'exploitation et, selon les éléments probants obtenus, quant à l'existence ou non d'une incertitude significative liée à des événements ou situations susceptibles de jeter un doute important sur la capacité du Fonds à poursuivre son exploitation. Si nous concluons à l'existence d'une incertitude significative, nous sommes tenus d'attirer l'attention des lecteurs de notre rapport sur les informations fournies dans les états financiers au sujet de cette incertitude ou, si ces informations ne sont pas adéquates, d'exprimer une opinion modifiée. Nos conclusions s'appuient sur les éléments probants obtenus jusqu'à la date de notre rapport. Des événements ou situations futurs pourraient par ailleurs amener le Fonds à cesser son exploitation ;
- nous évaluons la présentation d'ensemble, la forme et le contenu des états financiers, y compris les informations fournies dans les notes, et apprécions si les états financiers représentent les opérations et événements sous-jacents d'une manière propre à donner une image fidèle.

Nous communiquons aux responsables du gouvernement d'entreprise notamment l'étendue et le calendrier prévu des travaux d'audit et nos constatations importantes, y compris toute déficience importante du contrôle interne que nous aurions relevée au cours de notre audit.

Nous fournissons également aux entités en charge de la gouvernance une déclaration selon laquelle nous nous conformons aux règles éthiques en vigueur en matière d'indépendance et nous leur faisons part de l'ensemble des relations et autres points à mettre en avant raisonnablement par rapport à notre indépendance, ainsi que les actions conduites, le cas échéant, pour éliminer les menaces ou accroître la sécurité.

Par rapport aux points communiqués à ceux en charge de la gouvernance, nous déterminons ceux qui ont été les plus significatifs dans l'audit des états financiers de la période considérée et qui constituent

donc les points d'audit majeurs. Nous décrivons ces points dans notre rapport d'audit sauf s'il est interdit par la loi ou la réglementation en vigueur de les divulguer.

Rapport sur les autres obligations légales et réglementaires

Nous avons été nommés Réviseur d'entreprises agréé du Fonds par l'assemblée générale des actionnaires tenue le 28 janvier 2022 et la durée de notre engagement ininterrompu, y compris les renouvellements ou reconductions antérieurs, est de deux ans.

PricewaterhouseCoopers, Société coopérative

SECURITIES FINANCING TRANSACTIONS AND OF REUSE REGULATION (« SFTR »)

Le règlement relatif à la transparence des opérations de financement sur titres et de la réutilisation (Securities Financing Transactions Regulation ou SFTR) est entré en vigueur le 12 janvier 2016 afin d'améliorer la transparence dans les prêts de titres et de produits de base, les opérations de mise en pension, les prêts sur marge et certains contrats de garantie. Les exigences de divulgation du SFTR comprennent les détails suivants sur le prêt de titres :

POLITIQUE ET PRATIQUES DE RÉMUNÉRATION

La politique de rémunération d'Amundi Luxembourg est conforme aux obligations détaillées dans la Directive européenne 2014/91/UE entrée en vigueur le 18 mars 2016 et transposée dans la loi luxembourgeoise le 10 mai 2016.

Elle se fonde sur le cadre de rémunération à l'échelle du groupe Amundi et est revue chaque année par le Comité des rémunérations du groupe Amundi avant d'être approuvée par le Conseil d'Amundi Luxembourg.

Cette politique fait l'objet d'un examen indépendant de la fonction Conformité interne. En 2021, aucun changement matériel n'est intervenu dans la politique de rémunération adoptée les années précédentes. La politique applicable en 2021 a été approuvée par le Conseil d'Amundi Luxembourg le 15 avril 2021 et examinée par le Comité des rémunérations du groupe Amundi le 9 février 2021.

Les objectifs de la politique et les pratiques en matière de rémunération s'inscrivent dans une volonté de gestion efficace des risques qu'ils préconisent et alignent la rémunération sur la performance à long terme et les risques en vue d'éviter les conflits d'intérêts. Les composantes de la rémunération fixe sont liées aux fonctions concernées, aux services professionnels rendus et au périmètre de responsabilité. Elles tiennent compte du niveau de qualification, des niveaux de salaires sur le marché, de l'expérience et des compétences requises pour chacun poste, ainsi que du niveau d'excellence démontré. La rémunération variable est destinée à promouvoir le développement durable à long terme de la Société de gestion et un système de gestion des risques solide et efficace. La rémunération variable tient compte de la performance du salarié, du département au sein duquel il travaille et du groupe Amundi dans son ensemble. Elle se fonde à la fois sur des critères financiers et autres.

Amundi Luxembourg et le groupe Amundi ont défini l'ensemble des personnels identifiés ayant autorité ou exerçant une influence sur les fonds gérés par Amundi et qui sont donc susceptibles d'avoir un impact sur la performance ou le profil de risque de nos fonds.

1. MONTANTS DE RÉMUNÉRATION ACCORDÉS

Au 31 décembre 2021, Amundi Luxembourg, Société de gestion, agit en qualité de Société de gestion ou d'AIFM pour plusieurs compartiments et OPCVM et AIF indépendants.

La rémunération totale payée par Amundi Luxembourg à son personnel au titre de l'exercice 2021 est la suivante :

	Nbre de bénéficiaires	Part fixe	Part variable	Total
Effectif	82	7,662,788	1,192,475	8,855,263
Dont				
Personnel identifié	9	1,479,885	494,995	1,974,880
Autres personnels	73	6,182,903	697,480	6,880,383

Au 31/12/2021, Amundi Index Solutions représentait environ 46% et au 30/09/2022, environ 44% du total de l'actif net sous gestion d'Amundi Luxembourg S.A. Les éléments de rémunération indiqués ci-dessus se rapportent aux activités relatives à l'ensemble des fonds gérés.

Les salariés d'Amundi Luxembourg S.A. et du groupe Amundi qui ont été nommés au Conseil d'administration de la Société de Gestion et du Fonds renoncent à toute rémunération pour l'ensemble des fonds gérés.

Aucun employé de la Société de gestion ne perçoit de montants, notamment sous forme de parts d'intéressement et de commissions de performance, qui seraient versés directement par les OPCVM ou les FIA gérés.

2. RÉMUNÉRATION DES DÉLÉGUÉS

Au 30 Septembre 2022 :

- Amundi Asset Management gère 940,91 milliards d'EUR d'actifs sous gestion, dont 84,41 milliards d'EUR représentés par des compartiments de la structure à compartiments multiples (respectivement 8,97 % du total des actifs gérés par le Gestionnaire d'investissement et 96,42 % du total des actifs sous gestion de la structure à compartiments multiples). La part proportionnelle de la rémunération totale du personnel identifié attribuable à la gestion de ces compartiments s'élevait à 3,215,254 EUR, dont 1,263,366 EUR en rémunération fixe et 1,951,888 EUR en rémunération variable. La part proportionnelle de la rémunération totale du personnel attribuable à la gestion de ces compartiments s'élevait à 15,118,594 EUR, dont 9,972,441 EUR en rémunération fixe et 5,146,153 EUR en rémunération variable. Amundi Asset Management comptait 69 membres du personnel identifié sur un total de 1.400 collaborateurs en 2021.

- Amundi Japan Ltd gère 25,49 milliards d'EUR d'actifs sous gestion, dont 3,13 milliard d'EUR représentés par des compartiments de la structure à compartiments multiples (respectivement 12,28 % du total des actifs gérés par le Gestionnaire d'investissement et 3,58 % du total des actifs sous gestion de la structure à compartiments multiples). La part proportionnelle de la rémunération totale du personnel identifié attribuable à la gestion de ces compartiments s'élevait à 402,706 EUR, dont 285,071 EUR en rémunération fixe et 117.635 EUR en rémunération variable. La part proportionnelle de la rémunération totale du personnel attribuable à la gestion de ces compartiments s'élevait à 2,425,261 EUR, dont 1,928,336 EUR en rémunération fixe et 496,925 EUR en rémunération variable. Amundi Japan Ltd comptait 12 collaborateurs identifiés sur un total de 160 en 2021.

Il est précisé que les derniers chiffres communiqués concernant les rémunérations se rapportent à l'année civile 2021.

RÈGLEMENT SUR LA PUBLICATION D'INFORMATIONS EN MATIÈRE DE DURABILITÉ DANS LE SECTEUR DES SERVICES FINANCIERS ("SFDR")

Règlement relatif à la publication d'informations

Le 18 décembre 2019, le Conseil européen et le Parlement européen ont annoncé qu'ils avaient trouvé un accord politique concernant le règlement relatif à la publication d'informations, qui vise à créer un cadre paneuropéen censé faciliter l'investissement durable. Le règlement relatif à la publication d'informations propose une approche harmonisée pour les communications relatives au développement durable destinées aux investisseurs dans le secteur des services financiers de l'Espace économique européen.

Pour des informations plus détaillées concernant la manière dont un Compartiment répond aux exigences du règlement relatif à la publication d'informations, veuillez consulter le supplément relatif au Compartiment concerné. Veuillez consulter également la section « Investissement durable » du Prospectus du Fonds et la Politique d'investissement responsable d'Amundi sur le site www.amundi.com.

Comme l'exige le règlement relatif à la publication d'informations, le Fonds fait les déclarations suivantes :

Dans le cadre de la Politique d'investissement responsable d'Amundi, Amundi a développé sa propre approche de notation ESG. La notation ESG d'Amundi vise à mesurer la performance ESG d'un émetteur, c'est-à-dire sa capacité à anticiper et à gérer les risques et opportunités en matière de durabilité inhérents à son secteur d'activité et à sa propre situation. En utilisant les notations ESG d'Amundi, les gestionnaires de portefeuille prennent en compte les risques en matière de durabilité dans leurs décisions d'investissement.

Les Compartiments sont classés comme suit :

Compartiments relevant de l'article 9

Les présents Compartiments ont un objectif durable et sont donc classés en vertu de l'article 9 selon le SFDR [Règlement (UE) 2019/2088 du Parlement européen et du Conseil du 27 avril 2019 sur la publication d'informations en matière de durabilité dans le secteur des services financiers]. Par conséquent, comme l'exige l'article 58 du RÈGLEMENT DÉLÉGUÉ (UE) 2022/1288 DE LA COMMISSION, des informations détaillées sur les critères environnementaux ou sociaux prônés par le produit financier sont disponibles dans une annexe au présent rapport.

La présente annexe contient des informations concernant :

- L'atteinte de l'objectif d'investissement durable de ce produit financier ;
- Les principaux investissements, la répartition des actifs et la part des investissements dans les différents secteurs et sous-secteurs économiques ;
- Les investissements durables.

Liste des Compartiments relevant de l'article 9 au 30 septembre 2022 :

Compartiments relevant de l'article 8

Les présents Compartiments œuvrent en faveur des critères environnementaux et sociaux, et sont donc classés en vertu de l'article 8 selon le SFDR [Règlement (UE) 2019/2088 du Parlement européen et du Conseil du 27 avril 2019 sur la publication d'informations en matière de durabilité dans le secteur des services financiers]. Par conséquent, comme l'exige l'article 50, paragraphe 2, du RÈGLEMENT DÉLÉGUÉ (UE) 2022/1288 DE LA COMMISSION, des informations détaillées sur les critères environnementaux ou sociaux prônés par le produit financier sont disponibles dans une annexe au présent rapport. La présente annexe contient des informations concernant :

- L'atteinte des critères environnementaux ou sociaux prônés par les produits financiers ;
- Les principaux investissements, la répartition des actifs et la part des investissements dans les différents secteurs et sous-secteurs économiques ;
- Les investissements dans des activités économiques durables sur le plan environnemental.

Les autres Compartiments

Vu la focalisation des investissements et les classes d'actifs / les secteurs dans lesquels ils investissent, les gestionnaires d'investissement de tous les autres Compartiments, non classifiés comme relevant de l'article 8 ou de l'article 9 du règlement relatif à la publication d'informations, n'ont pas intégré la prise en considération d'activités économiques durables sur le plan environnemental au processus d'investissement du Compartiment. Il convient par conséquent de noter que les investissements sous-jacents de ces Compartiments ne tiennent pas compte les critères de l'UE relatifs aux activités économiques durables sur le plan environnemental.

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI EM ASIA SRI PAB

Identifiant d'entité juridique :
213800XKAFV6VIB4O832

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☒ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 42,68 % ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
--	---

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI EM Asia SRI filtered PAB Index	208,3	100 %
30/11/2022	MSCI EM Asia	543,9	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des

controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

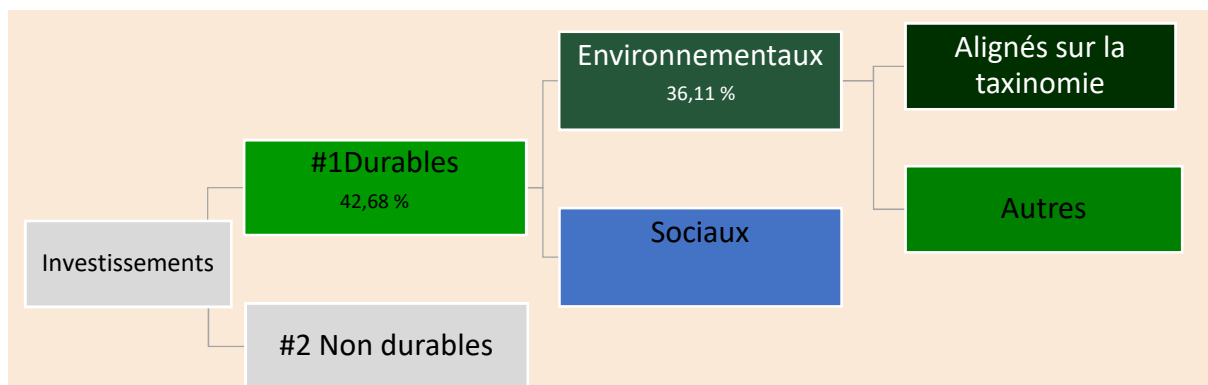

Investissements les plus importants	Secteur	% d'actifs	Pays
MEITUAN-CLASS B	Internet & Marketing direct de détail	5,68 %	CHN
TAIWAN SEMICONDUCTOR MANUFAC	Semi-conducteurs & Équipements pour leur fabrication	4,48 %	TWN

NESTLE INDIA LTD	Produits alimentaires	1,54 %	IND

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	15,63 %
Produits de soins personnels	7,41 %
Internet & Marketing direct de détail	6,38 %
Automobiles	6,30 %
Produits chimiques	5,30 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **36,11 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● **En quoi l'indice de référence différerait-il d'un indice de marché large ?**

MSCI EM Asia SRI Filtered PAB Index est un indice d'actions basé sur le MSCI Emerging Markets (EM) Asia, indice représentatif des grandes et moyennes capitalisations dans neuf pays du marché émergent asiatique (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● **Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?**

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● **Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?**

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● **Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?**

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI EMERGING MARKETS SRI PAB

Identifiant d'entité juridique :
549300GISPIIUMKTYR80

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☐ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
---	---

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Emerging Markets SRI filtered PAB Index	240.232	99,4 %
30/11/2022	MSCI EM (Marchés émergents)	669.548	99,1 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des

controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI EM (Emerging Markets) SRI Filtered PAB Index est un indice d'actions basé sur le MSCI Emerging Markets, indice représentatif des grandes et moyennes capitalisations dans vingt-sept pays émergents (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI EMU SRI PAB

Identifiant d'entité juridique :
2138002M8UPUVNSJT429

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☒ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 82,54 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI EMU SRI filtered PAB Index	228.633	100,0 %
30/11/2022	MSCI EMU	500.454	99,6 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la

meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

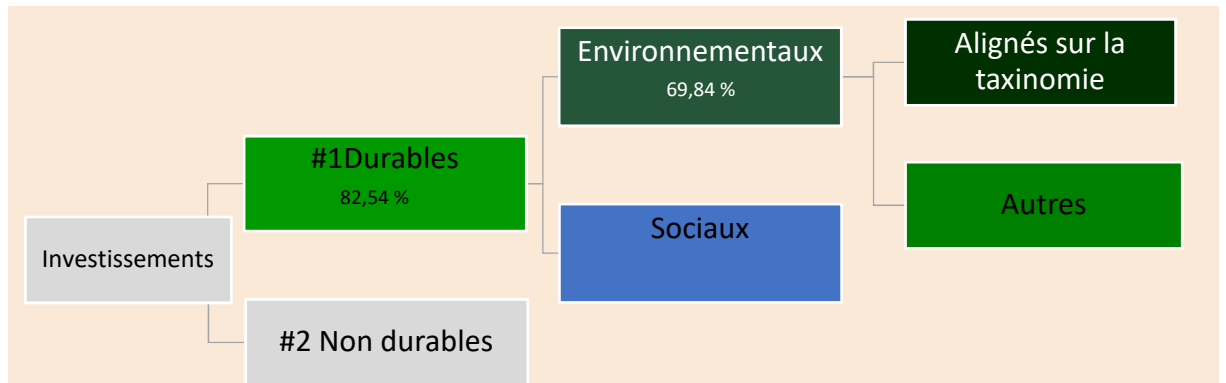

Investissements les plus importants	Secteur	% d'actifs	Pays
ALLIANZ SE-REG	Assurance	5,19 %	DEU
AXA SA	Assurance	5,10 %	FRA
SCHNEIDER ELECT SE	Équipements électriques	4,91 %	États-Unis

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie de tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier hors obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **69,84 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI EMU SRI Filtered PAB Index est un indice d'actions basé sur le MSCI EMU, indice représentatif des grandes et moyennes capitalisations dans dix pays des marchés développés au sein de l'Union économique et monétaire européenne (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI EUROPE SRI PAB

549300T9XW2XYJW1RS43

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☐ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 77,22 % ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de __ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
---	--

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Europe SRI filtered PAB Index	180.691	100,0 %
30/11/2022	MSCI Europe	543.423	99,5 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la

meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

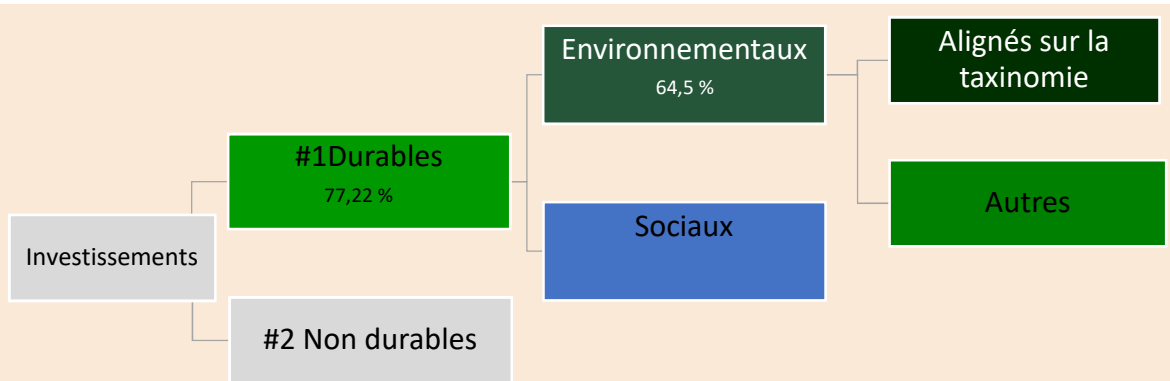

Investissements les plus importants	Secteur	% d'actifs	Pays
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	5,69 %	États-Unis
NOVO NORDISK A/S-B NEW	Produits pharmaceutiques	5,62 %	DNK
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	4,53 %	NLD

DEUTSCHE BOERSE AG	Marchés des capitaux	1,75 %	DEU
L OREAL PRIME DE FIDELITE 2023	Produits de soins personnels	1,75 %	FRA
DANONE	Produits alimentaires	1,73 %	FRA

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Produits pharmaceutiques	12,82 %
Assurance	9,44 %
Services professionnels	5,58 %
Produits chimiques	5,13 %
Équipements électriques	5,08 %
Produits de soins personnels	5,05 %
Banques	4,83 %

<i>Semi-conducteurs & Équipements pour leur fabrication</i>	4,53 %
<i>Équipements & Fournitures médicaux</i>	4,43 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **64,5 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

 voir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI Europe SRI Filtered PAB Index est un indice d'actions basé sur le MSCI Europe, indice représentatif des grandes et moyennes capitalisations dans quinze pays des marchés développés en Europe (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI JAPAN SRI PAB

Identifiant d'entité juridique :
2138007H5QEZTOGC4B22

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☐ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 67,42 % ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
---	---

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI JAPAN SRI filtered PAB Index	376,2	100 %
30/11/2022	MSCI Japan	818,8	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n’appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)

- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtres détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

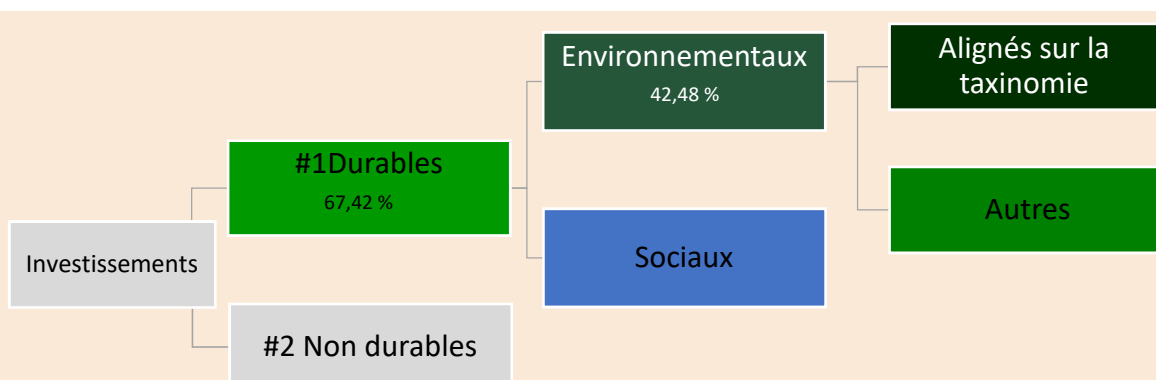

Investissements les plus importants	Secteur	% d'actifs	Pays
DAIICHI SANKYO	Produits pharmaceutiques	5,54 %	JPN

<i>Liquidités</i>	<i>1,38 %</i>

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

● **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

 Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **42,48 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

 Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

 Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI Japan SRI Filtered PAB Index est un indice d'actions basé sur le MSCI Japan index, représentatif des grandes et moyennes capitalisations du marché japonais (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI PACIFIC EX JAPAN SRI PAB

Identifiant d'entité juridique :
22210085PY3LW5RGLP55

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **Oui**

☐ ☐ ☐ **Non**

☒ Il a réalisé des investissements durables ayant un objectif environnemental : 44,79 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Pacific ex Japan SRI filtered PAB Index	376,2	100 %
30/11/2022	MSCI PACIFIC ex JAPAN	818,8	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

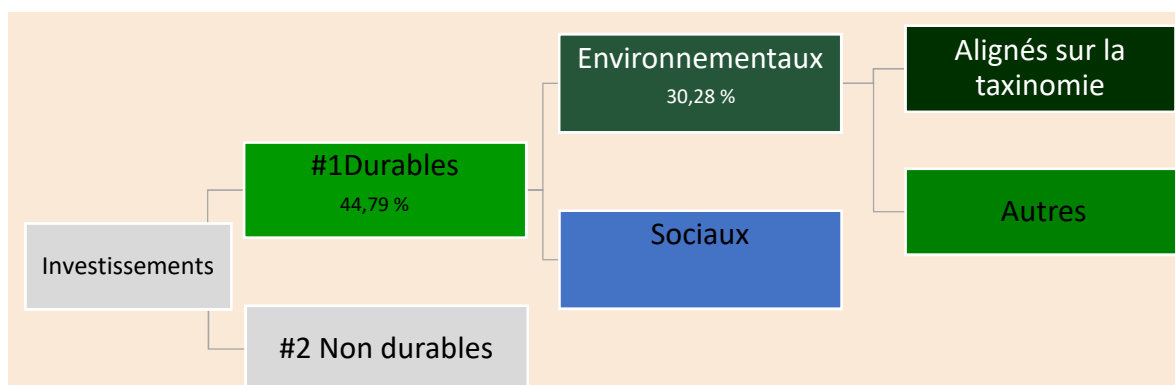

Investissements les plus importants	Secteur	% d'actifs	Pays
UNITED OVERSEAS BANK	Banques	5,56 %	SGP
AIA GROUP	Assurance	5,09 %	HKG
TRANSURBAN GROUP	Transports	4,80 %	AUS
COLES GROUP LTD	Distribution alimentaire & Pharmacie	4,65 %	AUS
MACQUARIE GROUP	Marchés des capitaux	4,60 %	AUS
BOC HONG KONG HOLDINGS LTD	Banques	4,57 %	HKG
HANG SENG BANK	Banques	4,33 %	HKG
GOODMAN GROUP	FPI d'actions	4,23 %	AUS
QBE INSURANCE	Assurance	4,07 %	AUS
BRAMBLES LTD	Services commerciaux & Provisions de bureaux	3,97 %	AUS
NEWCREST MINING	Métaux & Mines	3,57 %	AUS
ASX LTD	Marchés des capitaux	3,46 %	AUS
JAMES HARDIE INDUSTR PLC	Matériaux de construction	3,28 %	AUS
COMPUTERSHARE	Services informatiques	3,22 %	AUS
SUNCORP GROUP LTD	Assurance	3,15 %	AUS

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

● **Dans quels secteurs économiques les investissements ont-ils été réalisés ?**

Secteur	% d'actifs
<i>Banques</i>	14,46 %
<i>FPI d'actions</i>	14,08 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **30,28 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI Pacific ex Japan SRI Filtered PAB Index est un indice d'actions basé sur le MSCI Pacific ex Japan, indice représentatif des grandes et moyennes capitalisations dans quatre ou cinq pays des marchés développés dans la région du Pacifique, hors Japon (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI USA SRI PAB

Identifiant d'entité juridique :
549300W0L1QTBIEXUI22

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ **X** **Oui** ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 56,52 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ ayant un objectif social
☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables	

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI USA SRI filtered PAB Index	101.867	98,5 %
30/11/2022	MSCI USA	280.218	99,2 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la

meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

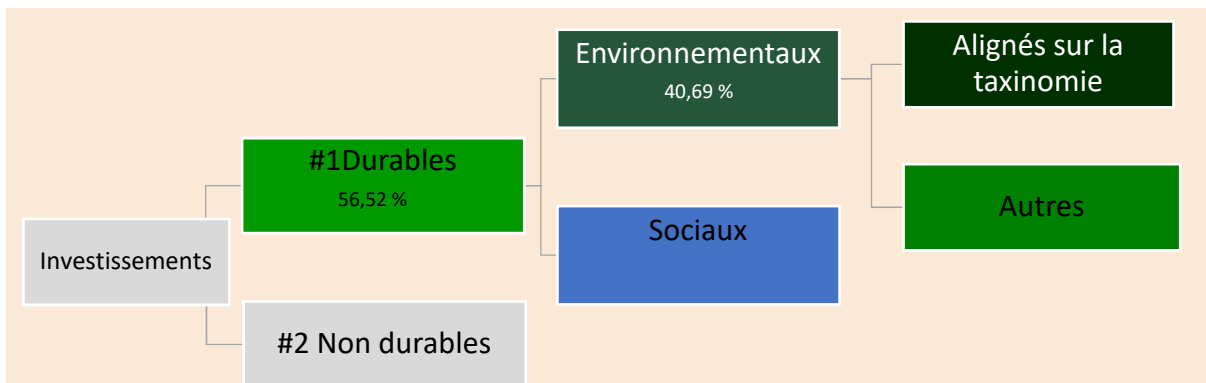

Investissements les plus importants	Secteur	% d'actifs	Pays
TESLA INC	Automobiles	5,28 %	États-Unis
MICROSOFT CORP	Logiciels	4,64 %	États-Unis
HOME DEPOT INC	Distribution spécialisée	4,36 %	États-Unis

AUTOMATIC DATA	Services informatiques	1,44 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Boissons	8,46 %
Logiciels	6,61 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **40,69 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

 voir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que les plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI USA SRI Filtered PAB Index est un indice d'actions basé sur le MSCI USA, représentatif des grandes et moyennes capitalisations du marché américain (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI WORLD SRI PAB

Identifiant d'entité juridique :
54930067TT873B9E5C67

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☒ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 62,42 % ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
---	---

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI World SRI filtered PAB Index	149,0	99 %
30/11/2022	MSCI WORLD	379,8	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Dans quelle mesure les investissements durables n’ont-ils pas causé de préjudice important à un objectif d’investissement durable ??**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d’administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l’homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d’exclusions dans le cadre de sa Politique d’investissement responsable. Ces exclusions, qui s’appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l’entreprise n’aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

Investissements les plus importants	Secteur	% d'actifs	Pays
TESLA INC	Automobiles	5,19 %	États-Unis

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **44,87 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence diffèrait-il d'un indice de marché large ?*

MSCI World SRI Filtered PAB Index est un indice d'actions basé sur le MSCI World index, représentatif des grandes et moyennes capitalisations dans vingt-trois pays des marchés développés (en novembre 2021) (l'« Indice parent »). L'Indice fournit une exposition aux entreprises affichant d'excellentes notations ESG (Environnemental, Social et de Gouvernance) et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit : AMUNDI MSCI UK IMI SRI PAB

Identifiant d'entité juridique : 222100W4JS565M7W3C88

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ **X** **Oui** ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 72,36 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de <u> </u> d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI UK IMI filtered PAB Index	295,7	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre

évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de

gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

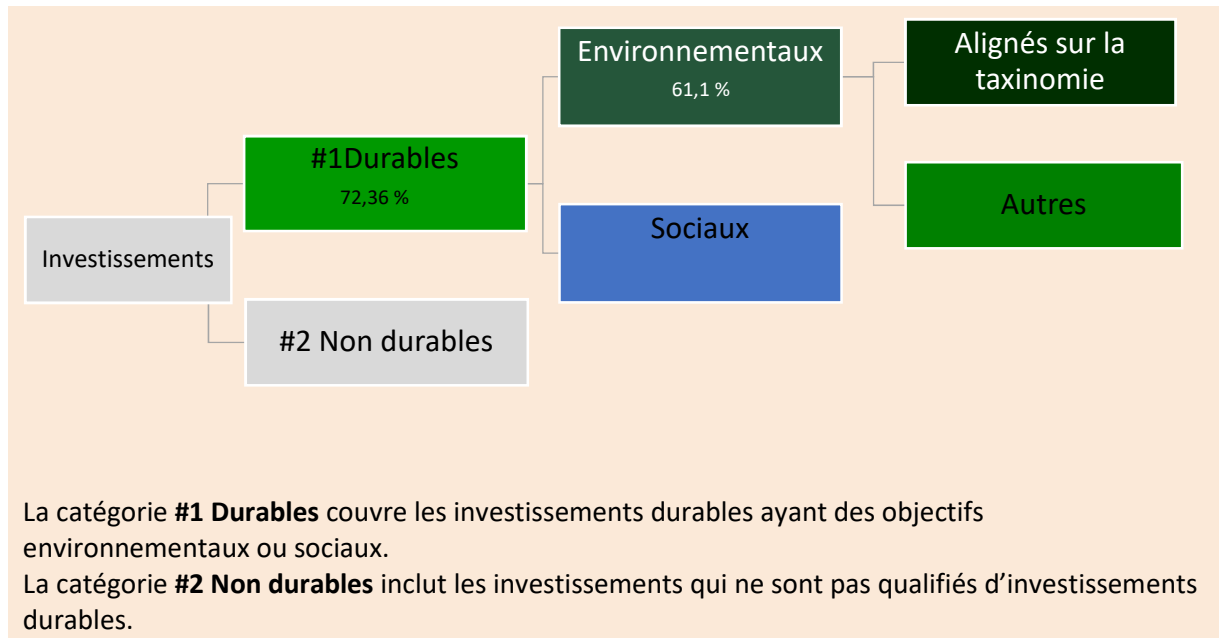

Investissements les plus importants	Secteur	% d'actifs	Pays
UNILEVER PLC (GBP)	Produits de soins personnels	5,90 %	GBR
RECKITT BENCKISER	Produits domestiques	5,31 %	GBR
ASTRAZENECA GBP	Produits pharmaceutiques	5,28 %	GBR
RELX PLC	Services professionnels	4,76 %	GBR
LONDON STOCK EXCH GR	Marchés des capitaux	4,48 %	GBR

<i>Liquidités</i>	<i>1,56 %</i>

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **61,1 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI UK IMI SRI Filtered PAB Index est un indice d'actions basé sur le MSCI United Kingdom IMI Index, indice représentatif des grandes, moyennes et petites capitalisations du marché britannique (« Indice parent »). L'Indice fournit une exposition aux entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chaque secteur de l'Indice parent, et exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EUROPE CLIMATE TRANSITION CTB

2221005CN7A7XZRQ4W36

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **Oui**

☐ ☒ ☐ **Non**

☒ Il a réalisé des investissements durables ayant un objectif environnemental : 74,38 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Europe Climate Change CTB Select Index Net EUR	215,3	100 %
30/11/2022	MSCI EUROPE	543,4	99,5 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

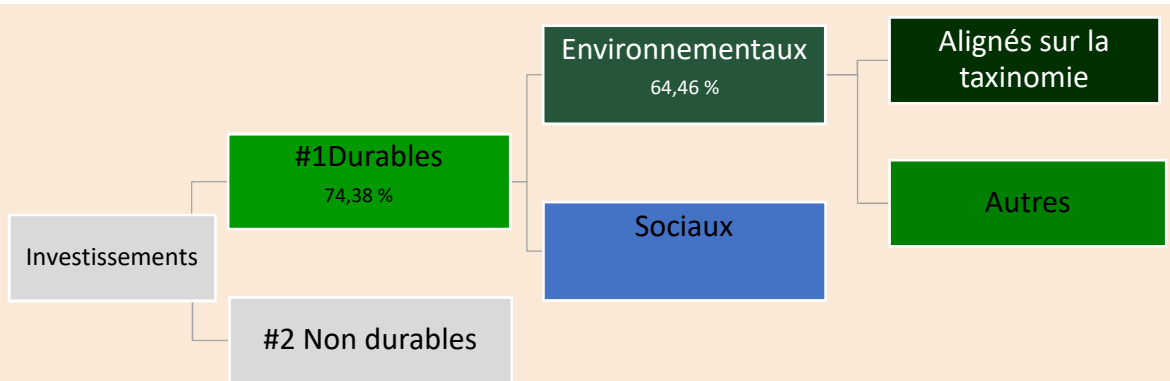

Investissements les plus importants	Secteur	% d'actifs	Pays
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	4,72 %	États-Unis
LVMH MOET HENNESSY	Textiles, Habillement et Produits de luxe	4,49 %	FRA
SCHNEIDER ELECT SE	Équipements électriques	4,06 %	États-Unis

L OREAL	Produits de soins personnels	1,24 %	FRA
HSBC HOLDING PLC GBP	Banques	1,07 %	GBR
ZURICH INSURANCE GROUP AG	Assurance	1,03 %	CHE

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Produits pharmaceutiques	14,92 %
Banques	7,31 %
Textiles, Habillement et Produits de luxe	6,89 %
Équipements électriques	6,42 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

● **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **64,46 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différait-il d'un indice de marché large ?***

Le MSCI Europe Climate Change CTB Select Index est un indice d'actions basé sur le MSCI Europe Index (« Indice parent »), représentatif des grandes et moyennes capitalisations dans quinze pays des marchés développés en Europe (en décembre 2020). L'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de l'indice de référence « Transition climatique » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI WORLD CLIMATE TRANSITION CTB

Identifiant d'entité juridique :
222100479LWJEIXZB875

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

Il a réalisé des investissements durables ayant un objectif environnemental : 47,12 %

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social :

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Europe Climate Change CTB Select Index Net EUR	147,4	100 %
30/11/2022	MSCI EUROPE	379,8	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche

s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.

- **Vote :** La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

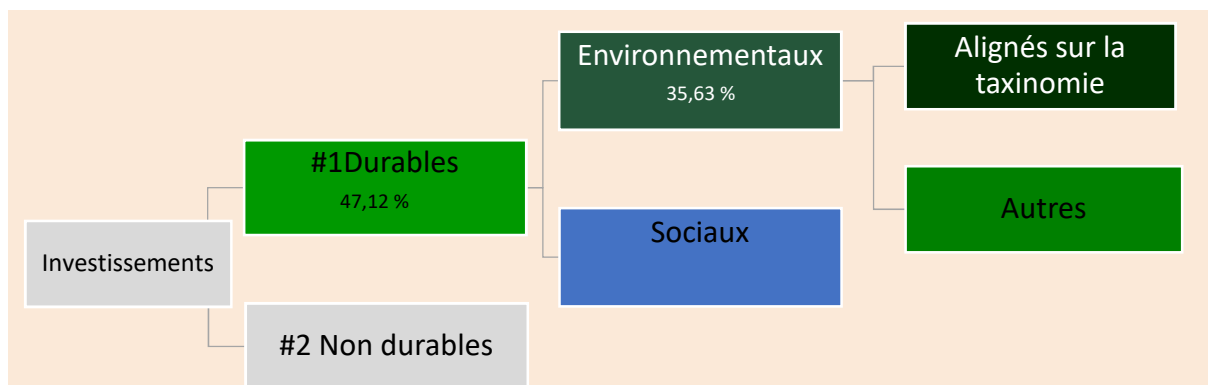

Investissements les plus importants	Secteur	% d'actifs	Pays

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **35,63 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI World Climate Change CTB Select Index est un indice d'actions basé sur le MSCI World Index (« Indice parent »), représentatif des grandes et moyennes capitalisations dans vingt-trois pays des marchés développés (en décembre 2020). L'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de l'indice de référence « Transition climatique » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI EUROPE ESG BROAD CTB

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☒ **X** **Oui**

☒ ☐ ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 70,65 % ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de __ d'investissements durables ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE ☐ ayant un objectif social ☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
---	--

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Europe ESG Broad CTB Select Index	310.612	100,0 %
30/11/2022	MSCI EUROPE	543.423	99,5 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

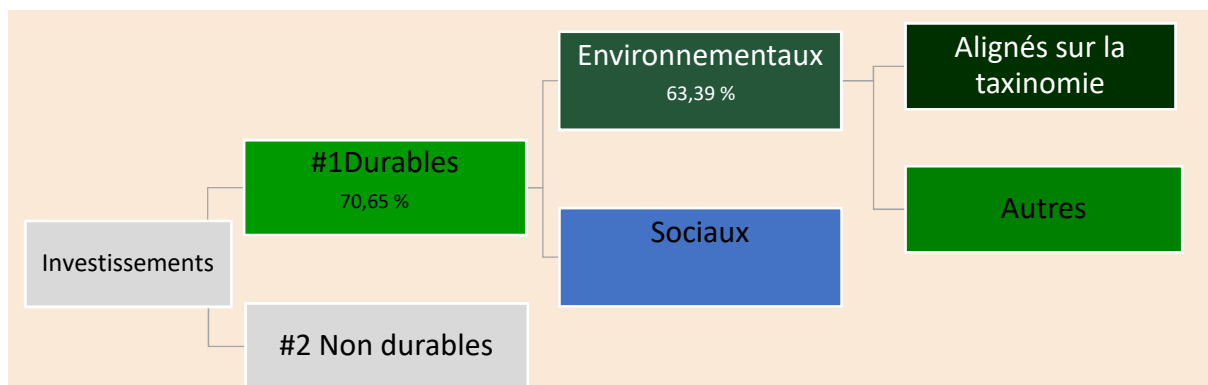

Investissements les plus importants	Secteur	% d'actifs	Pays
NESTLE SA-REG	Produits alimentaires	3,59 %	États-Unis
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	2,98 %	NLD
NOVO NORDISK A/S-B NEW	Produits pharmaceutiques	2,67 %	DNK
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	2,65 %	États-Unis

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

● **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

 Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **63,39 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

 Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

 Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que :

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI Europe ESG Broad CTB Select Index est un indice d'actions basé sur le MSCI Europe Index, représentatif des grandes et moyennes capitalisations dans les pays des marchés développés en Europe (l'« Indice parent »). L'Indice exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental, tout en surpondérant les entreprises affichant un excellent score ESG. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de l'indice de référence « Transition climatique » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

X

Il a réalisé des investissements durables ayant un objectif environnemental : 38,7 %

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

X

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social :

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

30/11/2022	MSCI Emerging Markets ESG Broad CTB Select Index	307.801	100,0 %
30/11/2022	MSCI EM (marchés émergents)	669.548	99,1 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s’assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d’indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d’indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la

meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

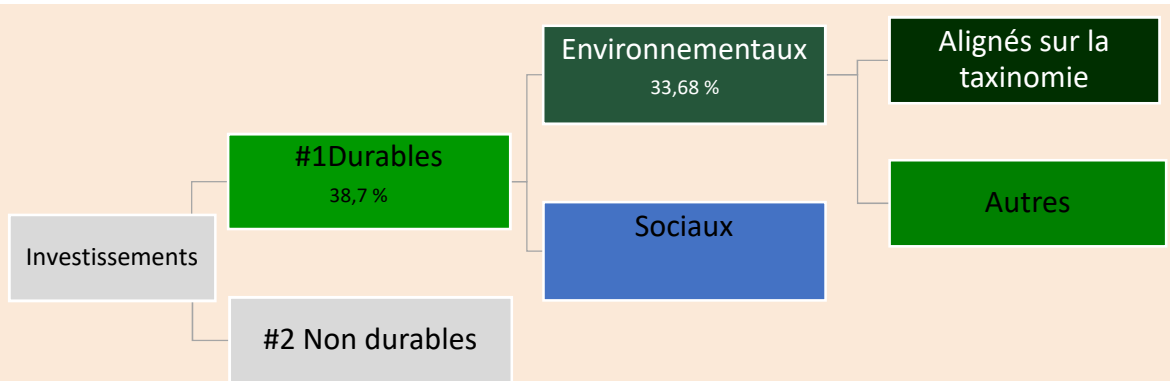

Investissements les plus importants	Secteur	% d'actifs	Pays
TAIWAN SEMICONDUCTOR MANUFAC	Semi-conducteurs & Équipements pour leur fabrication	6,60 %	TWN
TENCENT HOLDINGS LTD	Médias interactifs & Services	3,47 %	CHN

SAUDI BASIC INDUSTR	Produits chimiques	0,80 %	SAU
AL RAJHI BANK	Banques	0,78 %	SAU

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	18,99 %
Semi-conducteurs & Équipements pour leur fabrication	8,47 %
Internet & Marketing direct de détail	7,39 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **33,68 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI Emerging Markets ESG Broad CTB Select Index est un indice d'actions basé sur le MSCI Emerging markets Index, représentatif des grandes et moyennes capitalisations dans vingt-sept pays émergents (en novembre 2021) (« l'Indice parent »). L'Indice exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental, tout en surpondérant les entreprises affichant un excellent score ESG.

En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de l'indice de référence « Transition climatique » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX MSCI JAPAN ESG BROAD CTB

Identifiant d'entité juridique :
213800M78VVESEHOLI55

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

Il a réalisé des investissements durables ayant un objectif environnemental : 37,14%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social :

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couverture
30/11/2022	MSCI Japan ESG Broad CTB Select Index	363,3	99 %
30/11/2022	MSCI Japan	669,5	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

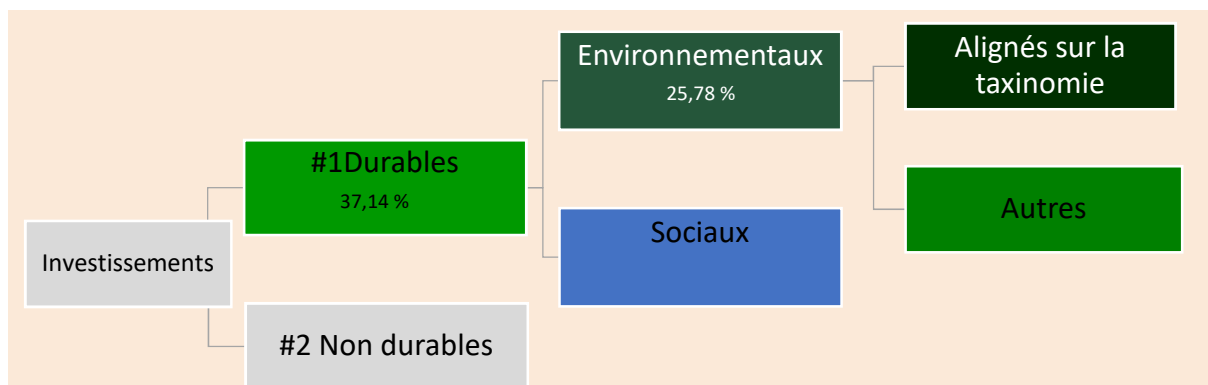

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.

La catégorie **#2 Non durables** inclut les investissements qui ne sont pas qualifiés d'investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Produits pharmaceutiques	7,68 %
Équipements, instruments & composants électroniques	6,66 %
Automobiles	6,51 %
Banques	6,43 %
Machines	5,94 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **25,78 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

 voir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI Japan ESG Broad CTB Select Index est un indice d'actions basé sur le MSCI Japan Index, représentatif des grandes et moyennes capitalisations du marché japonais (l'« Indice parent »). L'Indice exclut les entreprises dont les produits ont des incidences négatives sur le plan social ou environnemental, tout en surpondérant les entreprises affichant un excellent score ESG. En outre, l'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de l'indice de référence « Transition climatique » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EUROPE CLIMATE PARIS ALIGNED PAB

Identifiant d'entité juridique :
213800S12GFSBFT69J81

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ **X** **Oui** ☐ **Non**

☒ Il a réalisé des investissements durables ayant un objectif environnemental : 74,14 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couvertur e
30/11/2022	MSCI Europe Climate Change Paris Aligned Select Net EUR	210,1	99,73 %
30/11/2022	MSCI USA	543,4	99,53 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

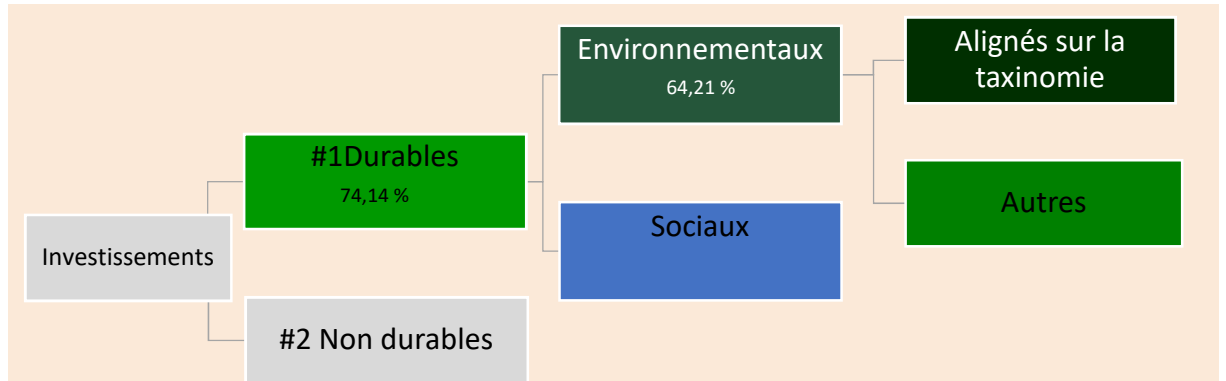

Investissements les plus importants	Secteur	% d'actifs	Pays
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	4,71 %	États-Unis

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **64,21 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que :

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI Europe Climate Change Paris Aligned Select Index est un indice d'actions basé sur le MSCI Europe Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations dans quinze pays des Marchés développés en Europe (en mars 2020). L'Indice vise à représenter la performance d'une stratégie qui répondre les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ **X** **Oui** ☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 47,02 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ ayant un objectif social
☐	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone	Couvertur e
30/11/2022	MSCI World Climate Change Paris Aligned Select Net USD	135,8	100 %
30/11/2022	MSCI WORLD	379,8	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

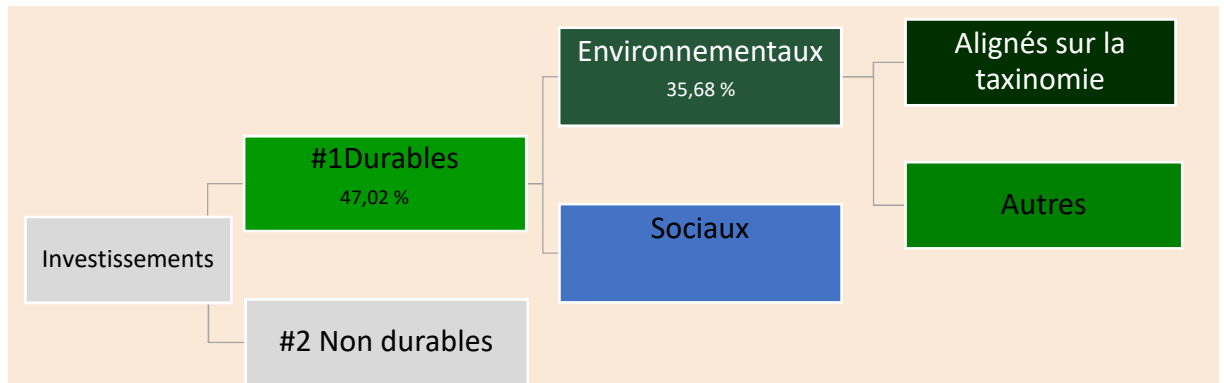

Investissements les plus importants	Secteur	% d'actifs	Pays
TESLA INC	Automobiles	4,77 %	États-Unis
APPLE INC	Technologie Matériel informatique, Stockage de données & Périphériques	4,45 %	États-Unis
MICROSOFT CORP	Logiciels	4,07 %	États-Unis
NVIDIA CORP	Semi-conducteurs & Équipements pour leur fabrication	2,71 %	États-Unis
AMAZON.COM INC	Internet & Marketing direct de détail	2,55 %	États-Unis
JOHNSON & JOHNSON	Produits pharmaceutiques	1,65 %	États-Unis
UNITEDHEALTH GRP INC	Prestataires & Services de santé	1,54 %	États-Unis

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

● **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **35,68 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour voir réaliser une évaluation en termes de taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différait-il d'un indice de marché large ?***

MSCI World Climate Change Paris Aligned Select Index est un indice d'actions basé sur le MSCI World Index (« Indice parent ») représentatif des grandes et moyennes capitalisations dans vingt-trois pays développés (en mars 2020). L'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des

controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

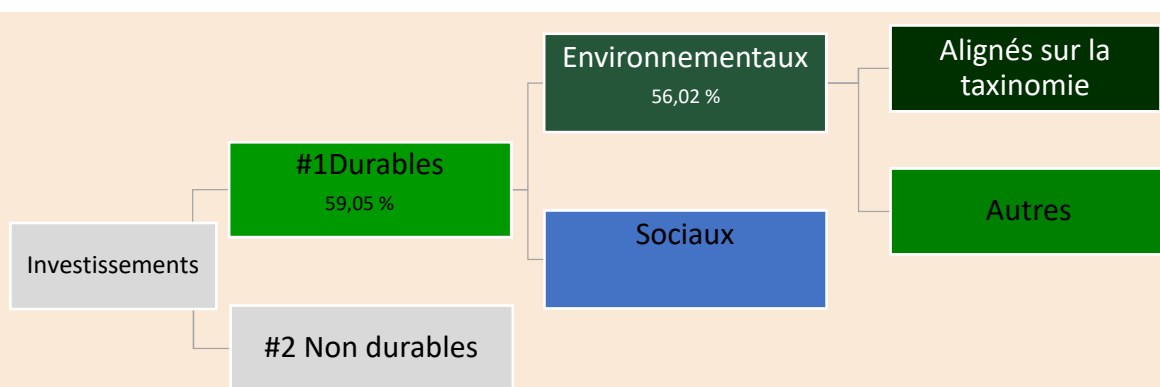

Investissements les plus importants	Secteur	% d'actifs	Pays

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **56,02 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

voir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

Solactive iCPR Climate Credit PAB Index est un indice à revenu fixe basé sur le Solactive Euro IG Corporate Index (« Indice parent »), représentatif des obligations d'entreprises libellées en euro, à coupon fixe, de type « investment grade » selon S&P ou Moody's, d'une maturité supérieure à un an et d'un montant résiduel de plus de 500 millions d'euros. L'Indice vise à représenter la performance d'une stratégie qui répondra les titres en fonction des opportunités et des risques associés à la transition climatique afin de rencontrer les exigences minimales de la réglementation relative à l'indice de référence « Accord de Paris » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI EURO ISTOXX CLIMATE PARIS ALIGNED PAB

Identifiant d'entité juridique :
2138007S1QFFN8UYKB61

Objectif d'investissement durable

Ce produit financier avait-il un objectif d'investissement durable ?

☒ **X**

Oui

☐ **Non**

☒ X Il a réalisé des investissements durables ayant un objectif environnemental : 82,05 %	☐ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de ____ d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☒ X dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social :	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le Compartiment faisait la promotion des caractéristiques environnementales et/ou sociales, notamment en répliquant un indice respectant les normes minimales des Indices de référence « Accord de Paris » de l'UE dans le cadre du Règlement (UE) 2019/2089 modifiant le Règlement (UE) 2016/1011.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Intensité carbone (scope123/EVIC Eur)	Couverture
19/09/2022	EURO iSTOXX Ambition Climat PAB EUR (Net Return)	873,09	100,00 %
19/09/2022	EURO STOXX	894,50	100,00 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n’ont-ils pas causé de préjudice important à un objectif d’investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

– ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

– ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ?***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement

socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.

Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

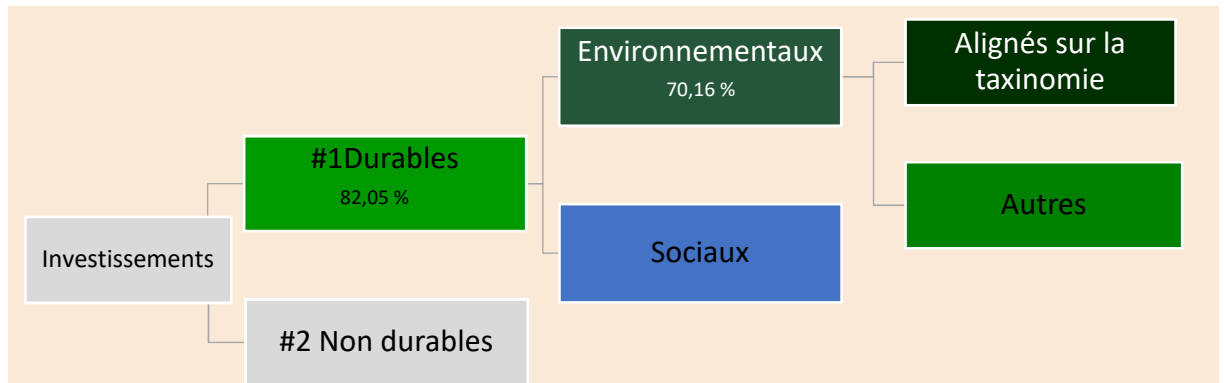

Investissements les plus importants	Secteur	% d'actifs	Pays
SAP SE	Logiciels	4,72 %	DEU

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **70,16 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour

 voir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour atteindre l'objectif d'investissement durable au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différait-il d'un indice de marché large ?***

L'EURO iSTOXX Ambition Climat PAB Index réplique la performance de titres liquides de l'EURO STOXX Total Market Index (« Indice parent »). L'indice est conçu pour répondre aux exigences minimales du label Indice de référence « accord de Paris » de l'Union européenne.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI CAC 40 ESG

Identifiant d'entité juridique :
549300TC0PVE58KW9N64

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 84,32 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couverture
T3 2022	CAC 40 ESG NR	68	100 %
T3 2022	CAC 40	65	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

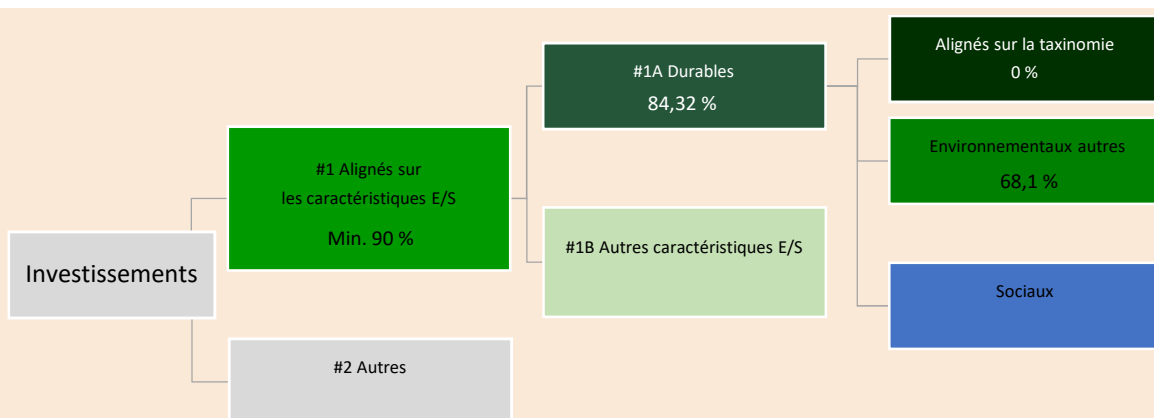

Investissements les plus importants	Secteur	% d'actifs	Pays
LVMH MOET HENNESSY	Textiles, Habillement et Produits de luxe	10,07 %	FRA
SANOFI	Produits pharmaceutiques	8,50 %	FRA
L OREAL PRIME FID	Produits de soins personnels	7,58 %	FRA
SCHNEIDER ELECT SE	Équipements électriques	6,35 %	États-Unis
AIR LIQUIDE PRIME FID 02	Produits chimiques	5,70 %	FRA
AIRBUS SE	Industrie aéronautique & Défense	4,99 %	FRA
BNP PARIBAS	Banques	4,60 %	FRA
VINCI SA (PARIS)	Construction & Ingénierie	4,25 %	FRA
AXA SA	Assurance	3,99 %	FRA
PERNOD RICARD	Boissons	3,70 %	FRA
HERMES INTERNATIONAL	Textiles, Habillement et Produits de luxe	3,66 %	FRA
KERING	Textiles, Habillement et Produits de luxe	3,26 %	FRA
SAFRAN	Industrie aéronautique & Défense	3,05 %	FRA
DANONE	Produits alimentaires	2,96 %	FRA
CAPGEMINI	Services informatiques	2,44 %	FRA

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Textiles, Habillement et Produits de luxe	16,99 %
Produits pharmaceutiques	8,50 %
Industrie aérospatiale & Défense	8,05 %
Équipements électriques	8,04 %

<i>Produits de soins personnels</i>	7,58 %
<i>Banques</i>	7,25 %
<i>Produits chimiques</i>	6,76 %

<i>Multi-services aux collectivités</i>	3,30 %
<i>Produits alimentaires</i>	2,96 %
<i>Services professionnels</i>	2,11 %
<i>Composants automobiles</i>	2,07 %
<i>Semi-conducteurs & Équipements pour leur fabrication</i>	1,95 %
<i>Médias</i>	1,65 %
<i>Matériels de construction</i>	1,65 %
<i>Services de télécommunication diversifiés</i>	1,64 %
<i>Hôtels, Restaurants & Loisirs</i>	0,97 %
<i>Distribution alimentaire & Pharmacie</i>	0,80 %

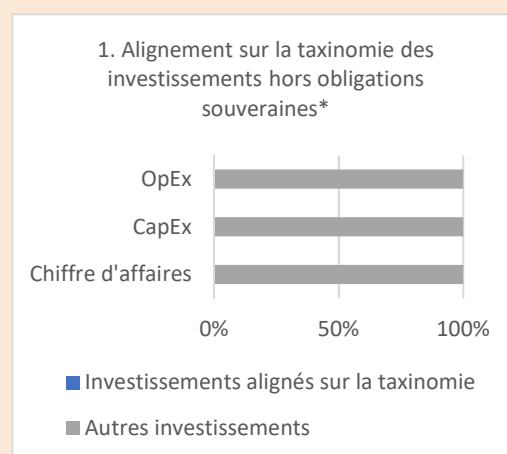

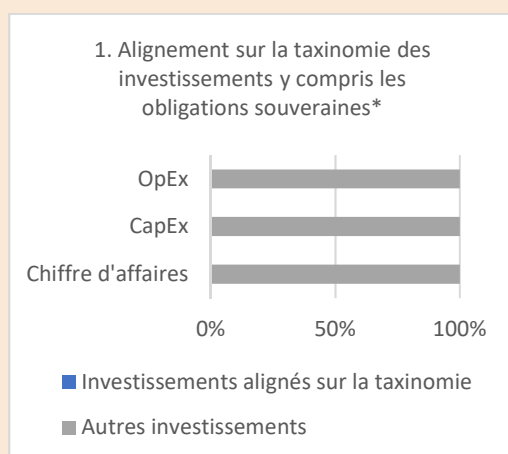

<i>Services aux collectivités Électricité</i>	0,66 %
<i>Machines</i>	0,51 %
<i>FPI d'actions</i>	0,45 %
<i>Sociétés de commerce & Distributeurs</i>	0,36 %
<i>Autres</i>	0,00 %
<i>Liquidités</i>	0,25 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **68,1 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

CAC 40 ESG Index est un indice d'actions représentatif des quarante principales entreprises suivant des pratiques environnementales, sociales et de gouvernance strictes au sein du CAC Large 60 Index (l'« Indice parent »), qui représente les soixante principales actions sur le marché boursier de Paris. L'Indice vise à réduire l'empreinte carbone pondérée et à améliorer le ratio green-to-brown par rapport à son Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒ ☐

☒ **Non**

☐ Il a réalisé des **investissements durables ayant un objectif environnemental** : ____%

☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

☐ Il a réalisé des **investissements durables ayant un objectif social** : ____%

☒ Il **promeut des caractéristiques environnementales et/ou sociales (E/S)** et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de **55,61 %** d'investissements durables

☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

☒

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

☐ ayant un objectif social

☐ Il **promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Compartiment est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation environnementale, sociale et de gouvernance (« ESG »).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couverture
T3 2022	MIB ESG NR	63	100 %
T3 2022	MIB	58	99 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

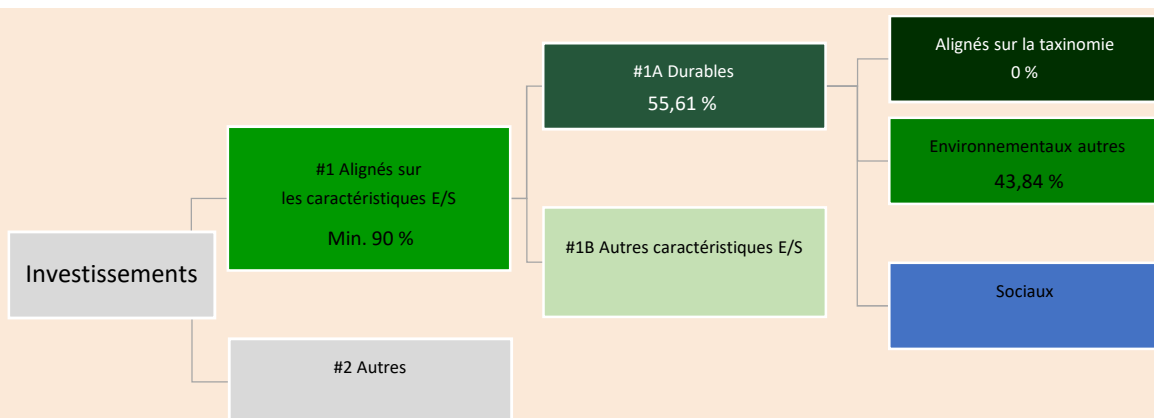

Investissements les plus importants	Secteur	% d'actifs	Pays
ENI SPA	Pétrole, gaz & Combustibles fossiles	9,74 %	ITA
INTESA SANPAOLO	Banques	9,71 %	ITA
STELLANTIS MILAN	Automobiles	9,64 %	NLD
ENEL SPA	Services aux collectivités Électricité	9,31 %	ITA
STMICROELECTRONICS /I	Semi-conducteurs & Équipements pour leur fabrication	7,34 %	SGP
UNICREDIT SPA	Banques	7,17 %	ITA
ASSICURAZIONI GENERALI	Assurance	5,56 %	ITA
CNH INDUSTRIAL NV	Machines	4,25 %	GBR
ATLANTIA SPA	Transports	3,67 %	ITA
TERNA SPA	Services aux collectivités Électricité	3,14 %	ITA
MONCLER SPA	Textiles, Habillement et Produits de luxe	3,11 %	ITA
SNAM SPA	Compagnies gazières	2,98 %	ITA
PRYSMIAN SPA	Équipements électriques	2,84 %	ITA
FINECOBANK SPA	Banques	2,77 %	ITA
MEDIOBANCA SPA	Banques	1,62 %	ITA

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	23,07 %
Services aux collectivités Électricité	12,45 %
Pétrole, gaz & Combustibles fossiles	9,74 %
Automobiles	9,64 %

<i>Assurance</i>	<i>7,71 %</i>
<i>Semi-conducteurs & Équipements pour leur fabrication</i>	<i>7,34 %</i>

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **43,84 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

Le MIB ESG Index est un indice d'actions représentant les quarante plus grandes entreprises suivant des pratiques environnementales, sociales et de gouvernance strictes parmi les soixante entreprises italiennes les plus liquides cotées sur Euronext Milan MTA et MIV.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI DAX 50 ESG

Identifiant d'entité juridique :
213800TB2ROJ7LC3AT12

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒

☒ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ X Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 68,2 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Compartiment est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation environnementale, sociale et de gouvernance (« ESG »).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG Sustainalytics	Couvertu re
19/09/2022	DAX 50 ESG (TR) EUR	76,39	100,00 %
19/09/2022	DAX	75,53	98,90 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

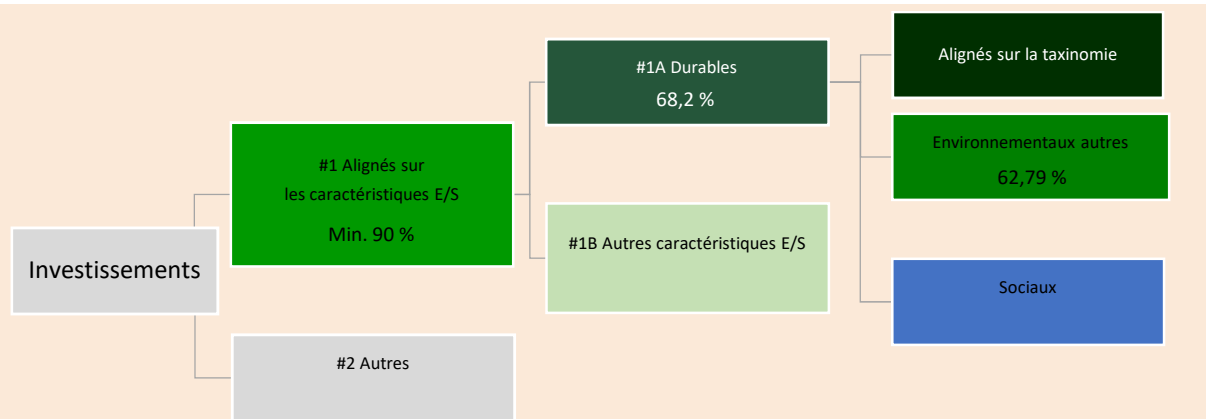

Investissements les plus importants	Secteur	% d'actifs	Pays
SAP SE	Logiciels	7,34 %	DEU
SIEMENS AG-REG	Conglomérats industriels	7,32 %	DEU
LINDE PLC	Produits chimiques	7,31 %	GBR
ALLIANZ SE-REG	Assurance	7,20 %	DEU
DEUTSCHE TELEKOM NAM (XETRA)	Services de télécommunication diversifiés	6,93 %	DEU
BAYER AG	Produits pharmaceutiques	5,61 %	DEU
MERCEDES-BENZ GROUP AG	Automobiles	4,96 %	DEU
BASF SE XETRA	Produits chimiques	4,27 %	DEU
MUENCHENER RUECKVER	Assurance	4,14 %	DEU
DEUTSCHE BOERSE AG	Marchés des capitaux	3,72 %	DEU
DEUTSCHE POST AG-REG (XETRA)	Fret aérien & Logistique	3,63 %	DEU
INFINEON TECH. AG	Semi-conducteurs & Équipements pour leur fabrication	3,56 %	DEU
BAYERISCHE MOTOREN WERKE AG	Automobiles	2,65 %	DEU
MERCK KGA	Produits pharmaceutiques	2,60 %	DEU
ADIDAS AG	Textiles, Habillement et Produits de luxe	2,41 %	DEU

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie #1 Alignés sur les caractéristiques E/S inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie #2 Autres inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Produits chimiques	15,04 %
Assurance	12,45 %
Automobiles	8,68 %

<i>Produits pharmaceutiques</i>	8,20 %
<i>Logiciels</i>	7,34 %
<i>Conglomérats industriels</i>	7,32 %
<i>Services de télécommunication diversifiés</i>	6,93 %
<i>Marchés des capitaux</i>	5,60 %
<i>Fret aérien & Logistique</i>	3,63 %
<i>Semi-conducteurs & Équipements pour leur fabrication</i>	3,56 %
<i>Textiles, Habillement et Produits de luxe</i>	3,32 %
<i>Gestion & Promotion immobilière</i>	2,87 %
<i>Équipements & Fournitures médicaux</i>	1,96 %
<i>Prestataires & Services de santé</i>	1,79 %
<i>Produits domestiques</i>	1,23 %
<i>Produits de soins personnels</i>	1,19 %
<i>Sociétés de commerce & Distributeurs</i>	1,16 %
<i>Machines</i>	1,12 %
<i>Outils & Services Sciences de la vie</i>	1,06 %
<i>Banques</i>	0,93 %

<i>Matériaux de construction</i>	<i>0,68 %</i>
<i>Compagnies aériennes</i>	<i>0,64 %</i>
<i>Équipements électriques</i>	<i>0,64 %</i>
<i>Composants automobiles</i>	<i>0,60 %</i>
<i>Internet & Marketing direct de détail</i>	<i>0,56 %</i>
<i>Médias interactifs & Services</i>	<i>0,48 %</i>
<i>Métaux & Mines</i>	<i>0,46 %</i>
<i>Services de télécommunication mobile</i>	<i>0,28 %</i>
<i>Autres</i>	<i>0,00 %</i>
<i>Liquidités</i>	<i>0,29 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

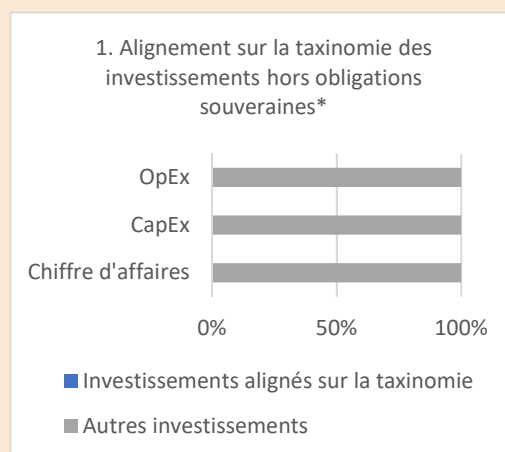

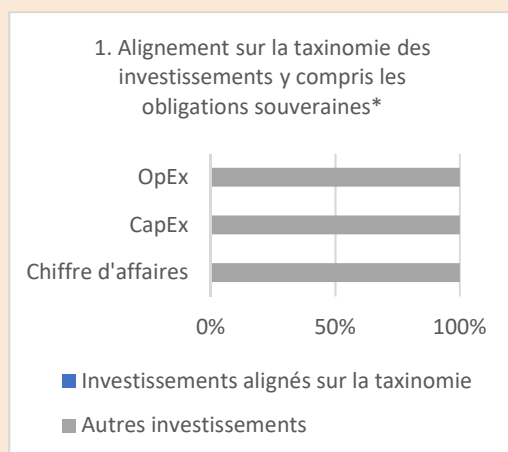

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **62,79 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

Le DAX 50 ESG réplique la performance des cinquante principales actions qui affichent une performance comparable sur la base de leurs critères ESG (Environnemental, Social et de Gouvernance). L'Indice se compose de titres inclus dans le HDAX, qui est représentatif des grandes et moyennes entreprises dont les titres sont négociés sur le marché d'actions allemand, et ayant leur siège social ou d'exploitation situé en Allemagne.

L'univers du HDAX englobe l'ensemble des entreprises représentées dans le DAX (l'indice allemand des valeurs de premier plan qui suit la performance des quarante entreprises les plus importantes sur le marché boursier allemand en termes de capitalisation boursière et de chiffre d'affaires), le MDAX (composé des cinquante entreprises les plus importantes après le DAX en termes de capitalisation boursière et de chiffre d'affaires), et le TecDAX (qui inclut les trente valeurs technologiques les plus grandes et les plus liquides en termes de capitalisation boursière et de chiffre d'affaires).

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 36,12 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Weighted Avg S&P DJI bESG Score	Couverture
29/04/2022	S&P 500 ESG+ Index (USD) NTR	71,7	100,00 %
29/04/2022	S&P 500	63,3	99,94 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés à d'autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du **01/10/2021** au **30/09/2022**

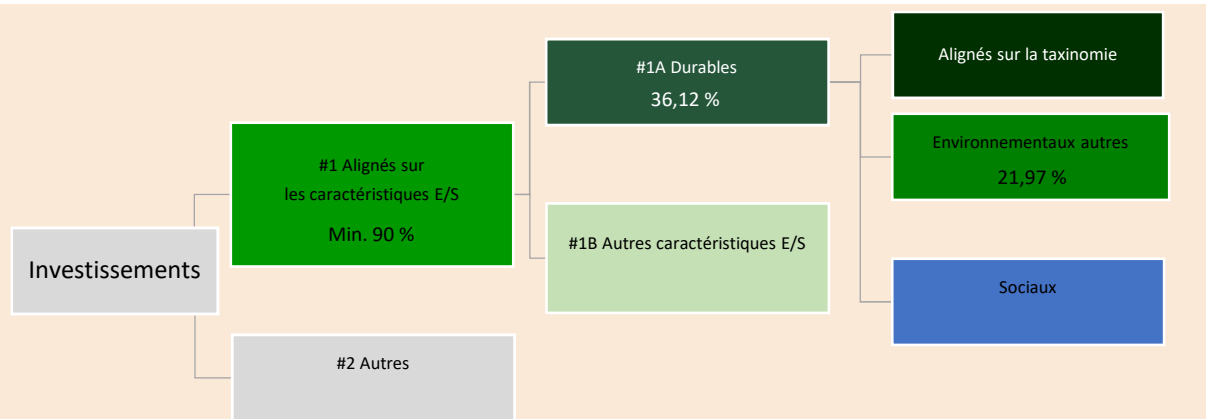

Investissements les plus importants	Secteur	% d'actifs	Pays
APPLE INC	Technologie Matériel informatique, Stockage de données & Périphériques	9,65 %	États-Unis
MICROSOFT CORP	Logiciels	8,03 %	États-Unis
AMAZON.COM INC	Internet & Marketing direct de détail	4,63 %	États-Unis
ALPHABET INC CL A	Médias interactifs & Services	2,65 %	États-Unis
ALPHABET INC CL C	Médias interactifs & Services	2,38 %	États-Unis
UNITEDHEALTH GRP INC	Prestataires & Services de santé	2,18 %	États-Unis
EXXON MOBIL CORP	Pétrole, gaz & Combustibles fossiles	1,68 %	États-Unis
JPMORGAN CHASE & CO	Banques	1,41 %	États-Unis
NVIDIA CORP	Semi-conducteurs & Équipements pour leur fabrication	1,40 %	États-Unis
PROCTER GAMBLE	Produits domestiques	1,40 %	États-Unis
VISA INC -A	Services informatiques	1,34 %	États-Unis
ELI LILLY & CO	Produits pharmaceutiques	1,18 %	États-Unis
PFIZER INC-USD	Produits pharmaceutiques	1,13 %	États-Unis
MASTERCARD INC-CL A	Services informatiques	1,12 %	États-Unis
ABBVIE INC	Biotechnologie	1,09 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

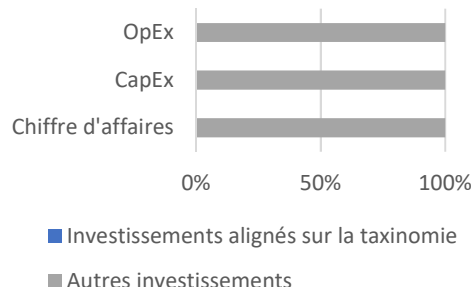

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

1. Alignement sur la taxinomie des investissements y compris les obligations souveraines*

1. Alignement sur la taxinomie des investissements hors obligations souveraines*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **21,97 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

S&P 500 ESG Index (l'« Indice ») est un indice large pondéré selon la capitalisation boursière qui mesure la performances des titres qui respectent les critères de durabilité, tout en maintenant une pondération globale des groupes industriels similaire à celle du S&P 500 (l'« Indice parent »). L'Indice S&P500 est un indice d'actions représentatif des principaux titres négociés aux États-Unis.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

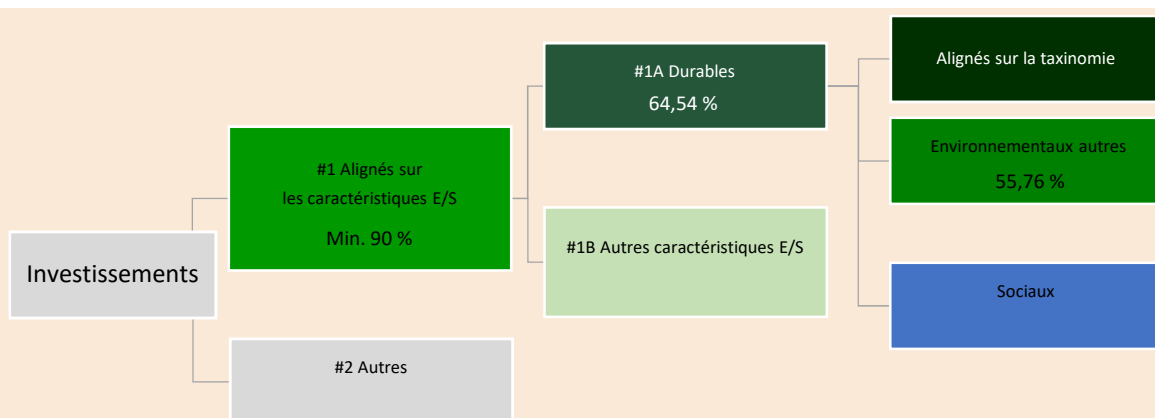

Investissements les plus importants	Secteur	% d'actifs	Pays
NESTLE SA-REG	Produits alimentaires	3,99 %	États-Unis
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	3,08 %	États-Unis
SHELL PLC	Pétrole, gaz & Combustibles fossiles	2,43 %	NLD
NOVARTIS	Produits pharmaceutiques	2,32 %	CHE
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	2,31 %	NLD
ASTRAZENECA GBP	Produits pharmaceutiques	2,30 %	GBR
NOVO NORDISK A/S-B NEW	Produits pharmaceutiques	2,19 %	DNK

LINDE PLC	Produits chimiques	1,82 %	GBR
TOTALENERGIES SE PARIS	Pétrole, gaz & Combustibles fossiles	1,66 %	FRA
UNILEVER PLC (GBP)	Produits de soins personnels	1,56 %	GBR
HSBC HOLDING PLC GBP	Banques	1,42 %	GBR
DIAGEO	Boissons	1,29 %	GBR
BP PLC	Pétrole, gaz & Combustibles fossiles	1,22 %	GBR
SAP SE	Logiciels	1,20 %	DEU

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

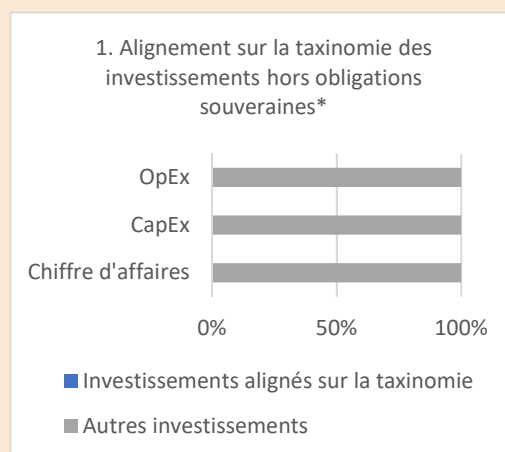

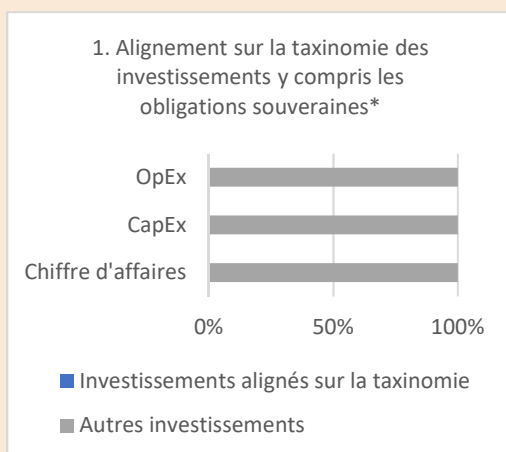

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

● **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

 Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **55,76 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

 Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

 Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

STOXX Europe 600 ESG Broad Market Index est un indice d'actions basé sur Stoxx Europe 600 - représentant les 600 principaux titres des pays développés européens (l'« Indice parent ») qui applique une série d'exclusions sectorielles et de filtres de performance ESG pour la sélection des titres, et vise une sélection totale de 80 % du nombre de titres de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit : AMUNDI MSCI AC FAR EAST EX JAPAN ESG LEADERS SELECT

Identifiant d'entité juridique : 5493004IAZX5OHV2CQ46

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐ Oui ☒ ☒ ☒ Non

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 37,28 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI AC Far East ex Japan ESG Leaders Select		
	5% Issuer Capped Net USD Index	6,7	100 %
30/11/2022	MSCI AC Far East ex Japan	5,8	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés à d'autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **23,26 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI Ac Far East ex Japan ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI AC Far East ex Japan Index (l'« Indice parent »), représentatif des marchés des grandes et moyennes capitalisations dans deux Marchés développés (hors Japon) et sept pays des Marchés émergents en Extrême-Orient, émises par des entreprises affichant la meilleure notation ESG (Environnemental Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI CHINA ESG LEADERS SELECT

Identifiant d'entité juridique :
213800YL23YUT5FBRB63

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 20 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI China ESG Leaders Select 5% Issuer Capped Net USD Index	6,0	100 %
30/11/2022	MSCI China	4,8	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

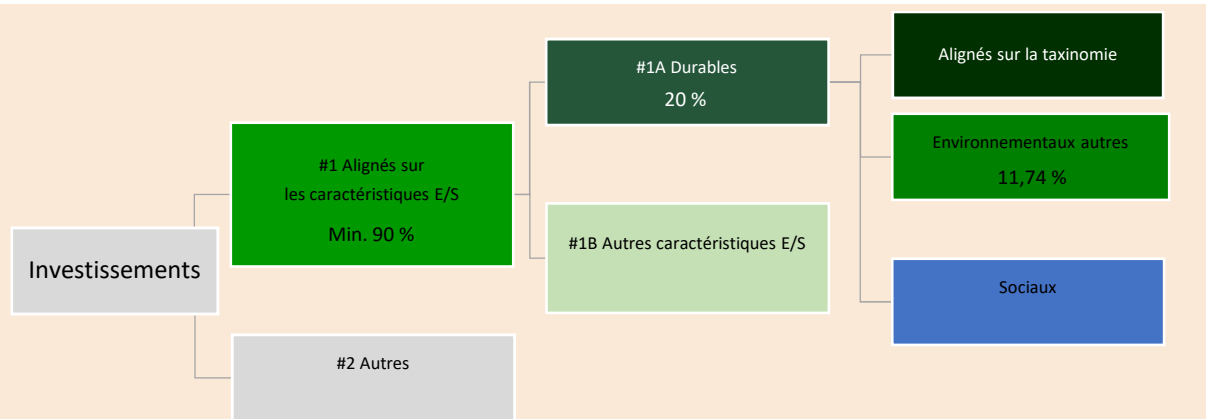

Investissements les plus importants	Secteur	% d'actifs	Pays
MEITUAN-CLASS B	Internet & Marketing direct de détail	5,67 %	CHN

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

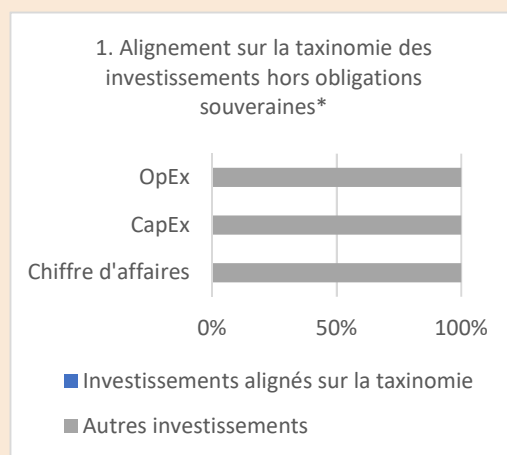

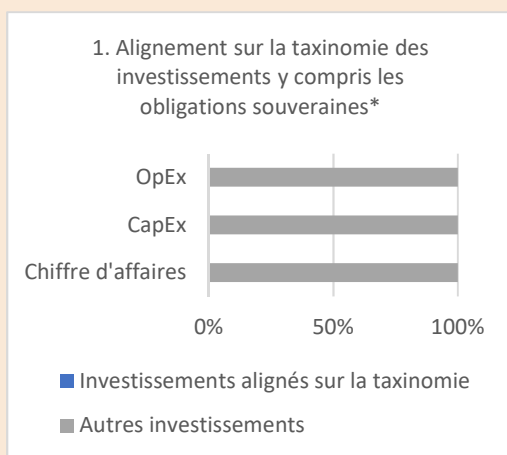

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **11,74 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI China ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI China Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations de l'univers d'actions chinois parmi les actions chinoises A, H, B, Red chips, P chips et les cotations étrangères (par exemple, les ADR), et émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐ **Oui** ☒ ☒ ☒ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 42,31 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI EM ex China ESG Leaders Select 5% Issuer Capped Net USD Index	6,5	100 %
30/11/2022	MSCI EM ex China	5,7	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

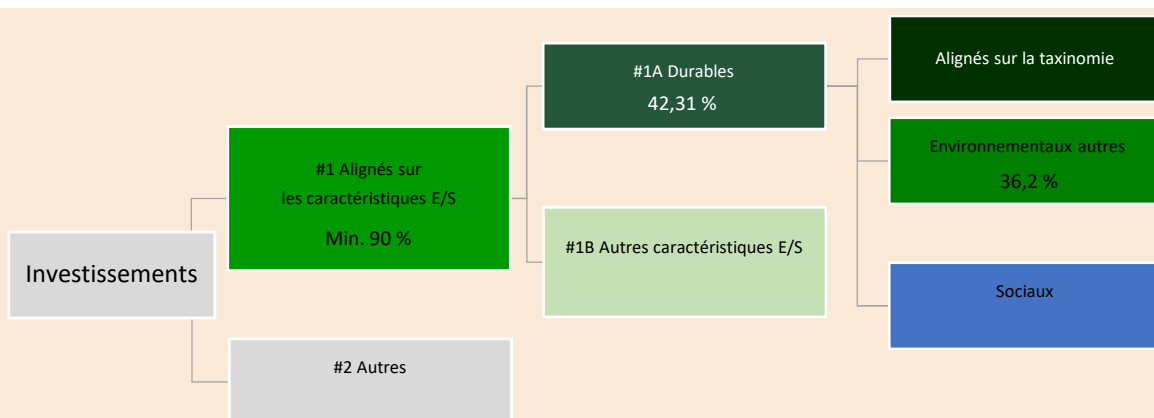

Investissements les plus importants	Secteur	% d'actifs	Pays
RELIANCE INDUSTRIES LTD	Pétrole, gaz & Combustibles fossiles	4,99 %	IND
TAIWAN SEMICONDUCTOR MANUFAC	Semi-conducteurs & Équipements pour leur fabrication	4,31 %	TWN
INFOSYS LTD	Services informatiques	3,32 %	IND
HOUSING DEV FINANCE	Services financiers diversifiés	2,75 %	IND
TATA CONSULTANCY SVS	Services informatiques	1,92 %	IND
NASPERS LTD	Internet & Marketing direct de détail	1,56 %	ZAF

SAMSUNG SDI CO LTD	Équipements, instruments & composants électroniques	1,19 %	KOR

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	21,88 %
Pétrole, gaz & Combustibles fossiles	8,25 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **36,2 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI EM ex China Region ESG Leaders Select 5% Issuer Capped est un indice d'actions basé sur l'indice MSCI Emerging Markets ex China Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations de vingt-six des vingt-sept pays des Marchés émergents (en janvier 2021) hors Chine, émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EMERGING ESG LEADERS

Identifiant d'entité juridique :
213800CMYD4SG29DTC94

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐ ☐ Oui

☒ ☐ ☒ Non

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 38,04 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI EMU ESG Leaders Select 5% Issuer Capped Net EUR	8,7	100 %
30/11/2022	MSCI EMU	7,8	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n’a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

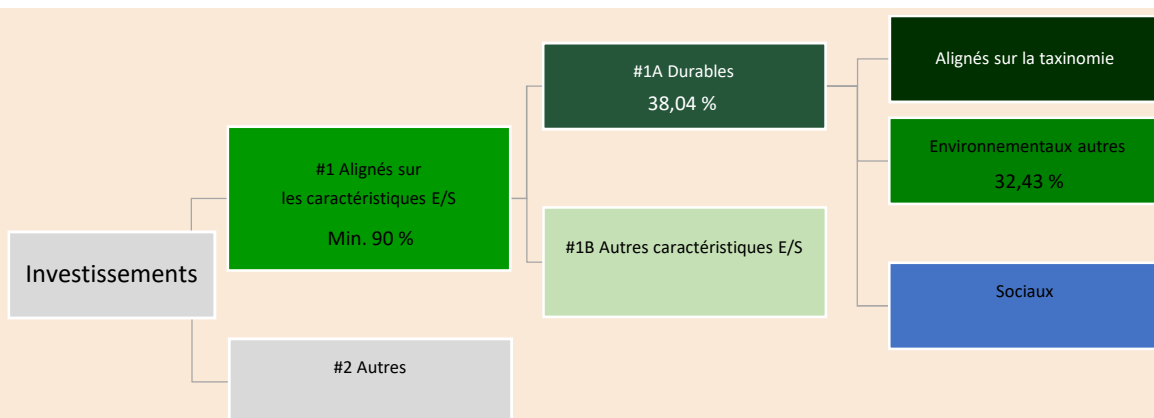

Investissements les plus importants	Secteur	% d'actifs	Pays
ALIBABA GROUP HOLDING LTD	Internet & Marketing direct de détail	4,96 %	CHN
TENCENT HOLDINGS LTD	Médias interactifs & Services	4,82 %	CHN
TAIWAN SEMICONDUCTOR MANUFAC	Semi-conducteurs & Équipements pour leur fabrication	4,39 %	TWN
MEITUAN-CLASS B	Internet & Marketing direct de détail	3,45 %	CHN
RELIANCE INDUSTRIES LTD	Pétrole, gaz & Combustibles fossiles	3,30 %	IND
INFOSYS LTD	Services informatiques	2,17 %	IND
CHINA CONSTRUCT BANK	Banques	2,06 %	CHN
HOUSING DEV FINANCE	Services financiers diversifiés	1,80 %	IND
TATA CONSULTANCY SVS	Services informatiques	1,25 %	IND
BAIDU INC-CLASS A	Médias interactifs & Services	1,19 %	CHN
NETEASE INC	Divertissements	1,16 %	CHN
BANK CENTRAL ASIA PT	Banques	1,15 %	IDN
NASPERS LTD	Internet & Marketing direct de détail	1,01 %	ZAF
HINDUSTAN UNILEVER	Produits de soins personnels	1,01 %	IND
MEDIATEK INC	Semi-conducteurs & Équipements pour leur fabrication	0,97 %	TWN

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	19,76 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **32,43 %**.
Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**
Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI EM ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI Emerging Markets Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations de vingt-sept pays émergents (en novembre 2021), émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EMU ESG LEADERS SELECT

Identifiant d'entité juridique :
2221007ZZU8XN39KWS32

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒ ☐

☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 68,81 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI EMU ESG Leaders Select 5% Issuer Capped Net EUR	8,7	100 %
30/11/2022	MSCI EMU	7,8	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

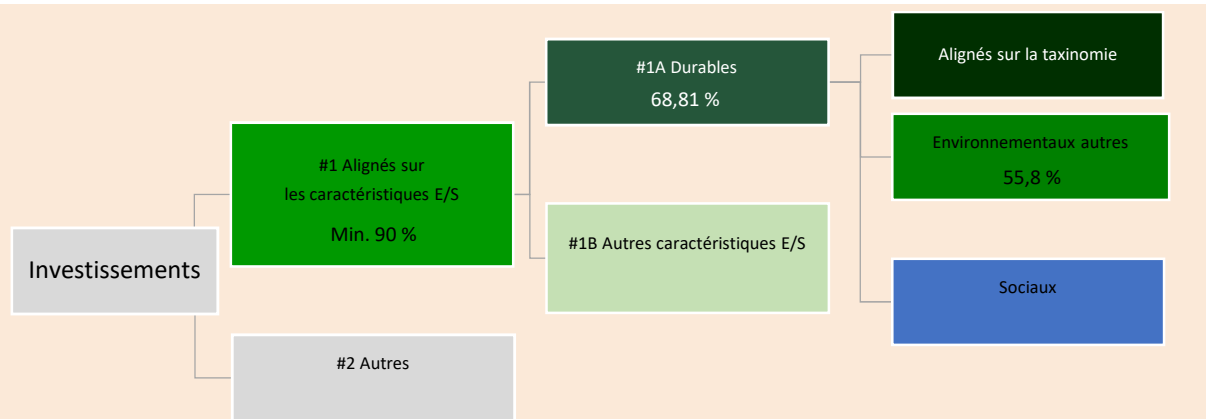

Investissements les plus importants	Secteur	% d'actifs	Pays

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **55,8 %**.
Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**
Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

MSCI EMU ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI EMU Index (« Indice parent »), représentatif d'actions de grandes et moyennes capitalisations dans dix pays développés (en septembre 2020) au sein de l'Union économique et monétaire (UEM) européenne, émises par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EUROPE ESG LEADERS SELECT

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒ ☐

☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 70,35 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couvertu re
30/11/2022	MSCI EUROPE ESG LEADERS SELECT 5% ISSUER CAPPED	8,6	100 %
30/11/2022	MSCI EUROPE	7,9	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n’a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

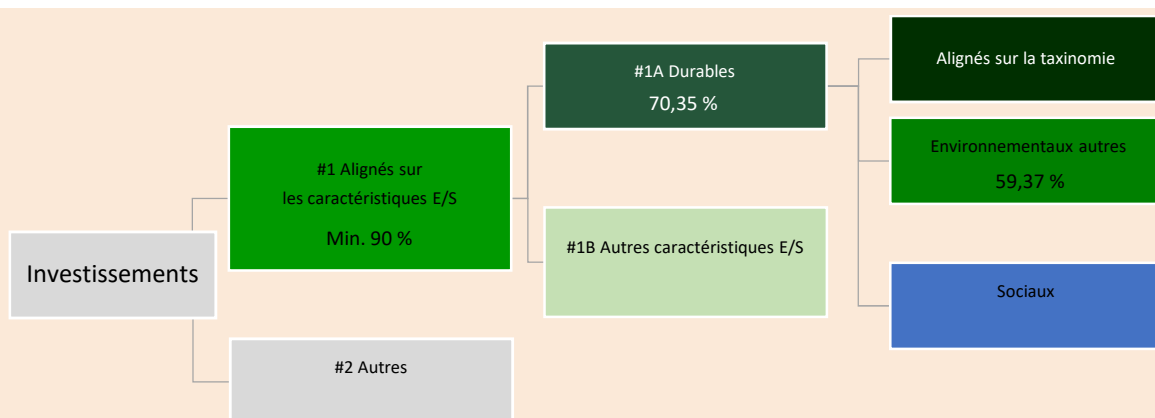

Investissements les plus importants	Secteur	% d'actifs	Pays
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	5,66 %	États-Unis
ASTRAZENECA GBP	Produits pharmaceutiques	4,52 %	GBR
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	4,51 %	NLD
NOVO NORDISK A/S-B NEW	Produits pharmaceutiques	4,34 %	DNK
TOTALENERGIES SE PARIS	Pétrole, gaz & Combustibles fossiles	3,08 %	FRA
UNILEVER PLC (GBP)	Produits de soins personnels	2,97 %	GBR
HSBC HOLDING PLC GBP	Banques	2,75 %	GBR
SAP SE	Logiciels	2,26 %	DEU
ALLIANZ SE-REG	Assurance	1,68 %	DEU
SCHNEIDER ELECT SE	Équipements électriques	1,64 %	États-Unis
IBERDROLA SA	Services aux collectivités Électricité	1,48 %	ESP
RICHEMONT CIE FIN-R	Textiles, Habillement et Produits de luxe	1,32 %	CHE
L OREAL PRIME DE FIDELITE 2024	Produits de soins personnels	1,30 %	FRA
RECKITT BENCKISER	Produits domestiques	1,26 %	GBR
BNP PARIBAS	Banques	1,26 %	FRA

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Produits pharmaceutiques	15,19 %
Banques	9,34 %
Assurance	5,75 %

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

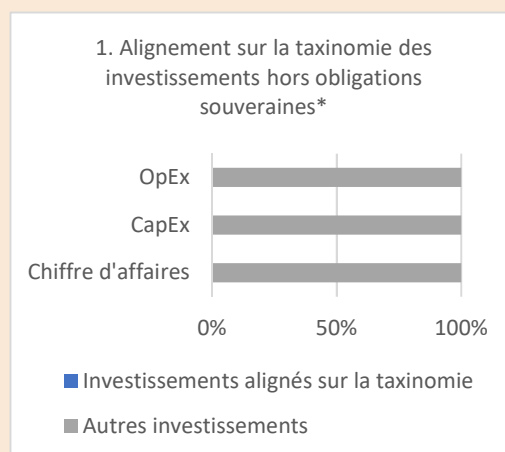

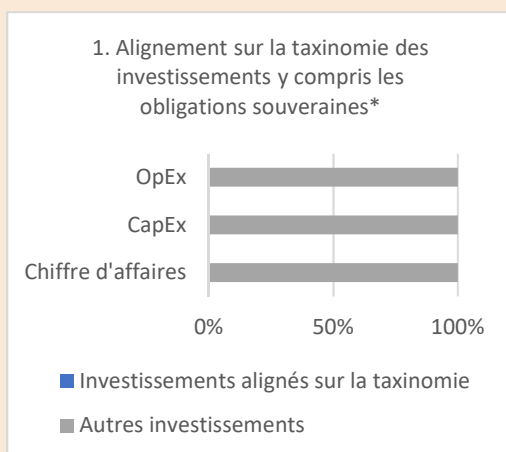

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **59,37 %**.
Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**
Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI Europe ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI Europe Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations des quinze pays européens développés, émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒

☒ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ X Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 50,44 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI USA ESG LEADERS SELECT 5% ISSUER CAPPED	7,4	100 %
30/11/2022	MSCI USA	6,6	99,8 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du **01/10/2021** au **30/09/2022**

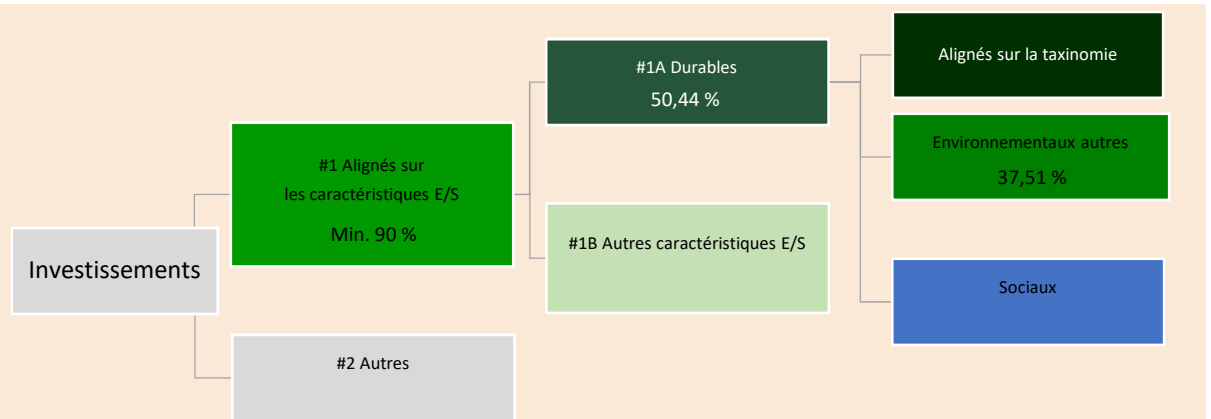

Investissements les plus importants	Secteur	% d'actifs	Pays
TESLA INC	Automobiles	4,84 %	États-Unis
MICROSOFT CORP	Logiciels	4,79 %	États-Unis
ALPHABET INC CL A	Médias interactifs & Services	2,47 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **37,51 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***

MSCI USA ESG Leaders Select 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI USA Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations du marché américain, émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI WORLD ESG LEADERS SELECT

Identifiant d'entité juridique :
213800PRSOJ2FG7X8887

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒

☐

☐

☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 53,26 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couvertu re
30/11/2022	MSCI WORLD ESG LEADERS SELECT 5% ISSUER CAPPED	7,7	100 %
30/11/2022	MSCI WORLD	6,9	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

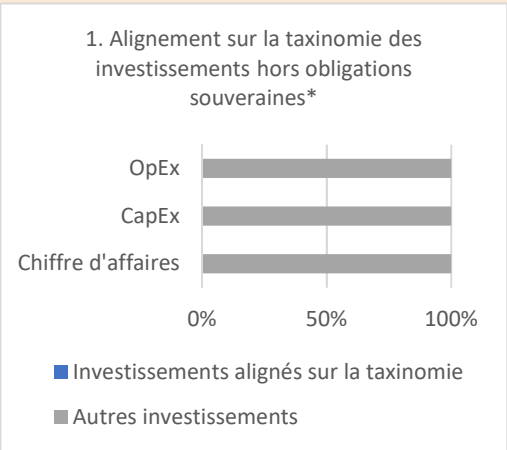

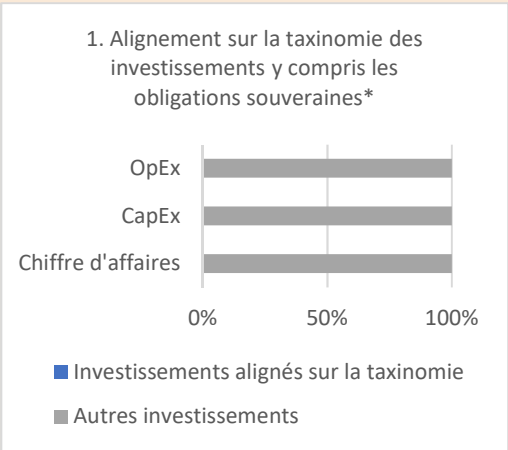

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **38,5 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI WORLD ESG LEADERS SELECT 5% Issuer Capped Index est un indice d'actions basé sur l'indice MSCI World Index (« Indice parent »), représentatif de titres de grandes et moyennes capitalisations des vingt-trois pays développés, émis par des entreprises affichant la meilleure notation ESG (Environnemental, Social et de Gouvernance) dans chacun des secteurs de l'Indice parent.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EMU ESG UNIVERSAL SELECT

Identifiant d'entité juridique :
2138005S5JAYPLESDA45

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒ ☐

☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 74,34 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Compartiment est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation environnementale, sociale et de gouvernance (« ESG »).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI EMU ESG UNIVERSAL SELECT	8,3	100 %
30/11/2022	MSCI EMU	7,8	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

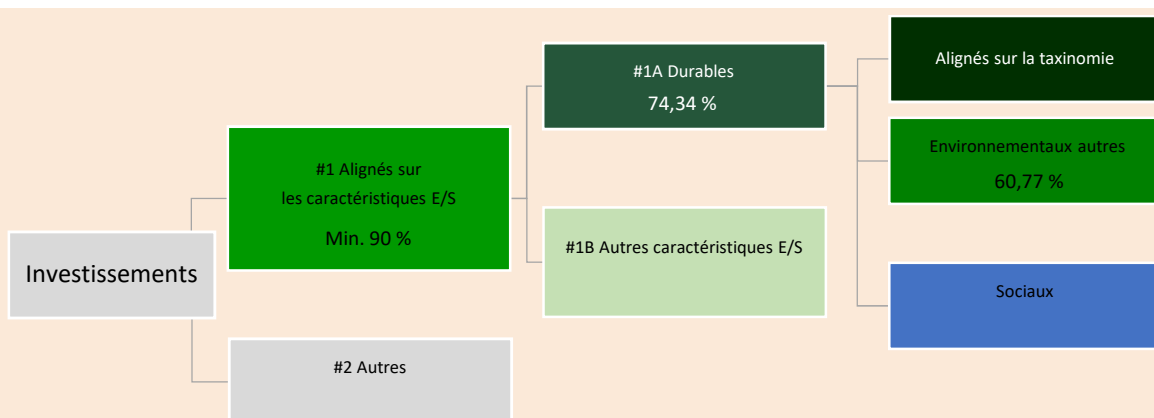

Investissements les plus importants	Secteur	% d'actifs	Pays
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	4,76 %	NLD
SAP SE	Logiciels	3,13 %	DEU
LVMH MOET HENNESSY	Textiles, Habillement et Produits de luxe	3,01 %	FRA
L OREAL	Produits de soins personnels	2,83 %	FRA
SIEMENS AG-REG	Conglomérats industriels	2,76 %	DEU
ALLIANZ SE-REG	Assurance	2,35 %	DEU
SCHNEIDER ELECT SE	Équipements électriques	2,25 %	États-Unis
IBERDROLA SA	Services aux collectivités Électricité	2,03 %	ESP
SANOFI	Produits pharmaceutiques	1,98 %	FRA
BNP PARIBAS	Banques	1,72 %	FRA
PROSUS NV	Internet & Marketing direct de détail	1,59 %	CHN
AXA SA	Assurance	1,55 %	FRA
BANCO SANTANDER SA	Banques	1,48 %	ESP
ANHEUSER-BUSCH INBEV SA NV	Boissons	1,44 %	BEL
ESSILORLUXOTTICA	Équipements & Fournitures médicaux	1,43 %	FRA

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
Banques	9,52 %
Assurance	7,56 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :
- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **60,77 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● ***En quoi l'indice de référence diffèrait-il d'un indice de marché large ?***

MSCI EMU ESG UNIVERSAL SELECT est un indice d'actions basé sur le MSCI EMU Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations des dix pays développés au sein de l'Union économique et monétaire européenne.

L'indice vise à refléter la performance d'une stratégie qui accroît l'exposition, par rapport à l'Indice parent, aux entreprises affichant à la fois un robuste profil ESG et une tendance positive d'amélioration de ce profil ESG.

La méthodologie consiste à ajuster les pondérations de capitalisation boursière à flottant libre en fonction de certains paramètres environnementaux, sociaux et de gouvernance (« ESG »).

● ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI EUROPE ESG UNIVERSAL SELECT

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐

☐ **Oui**

☒ ☐

☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 67,31 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables
	☐ ayant un objectif social

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Compartiment est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation environnementale, sociale et de gouvernance (« ESG »).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI EUROPE ESG UNIVERSAL SELECT	8,3	100 %
30/11/2022	MSCI EUROPE	7,9	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

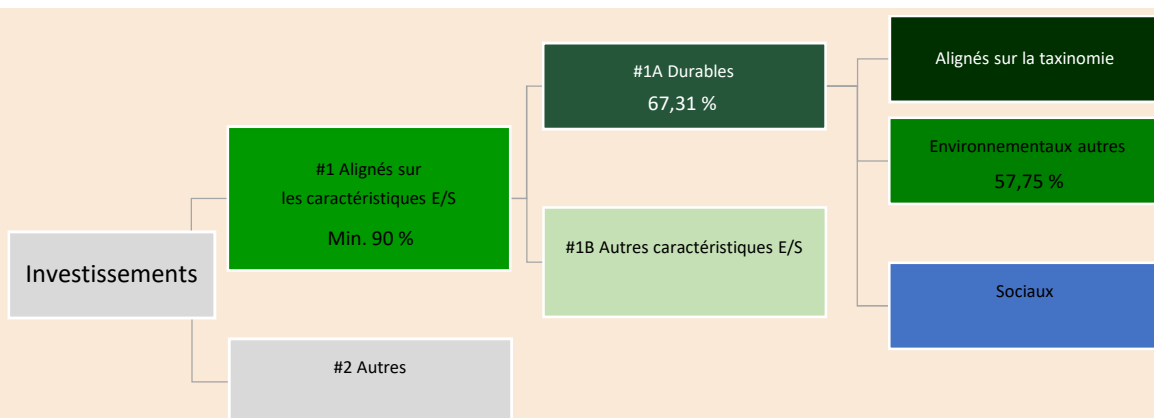

Investissements les plus importants	Secteur	% d'actifs	Pays
NESTLE SA-REG	Produits alimentaires	5,24 %	États-Unis
ASML HOLDING NV	Semi-conducteurs & Équipements pour leur fabrication	2,95 %	NLD
ASTRAZENECA GBP	Produits pharmaceutiques	2,94 %	GBR
NOVO NORDISK A/S-B NEW	Produits pharmaceutiques	2,89 %	DNK
ROCHE HLDG AG-GENUSS	Produits pharmaceutiques	1,98 %	États-Unis
HSBC HOLDING PLC GBP	Banques	1,81 %	GBR
UNILEVER PLC (GBP)	Produits de soins personnels	1,71 %	GBR
DIAGEO	Boissons	1,68 %	GBR
SAP SE	Logiciels	1,47 %	DEU
NOVARTIS	Produits pharmaceutiques	1,44 %	CHE
LVMH MOET HENNESSY	Textiles, Habillement et Produits de luxe	1,42 %	FRA
SIEMENS AG-REG	Conglomérats industriels	1,30 %	DEU
ALLIANZ SE-REG	Assurance	1,11 %	DEU
SCHNEIDER ELECT SE	Équipements électriques	1,06 %	États-Unis
ZURICH INSURANCE GROUP AG	Assurance	1,03 %	CHE

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

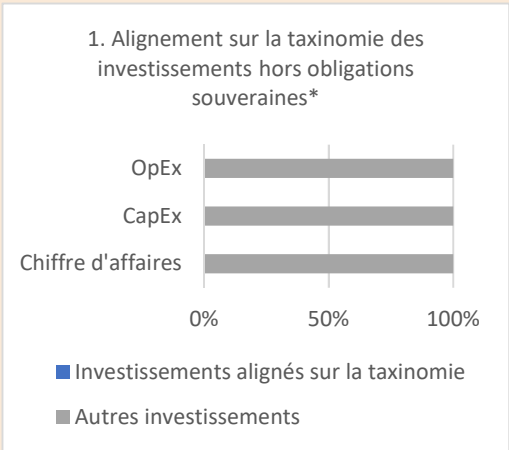

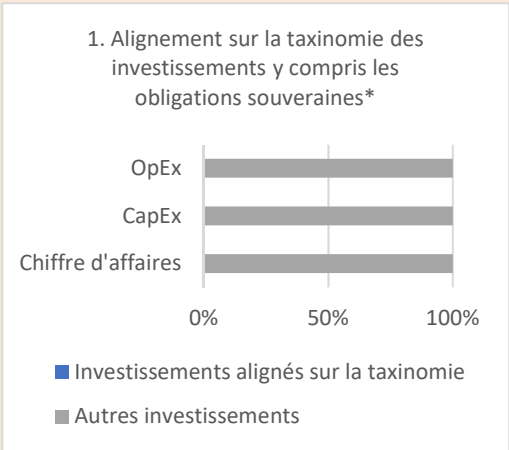

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **57,75 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI Europe ESG UNIVERSAL SELECT est un indice d'actions basé sur le MSCI Europe Index (« Indice parent »), représentatif de grandes et moyennes capitalisations des quinze pays européens développés.

L'indice vise à refléter la performance d'une stratégie qui accroît l'exposition, par rapport à l'Indice parent, aux entreprises affichant à la fois un robuste profil ESG et une tendance positive d'amélioration de ce profil ESG.

La méthodologie consiste à ajuster les pondérations de capitalisation boursière à flottant libre en fonction de certains paramètres environnementaux, sociaux et de gouvernance (« ESG »).

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du **01/10/2021** au **30/09/2022**

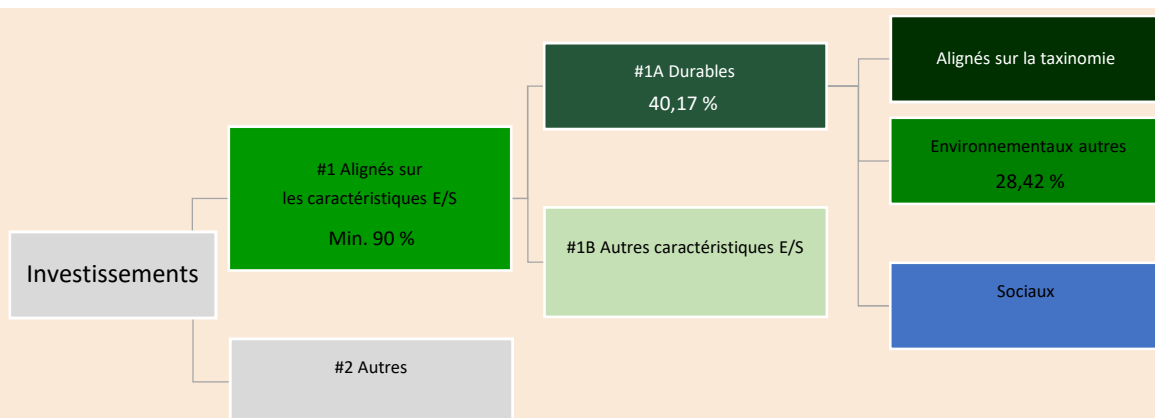

Investissements les plus importants	Secteur	% d'actifs	Pays
APPLE INC	Technologie Matériel informatique, Stockage de données & Périphériques	5,50 %	États-Unis

ACCENTURE PLC -A	Services informatiques	0,92 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

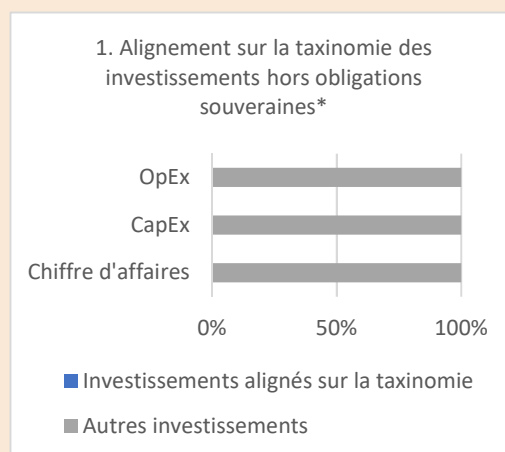

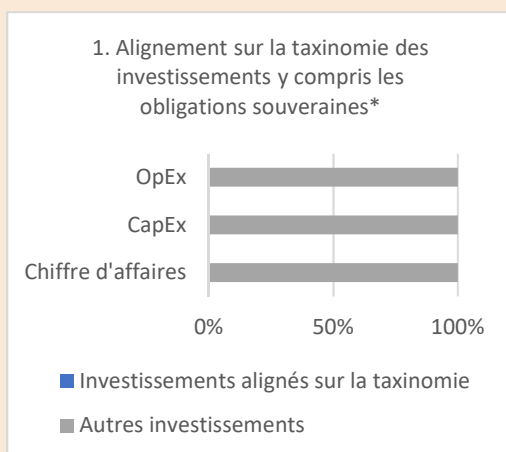

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **28,42 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

MSCI USA ESG UNIVERSAL SELECT est un indice d'actions basé sur le MSCI USA Index (« Indice parent »), représentatif des titres de grandes et moyennes capitalisations du marché américain.

L'indice vise à refléter la performance d'une stratégie qui accroît l'exposition, par rapport à l'Indice parent, aux entreprises affichant à la fois un robuste profil ESG et une tendance positive d'amélioration de ce profil ESG.

La méthodologie consiste à ajuster les pondérations de capitalisation boursière à flottant libre en fonction de certains paramètres environnementaux, sociaux et de gouvernance (« ESG »).

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI MSCI WORLD ESG UNIVERSAL SELECT

Identifiant d'entité juridique :
2138002DTNQGWIYKRV03

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ **Oui**

☒ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 46,84 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Compartiment est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation environnementale, sociale et de gouvernance (« ESG »).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/11/2022	MSCI WORLD ESG UNIVERSAL SELECT	7,4	100 %
30/11/2022	MSCI WORLD	6,9	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés à d'autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

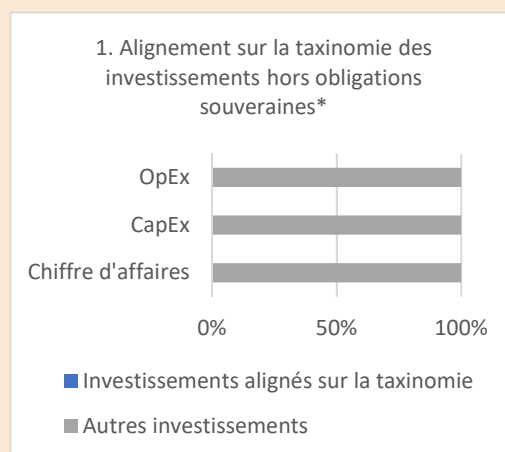

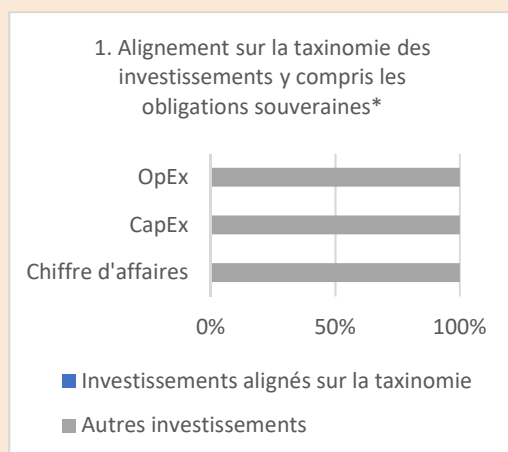

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **33,26 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● ***En quoi l'indice de référence différait-il d'un indice de marché large ?***

MSCI WORLD ESG UNIVERSAL SELECT est un indice d'actions basé sur le MSCI World Index (« Indice parent »), représentatif des marchés des grandes et moyennes capitalisations dans vingt-trois pays des marchés développés.

L'indice vise à refléter la performance d'une stratégie qui accroît l'exposition, par rapport à l'Indice parent, aux entreprises affichant à la fois un robuste profil ESG et une tendance positive d'amélioration de ce profil ESG.

La méthodologie consiste à ajuster les pondérations de capitalisation boursière à flottant libre en fonction de certains paramètres environnementaux, sociaux et de gouvernance (« ESG »).

● ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI EURO CORP 0-1Y ESG

Identifiant d'entité juridique :
213800LLBNM6TDFBXD07

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 53,53 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couverture
30/09/2022	iBoxx MSCI ESG EUR Corporates 0-1 TCA TRI	7,5	100 %
30/09/2022	iBoxx € Corporates	7,3	95 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

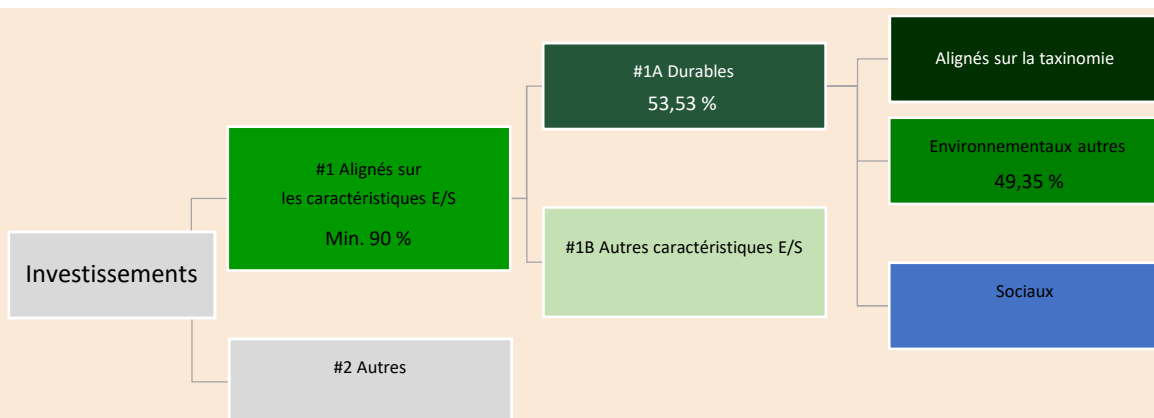

Investissements les plus importants	Secteur	% d'actifs	Pays
UBS 0,75 % 04/23 EMTN	BANQUES	1,08 %	CHE

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	47,76 %
CONSOMMATION DISCRÉTIONNAIRE	10,15 %
BIENS DE CONSOMMATION DE BASE	9,39 %

<i>TECHNOLOGIE</i>	<i>7,30 %</i>
<i>COMMUNICATIONS</i>	<i>6,01 %</i>
<i>BIENS D'ÉQUIPEMENT</i>	<i>5,57 %</i>
<i>TRANSPORTS</i>	<i>2,81 %</i>
<i>INDUSTRIE DE BASE</i>	<i>2,66 %</i>
<i>ÉLECTRICITÉ</i>	<i>2,60 %</i>
<i>ASSURANCE</i>	<i>2,20 %</i>
<i>REIT</i>	<i>1,79 %</i>
<i>FINANCE AUTRES</i>	<i>1,59 %</i>
<i>GAZ NATUREL</i>	<i>0,78 %</i>
<i>ÉNERGIE</i>	<i>0,46 %</i>
<i>Liquidités</i>	<i>-1,06 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

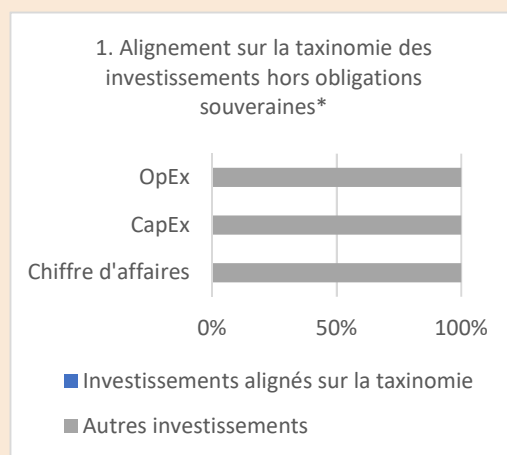

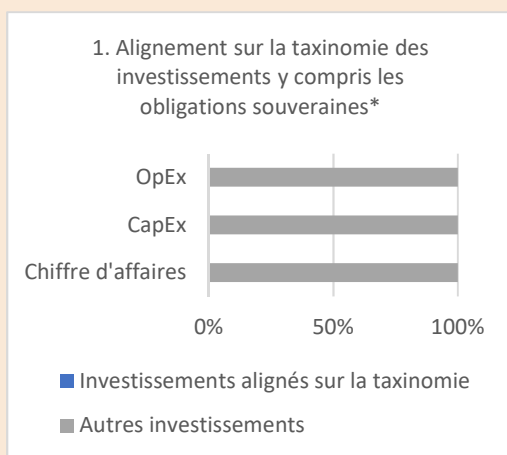

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **49,35 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

L'Iboxx MSCI ESG EUR Corporates 0-1 TCA Index est un indice obligataire représentatif d'obligations à taux fixe, de type « investment grade » libellées en euro, émises par des entreprises privées (les « obligations d'entreprises ») ayant une durée résiduelle allant d'un mois à un an et appliquant des critères ESG et sectoriels supplémentaires pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI GLOBAL AGG SRI

Identifiant d'entité juridique :
213800B37T1WLWBOYS44

Caractéristiques environnementales et/ou sociales

Oui

Non

Il a réalisé des investissements durables ayant un objectif environnemental : ____%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : ____%

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de **10,7 %** d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais **ne réalisera pas** d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

Le produit a respecté l'ensemble des caractéristiques décrites dans le prospectus.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

À la fin de la période, le score ESG MSCI de l'indice est **C+**

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés aux périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du **01/10/2021** au **30/09/2022**

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie #1 Alignés sur les caractéristiques E/S inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie #2 Autres inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;

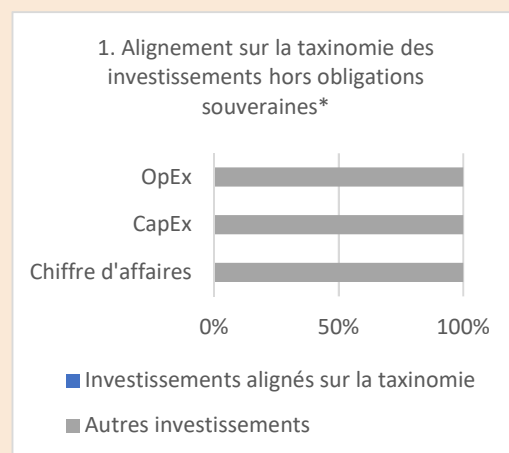

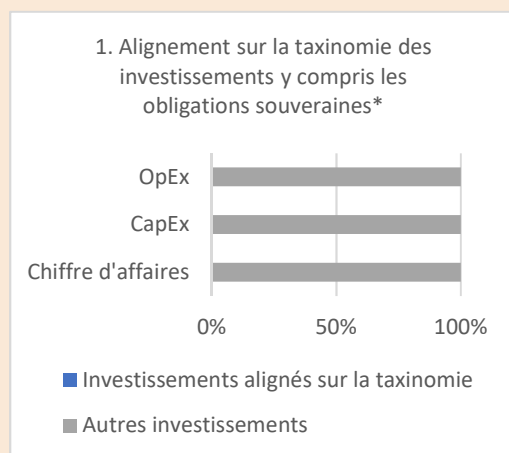

- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;

- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **8,85 %**.
Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence diffèrait-il d'un indice de marché large ?***
- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI GLOBAL AGG SRI 1-5

Identifiant d'entité juridique :
213800KMRNQ4SR4RKX08

Caractéristiques environnementales et/ou sociales

Oui

Non

Il a réalisé des investissements durables ayant un objectif environnemental : ____%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : ____%

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de **10,13 %** d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais **ne réalisera pas** d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

Le produit a respecté l'ensemble des caractéristiques décrites dans le prospectus.

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● ***Quelle a été la performance des indicateurs de durabilité ?***

À la fin de la période, le score ESG MSCI de l'indice est **C+**

● ***... et par rapport aux périodes précédentes ?***

Les indicateurs de durabilité ci-dessus n'ont pas été comparés aux périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● ***Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?***

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie #1 Alignés sur les caractéristiques E/S inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie #2 Autres inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BONS DU TRÉSOR	66,27 %

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

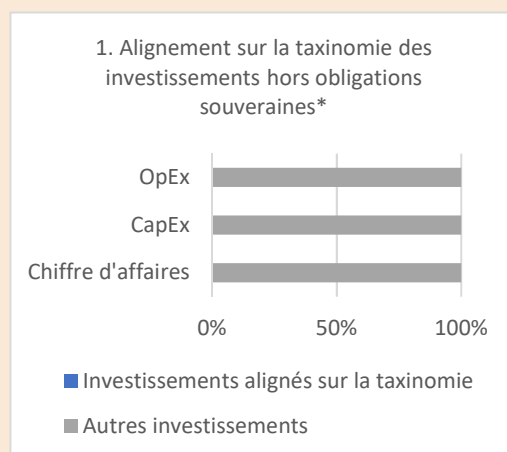

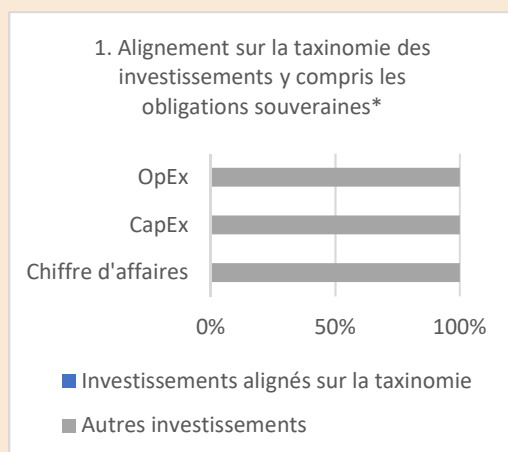

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **8,81 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***
- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI GLOBAL CORP SRI 1-5Y

Identifiant d'entité juridique :
222100AVKM1M7Q2EFT37

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 41,92 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Indice	Score ESG	Couverture
Bloomberg MSCI Global Corporate ESG Sustainability SRI 1-5 Year Index	A (MSCI ESG rating)	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

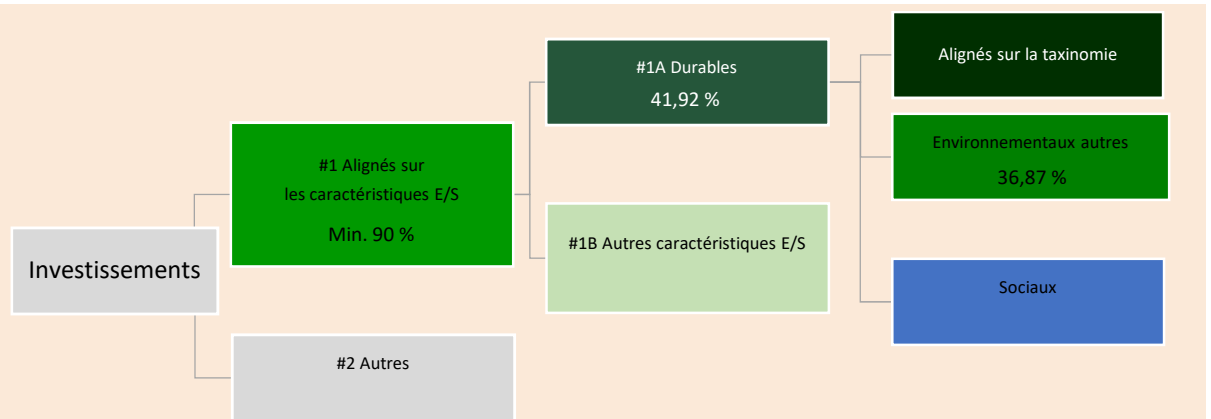

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	45,19 %

<i>Liquidités</i>	<i>2,55 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

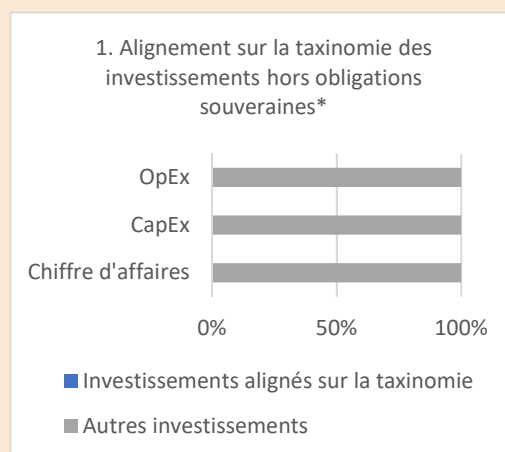

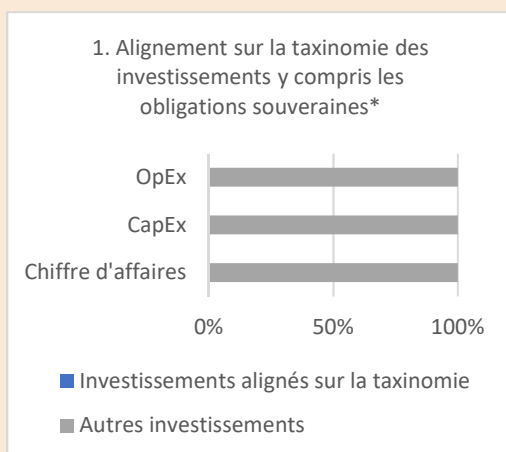

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **36,87 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

Bloomberg MSCI Global Corporate ESG Sustainability SRI 1-5 Year Index est un indice obligataire composé de titres de créance d'entreprises de qualité « investment grade » à taux fixe multidevises, dont l'échéance résiduelle est comprise entre un et cinq ans, sans y être incluse, qui applique des critères sectoriels et ESG supplémentaires pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 57,44 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couvertu re
30/09/2022	Bloomberg MSCI Euro Corporate ESG Sustainability SRI	7,7	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- Engagement : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- Vote : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- Suivi des controverses : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du **01/10/2021** au **30/09/2022**

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	38,12 %

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

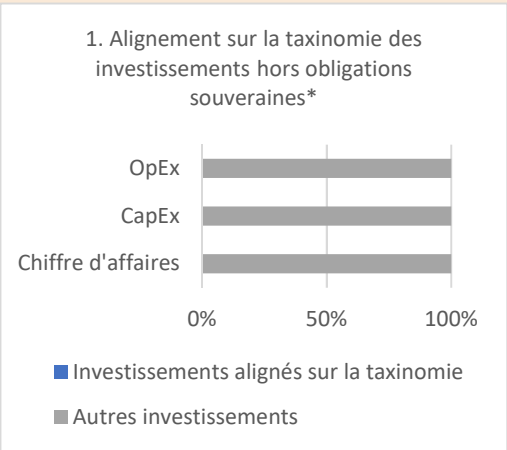

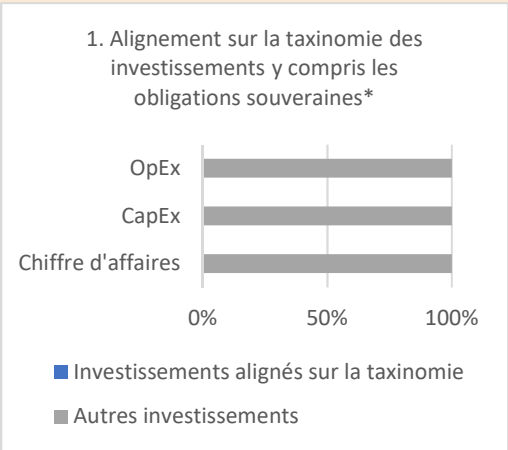

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **52,67 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative.

● *En quoi l'indice de référence diffèrait-il d'un indice de marché large ?*

Bloomberg MSCI Euro Corporate ESG Sustainability SRI Index est un indice obligataire représentatif des obligations d'entreprises à taux fixe de qualité « investment grade » libellées en euro, qui suit les règles de l'indice Bloomberg Euro Aggregate Corporate Index (l'« Indice parent ») et applique des critères sectoriels et ESG supplémentaires pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX EURO AGG SRI

Identifiant d'entité juridique :
213800MNGINQA3GWTZ79

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 18,49 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

À la fin de la période, le score ESG MSCI de l'indice est **C+**

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés aux périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **15,88 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

- ***En quoi l'indice de référence différerait-il d'un indice de marché large ?***
- ***Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI INDEX EURO CORPORATE SRI 0-3 Y

Identifiant d'entité juridique :
5493003U13Y6UYB5XW65

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☐ ☐ ☐ **Oui** ☒ ☒ ☒ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ X Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 57,22 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG
30/09/2022	Bloomberg MSCI Euro Corp ESG BBB+ Sustainability SRI 0-3 Year Index	7,7

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

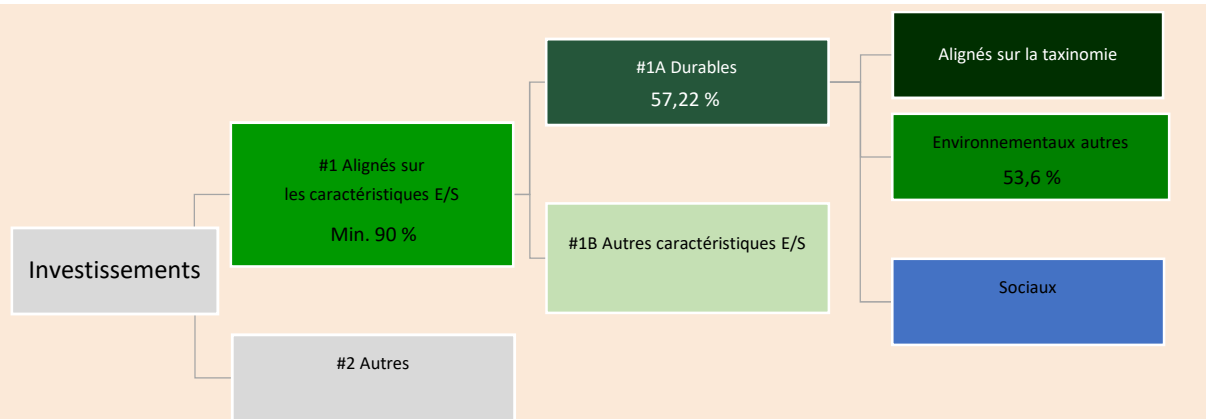

Investissements les plus importants	Secteur	% d'actifs	Pays
RABOBK 4,125 % 07/25	BANQUES	0,39 %	NLD

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	47,92 %
BIENS DE CONSOMMATION DE BASE	10,90 %
CONSOMMATION DISCRÉTIONNAIRE	9,11 %

<i>COMMUNICATIONS</i>	<i>5,74 %</i>
<i>BIENS D'ÉQUIPEMENT</i>	<i>5,20 %</i>
<i>TECHNOLOGIE</i>	<i>3,95 %</i>
<i>ASSURANCE</i>	<i>3,66 %</i>
<i>INDUSTRIE DE BASE</i>	<i>2,54 %</i>

<i>ÉNERGIE</i>	<i>0,24 %</i>
<i>GOVERNMENT_GUARANTEE</i>	<i>0,04 %</i>
<i>Liquidités</i>	<i>-0,42 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

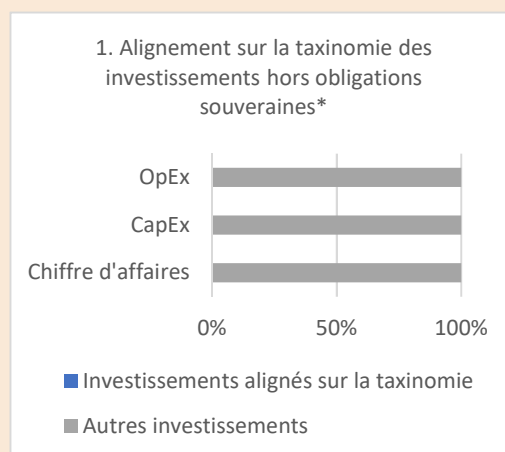

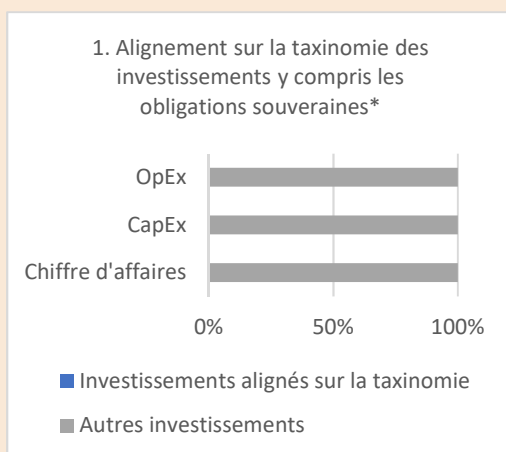

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

- **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **53,6 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

- **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative.

● *En quoi l'indice de référence diffèrait-il d'un indice de marché large ?*

Bloomberg MSCI Euro Corporate ESG BBB+ Sustainability SRI 0-3 Year Index est un indice obligataire représentatif de l'univers d'obligations de type « investment grade » libellées en euro, qui suit les règles du Bloomberg Euro Aggregate Corporate Index (l'« Indice parent ») et affiche une durée résiduelle de 0 & 3 ans, et qui applique des critères ESG et sectoriels supplémentaires pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de répllication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 32,94 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG	Couverture
30/09/2022	Bloomberg MSCI US Corporate ESG Sustainability SRI	6,9	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

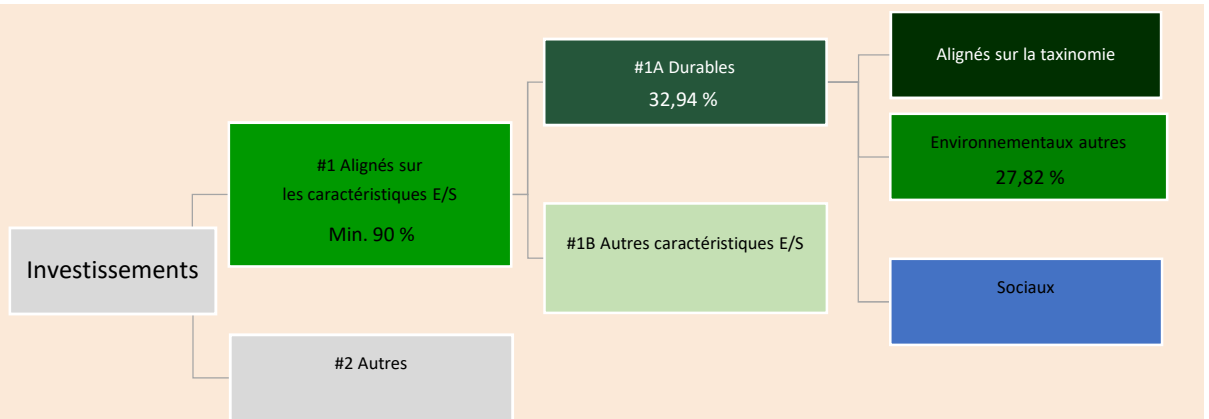

Investissements les plus importants	Secteur	% d'actifs	Pays
AT&T 3,5 % 09/53	COMMUNICATIONS	0,32 %	États-Unis
AT&T 3,55 % 09/55	COMMUNICATIONS	0,31 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	29,00 %

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

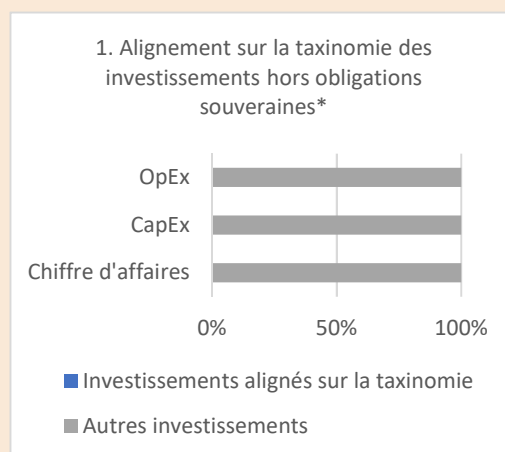

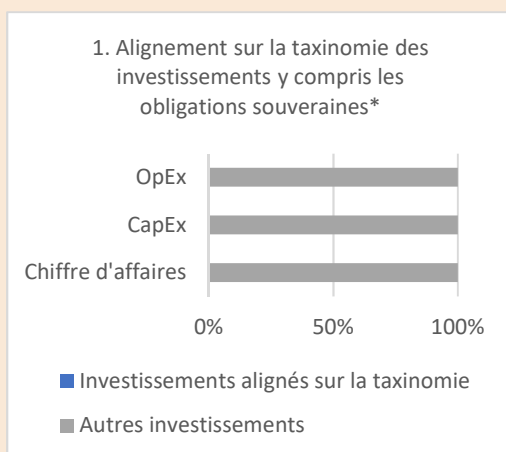

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **27,82 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

Bloomberg MSCI US Corporate ESG Sustainability SRI Index est un indice obligatoire représentatif des obligations d'entreprises à taux fixe de qualité « investment grade » libellées en dollar américain, qui suit les règles de l'indice Bloomberg US Aggregate Corporate Index (l'« Indice parent ») et applique des critères sectoriels et ESG supplémentaires pour la sélection de titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit : AMUNDI BBB EURO CORPORATE INVESTMENT GRADE ESG

Identifiant d'entité juridique : 549300YTYLJO4SGWFT69

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ Oui

☒ Non

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 59,1 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables	

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Indice	Score ESG	Couverture
iBoxx MSCI ESG EUR Corporates BBB TCA Index	AAA (MSCI ESG rating)	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

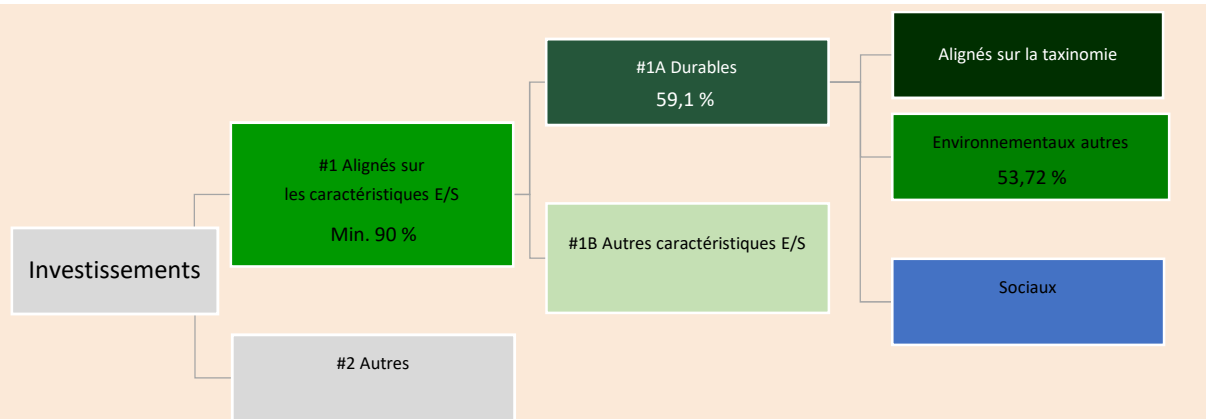

Investissements les plus importants	Secteur	% d'actifs	Pays

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI EURO HIGH YIELD BOND ESG

Identifiant d'entité juridique :
549300WFFU01S3XDX018

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 54,87 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couvertu re
30/09/2022	iBoxx MSCI ESG EUR High Yield Corporates TCA TRI	6,74	100 %
30/09/2022	iBoxx EUR High Yield cum-crossover	5,87	71 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés à d'autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

1. Suivre les meilleures pratiques environnementales et sociales ; et
2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

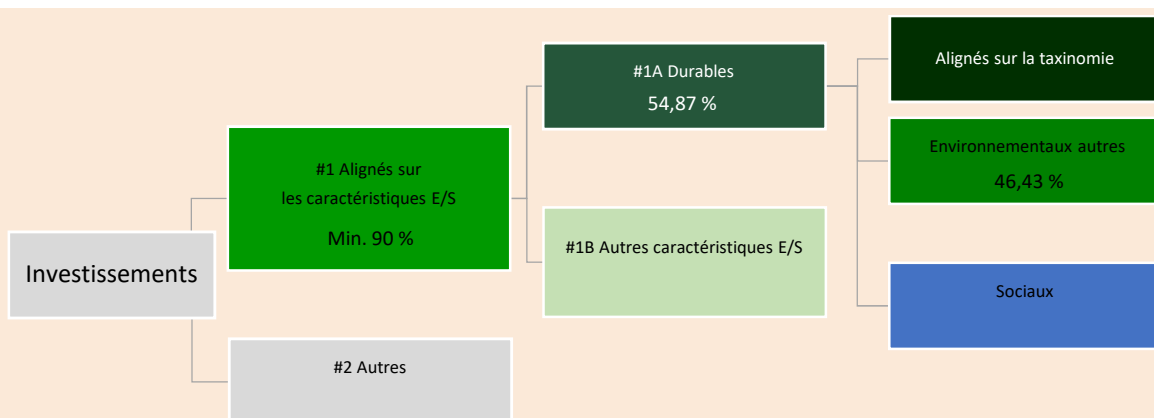

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	25,51 %
COMMUNICATIONS	15,91 %
CONSOMMATION DISCRÉTIONNAIRE	14,68 %
BIENS DE CONSOMMATION DE BASE	9,60 %

<i>BIENS D'ÉQUIPEMENT</i>	<i>7,49 %</i>
<i>TRANSPORTS</i>	<i>6,87 %</i>
<i>TECHNOLOGIE</i>	<i>4,59 %</i>

<i>SOCIÉTÉS FINANCIÈRES</i>	<i>0,32 %</i>
<i>REIT</i>	<i>0,30 %</i>
<i>Liquidités</i>	<i>0,37 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

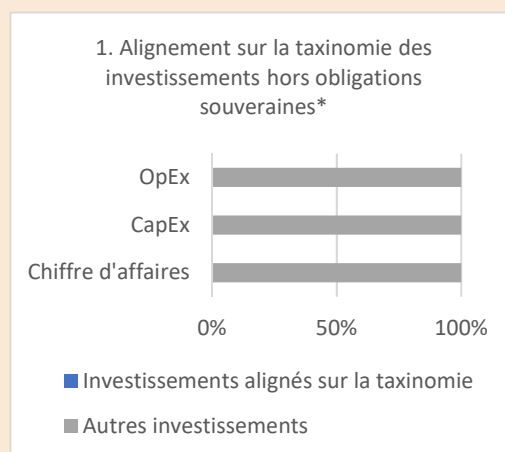

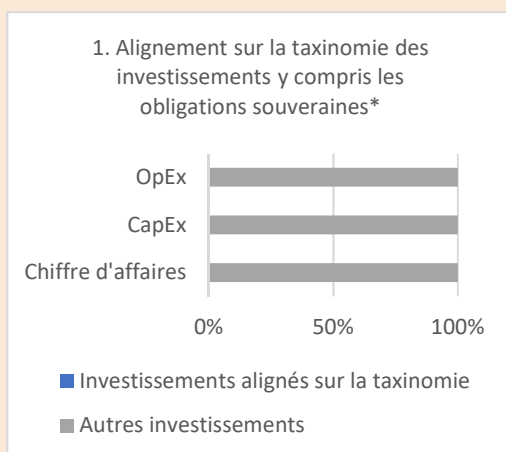

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **46,43 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différait-il d'un indice de marché large ?*

iBoxx MSCI ESG EUR High Yield Corporates TCA Index est un indice obligataire représentatif d'obligations notées BB/B et libellées en euro, émises par des entreprises qui suivent les règles de l'iBoxx EUR High Yield TCA Index (l'« Indice parent ») et qui appliquent des critères ESG pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI FLOATING RATE EURO CORPORATE ESG

Identifiant d'entité juridique :
5493006D311M3Q4K364

Caractéristiques environnementales et/ou sociales

Ce produit financier a-t-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui**

☒ ☐ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : ____%	☒ Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de 55,96 % d'investissements durables
☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE
☐ Il a réalisé des investissements durables ayant un objectif social : ____%	☐ ayant un objectif social
	☐ Il promeut des caractéristiques E/S, mais ne réalisera pas d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couverture
30/09/2022	iBoxx MSCI ESG EUR FRN Investment Grade Corporates TCA	8,0	100 %
30/09/2022	iBoxx EUR FRN Broad Investment Grade Corporates TCA	7,4	100 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n'ont pas été comparés à d'autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n'était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d'investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l'environnement et à la société.

Au niveau de l'entreprise dans laquelle le Produit investit, cela veut dire qu'elle doit être une « entreprise la plus performante » au sein de ce secteur d'activité par rapport à l'un de ses facteurs environnementaux ou sociaux importants au moins. La définition d'entreprise « la plus performante » s'appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d'une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L'identification de ces facteurs est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l'entreprise n'a pas d'exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l'aviation, la production de viande, la fabrication d'engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la plus grande proportion d'investissements du produit financier au cours de la période de référence, à savoir : Du 01/10/2021 au 30/09/2022

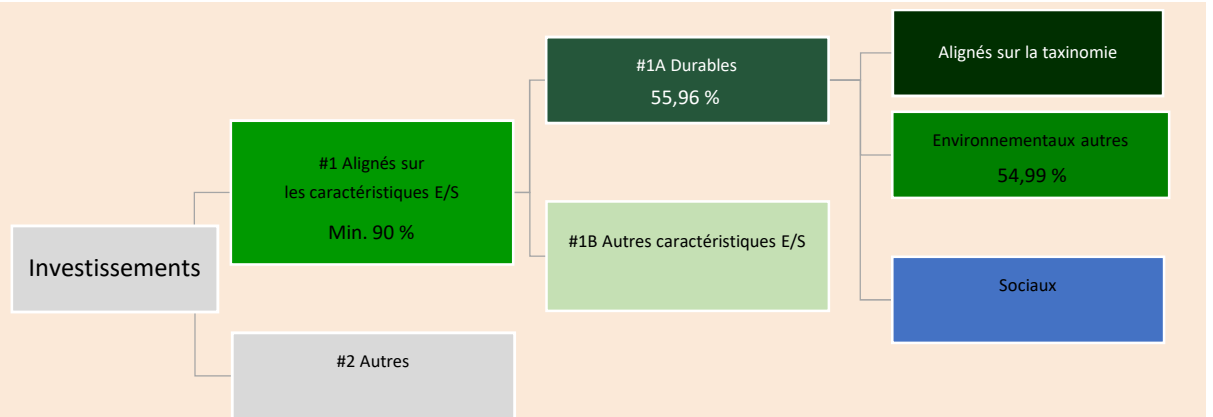

Investissements les plus importants	Secteur	% d'actifs	Pays
RY FRN 01/24 EMTN	BANQUES	3,21 %	CAN
C FRN 03/23 EMTN	BANQUES	3,14 %	États-Unis

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	66,76 %
CONSOMMATION DISCRÉTIONNAIRE	10,81 %
BIENS DE CONSOMMATION DE BASE	6,98 %
REIT	4,79 %

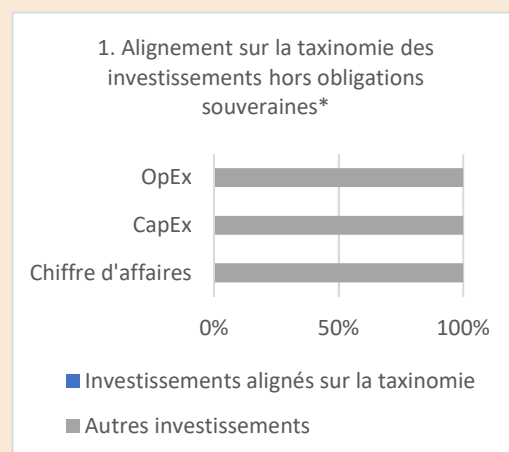

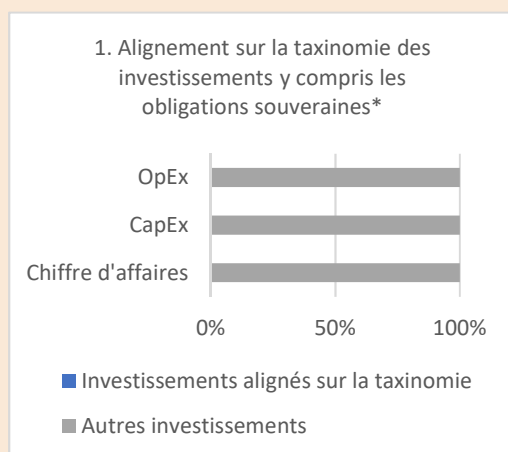

BIENS D'ÉQUIPEMENT	2,96 %
TECHNOLOGIE	2,51 %
TRANSPORTS	2,21 %
ÉLECTRICITÉ	1,03 %
ASSURANCE	0,91 %
Autres	0,00 %
Liquidités	1,06 %

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **54,99 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence différerait-il d'un indice de marché large ?*

iBoxx MSCI ESG EUR FRN Investment Grade Corporates TCA Index est un indice obligataire représentatif d'obligations à taux flottant (FRN) de type « investment grade » libellées en euro, émises par des entreprises de pays développés qui suivent les règles de l'iBoxx EUR FRN Investment Grade Corporates TCA Index (l'« Indice parent ») et appliquent des critères ESG pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?

Par **investissement durable**, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés bénéficiaires des investissements appliquent des pratiques de bonne gouvernance.

La **taxinomie de l'UE** est un système de classification institué par le règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement n'établit pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Dénomination du produit :
AMUNDI FLOATING RATE USD CORPORATE ESG

Identifiant d'entité juridique :
549300W6M26WPJCWRV83

Caractéristiques environnementales et/ou sociales

Oui

Non

Il a réalisé des investissements durables ayant un objectif environnemental : ____%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : ____%

Il promeut des caractéristiques environnementales et/ou sociales (E/S) et bien qu'il n'ait pas eu d'objectif d'investissement durable, il présentait une proportion de **31,99 %** d'investissements durables

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la taxinomie de l'UE

ayant un objectif social

Il promeut des caractéristiques E/S, mais **ne réalisera pas** d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été atteintes ?

L'objectif d'investissement du Produit est de répliquer un Indice, basé sur un Indice parent. À chaque date de rééquilibrage de l'Indice, au moins 20 % des éléments constitutifs de l'Indice parent ont été supprimés sur la base de critères de durabilité, dont une notation « ESG » (environnementale, sociale et de gouvernance).

Les indicateurs de durabilité permettent de mesurer la manière dont les caractéristiques environnementales ou sociales promues par le produit sont réalisées.

● **Quelle a été la performance des indicateurs de durabilité ?**

Date	Indice	Score ESG moyen pondéré	Couverture
30/09/2022	iBoxx MSCI ESG USD FRN Investment Grade Corporates TCA EUR Hedged TRI	7,4	100 %
30/09/2022	iBoxx USD FRN Broad Investment Grade Corporates TCA	7,0	98 %

● **... et par rapport aux périodes précédentes ?**

Les indicateurs de durabilité ci-dessus n’ont pas été comparés à d’autres indicateurs précédents durant les périodes précédentes dans la mesure où la réglementation n’était pas encore en vigueur

● **Quels étaient les objectifs des investissements durables que le produit financier entend partiellement réaliser, et comment l’investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables étaient d’investir dans des entreprises cherchant à respecter deux critères :

- 1. Suivre les meilleures pratiques environnementales et sociales ; et
- 2. Éviter de fabriquer des produits ou de fournir des services causant un préjudice à l’environnement et à la société.

Au niveau de l’entreprise dans laquelle le Produit investit, cela veut dire qu’elle doit être une « entreprise la plus performante » au sein de ce secteur d’activité par rapport à l’un de ses facteurs environnementaux ou sociaux importants au moins. La définition d’entreprise « la plus performante » s’appuie sur une méthodologie ESG propre à Amundi, qui vise à mesurer la performance ESG d’une entreprise.

Pour être considérée comme « la plus performante », une entreprise doit obtenir la meilleure note parmi les trois premiers (A, B ou C, sur une échelle de notation allant de A à G) de son secteur, sur au moins un facteur environnemental ou social important. Des facteurs environnementaux et sociaux importants sont identifiés au niveau du secteur. L’identification de ces facteurs est basée sur le cadre d’analyse ESG d’Amundi qui combine des données extra-financières et une analyse qualitative des thèmes sectoriels et de durabilité associés. Les facteurs identifiés comme importants apportent une contribution de plus de 10 % au score ESG global.

Amundi considère le second critère comme respecté si l’entreprise n’a pas d’exposition significative à des activités non compatibles avec ces critères (par exemple le tabac, les armes, les jeux de hasard, le charbon, l’aviation, la production de viande, la fabrication d’engrais et de pesticides, la production de plastique à usage unique).

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits de l'homme et à la lutte contre la corruption et les actes de corruption.

- ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe du « DNSH », ou « Do Not Significant Harm »), Amundi utilise deux filtres :

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques :

- Avoir une intensité carbone qui n'appartient pas au dernier décile des entreprises du secteur (ne concerne que les secteurs à forte intensité)
- Avoir une diversité au sein du Conseil d'administration qui n'appartient pas au dernier décile des entreprises du secteur
- Être exempt de toute controverse en matière de conditions de travail et de droits de l'homme
- Être exempt de toute controverse en matière de biodiversité et de pollution

Amundi prend déjà en compte des Principales incidences négatives spécifiques dans sa politique d'exclusions dans le cadre de sa Politique d'investissement responsable. Ces exclusions, qui s'appliquent en plus des filtrages détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre afin de vérifier que l'entreprise n'aligne pas de mauvaises performances environnementales ou sociales globales par rapport aux autres entreprises de son secteur.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Le premier filtre « DNSH » repose sur le suivi d'indicateurs obligatoires des Principales Incidences Négatives, où les données solides sont disponibles via une combinaison d'indicateurs et de seuils ou règles spécifiques comme décrit ci-dessus.

- ***Les investissements durables étaient-ils conformes aux principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme ? Description détaillée :***

Oui, les principes directeurs de l'OCDE à l'intention des entreprises multinationales et les principes directeurs des Nations Unies relatifs aux entreprises et aux droits de l'homme sont intégrés dans notre méthodologie de notation ESG. Notre outil de notation ESG propre évalue les émetteurs en utilisant les données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle comporte un critère dédié appelé « Implication communautaire et droits de l'homme » qui est appliqué à tous les secteurs en plus d'autres critères liés aux droits de l'homme, notamment les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations professionnelles. En outre, nous assurons un suivi des controverses sur une base trimestrielle au minimum, qui inclut des entreprises identifiées pour violations des droits

de l'homme. Lorsque des controverses surviennent, les analystes évaluent la situation et appliquent un score à la controverse (en utilisant notre propre méthodologie de notation) et déterminent la meilleure marche à suivre. Les scores de controverse sont mis à jour tous les trimestres pour suivre la tendance et les efforts de remédiation.

La taxinomie de l'UE établit un principe consistant à « ne pas causer de préjudice important » en vertu duquel les investissements alignés sur la taxinomie ne devraient pas causer de préjudice important aux objectifs de la taxinomie de l'UE et qui s'accompagne de critères spécifiques de l'UE.

Le principe consistant à « ne pas causer de préjudice important » s'applique uniquement aux investissements sous-jacents au produit financier qui prennent en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental. Les investissements sous-jacents à la portion restante de ce produit financier ne prennent pas en compte les critères de l'Union européenne en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable ne doit pas non plus causer de préjudice important aux objectifs environnementaux ou sociaux.

Comment ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Amundi prend en compte tous les indicateurs obligatoires des Principales incidences négatives s'appliquant à la stratégie du Produit et s'appuie sur une combinaison de politiques d'exclusions (normatives et sectorielles), l'engagement et les approches de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, par activité et par secteur, couvrant certains des principaux indicateurs de durabilité énumérés par le Règlement relatif à la publication d'informations.
- **Engagement** : L'engagement est un processus continu et ciblé visant à influencer les activités ou le comportement des entreprises. L'objectif de l'engagement peut être divisé en deux catégories : engager un émetteur à améliorer la façon dont il intègre la dimension environnementale et sociale, engager un émetteur à améliorer son impact sur les questions environnementales, sociales et de droits de l'homme ou d'autres questions de durabilité importantes pour la société et l'économie mondiale. Cette approche s'applique à l'ensemble des produits Amundi. En 2021, Amundi s'est engagé auprès de 1 364 entreprise.
- **Vote** : La politique de vote d'Amundi répond à une analyse holistique de toutes les questions à long terme pouvant influencer la création de valeur, y compris les questions ESG importantes. Pour de plus amples informations, veuillez vous référer à la Politique d'Amundi en matière de Vote. Cette approche s'applique par défaut à l'ensemble des produits Amundi. En 2021, Amundi a voté pour 4 008 entreprises.
- **Suivi des controverses** : Amundi a développé un système de suivi des controverses qui repose sur trois fournisseurs de données afin de suivre systématiquement les controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie par une évaluation approfondie de chaque controverse grave, menée par les analystes ESG et par une révision périodique de son évolution. Cette approche s'applique à l'ensemble des fonds Amundi.

Quels ont été les principaux investissements de ce produit financier ?

La liste comprend les investissements constituant la **plus grande proportion d'investissements** du produit financier au cours de la période de référence, à savoir : **Du 01/10/2021 au 30/09/2022**

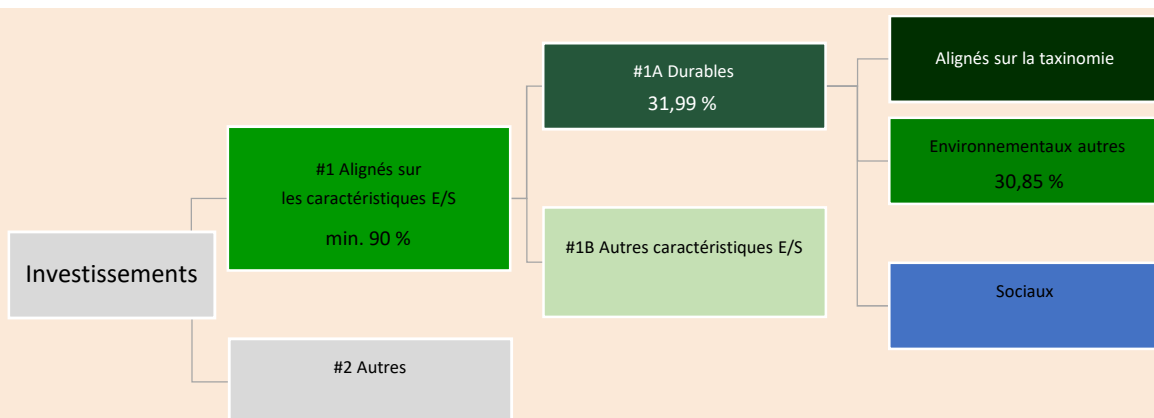

Investissements les plus importants	Secteur	% d'actifs	Pays

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation des actifs ?

L'allocation des actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **#1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **#2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme des investissements durables.

La catégorie **#1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **#1A Durables** couvrant les investissements durables sur le plan environnemental et social.
- la sous-catégorie **#1B Autres caractéristiques E/S** inclut les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques les investissements ont-ils été réalisés ?

Secteur	% d'actifs
BANQUES	69,42 %
CONSOMMATION DISCRÉTIONNAIRE	7,49 %
BIENS DE CONSOMMATION DE BASE	4,17 %
BIENS D'ÉQUIPEMENT	3,99 %

<i>COMMUNICATIONS</i>	<i>3,80 %</i>
<i>ASSURANCE</i>	<i>1,86 %</i>
<i>ÉLECTRICITÉ</i>	<i>1,44 %</i>
<i>COURTAGE</i>	<i>1,39 %</i>
<i>GAZ NATUREL</i>	<i>1,39 %</i>
<i>SOCIÉTÉS FINANCIÈRES</i>	<i>0,69 %</i>
<i>TECHNOLOGIE</i>	<i>0,67 %</i>
<i>ÉNERGIE</i>	<i>0,63 %</i>
<i>TRANSPORTS</i>	<i>0,31 %</i>
<i>INDUSTRIE DE BASE</i>	<i>0,22 %</i>
<i>Autres</i>	<i>0,00 %</i>
<i>Liquidités</i>	<i>2,52 %</i>

Les **activités alignées sur la taxinomie** sont exprimées en pourcentage :

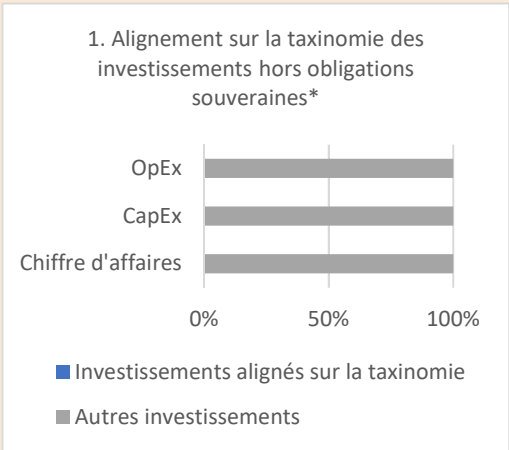

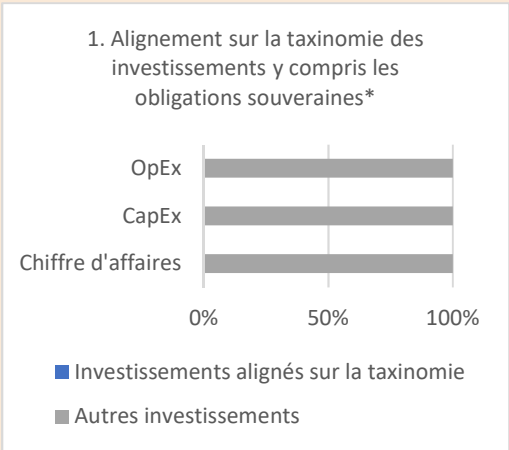

- du **chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires des investissements ;
- des **dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, pour une transition vers une économie verte par exemple ;
- des **dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la taxinomie de l'UE ?

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant la période.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements qui étaient alignés sur la taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

Données non encore disponibles

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines.

Les **activités habilitantes** permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les **activités transitoires** sont des activités pour lesquelles il n'existe pas encore de solutions de remplacement sobres en carbone et, entre autres choses, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 représente des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** applicables aux activités économiques durables sur le plan environnemental au titre de la taxinomie de l'UE.

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Aucune donnée fiable relative aux activités transitoires et habilitantes n'était disponible durant la période.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

Aucune donnée fiable relative à la taxinomie de l'UE n'était disponible durant les périodes de référence précédentes.

-  **Quelle était la part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie de l'UE ?**

La part d'investissements durables ayant un objectif environnemental non alignés sur la taxinomie est de **30,85 %**.

Cela est dû au fait que certains émetteurs sont considérés comme des investissements durables au titre du Règlement SFDR mais contiennent une part d'activités qui ne sont pas alignées sur les normes de la taxinomie de l'UE, ou pour lesquelles aucune donnée n'est encore disponible pour pouvoir réaliser une évaluation en termes de taxinomie de l'UE.

-  **Quelle était la part d'investissements durables sur le plan social ?**

Ce produit ne s'engage pas à avoir des investissements durables sur le plan social.

-  **Quels étaient les investissements inclus dans la catégorie « autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

« #2 Autres » inclut des liquidités et des instruments non cotés détenus à des fins de gestion du risque de liquidité et de portefeuille. Il n'y avait aucune garantie environnementale ou sociale minimale en place pour ces investissements.

Quelles mesures ont été prises pour respecter les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Les éléments contraignants dans la méthodologie de l'Indice permettent de s'assurer que les caractéristiques environnementales et/ou sociales sont respectées à chaque date de rééquilibrage. La Stratégie du produit repose également sur des politiques d'exclusions systématiques (normatives et sectorielles) telles que décrites plus avant dans la Politique d'investissement responsable d'Amundi.

Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Les **indices de référence** sont des indices permettant de mesurer si le produit financier atteint les caractéristiques environnementales ou sociales promues.

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative.

● *En quoi l'indice de référence diffèrait-il d'un indice de marché large ?*

iBoxx MSCI ESG USD FRN Investment Grade Corporates TCA Index est un indice obligataire représentatif d'obligations à taux flottant (FRN) de type « investment grade » libellées en dollar, émises par des entreprises de pays développés qui suivent les règles de l'iBoxx USD FRN Investment Grade Corporates TCA Index (l'« Indice parent ») et appliquent des critères ESG pour la sélection des titres.

● *Quelle a été la performance de ce produit financier au regard des indicateurs de durabilité visant à déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Partant, les indicateurs de durabilité du Produit ont, dans l'ensemble, performé conformément à ceux de l'Indice.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit fait l'objet d'une gestion passive. Sa stratégie d'investissement consiste à répliquer l'Indice tout en minimisant l'erreur de réplication y relative. Une comparaison de l'Indice répliqué par le Compartiment par rapport à son Indice parent a déjà été détaillée à la section Quelle a été la performance des indicateurs de durabilité ?
